AN ACT to renumber and amend 50.035 (1); and to create 50.035 (1) (c) and 103.155 of the statutes; relating to: mandatory training regarding human trafficking for employees of community-based residential facilities and owners of certain entities and certain other employees and granting rule-making authority.

Analysis by the Legislative Reference Bureau

This bill requires any employee of a community-based residential facility who has regular, direct contact with facility residents to receive training on identifying and preventing human trafficking crimes within 60 days after starting employment and at least every two years thereafter.

The bill also requires employers to provide, within 60 days of an employee's hire and at least every two years thereafter, training on identifying and preventing human trafficking crimes to employees who are likely to interact with the public and vulnerable individuals. Under the bill, the training must be provided, at a minimum, to private security officers, hotel and motel owners and managers, public transit managers, and adult entertainment establishment owners and managers. Also under the bill, except with respect to individuals who are required by law to report suspected human trafficking, a failure to report a case of human trafficking does not automatically subject an owner or employee to liability to the human trafficking victim or to any other party.

ASSEMBLY BILL 973
