***Analysis by the Legislative Reference Bureau***

This bill provides that, for each new rule that the Department of Natural Resources promulgates relating to hunting, fishing, or trapping, DNR must repeal three existing rules relating to hunting, fishing, or trapping.

Current law requires DNR to promulgate rules to establish and maintain open and closed seasons for fish and game and to establish any bag limits, size limits, rest days, and other conditions governing the taking of fish and game that will conserve the fish and game supply and ensure continued opportunities for fishing, hunting, and trapping.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
