36.01 Statement of purpose and mission. (1) The legislature finds it in the public interest to provide a system of higher education which enables students of all ages, backgrounds and levels of income to participate in the search for knowledge and individual development; which stresses undergraduate teaching as its main priority; which offers selected professional graduate and research programs with emphasis on state and national needs; which fosters diversity of educational opportunity; which promotes service to the public; which makes effective and efficient use of human and physical resources; which functions cooperatively with other educational institutions and systems; and which promotes internal coordination and the wisest possible use of resources.

(2) The mission of the system is to develop human resources, to discover and disseminate knowledge, to extend knowledge and its application beyond the boundaries of its campuses and to serve and stimulate society by developing in students heightened intellectual, cultural and humane sensitivities, scientific, professional and technological expertise and a sense of purpose. Inherent in this broad mission are methods of instruction, research, extended training and public service designed to educate people and improve the human condition. Basic to every purpose of the system is the search for truth.

36.09 Responsibilities. (1) **THE BOARD OF REGENTS.** (a) The primary responsibility for governance of the system shall be vested in the board which shall enact policies and promulgate rules for governing the system, plan for the future needs of the state for university education, ensure the diversity of quality undergraduate programs while preserving the strength of the state's graduate training and research centers and promote the widest degree of institutional autonomy within the controlling limits of system-wide policies and priorities established by the board.

(b) The board, after public hearing at each institution, shall establish for each institution a mission statement delineating specific program responsibilities and types of degrees to be granted.

(c) The board shall determine the educational programs to be offered in the system and may discontinue educational programs as it deems necessary.

(d) The board shall establish policies to guide program activities to ensure that they will be compatible with the missions of the institutions of the system. To this end, the board shall make all reasonable effort to provide night courses.

(e) The board shall appoint a president of the system; a chancellor for each institution; a dean for each center; the state geologist; the director of the laboratory of hygiene; the director of the psychiatric institute; the state cartographer with the advice of the land information board; and the requisite number of officers, other than the vice presidents, associate vice presidents and assistant vice presidents of the system; faculty; academic staff and other employees and fix the salaries, subject to the limitations under par. (j) and ss. 20.923 (4) and (5) and 230.12 (3) (e), the duties and the term of office for each. The board shall fix the salaries, subject to the limitations under par. (j) and ss. 20.923 (4) and (5) and 230.12 (3) (e), and the duties for each chancellor, vice president, associate vice president and assistant vice president of the system. No sectarian or partisan tests or any tests based upon race, religion, national origin or sex shall ever be allowed or exercised in the appointment of the employees of the system.

(f) The board shall delegate to each chancellor the necessary authority for the administration and operation of the institution within the policies and guidelines established by the board. The board may also delegate or rescind other authority to chancellors, committees of the board, administrative officers, members of the faculty and students or such other groups as it deems appropriate.

(gm) The board shall not create, except as specifically authorized by the legislature in each instance, any new college, school or its functional equivalent if such college, school or functional equivalent has academic programs at the graduate or professional, post-baccalaureate level.

1. For the purposes of this paragraph, college or school means an academic unit below the institutional level but above the departmental level, including but not limited to a graduate school, law school, medical school, social work

school, architecture school, business school and a public administration school.

2. For the purposes of this paragraph, a new college or school shall be deemed to have been created if an administrative position of dean or its functional equivalent is established and if a new instructional program, separate and distinct from the programs currently available at that institution, is established.

3. This paragraph does not apply to the redesignation or reorganization of existing colleges or schools if accomplished through the reclassification of existing positions or the restructuring of existing organizational entities.

(h) The board shall allocate funds and adopt budgets for the respective institutions giving consideration to the principles of comparable budgetary support for similar programs and equitable compensation for faculty and academic staff with comparable training, experience and responsibilities and recognizing competitive ability to recruit and retain qualified faculty and academic staff. If the board ceases or suspends operation of any institution or center, the appropriations to the board for operation of the institution or center may be utilized by the board for any other purpose authorized by the appropriations within the period for which the appropriations are made.

(hm) The board shall develop policies for the purpose of specifically identifying the general purpose revenue and nongeneral purpose revenue funding sources used for noninstructional student activities and for the purpose of governing the allocation of funds to those noninstructional student activities supported by both general purpose and nongeneral purpose revenue.

(i) Upon recommendation of the president and the administrator of the division of merit recruitment and selection in the department of employment relations, the board and the secretary of employment relations shall jointly adopt general policies governing the designation of positions to be exempt from the classified service as academic staff as defined in s. 36.15 (1) (a) and (b). No position in the classified service may be designated as an academic staff position under the general policies unless the secretary of employment relations approves the designation.

(j) Except where such matters are a subject of bargaining with a certified representative of a collective bargaining unit under s. 111.91, the board shall establish salaries for persons not in the classified staff prior to July 1 of each year for the next fiscal year, and shall designate the effective dates for payment of the new salaries. In the first year of the biennium, payments of the salaries established for the preceding year shall be continued until the biennial budget bill is enacted. If the budget is enacted after July 1, payments shall be made following enactment of the budget to satisfy the obligations incurred on the effective dates, as designated by the board, for the new salaries, subject only to the appropriation of funds by the legislature and s. 20.928 (3). This paragraph does not limit the authority of the board to establish salaries for new appointments. The board may not increase the salaries of employees specified in ss. 20.923 (5) and (6) (m) and 230.08 (2) (d) under this paragraph unless the salary increase conforms to the proposal as approved under s. 230.12 (3) (e) or the board authorizes the salary increase to correct salary inequities under par. (h), to fund job reclassifications or promotions, or to recognize competitive factors. The board may not increase the salary of any position identified in s. 20.923 (4) (j) or (4m) under this paragraph unless the salary increase conforms to the compensation plan for executive salary group positions as approved under 230.12 (3) (b) or the board authorizes the salary increase to correct a salary

inequity or to recognize competitive factors. The granting of salary increases to recognize competitive factors does not obligate inclusion of the annualized amount of the increases in the appropriations under s. 20.285 (1) for subsequent fiscal bienniums. No later than October 1 of each year, the board shall report to the joint committee on finance and the departments of administration and employment relations concerning the amounts of any salary increases granted to recognize competitive factors, and the institutions at which they are granted, for the 12-month period ending on the preceding June 30.

(k) 1. The board shall, with respect to academic staff, correct pay inequities based on gender or race.

2. The board shall do all of the following:

a. Establish and maintain job categories in which to place academic staff positions. The job categories shall be described in sufficient detail to enable the board to comply with subd. 1.

b. Establish and maintain pay ranges, each of which has a minimum and a maximum rate of pay and, using the job evaluation system developed by the secretary of employment relations, assign the job categories established under subd. 2. a to those pay ranges. This subd. 2. b does not apply to appointments under s. 36.13 (4).

c. Submit the job categories and pay ranges established under subd. 2. a and b to the secretary of employment relations for review and approval. In reviewing the job categories and pay ranges, the secretary of employment relations shall determine whether the board complied with subd. 1 in establishing the job categories and pay ranges.

d. Submit a request for any change in the job categories or the pay ranges established under subd. 2. a and b to the secretary of employment relations for review and approval. In reviewing a request for such a change, the secretary of employment relations shall determine whether the requested change requires the board to comply with subd. 1. The secretary of employment relations shall annually report to the joint committee on employment relations regarding any approved changes in the job categories or pay ranges.

(L) The board shall possess all powers necessary or convenient for the operation of the system except as limited in this chapter.

The academic staff members of each institution shall have the right to organize themselves in a manner they determine and to select their representatives to participate in institutional governance.

(5) STUDENTS. The students of each institution or campus subject to the responsibilities and powers of the board, the president, the chancellor and the faculty shall be active participants in the immediate governance of and policy development for such institutions. As such, students shall have primary responsibility for the formulation and review of policies concerning student life, services and interests. Students in consultation with the chancellor and subject to the final confirmation of the board shall have the responsibility for the disposition of those student fees which constitute substantial support for campus student activities. The students of each institution or campus shall have the right to organize themselves in a manner they determine and to select their representatives to participate in institutional governance.

Regent's duties are unchanged under (5). 63 Atty. Gen. 385.

36.11 Powers and duties of the board of regents. (1) PROTECTION OF PEOPLE; CUSTODY AND MANAGEMENT OF PROPERTY. (c) The board may promulgate rules under ch. 227 for the management of all property under its jurisdiction, for the care and preservation thereof and for the promotion and preservation of the orderly operation of the system in any or all of its authorized activities and in any or all of its institutions with forfeitures for their violation, which may be sued for and collected in the name of the board before any court having jurisdiction of such action. Forfeitures shall not exceed \$500.

(cm) The board shall promulgate rules under ch. 227 prescribing the times, places and manner in which political literature may be distributed and political campaigning may be conducted in state-owned residence halls. No such rule may authorize any activity prohibited under s. 11.36 (3) or (4).

(2) POLICE AUTHORITY. (a) The board shall have concurrent police power, with other authorized peace officers, over all property subject to its jurisdiction, and all property contiguous to such property at the university of Wisconsin-Parkside if owned by a nonprofit corporation the primary purpose of which, as determined by the board, is to benefit the system. Such concurrent police authority shall not be construed to reduce or lessen the authority of the police power of the community or communities in which a campus may be located. All campus police officers shall cooperate with and be responsive to the local police authorities as they meet and exercise their statutory responsibilities. The designated agents of the board may arrest, with or without warrant, any person on such property who they have reasonable grounds to believe has violated a state law or any rule promulgated under this chapter and deliver such person to any court having jurisdiction over the violation and execute a complaint charging such person with the violation. This subsection does not impair the duty of any other peace officers within their jurisdictions to arrest and take before the proper court persons found violating any state law on such property.

(b) The board may employ police for the institutions and chiefs to head such police, or contract for police, all of whom shall be deemed peace officers under s. 939.22 (22) under the supervision and control of the appropriate chancellor or the chancellor's designees. Such police officers shall meet the minimum standards established for other police officers by the law enforcement standards board or a comparable agency. Such police shall preserve the peace on all property described under par. (a), enforce all rules promulgated under this chapter and all other laws, and for that purpose the

chancellor or the chancellor's designee may call for aid from such other persons as is deemed necessary.

(3) ADMISSION OF APPLICANTS. (a) The board shall establish the policies for admission within the system and within these policies each institution shall establish specific requirements for admission to its courses of instruction. (b) The board shall establish policies for the appropriate transfer of credits between institutions within the system, including the designation of those courses which shall be transferable between and within institutions without loss of credit toward graduation or toward completion of a specific course of study.

(c) The board may establish policies for the appropriate transfer of credits with other educational institutions outside the system.

(cm) The board shall establish and maintain a computer-based credit transfer system that shall include, but not be limited to, the following:

2. Program-specific course requirements in the system.
3. Vocational, technical and adult education college parallel program offerings, as defined in s. 36.31 (1).
4. Other courses for which the transfer of credits is accepted under par. (b) or (c).

(d) 1. Except as provided in subd. 2, the board shall require that a \$10 fee accompany each application for admittance from persons seeking admittance to any school within the system as new freshmen or as transfer students from outside the system. The board may exempt from the fee under this subdivision, on the basis of financial need, a maximum of 5% of the applications in any school year.

(6) FINANCIAL AIDS. (a) The board may:

1. Make grants to students from funds budgeted to or controlled by the system and formulate policies and promulgate rules for the grants.
2. Make grants equivalent in value to the payment of incidental fees to disabled residents of the state who are recommended and supervised by the department of health and social services under s. 47.02.

(b) The board may not make a grant under par. (a) to a person if it receives a certification under s. 46.255 (7) that the person is delinquent in child support or maintenance payments.

(7) CONFER DEGREES. The board may confer such degrees and grant such diplomas as are usual in universities or as it deems appropriate.

The institutions are authorized to collect such fines together with moneys collected from the sale of parking permits and other fees established under par. (a) and such moneys shall be paid into the state treasury and credited to s. 20.285 (1) (h), to be used only for the purpose of developing and operating parking or other transportation facilities at the institution at which collected and for enforcing parking rules under par. (a).

(8e) PARKING FEES. The board shall direct each institution and center within the system to charge a parking fee for the parking of motor vehicles by students, faculty, academic and classified staff and visitors at campus. The board shall require the fee to be sufficient to recover the costs of the construction and maintenance necessary for the parking facilities. Nothing in this paragraph shall be deemed to require the recovery of the costs of land for parking facilities. Nothing in this paragraph shall be deemed to require that all users of the parking facilities be charged a parking fee. Center campus facilities owned by a county are not required to charge a parking fee.

(8m) TRANSPORTATION PLANNING. The board shall direct the administrative officers of each campus to work with the regional planning commissions and the local authorities of the community in which the campus is located to evaluate the transportation needs of the campus population. The board shall require each campus to develop a transportation plan for the campus to effect energy resource conservation and efficient use of transportation resources. The plan shall include pedestrian walkways, bikeways, bike routes, bicycle storage racks, car and van pools and, to the extent feasible, improved mass transit services. The transportation plans shall detail parking management strategies which provide incentives for the use of mass transit and high occupancy vehicles.

(9) CONDEMNATION. The board may acquire by condemnation proceedings under ch. 32 such parcels of land as it deems necessary for the use of any institution whenever the board is unable to agree with the owner upon the compensation therefor, or whenever the absence or legal incapacity of such owner, or other cause, prevents or unreasonably delays, such agreement.

(10) UNIVERSITY FUND. The board may expend such portion of the income of the university fund on or at the university of Wisconsin-Madison as is appropriated by the legislature for the erection of buildings and the purchase of equipment or books.

(11) SURPLUS MONEY. The board may invest any of the surplus money designated in s. 20.285 (1) (h) in such securities as are legal for trust fund investments; or invest such funds or any part thereof, in the senior or junior bonds or obligations which may be issued by such nonprofit-sharing corporation as may be contracted with by the board for the construction or equipment of dormitories, commons or field houses, which bonds or obligations shall be secured by a mortgage or pledge of the buildings or improvements erected or to be erected by such corporations and by a mortgage or pledge of its leasehold interest. Any interest on any of such bonds or securities shall when received be added to the revolving funds and may be used for the purposes set forth in this subsection.

(12) LIBRARY DEPOSITORY. (a) The board may participate in the formation and maintenance of a nonprofit-sharing corporation sponsored by participating colleges, universities and libraries for the purpose of providing and operating a central library depository at a location in a midwestern state for the storage of little used books and other library and research materials of participating institutions, and which corporation may also perform other functions for the benefit of participating institutions such as, without limitation because of enumeration, the correlating of library catalogs of the participating institutions, the coordinating and planning of the purchasing by each institution of costly or infrequently used books and research materials in order to avoid unnecessary duplication and facilitating the loaning of library books and other library and research materials between participating institutions. The board shall possess all powers necessary or convenient to accomplish the foregoing, including the authority to designate representatives or members of such corporation in accordance with its articles and bylaws.

(b) The board may make use of and pay for the use of the facilities and services of such nonprofit-sharing corporation, but the board shall retain title to all books and materials deposited with such corporation for storage or loaned to other participating institutions and the authority of the board to expend funds for the purchase of land, the construction of buildings and additions to buildings and the purchase of equipment for the purpose of providing such facilities shall be limited to funds appropriated under s. 20.285. Except as hereinbefore provided, the appropriations to the board are to be available for the purposes of this subsection to the extent that such appropriation may be applicable and without reference to whether any particular appropriation is available for expenditure at any institution.

(13) AUXILIARY RESERVES. Auxiliary enterprise reserve funds established prior to merger of this state's public institutions of higher education for the benefit or support of an institution or group of institutions shall not be utilized for any other purpose.

(15) TAX DEFERRED ANNUITIES. The board may continue all salary reduction agreements with its employees pursuant to section 403 (b) of the internal revenue code. The board may enter into new salary reduction agreements with its employees pursuant to section 403 (b) of the internal revenue code or other applicable federal law and may purchase annuities for its employees pursuant to these agreements from such annuity providers, both public and private, as the board deems appropriate.

(d) Sabbatical leave shall be approved by appropriate faculty and administrative committees.

(e) A faculty member shall receive compensation while on sabbatical leave, but such compensation, when combined with outside compensation earned while on leave, shall not exceed the full compensation normally received from the system.

(f) The faculty member taking a sabbatical leave shall agree to return to the institution from which leave was granted for at least one year after the termination of the sabbatical or return any compensation received from the system during the sabbatical.

(g) Funding for the sabbatical leave program shall be provided from the existing general operations appropriation for the system.

36.37 Downer Woods and buildings preservation. (1)

STATEMENT OF PURPOSE. The purpose of this section is to promote the permanent conservation and enhancement, by the university of Wisconsin-Milwaukee, of the area known as Downer Woods; to designate and protect, as a permanent conservancy area, at least 10 acres of the woods; and to permit limited modification, in a manner consistent with the aforesaid purposes, of that portion of the woods whose present character as park and woodland lends itself to utilization, by the university and the surrounding community, as essential recreational and aesthetic corridors.

(2) LEGISLATIVE FINDINGS. The legislature finds it in the public interest to recognize and foster the principle of environmental quality in the area known as Downer Woods by preserving it as a conservancy area and protecting it, consistent with sub. (4), from encroachment or disparate uses. The woods is the sole remaining natural area remaining on the campus of the university of Wisconsin-Milwaukee, and as such, its preservation and enhancement is consistent with the university's recognition of its need to protect and enhance its own physical environment, and to serve the pressing human need of its faculty, students and staff, as well as the greater Milwaukee community, to live and work in an urban environment which respects those portions of unspoiled nature which yet exist. The woods is a unique asset; it provides visual relief to the concentrated building pattern surrounding it, complements the urban landscape and affords aesthetically and psychologically attractive places for people to congregate and relax. In addition, the woods serves as a refuge for wildlife and vegetation, and is, therefore, an important educational, scientific and ecological resource to the university and the community. Its presence imparts priceless recreational and aesthetic values.

(3) DEFINITIONS. In this section, "Downer Woods" or "the woods" means those parcels of wood, parkland and buildings comprising more than 18.805 acres located on the campus of the university of Wisconsin-Milwaukee, and divided into 4 separate and distinct categories, which categories shall define the proper and permissible uses of the parcels, as follows:

(a) Permanent conservation area, consisting of 11.101 acres, which is to be physically defined by means of fencing or other suitable means.

(b) Permanently reserved woodland, consisting of 3.018 acres.

(c) Park and woodland areas, consisting of 4.686 acres, which may be subject to limited modification, such as landscaping, but which are to be protected from disparate uses and encroachment.

(d) The buildings and grounds of the former Downer college with any reconstruction or renovation which may be authorized by the board.

(4) DOWNER WOODS CONSERVATION. (a) That portion of Downer Woods designated a permanent conservation area is to be forever protected from encroachment or disparate uses, and its boundaries are to be defined and protected by fencing or other suitable means.

(b) That portion of Downer Woods designated as permanently reserved woodland shall be set aside exclusively for purposes of community enhancement and relaxation, and any disparate uses to or encroachments upon such land is prohibited.

(c) That portion of Downer Woods designated as park and woodland areas may be used by the university of Wisconsin-Milwaukee as recreational and aesthetic corridors, if any modifications made to such portions of the woods do not significantly alter the present character of such land, and any disparate uses to or encroachments upon such land is prohibited.

(d) The buildings of the former Downer college shall be preserved and no portion thereof may be razed without prior approval of the building commission.

Within 14 working days of receipt of the request, the secretary of administration shall notify the cochairpersons of the joint committee on finance in writing of whether the secretary proposes to approve the fees or reserve fund accumulation.

(2) Notwithstanding sub. If a center or institution desires to establish such a service, it shall develop a plan for the provision of food services for elderly persons and submit the plan to the board. Annually, the board shall notify the department of public instruction of the approved centers and institutions.

(3) Each plan shall provide at least one meal per day for each day that school is in regular session. The center or institution may provide additional service at other times in its discretion, if the number of eligible persons in the area is of sufficient size, in the opinion of the board, so that unwarranted production expense is not incurred.

(4) Any center or institution that operates a food services plan for elderly persons under this section shall make facili-

ties available for service to elderly persons at every facility that provides hot food service to its students. Upon application, the board may grant exceptions from compliance with this subsection for reasons of safety, convenience or insufficient interest in a given neighborhood.

(5) Meals may be served at schools where they are served to students or at any site more convenient to the majority of authorized elderly persons interested in the service. Food may be transported to authorized elderly persons who are unable to leave their homes or distributed to nonprofit organizations for such purposes. However, no state funds under this section may be used for food delivery to individual homes. The board may require consolidation of programs between centers and institutions and between schools if such a procedure will be convenient and economical.

(6) The center or institution may file a claim with the department of public instruction for reimbursement for reasonable expenses incurred, excluding capital equipment costs, but not to exceed 15% of the cost of the meal or 50 cents per meal, whichever is less. Any cost in excess of the lesser amount may be charged to participants. If the department of public instruction approves the claim, it shall certify

that payment is due and the state treasurer shall pay the claim from the appropriation under s. 20.255 (2) (cn).

(7) All meals served must meet the approval of the board, which shall establish minimum nutritional standards and reasonable expenditure limits consistent with the standards and limits established by the state superintendent of public instruction under s. 115.345 (6). The board shall give special consideration to the dietary problems of elderly persons in formulating a nutritional plan. However, no center or institution may be required to provide special foods for individual persons with allergies or medical disorders.

(8) Participants in a program under this section may be required to document their Wisconsin residency in a manner approved by the board. The board may issue identification cards to such persons if necessary. A center or institution may admit nonresidents who would otherwise qualify into its program, but no state funds under this section may be used to subsidize any portion of the meals served to such persons.

(9) The board shall adopt reasonable rules necessary to implement this section.
