## 2017 SENATE BILL 687

January 4, 2018 - Introduced by Senators OLSEN, COWLES, MARKLEIN and BEWLEY, cosponsored by Representatives HORLACHER, R. BROOKS, JACQUE, JAGLER, KATSMA, KREMER, MURPHY, WICHGERS, SPIROS and ALLEN. Referred to Committee on Natural Resources and Energy.

1     **AN ACT** *to repeal* 440.975 (3) (c); *to repeal and recreate* 709.03 and 709.033;  
2             and *to create* 440.97 (2m) and 440.975 (3) (cm) of the statutes; **relating to:** real  
3             estate disclosure reports, the written reports of home inspectors, and providing  
4             an exemption from emergency rule procedures.

---

### *Analysis by the Legislative Reference Bureau*

This bill updates the real estate disclosure report forms and changes the requirements for a report submitted to a client by a registered home inspector.

Under current law, with certain exceptions, an owner selling residential real property or vacant land must give a prospective buyer a form, known as a real estate condition report for residential real property and known as the vacant land disclosure report for vacant land, on which the owner discloses certain conditions of, and other information about, the real property of which the owner is aware. This bill makes various technical changes to these forms, including grouping questions into substantive categories, providing examples of different types of defects, and providing additional instructions and explanatory material. The updated forms include the disclosures required under current law. In addition to making technical changes, the bill requires additional disclosures regarding the owner's awareness of certain conditions related to the property, including 1) defects related to smoke detectors or carbon monoxide detectors or violations of state or local smoke detector or carbon monoxide detector laws; 2) unsafe levels of mold or other moisture intrusions or conditions; 3) defects in, as opposed to just the presence of, underground or aboveground fuel storage tanks; and 4) burial sites on the property.

**SENATE BILL 687**

The bill also adjusts the contents that a report submitted by a registered home inspector to a client is required to contain. Under the bill, a report by a home inspector must describe each defect detected during a home inspection. The bill defines a “defect” as a condition of any component of an improvement that would significantly impair the health or safety of future occupants or that, if not repaired, removed, or replaced, would significantly shorten or adversely affect the expected normal life of the component of the improvement. The bill also provides that a home inspector may use the term “defect” in a written home inspection report only if the use is consistent with the bill’s definition of “defect.”

*The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:*

1           **SECTION 1.** 440.97 (2m) of the statutes is created to read:

Orders designating lands as managed forest lands remain in effect for 25 or 50 years. When ownership of land enrolled in the managed forest land program changes, the new owner must sign and file a report of the change of ownership on a form provided by the Wisconsin Department of Natural Resources (DNR) and pay a fee. By filing this form, the new owner agrees to comply with the management plan for the land and the managed forest land program rules. The DNR Division of Forestry monitors forest management plan compliance. Changes that a landowner makes to property that is subject to an order designating it as managed forest land, or to its use, may jeopardize benefits under the program or cause the property to be withdrawn from the program and may result in the assessment of penalties.
