29.135 Wholesale fish dealer license. (1) DEFINITIONS. As used in this section unless the content otherwise requires:

(a) "Canned fish" means fish and seafood products prepared for human consumption commercially, sterilized by heat and preserved in hermetically sealed containers.

(b) "Fish" means any processed or unprocessed fish of those species which are found in the waters of this state as defined in s. 144.01 (19), including parts of fish or fish products. "Fish" does not include minnows produced and sold or purchased as bait.

(c) A "producer of fish" means any person who fishes with or without a crew. No producer who holds a commercial fishing license or contract pursuant to this chapter shall be required to obtain a license to sell the fish he produces.

(d) "Seafood" means those types of food sold fresh or frozen and commonly known as oysters, shrimp, lobsters, lobster tails, crabs, scallops, clams and other types of shell fish which are or can be lawfully taken for commercial purposes, but not any canned fish or such fish known as lutefisk.

(e) "Wholesale fish dealer" means any person who buys, barter, sells or solicits fish in any manner for himself or any other person for sale to anyone other than a consumer; but no established retail store or locker plant is deemed a "wholesale fish dealer" solely as the result of the sale of fish to a restaurant, hotel or tavern at no reduction in the retail price charged other retail customers. A producer, except as otherwise hereinafter provided, who sells fish directly to retailers is a wholesale fish dealer. Hotels, meat markets, grocery stores, restaurants and taverns are retailers, except when they sell fish for resale, in which case they are wholesale fish dealers.

(2) LICENSE REQUIRED. No person shall engage in business as a wholesale fish dealer until a license therefor has been obtained from the department issued pursuant to this section and s. 29.09.

(3) ISSUANCE. The department shall issue a wholesale fish dealer license to any person 18 years of age or older who applies for this license, if that person is not otherwise prohibited from being issued a license under s. 29.99 or 29.995.

(4) ROCK AND LAKE STURGEON. A wholesale fish dealer license does not authorize a person to sell, buy, barter, trade, possess, control or transport rock or lake sturgeon.

(5) TAGGING AND LABELING REQUIREMENTS. (a) *Tag, label or receipt required.* No wholesale fish dealer may sell, buy, barter, trade, possess, control or transport any fish unless the fish are tagged and labeled in accordance with the law of the state or country where they were taken or, if no label or tag is required under the law of that state or country, unless the fish are accompanied by a receipt from the person from whom the fish were purchased or obtained.

(b) *Special tagging requirements for lake trout.* Effective July 1, 1986, no wholesale fish dealer or producer of fish may sell, buy, barter, trade, possess, control or transport any lake trout unless the lake trout is tagged with a valid, current commercial fish tag issued or authorized by the department or by a governmental agency of another state or country. If a licensed wholesale fish dealer gives the department at least 12 hours notice of the date, time and location of arrival at the state line of lawfully possessed, untagged lake trout which are intended for importation into this state by the licensed wholesale fish dealer, the department or its representatives shall meet the shipment of lake trout and attach a "foreign lake trout tag" to each fish or seal the shipment with a department seal which may not be removed prior to delivery to the licensed wholesale fish dealer. The department or its representative shall tag the lake trout in a timely and orderly

manner, and so as not to create any damage or spoilage to the fish. The tag shall be attached through the gills and mouth of whole lake trout, or in a manner which results in 2 complete fillets joined by the tag. For tagging of other forms of lake trout, the department shall promulgate rules to determine the manner in which the tag shall be attached to or accompany the trout, and the conditions, if any, under which the tag may be separated from the trout.

(c) *Failure to tag or label.* Fish which are not tagged, labeled or accompanied by a receipt showing the fish were taken in another state or country as required under par. (a) or (b) are presumed to have been taken from the waters of this state.

(d) *Package labeling requirements.* No wholesale fish dealer or producer of fish may transport or cause to be transported, or deliver or receive for transportation, any package or box containing any fish unless it is labeled legibly in a manner which discloses the name, address and license number of the consignor which shall be identical to that on the license; the name and address of the consignee; and each kind of fish contained in the package or box. If such shipment of fish is accompanied by an invoice containing the complete name, address and license number of the consignor, which shall be identical to that on the license; the complete name, address and license number, if any, of the consignee; the date of shipment from the consignor; the kinds of fish, the pounds of each kind and the description of the fish being shipped; and the signature of the person completing the invoice, the kinds of fish contained may be omitted from the package or box labels. Producers shall only be required to label or provide invoices for packages or boxes of fish being transported by motor vehicle for purposes of sale. This paragraph does not apply to a producer of fish on the Mississippi river.

(6) RECORDS AND REPORTS. (a) *Records.* Each wholesale fish dealer shall keep a complete, legible and accurate record of all fish purchased or obtained in his or her capacity as a wholesale fish dealer, in the manner required and on forms provided by the department. The record shall include the complete name, address and fish dealer license number of the purchaser; the complete name, address and wholesale fish dealer or commercial fishing license number of the person from whom the fish were purchased or obtained; the date of the transaction; the kinds of fish, the pounds of each kind and the description of the fish purchased or obtained; and the signature of the person completing the record.

(b) *Reports.* On or before the 10th day of each month, each wholesale fish dealer shall submit the records for the preceding month to the department. If the records are mailed to the department, the date of the postmark constitutes the date of submission.

(7) INSPECTION. (a) *Subjects of inspection.* Fish stored or in the possession of a wholesale fish dealer, records and reports of a wholesale fish dealer and buildings, structures, vessels, equipment and materials related to a wholesale fish dealer's business are subject to inspection by the department as provided in this subsection.

(b) *Inspection authority; entry; inspection.* For the purpose of enforcing this subsection, a conservation warden or a representative of the department, upon presentation of his or her credentials to a wholesale fish dealer, a person operating a vehicle for a wholesale fish dealer or an employe or person acting on behalf of a wholesale fish dealer, is authorized during any time when business is being conducted on the premises:

1. To enter any building or structure, except a dwelling place, where fish are stored, processed, packed or held, where a wholesale fish dealer's records or reports are kept, where

vehicles, equipment or materials used in a wholesale fish dealer's business are located or where activities related to a wholesale fish dealer's business are conducted and to enter any vehicle used to transport or hold fish.

2. To inspect fish stored or in the possession of a wholesale fish dealer, records or reports of a wholesale fish dealer and buildings, structures, vessels, vehicles, equipment and materials related to a wholesale fish dealer's business.

(c) *Failure to permit inspection.* No wholesale fish dealer, operator of a vehicle for a wholesale fish dealer or employe or person acting on behalf of a wholesale fish dealer may prohibit entry or prohibit an inspection to be conducted as authorized under this subsection unless a court restrains or enjoins the entry or inspection.

This subsection does not apply to agents or employes of taxidermists while working under the direct supervision of a taxidermist permit holder.

(3) **PERMITS; PREREQUISITES.** The department shall not issue a taxidermist permit to any person unless that person has a seller's permit issued by the department of revenue and the number of the seller's permit is reported on the application form.

(4) **AUTHORIZATION.** Subject to this section and rules promulgated under this section, a taxidermist permit authorizes the permit holder to possess and transport wild animals or carcasses in connection with his or her business. This authority supersedes restrictions on the possession and transportation of wild animals and carcasses regardless of bag limits, rest days, closed seasons and similar restrictions, notwithstanding s. 29.174 and rules promulgated by the department under that section. Subject to this section and rules promulgated under this section, a taxidermist permit entitles the permit holder to the same privileges as a Class A fur dealer's license.

(5) **PROHIBITION ON COMMINGLING CARCASSES; CARCASS IDENTIFICATION.** (a) *Commingling.* No person may commingle, store, possess or transport carcasses of wild animals received in connection with his or her business with carcasses of wild animals received for any other purpose. This paragraph does not require separate refrigeration units for carcasses of wild animals received in connection with a person's business, if properly identified and recorded under par. (b), and carcasses of wild animals received for any other purpose.

(b) *Carcass identification; owner information.* A person who receives the carcass of any wild animal in connection with his or her business as a taxidermist shall attach an identification tag to the carcass and record information concerning the owner of the carcass. The identification tag shall remain with the carcass while it is in the possession or under the control of the taxidermist. Each identification tag shall have an identification number which corresponds with the information record of the owner of the carcass. The information record of the owner shall include the owner's name, address and signature, a description of the carcass and the date the carcass is received by the taxidermist. This paragraph does not apply to salvage or spare parts of any carcass owned by a taxidermist that are used for repair or replacement purposes.

(6) **RECORDS.** A taxidermist shall maintain records on sales forms, in triplicate, as required by the department. These records shall include information records of the owner as required under sub. (5) (b), records of all other wild animal carcasses received in his or her place of business and records of deliveries and shipments of wild animal carcasses. Records related to the effective period of a taxidermist permit shall be maintained for 2 years following the end of that effective period. This subsection does not apply to salvage or spare parts of any carcass owned by a taxidermist that are used for repair or replacement purposes.

(7) **INSPECTIONS.** (a) *Departmental authority; limitations.* A conservation warden may enter a taxidermist's place of business for inspection purposes as provided under par. (b) only:

1. Between the hours of 8 a.m. and 8 p.m.
2. On weekdays, excluding legal holidays.
3. Upon presentation of his or her credentials to the taxidermist or an employe or agent of the taxidermist.

(b) *Items subject to inspection.* All records required under subs. (5) (b) and (6) or related to the taxidermist's business are subject to departmental inspection as provided under par. (a). A taxidermist or an employe or agent of the taxidermist shall cooperate with and exhibit items subject to inspection to a conservation warden or any other agent of the department.

(c) *Report.* If requested, the department shall issue a report concerning any inspection conducted under this subsection.

(8) **PENALTIES.** Any person who violates this section or any rules promulgated under this section is subject to the following penalties:

(a) For a first conviction for any violation, a forfeiture of not more than \$25.

(b) For a 2nd or subsequent conviction for any violation within 3 years of any previous violation, a forfeiture of not less than \$25 nor more than \$500.

(5m) Each licensee shall keep a correct and complete book record in the English language of all transactions in the production, buying and selling of bait carried on by him, except that retail sales to consumers need not be recorded. This record shall show the name and post-office address from whom bait was purchased and to whom sold, together with the date of each transaction and the value of such bait. This record shall be open to the inspection of the department and its wardens at all reasonable hours. The record shall be kept intact for a period of 2 years after the expiration of any license issued under this section, as to all transactions carried on while such license was effective.

(b) No net of any kind shall be set so as to shut off more than one-half of any channel or passageway of any stream, or set within 1,000 feet of any other net in said stream.

(c) No licensee shall join his net to that of any other licensee.

(d) All nets or set hooks when set or placed in any waters shall be marked with a number corresponding to the license number authorizing the use of the nets or set hooks. The method of marking the nets shall be as follows: On drop nets, submarine trap nets and fyke nets, when set below the surface of the water, there shall be a buoy attached to the pot rope, on all gill nets and set hooks there shall be a buoy on each end of the gang, the buoys shall have a staff extending at least 3 feet above the surface of the water, upon the upper end of the staff there shall be a flag at least 10 inches square. 29.33 Commercial fishing in outlying waters. (1) LICENSE AUTHORIZED. Any person desiring to conduct commercial fishing operations on any of the outlying waters shall first obtain a commercial fishing license. The department may limit the number of licenses issued under this section and designate the areas in the outlying waters under the jurisdiction of this state where commercial fishing operations shall be restricted. The department may establish harvest limits and allocate the harvest limits among commercial fishing licensees. The department may designate the kind, size and amount of gear to be used in the harvest. The limitations on licenses, restricted fishing areas, harvests and gear shall be based on the available harvestable population of fish and in the wise use and conservation of the fish so as to prevent overexploitation. The department may promulgate rules defining the qualifications of licensees in the reasonable exercise of this authority, giving due consideration to residency, past record including compliance with the reporting

requirements of sub. (5), fishing and navigation ability and quantity and quality of equipment possessed. Rules relating to licensing commercial fishers shall be based on criteria provided by the commercial fishing boards under sub. (7). The application for the license shall be made to the department on a blank provided for that purpose, accompanied by the fee specified in s. 29.092 (7). The application shall state the name, birthdate, description and residence of the applicant, the manner in which he or she proposes to fish, the name or number and overall length of his or her boats, the name of the hailing port from which the boats will operate, and the number and kind of nets or other gear he or she intends to use in connection with commercial fishing and any other information required by the department for statistical purposes. The applicant shall provide an itemized listing of commercial fishing gear and equipment with the current values of those items of commercial fishing equipment, sufficient to meet the investment requirements for licensing as established in rules promulgated under this section. "Overall length" means the minimum distance between the extreme outside end of the bow and the stern using the nearest whole number of feet. The license shall be issued in accordance with s. 29.09. No outlying waters commercial fishing license may be issued to a person under the age of 18 years.

(2) RESIDENCY; TRANSFERS; CATCH FEES. (c) Nonresident defined. For the purpose of this section, the term "nonresident" shall include any individual who is not a resident under s. 29.01 (12), any individual applying for a license for use of nets on a boat registered or of record at a port outside of the state, or any partnership, association or corporation any of whose stock, boats, nets and fishing equipment has been owned by a nonresident at any time during the 2 years immediately prior to the application for a license.

(d) Transfer of license. The department may, upon application, permit the transfer of a license to any similar boat during the time a licensed boat is disabled or undergoing repairs or upon the sale of a licensed boat. The department shall promulgate rules governing the transfer of commercial fishing licenses between individuals equally qualified to hold the licenses and to members of a licensee's immediate family provided the rules assure the wise use and conservation of the fish resources being harvested under the license. The rules shall relate only to those waters in which the number of licenses is limited. The commercial fishing boards, under sub. (7), shall approve or deny transfers of commercial fishing licenses in accordance with the rules promulgated under this section.

(f) Licensed boats. Any licensed boat used by a resident licensee shall be from a port of record in this state, its hailing port shall be a port in this state, and it shall be a registered or documented boat of this state. Any licensed boat used by a nonresident licensee shall be a registered or documented boat of the state of residency.

(fm) Attending boats. Each licensed boat in excess of 25 feet in overall length may be accompanied by and work with one attending boat without an additional license fee for the attending boat. Any attending boat that is a motorboat under s. 30.50 (2) shall be a registered boat. An attending boat shall bear the name, if any, of the licensed boat and may be used only for attending the licensed boat.

(g) Reciprocity. 1. Except as provided under subd. 2, the department may not issue commercial fishing licenses to nonresidents of a particular state in a number which exceeds the number of commercial fishing licenses that that particular state issues to residents of this state.

2. The reciprocity limitation on the issuance of commercial fishing licenses to nonresidents under subd. 1 does not apply

to a nonresident who held a commercial fishing license on or before July 1, 1982, or to a nonresident to whom such a commercial fishing license is or was transferred by a member of his or her immediate family if that license was renewed for at least 5 consecutive years by the nonresident or a member of his or her immediate family and subject to compliance with criteria and approvals required under this section.

(h) *Catch fee.* The department may require a catch fee which shall be equivalent to the department's direct costs of providing fish for harvest, for species of fish designated by department order, as further consideration for obtaining the license. The fees shall be charged only for those species of fish whose populations are sustained or supplemented through stocking and only for those fish caught by the licensee. All the fees shall be used exclusively to pay for the stocking, including purchase or propagation, of the fish.

(3) **MEANING OF BOAT.** In this section the term "boat" includes all types of watercraft.

(4) **CREW LICENSES.** (a) Any commercial fishing licensee may use licensed crew members when fishing with or without a boat. The number of crew members engaged under a single license may not exceed 4 when fishing with nets under the ice. The department, upon proper application for crew licenses, may issue with each commercial fishing license no more than 4 crew licenses for the specific purpose of fishing with nets under the ice and the number indicated on the application for the purpose of fishing in open water. Each crew license shall bear the number of the commercial fishing license, the purpose for which intended, the year for which issued and the name of the crew member to whom the crew license is issued. The crew license permits a person to engage in commercial fishing only as a member of a crew of a commercial fisher licensed under sub. (1).

(b) Each member of a crew engaged in the setting, lifting or pulling of nets or other devices set under authority of a commercial fishing license shall carry the crew license on his or her person while so engaged and upon demand of any conservation warden shall exhibit the license. Persons using minnow seines and dip nets used for taking smelt and minnows are exempt from this subsection.

(c) In case of illness or unavailability for good cause of a licensed crew member, an unlicensed person may work on a commercial fishing operation for a period not to exceed 48 hours under a temporary crew identification card, after which time he or she must obtain a crew license to engage in commercial fishing operations. Temporary crew identification cards shall be issued by the department to commercial fishing licensees for use as provided in this paragraph. Prior to use, the commercial licensee shall indicate on the temporary crew identification card the license number and name of the commercial fisher for whom the crew member will be working, the time and date the crew member commences work under the card and the crew member's name, address, description and his or her signature. The card shall be presented, upon request, to a conservation warden and must be in the possession of the crew member at all times while engaged in commercial fishing operations. The commercial fisher issuing the temporary crew identification card to an unlicensed person shall submit the card to the department with the commercial catch report submitted for the period in which work conducted under the card was performed.

(d) The commercial fishing licensee is responsible for all acts of crew members conducting commercial fishing activities for the licensee. A commercial fishing licensee may be charged with and convicted of a violation committed by his or her crew member while the crew member is conducting commercial fishing activities for the licensee. Upon revoca-

tion of a commercial fishing license, all crew member licenses issued under that license are invalid, and no person may be issued a temporary crew identification card under that license.

(5) **RECORDS AND REPORTS.** (a) *Records and reports.* Each commercial fishing licensee shall maintain records and provide reports as required by the department by rule.

(b) *Fishing records.* The licensee shall keep a complete, legible and accurate record of the licensee's daily fishing activities, in the manner required and on forms provided by the department. The record shall include the complete name, address and commercial fishing license number of the licensee; the name and number of the boat fished from; the location fished; the month and year the record is being kept for; the date of each day's fishing activity; the kind and amount of commercial fishing gear used; the kind of fish caught and the number of pounds of each kind of fish caught; and the signature of the licensee.

(c) *Catch disposition records.* The licensee shall keep a complete, legible and accurate record of the disposition of landed catch, in the manner required and on forms provided by the department. The record shall include the complete name, address and commercial fishing license number of the licensee; for each wholesale sale, the complete name, address and wholesale fish dealer license number, if any, of the buyer and the kinds of fish sold, the number of pounds of each kind and the description of the fish sold and the date of the transaction; for direct retail sales, the kinds of fish sold and the total pounds of each kind; and the signature of the licensee. In this paragraph, "landed catch" means those fish or fish parts caught in commercial fishing operations and brought to shore to sell or otherwise utilize.

(d) *Reports.* On or before the 10th day of each month, each commercial fishing licensee shall submit the reports required under this subsection for the preceding month to the department. If the reports are mailed to the department, the date of the postmark constitutes the date of filing.

(6) **INSPECTION.** For purposes of enforcement of this section, conservation wardens or department employes duly authorized and designated by the secretary, upon presenting appropriate credentials to the licensee or agent in charge, are authorized:

(a) To enter any building or structure, excluding a dwelling place, in which nets or fish are stored, processed, packed or held, or to enter any vessel or vehicle being used to transport nets or fish when the owner or agent in charge is present or upon 8 hours' notice at other times.

(b) To inspect buildings, structures, vessels or vehicles, all pertinent equipment including nets used or stored in the places to be inspected and any fish stored, processed, packed or held in the places to be inspected.

(6m) **INTERFERENCE WITH INSPECTIONS.** No licensee, licensed crew member, operator of a vehicle or boat for the licensee or an employe acting on behalf of the licensee may prohibit entry or prohibit an inspection to be conducted as authorized under sub. (6) unless a court restrains or enjoins the entry or inspection.

(7) **COMMERCIAL FISHING BOARDS.** The Lake Superior and Lake Michigan commercial fishing boards established under s. 15.345 (2) and (3) shall review and consider applications for a transfer of license under this section and shall approve or deny applications on the basis of rules promulgated by the department. The boards shall establish criteria for the allotment of individual licensee catch quotas and shall allot the catch quotas when the department establishes species harvests limits for allocation among licensees. The boards shall assist the department in establishing criteria for identify-

ing inactive licensees. The criteria established for identifying inactive licensees shall be the basis for rules governing the issuance of licenses.

History: 1983 a. 27.

29.415 Endangered and threatened species protected. (1) PURPOSE. The legislature finds that certain wild animals and wild plants are endangered or threatened and are entitled to preservation and protection as a matter of general state concern. The federal endangered species act of 1973 and the Lacey act together provide for the protection of wild animals and wild plants threatened with worldwide extinction by prohibiting the importation of endangered or threatened wild animals and wild plants and by restricting and regulating interstate and foreign commerce in wild animals and wild plants taken in violation of state, federal and foreign laws. The states, however, must also assume their responsibility for conserving these wild animals and wild plants and for restricting the taking, possession, transportation, processing or sale of endangered or threatened wild animals and wild plants within their respective jurisdictions to assure their continued survival and propagation for the aesthetic, recreational and scientific purposes of future generations. The legislature finds that by eliminating the taking, possession or marketing of endangered species in this state and by establishing a program for conservation and restoration of these endangered or threatened species, their potential for continued existence will be strengthened. The legislature further finds that the activities of both individual persons and governmental agencies are tending to destroy the few remaining whole plant-animal communities in this state. Since these communities represent the only standard against which the effects of change can be measured, their preservation is of highest importance, and the legislature urges all persons and agencies to fully consider all decisions in this light.

(2) DEFINITIONS. For purposes of this section:

(a) "Endangered species" means any species whose continued existence as a viable component of this state's wild animals or wild plants is determined by the department to be in jeopardy on the basis of scientific evidence.

(b) "Threatened species" means any species of wild animals or wild plants which appears likely, within the foreseeable future, on the basis of scientific evidence to become endangered.

(c) "Wild animal" means any mammal, fish, wild bird, amphibian, reptile, mollusk, crustacean, or arthropod, or any part, products, egg or offspring thereof, or the dead body or parts thereof.

(d) "Wild plant" means any undomesticated species of the plant kingdom occurring in a natural ecosystem.

(3) ENDANGERED AND THREATENED SPECIES LIST. (a) The department shall by rule establish an endangered and threatened species list. The list shall consist of 3 parts: wild animals and wild plants on the U.S. list of endangered and threatened foreign species; wild animals and wild plants on the U.S. list of endangered and threatened native species; and a list of endangered and threatened Wisconsin species. Wisconsin endangered species shall be compiled by issuing a proposed list of species approaching statewide extirpation. Wisconsin threatened species shall be compiled by issuing a proposed list of species which appear likely, within the foreseeable future, to become endangered. Issuance of the proposed lists shall be followed by solicitation of comments and public hearing. Wild animals and wild plants shall be deemed approaching statewide extirpation if the department determines, based upon the best scientific and commercial data available to it, after consultation with other state game directors, federal agencies and other interested persons and organizations, that the continued existence of such wild animals and wild plants in this state is in jeopardy.

(b) The department shall periodically review and, following public hearing, may revise its endangered and threatened species list. A summary report of the scientific data used to support all amendments to the state's endangered and threatened species list shall be maintained by the department.

(c) The department may upon the petition of 3 persons review any listed or unlisted wild animal or wild plant if the persons present scientific evidence to warrant such a review, after which the department may by hearing and rule amend the statewide list.

(4) PROHIBITION. Except as permitted by departmental rule or permit:

(a) No person may take, transport, possess, process or sell within this state any wild animal specified by the department's endangered and threatened species list.

(b) No person may process or sell to another person any endangered or threatened species of wild plant.

(c) No person may remove or transport any endangered or threatened species of wild plant away from its native habitat on public property or property which he or she does not own or lease, except in the course of forestry or agricultural practices or in the construction, operation or maintenance of a utility facility.

(5) ENFORCEMENT. (a) Whoever violates this section or any rules promulgated thereunder shall forfeit not more than \$1,000. Whoever intentionally violates this section or any rules promulgated thereunder shall be fined not more than \$1,000 or imprisoned not more than 9 months or both.

(b) Any officer employed and authorized by the department, or any police officer of this state or of any municipality or county within this state, shall have the authority to execute a warrant to search for and seize any goods, business records, merchandise or wild animal or wild plant taken, employed,

used or possessed in violation of this section. Any such officer or agent may, without a warrant arrest any person whom the officer or agent has probable cause to believe is violating this section in his or her presence or view. An officer or agent who has made an arrest of a person in connection with any violation under this section may search the person or business records at the time of arrest and seize any wild animals and wild plants, records, or property taken, used or employed in connection with any violation.

(c) Goods, merchandise, wild animals, wild plants or records seized under par. (b) shall be held by an officer or agent of the department pending disposition of court proceedings and thereafter be forfeited to the state for destruction or disposition as the department deems appropriate. Prior to forfeiture, the department may direct the transfer of wild animals or wild plants so seized to a qualified zoological, educational or scientific institution or qualified private propagator for safekeeping with costs assessable to the defendant.

(6) PERMITS. (a) The department shall permit, under such terms and conditions as it may prescribe by rule, the taking, exportation, transportation or possession of any wild animal or wild plant on the list of endangered and threatened species for zoological, educational or scientific purposes, for propagation of such wild animals and wild plants in captivity for preservation purposes, unless such exportation, possession, transportation or taking is prohibited by any federal law or regulation, or any other law of this state.

(b) Any endangered species of wild animal or wild plant which enters the state from another state or from a point outside the territorial limits of the United States and which is being transported to a point within or beyond the state may enter the state and be transported without restriction in accordance with the terms of any federal permit or permit issued under the laws or regulations of another state.

(c) Possession, sale or transportation within this state of any endangered species on the U.S. list of endangered and threatened foreign species shall not require a state permit under par. (a).

(7) CONSERVATION. (a) The department shall conduct research on the endangered and threatened species of this state and shall implement programs directed at conserving, protecting, restoring and propagating selected state-endangered and threatened species to the maximum extent practicable.

(b) The department may enter into agreements with federal agencies, other states, political subdivisions of this state or private persons with respect to programs designed to conserve endangered or threatened species of wild animals or wild plants. Agreements with private persons under this paragraph may include providing for the movement of an endangered or threatened species to another appropriate habitat, preferably to a habitat located on state-owned or state-leased land.

(8) EXEMPTIONS. This section shall not apply to zoological societies, municipal zoos, or officers or employees thereof.

History: 1971 c. 275; 1975 c. 365; 1977 c. 370; 1979 c. 110, 355; 1985 a. 182.

(2) **NESTS AND EGGS.** No person, except a person who is issued a valid scientific collector permit, may take, needlessly destroy or possess or have under his or her control the nest or eggs of any wild bird for which a closed season is prescribed under this chapter.

(3) **MOUNTED COLLECTIONS.** This section shall not permit seizure of nor prohibit possession or sale of lawfully obtained wild birds and animals which are mounted or in the process of being mounted for a private collection.

History: 1973 c. 214; 1983 a. 27; 1985 a. 29.

29.425 Possession and sale of live game animals and fur-bearing animals. (1) DEFINITIONS. As used in this section:

(a) "Control temporarily" means to possess an animal for a limited period of time for one of the following purposes:

1. Removal or transportation of an animal from one location to a more appropriate location.
2. Restraint or transportation of an animal for treatment or medical care.
3. Restraint or transportation of an animal for game censuses, surveys or other purposes authorized by the department.

(3) Upon the filing of such declaration, the department shall forthwith examine and investigate the same. If upon such examination it shall appear that the pond, lake or slough designated in the declaration is suitable for a fish hatchery it may direct the declarant to acquire, lease or contract for the same. Thereupon such municipality may acquire, lease or contract for the lands underlying, surrounding or bordering upon such water, and thereafter the department shall issue to the municipality a certificate under seal of the department, which shall designate such pond, lake or slough, and certify that it is lawfully entitled to use the same for the hatching, propagation and fishing of game fish therein and to erect, establish, operate and maintain a hatchery and fishery for the purpose of hatching, propagating and fishing therein game fish.

(4) The department shall make rules and regulations for stocking, maintaining and fishing in such hatcheries.

(b) The legal title to such wild rice taken or reduced to possession in violation of this chapter or of any rule of the department remains in the state; and the title to any such wild rice lawfully acquired is subject to the condition that upon the violation of this chapter or of any department rule relating to the possession, use, harvest, sale or purchase thereof by the holder of such title, the same shall revert, as a result of the violation, to the state. In either case, such wild rice may be seized forthwith wherever found by the department or its agents.

(2) **POWERS OF THE DEPARTMENT.** (a) The department may establish such rules governing the harvest, use and disposition of wild rice growing in the navigable lakes of the state as it deems reasonably necessary for the conservation and wise use thereof. The secretary may designate the opening date for harvesting wild rice in any navigable lake or stream by posting notice of such opening date on the shores of and at places of public access to such lake at least 48 hours before such opening date. Such posting is deemed sufficient notice of such opening date and no other publication thereof is required.

The license is required to be a class D wild rice dealer license if the amount of wild rice bought, sold or processed by the licensee within the year covered by the license exceeds 50,000 pounds. The license is required to be a class C wild rice dealer license if this amount exceeds 25,000 pounds but does not exceed 50,000 pounds. (1) The department may issue pheasant and quail farm licenses for shooting preserves and the releasing, shooting, possession and use of pheasants and quail on pheasant and quail farms if, in the judgment of the department, operations under these licenses will result in a net increase in the supply of pheasants and quail in the state and will otherwise be in the public interest.

(2) No license shall be granted unless the applicant owns or has under lease the area for which the license is granted. Boundaries of the area licensed shall be defined and posted as prescribed by the department.

(3) The department shall determine the minimum number of pheasants and quail to be released for shooting purposes

on the licensed premises and fix the time limits during which said birds may be hunted.

(4) (a) Until the release of said pheasants and quail shall have been certified to and accepted by the department it shall be unlawful to shoot, attempt to shoot or to otherwise take pheasants or quail on premises licensed under this section, but when said release shall have been certified and accepted by the department, and when such persons are otherwise lawfully entitled to hunt small game, the licensee and such other persons as the licensee designates may hunt on the licensed premises, have in possession, and dispose of such pheasants or quail by gift.

(b) Each licensee shall keep a correct and complete book record of licensed birds as required by the department on forms furnished by the department. Such seal shall be supplied by the department at cost.

(5) Only dead birds which have been killed by shooting shall be removed from premises licensed under this section, and it shall be unlawful to sell or attempt to sell or to buy or attempt to buy any such birds.

(6) (a) The department may promulgate such rules as shall be necessary to carry out the intents and purposes of this section, but no rule shall require that an application or report be notarized.

(8) Notwithstanding any other provision of the statutes to the contrary, no person hunting upon a licensed shooting preserve may be required to hold a hunting license for hunting those game species for which the preserve has been licensed under this section.

History: 1975 c. 322, 365, 421; 1981 c. 390 s. 252; 1983 a. 27; 1985 a. 332 s. 251 (5).

29.574 Game bird and animal farms. (1) The owner or lessee of any lands within the state suitable for the breeding and propagating of game, birds or animals as may be approved by the department shall have the right upon complying with this section, to establish, operate and maintain a game bird and animal farm for the purpose of breeding, propagating, killing and selling game birds and game animals on such lands, the acreage and size of which shall be determined by the department. All waterfowl bred, propagated or held on a game bird and animal farm licensed pursuant to this section shall be enclosed within a covered enclosure by the licensee throughout the open season for hunting waterfowl in the state when written or oral notice is given to the licensee by the department or its agents.

(2) Such owner or lessee desiring to establish, operate and maintain a game bird and animal farm in conformity with this section, shall file with the department a verified declaration, describing the lands which such applicant for a license desires

to use for the purpose of breeding and propagating such game birds or animals and setting forth also the title and leasehold of the applicant and the number of acres embraced in said tract.

(3) Upon the filing of such declaration the department shall forthwith investigate the same and may require the applicant to produce satisfactory evidence of the facts therein stated. It will be necessary for the licensee to purchase all wild game within the boundaries of the proposed farm of the species designated in the license, and to effect this purpose the department thereupon shall appoint one member, the applicant one member, and these 2 shall select a 3rd member, the 3 to act as a board to go upon the lands embraced within the proposed license and determine as near as possible the number of wild birds and animals of the desired species thereon at the time of the granting of the license. The necessary expenses of all of the members of such board shall be paid by the licensee. Within 30 days after the date of such determination as accepted by the department the licensee shall pay to the department a specified sum as may be determined by the department for those species of wild birds or wild animals on the lands that are desired for propagation purposes, the title of which rests in the state. If upon such examination it appears that the applicant is the owner or lessee of said lands, and the applicant intends in good faith to establish, operate and maintain a game bird and animal farm, the department shall issue a license to the applicant describing such lands, and certifying that the licensee is lawfully entitled to use the same for the breeding, propagating, killing and selling of such game birds and animals thereon according to this section. When such license has been granted, the licensee shall become the owner of all such game birds or animals thereon of the species licensed and of all of their offspring actually produced thereon and remaining thereon, subject however to the jurisdiction of the department over all game.

(3m) No game bird and animal farm license shall be issued after May 24, 1961, other than those already in operation for any area less than one-quarter mile from the exterior boundaries of an approved state or federal wildlife area, public hunting grounds or refuge which is managed in whole or in part for pheasants. All lands under one license shall be contiguous. This section shall not prohibit the licensing of game bird and animal farms within one-quarter mile of approved state or federal wildlife areas, public hunting grounds, or refuges provided such licensed farms are completely enclosed, including an enclosed top of woven wire with mesh not larger than 6 inches.

(3n) Within 30 days after the date of the issuance of any such license, the licensee shall erect posts or stakes at intervals of not more than 80 rods along the boundary of the land embraced in said license, wherever the same is not already enclosed, and shall post and maintain, upon said posts, stakes or other enclosure, notices proclaiming the establishment of a game bird and animal farm. Such notices shall be furnished by the department to the licensee at cost.

(5) Such license shall be prima facie evidence in all courts and proceedings of the lawful right of the licensee therein named, his or its successors or assigns, for the term of the license, to establish and operate such a game bird and animal farm upon said premises, and shall entitle the licensee therein named or his successors or assigns, to the exclusive right for and during said term to breed and propagate such game birds and animals thereon, and to the exclusive and sole ownership of any property in all such licensed game birds and animals caught or taken therefrom.

(6) (a) Such game birds and animals, except waterfowl, may be taken at any time in any manner by persons qualified under this chapter to hunt thereon. Waterfowl may only be taken pursuant to the rules promulgated by the department and in effect governing the hunting of waterfowl, except that upon written application the department may authorize the taking of hand-reared mallards at any time within the boundaries of a licensed game bird and animal farm in numbers not to exceed those liberated or propagated when it appears to the satisfaction of the department that only mallards liberated or propagated by the licensee will be taken on such farm. The applicant shall certify to the department that mallards liberated or propagated for shooting were produced and reared in captivity and are more than 2 generations removed from the wild. Hand-reared mallards shall not be released for shooting purposes unless such mallards have first been identified as the department directs. Mallards confined to wholly enclosed pens or buildings may be taken within such pens or buildings at any time and in any numbers. No such game bird or animal or mallards killed on such farm and no live game bird or animal or mallards to be consumed as food shall be removed therefrom until there has been securely fastened to each bird or animal a band or tag furnished by the department to the licensee at cost. Such band or tag shall remain attached to the bird or animal until prepared for consumption. Live birds and animals may be sold or transported. Each container carrying such live birds or animals shall have attached thereto a band or tag as set forth above. Live birds or animals acquired from the licensee to be consumed as food shall not be kept in a live condition by any person beyond 48 hours from the time such birds or animals were acquired from such licensee. Correct and complete book records of sales and purchases of live birds and animals disclosing the time and date of such sales and whether or not such live birds and animals were acquired to be consumed as food shall be kept by the licensee. Certified copies of such records shall be furnished by the licensee to the department on request, on forms furnished by the department.

(c) Whenever any such bird or animal shall be consumed for food, the tag attached to such bird or animal shall be kept in evidence until such bird or animal is consumed.

(6m) Notwithstanding any other provision of the statutes to the contrary, no person hunting upon a game bird and animal farm shall be required to hold a hunting license.

(7) Any person other than the licensee, his bona fide regular employes, or persons having permission from the licensee who shall hunt or shoot game birds or animals upon any lands described in any such license, shall be liable to the licensee in the sum of \$100, in addition to all damage which he may do to the farm or to the game birds or animals, and property thereon, but all actions for such trespass shall be brought by such licensee.

(8) Each licensee shall keep a correct and complete book record of licensed animals and birds as required by the department of natural resources on the forms furnished by the department. The licensed area and records may be inspected by the department or its wardens at any time. Copies of the records under oath shall be furnished to the department on request.

(9) Any person who violates this section shall forfeit not more than \$50.

- (b) Muskrat.
- (c) Mink, except domestic mink as defined in s. 29.579.

Acres under one license need not be contiguous.

(3) Upon the filing of such declaration the department shall investigate and may require the applicant to produce satisfactory evidence of the facts stated in the declaration. If it appears that the applicant is the owner or lessee of the lands, and that the applicant intends in good faith to establish, operate and maintain a fur animal farm, the department shall issue a license to the applicant. The license shall describe the lands and shall certify that the licensee is entitled to use the same for dealing, breeding, propagating and trapping fur animals on the land described in the license.

(4) Upon issuance of the license, the department shall appoint one person, the applicant shall appoint one person, and these 2 shall select a 3rd person to enter the lands and determine the number of fur animals thereon at the time of the granting of the license. The necessary expenses of these persons shall be paid by the licensee. Within 10 days after the date of such determination, the licensee shall pay to the department \$2.50 for each beaver, 50 cents for each muskrat, \$2.50 for each mink, \$2.50 for each otter, \$1 for each raccoon, and 50 cents for each skunk so found on such lands. Only those animals to be licensed under the fur animal farm are to be paid for. When such payment has been made the licensee shall become owner of such fur animals on said lands and of all of their offspring remaining thereon. The licensee shall have the right to manage and control said lands and the licensed fur animals thereon, to take the same at any time or in any manner which the licensee sees fit and deems to the best advantage of the licensee's business, and to sell and transport at any time said fur animals or the pelts taken from them.

(6) Within 30 days after the date of the issuance of any such license, the licensee shall erect posts or stakes at intervals of not more than 80 rods along the boundary of the land embraced in the license wherever the lands are not already enclosed, and shall post and maintain upon the posts, stakes or other enclosures notices proclaiming the establishment of a fur animal farm. Such notices shall be furnished by the department to the licensee at cost.

(7) A valid fur animal farm license is prima facie evidence in all courts and proceedings of the right of the licensee, successors or assigns to establish and operate a fur animal farm upon the premises and entitles the licensee, successors or assigns to the exclusive right to breed and propagate fur animals upon the premises and to the exclusive and sole ownership of any property in all fur animals caught or taken.

(8) Any person, other than the licensee or agents, who hunts or traps fur animals upon any lands described in any such license shall be liable to the licensee in the sum of \$100, in addition to all damage which the person does to the farm or

to the fur animals and property, but all actions for such trespass shall be brought by such licensee.

(9) Each licensee shall keep a correct and complete book record of licensed animals as required by the department on the forms furnished by the department. The licensed area and records may be inspected by the department or deputies at any time. Certified copies of such records shall be furnished to the department on request.

29.578 Deer farms; venison serving permits. (1) The owner or lessee of any lands within this state suitable for breeding and propagating of deer shall have the right upon complying with this section to establish, operate and maintain a deer farm for the purpose of breeding, propagating, killing and selling deer on such lands, the acreage and size of which shall be determined by the department. Such deer farm must be completely inclosed by a fence. Any streams whether meandered or not, flowing into or out of an inclosed deer farm, and of a swampy, marshy or boggy character and not navigable in fact at all times of the year by ordinary boats or pleasure craft, and which are not of any substantial beneficial use to the public, shall not be considered navigable so as to prevent erection and maintenance over them, of the type of fence prescribed and permitted by this section.

(2) Such owner or lessee desiring to establish, operate and maintain a deer farm in conformity with this section shall file with the department a verified declaration, describing the lands which such applicant for a license desires to use for the purpose of breeding and propagating deer and setting forth also the title or leasehold of the applicant and the number of acres embraced in said tract.

(3) Upon the filing of such declaration the department shall forthwith investigate the same and may require the applicant to produce satisfactory evidence of the facts therein stated. Upon receipt of such declaration the department shall determine as near as possible the number of deer on such lands. The necessary expenses of such investigation shall be paid by the licensee.

(4) The licensee shall pay to the department \$25 for each deer so found on such lands. When such payment has been made and the license issued, the licensee shall become the owner of all deer on said lands and of all their offspring. He shall have the right to manage and control said lands and the deer thereon, to kill and sell the same as provided by this section. If upon examination it shall appear that the applicant is the owner or lessee of said lands, and that the applicant intends in good faith to establish, operate and maintain a deer farm, the department may inform him that as soon as he has built a suitable deer fence around the area to be included within the license, it will issue the same. Said deer-tight fence shall be built in accordance with specifications prescribed by the department; provided, the department may issue a license for such deer farms heretofore established if the fence actually inclosing said farm is in fact sufficient to hold deer therein. After the complete installation of such fence and after the department has satisfied itself that it is satisfactory and complies with the law, it may issue a license to the applicant describing such lands, and certifying that the licensee is lawfully entitled to use the same for the breeding, propagating, killing and selling of deer thereon according to this section.

(5) The deer farm license shall be renewed each year if the licensee has not violated any of the provisions under which it was granted.

(6) Such license shall be prima facie evidence in all courts and proceedings of the lawful right of the licensee therein named, his or its successors or assigns, for the term of the license, to establish and operate a deer farm upon said premises, and shall entitle the licensee therein named or his successors or assigns, to the exclusive right for and during said term to breed and propagate deer thereon, and to the exclusive and sole ownership of any property in all deer caught or taken therefrom.

(7) Deer on a deer farm shall be killed only by the licensee or bona fide regular employes except that on licensed deer farms, not less than 10 acres in area, deer may be killed by persons expressly authorized by the licensee who are otherwise qualified under this chapter to hunt deer except that no person hunting upon a licensed deer farm shall be required to hold a hunting license for deer; and all such deer killed shall be distinctly tagged with a tag to be furnished by the department to the licensee at cost not exceeding 5 cents each. The licensee shall pay to the department \$1 for each deer so killed. Before any deer on a licensed deer farm shall be killed, the licensee shall notify the department or one of its representatives in advance of the taking of such deer, and the department or its representatives shall make acknowledgment of receipt of said notice and such acknowledgment when received by the licensee shall be authority for taking deer. The department or any of its duly authorized representatives may be present while the taking of such deer is in progress.

(8) After a deer is so killed and tagged the entire carcass only shall be sold and transported, except as provided in sub. (14). The tag must remain on the carcass while in transit. A deer farm tag may be removed from a gutted carcass at the time of butchering, but the person who killed or obtained the deer shall retain the tag until the meat is consumed.

(9) Such licensee may sell and transport live deer providing that the department or one of its representatives be notified in advance of the shipment of such deer, and the department or its representatives shall make acknowledgment of receipt of said notice and such acknowledgment when received by the licensee shall be his authority for shipping deer. The licensee shall pay to the department \$1 for each live deer sold, and each crate or conveyance carrying such live deer must have a special tag or tags attached thereto for each live deer transported therein, showing that it is a deer from a deer farm. The data on such tag or tags shall be entered in ink or indelible pencil and such tag or tags shall be retained by the purchaser of said live deer. Such tags shall be furnished by the department, its wardens or agents.

(10) Any person other than the licensee or his employes who shall hunt or trap deer upon any lands described in any such license shall be liable to the licensee in the sum of \$100 in addition to all damage which he may do to said farm or to the deer and property thereon, but all actions for such trespass shall be brought by such licensee.

(11) Each license shall be accepted by the licensee upon the condition that he will comply with this section and with all provisions of law and that he will honestly operate said deer farm for the purpose of propagating deer; that the title to the deer in the inclosure for which a license has been granted and for which the applicant has paid the state at the rate of \$25 per deer, shall be conditional upon the applicant and licensee honestly and fairly complying with this section and provisions of law relating to the operation of deer farms; and in the action to revoke the license of said licensee, or to establish his

unfitness to further operate said deer farm, the court, in the judgment, in the event it is determined that the applicant and licensee has violated this section and the provisions of law relating to the operation of deer farms, shall provide that the title to all of the deer within said inclosure together with all of the increase therefrom be forfeited to the state; that the said tract of land shall not be used for a deer farm for a period of 5 years and until a new license therefor, after said 5 years, has been issued by the department as provided in this section; that the department shall within 30 days of the notice of entry of judgment enter upon said tract and open the said fences in such a manner as to give the inclosed animals free egress and may drive the said animals out of the inclosure if in the opinion of the department it is for the best interests of the state; said lands for which said license has been forfeited may be used by the owner thereof for all lawful purposes except the propagating of deer during said time, and during said 5 year period said lands shall be a sanctuary and no hunting or trapping of any kind or character shall be practiced therein or thereon. The department shall in such event duly post notices thereof at intervals of 10 rods around the entire tract.

(12) On or before January 1 of each year, each such licensee shall make a report to the department, covering the period from January 1 to December 31 of the previous year, upon blanks furnished by the department, stating the number of deer killed and sold and live deer sold during said period, the names and addresses of the persons to whom the same were sold and the dates of shipment.

(13) The department or its wardens shall have the right and power to inspect such deer farms or the books of such deer farms at any and all times when they may think the need requires it.

(14) (a) No person may barter, sell or otherwise deal in the carcasses of deer taken from a deer farm unless the person obtains a deer farm sales license from the department. Each carcass of this type of deer that is sold by a person under this license is required to have a distinctive tag attached to it. The department shall issue these deer farm sales tags.

(am) Special retail deer sale permits authorizing a person to retail a venison lawfully killed and sold in the carcass to any retailer of meats may be issued by the department.

(b) Any person may serve venison obtained from a deer farm licensed under this section if the person has a venison serving permit from the department. The application for this permit shall be in the form and include the information the department requires. If the department after investigation is satisfied that the application is satisfactory it shall issue a venison serving permit conditioned as follows:

2. It shall be exhibited in a conspicuous place in the premises where such venison is retained and served.

3. It shall contain the name and address of the applicant together with the name and address of the premises where the venison will be retained and served, together with the source of the venison, the sex, approximate weight and deer farm tag numbers of the carcass. The deer farm tag may be removed from a gutted carcass at the time of butchering, but the person who killed or obtained the deer shall retain the tag until the venison is consumed.

4. The permittee agrees to record immediately upon possession all additional venison, purchased, possessed or served during the permit period in the space provided therefor on the permit.

5. The permittee agrees that the department or its wardens shall have the right to inspect the premises where such venison is retained or served.

(c) Each permittee under par. (b) shall file a verified report to the department within 30 days after the expiration of the

permit containing such information regarding the operations under the permit as the department requires on forms furnished by the department.

(15) Any person who hunts within the enclosure of a deer farm without the permission of the owner or who otherwise intentionally or negligently violates this section shall be fined not more than \$200 or imprisoned not more than 90 days, or both.

(16) The department may sell to owners of licenses hereunder for propagating purposes, fawns and deer at a price to be fixed by the department not exceeding \$25 each, and the department is directed to make all necessary orders, rules and regulations not inconsistent herewith, carrying out the provisions hereof to the end that the industry may be encouraged.
