Analysis by the Legislative Reference Bureau

This bill provides that a person applying for a certificate of title for a motor vehicle of a model year 2011 or later that is less than 20 years old must include a disclosure of the vehicle's mileage as shown by the vehicle's odometer.

Under current law, the owner of a vehicle subject to registration must apply to the Department of Transportation for a certificate of title for the vehicle when the person first acquires or registers the vehicle. If the vehicle model year is less than 10 years old, the application for a certificate of title must include a disclosure of the vehicle's mileage.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
