**95.001 Definitions.** (1) As used in this chapter:

(ad) “Domestic animal” means any of the following:

1. An animal that is a member of a species that has been domesticated by humans.
2. A farm-raised deer, farm-raised game bird, or farm-raised fish.
3. An animal that is listed as a domestic animal by rule by the department.

(ag) “Farm-raised deer” means a cervid that is kept in captivity or a cervid that is present in the wild and that has an ear tag or other mark identifying it as being raised on a farm.

(ah) “Farm-raised fish” means any fish egg that is present on a fish farm or any fish that is reared on a fish farm.

(ai) “Farm-raised game bird” has the meaning given in s. 169.01 (12m).

(aj) “Fish farm” means a facility at which a person hatches fish eggs or rears fish for the purpose of introduction into the waters of the state, human or animal consumption, permitting fishing, use as bait or fertilizer or any other purpose specified by the department by rule or for sale to another person to rear for one of those purposes.

(am) “Net salvage value” means the salvage value of an animal plus any federal indemnity paid for the animal.

(b) “Official vaccinate” means any female bovine animal officially reported to the department as having been vaccinated by an approved veterinarian at an age and in accordance with the procedures the department prescribes and which was properly tattooed at the time of vaccination as required by law or rules of the department.

(c) “Paratuberculosis” means the disease of domestic ruminants, commonly known as Johne’s disease, that is caused by mycobacterium paratuberculosis.

(2) The department shall promulgate rules defining the term “contagious or infectious diseases” as used in this chapter.

**History:** 1979 c. 129 s. 11; 1981 c. 20; 1983 a. 189; 1989 a. 277; 1995 a. 79, 450; 2001 a. 56 ss. 119 to 122, 154.

**95.01 Administration of drugs to horses.** (1) No person may administer a drug to a horse, either internally or externally, for the purpose of altering the performance of the horse in a horse pulling contest.

(2) Persons in charge of a horse pulling contest may require as a condition of participation in the contest that the exhibitor submit the exhibitor’s horse for examination by a licensed veterinarian to determine the presence of drugs under sub. (1).

**History:** 1973 c. 191; 1993 a. 492.

**95.10 Feeding garbage to swine.** (1) Beginning July 1, 1968, it is unlawful for any person to feed public or commercial garbage to swine, or to deposit or receive such garbage on any premises where swine are kept, and no swine having fed on such garbage may be sold or removed from the premises.

(3) “Public or commercial garbage” as used in this section means putrescible animal or vegetable wastes containing animal parts, resulting from the handling, preparation, processing, cooking or consumption of food and which is collected from any source, and includes dead animals as defined in s. 95.72 (1) (c). The term does not apply to private household wastes not removed from the premises where produced.

(4) No indemnity shall be paid to the owner of any swine condemned or destroyed because of any infectious or communicable disease if such swine were located, at any time, on any premises receiving public or commercial garbage. No person shall fail or refuse to conform with the department order specifying the manner of disposal of such infected swine. The definition of “communicable disease” in s. 990.01 (5g) does not apply to this subsection.

(5) No person shall remove or permit the removal of any swine from any premises where public or commercial garbage is received, except to federally inspected slaughtering establish-

ments and other slaughtering establishments approved by the state to receive diseased animals, and only if such swine are accompanied by a certificate of veterinary inspection.

(6) No person shall bring into this state any raw public or commercial garbage for feeding purposes or for deposit on any premises where swine are kept. Any garbage from vehicles serving food to passengers, if deposited in this state, shall be incinerated.

**History:** 1981 c. 66, 291; 1981 c. 391 s. 210; 2001 a. 56.

**95.11 Livestock branding. (1) DEFINITIONS.** As used in this section:

(a) "Brand" means an identification mark which is burned, tattooed or otherwise permanently marked onto livestock in accordance with department rules. A brand shall consist of a symbol, letter, or combinations of symbols, letters or numbers in a specific location but does not include ear notches or similar disfigurement, a mark which is solely a numeral or a mark required by law for official identification in disease control programs.

(b) "Livestock" means cattle and horses.

(2) ADOPTION AND USE. Any person may adopt an exclusive brand by recording such brand under sub. (3).

(3) RECORDING; FEES. (a) Any person desiring to adopt any brand, not the recorded brand of another person, shall forward to the department a facsimile of the desired brand, together with a written application and a recording fee. Upon receipt the department shall record the brand, unless the brand is of record as that of some other person or conflicts with the recorded brand of any person. If the brand does not qualify for recording, or there is a conflict between applications received on the same date, the facsimile and fee shall be returned to the applicant. If the brand is accepted, the ownership thereof shall vest from the date of filing.

(b) In 1984 and every 10th year thereafter, every owner of a brand shall rerecord the brand according to department rules. At the expiration of each recording period the department shall notify every owner of a brand at the owner's address of record that the brand has not been rerecorded and that the brand must be rerecorded within 90 days. Failure to rerecord the brand is an abandonment of the brand, and it can be recorded by another applicant thereafter.

(c) Any recorded brand is subject to transfer as personal property. Instruments evidencing transfer of a brand shall be recorded by the department upon payment of a transfer fee.

(d) The fee for initial recording is \$20, and for rerecording and transfer is \$10. When any brand is recorded, the owner is entitled to one certified copy of the recorded brand. Additional certified copies may be obtained upon the payment of \$2 for each copy.

(4) SUIT BY OWNER. An owner of a recorded brand may sue for injunctive relief and damages arising from an unauthorized use of the owner's brand on livestock and a judgment in the owner's favor may include costs and reasonable attorney fees.

**History:** 1973 c. 239; 1993 a. 490, 492; 1995 a. 225.

**95.12 False pedigree.** No person with intent to defraud shall obtain from any corporation, association, society or company organized for the purpose of improving breeds of domestic animals, a false certificate of registration of any such domestic animal in the herd or other register of any such corporation, association, society or company, or the transfer of any such certificate, or shall, with intent to defraud, give a false pedigree of any such domestic animal.

**History:** 2001 a. 56.

**95.13 Misrepresenting breed of domestic animal.** No person shall sell or barter or cause to be sold or bartered any domestic animal and represent, or cause to be represented that such

domestic animal is a pure bred domestic animal, when in fact such domestic animal is not registered, or entitled to registry, in any pure breed registry maintained for such domestic animals; nor shall any person knowingly utter, pass or deliver to any person as true, any false, or altered pedigree; nor shall any person refuse to deliver proper certificate of registry for any domestic animal sold or transferred by the person, having represented at the time of sale or transfer, and as an inducement thereto, that such domestic animal was registered and that the person possessed and would deliver a certificate of registry as evidence thereof, or that such domestic animal was entitled to registry and that the person would secure such certificate and deliver the same.

**History:** 1993 a. 492; 2001 a. 56.

**95.14 Corporations to improve livestock. (1)** Three or more adult persons of this state may form a corporation, without capital stock, to be managed and directed as herein provided, for the purpose of improving the breeding of livestock by such means and methods as may be deemed most advisable, and to receive and manage contributions therefor made from time to time by way of gifts, deed, devise, bequest or otherwise, and to expend the income thereof for the purpose of the corporation. The work of any such corporation shall be entirely educational and designed by practical work with the breeder upon the farm to result in a better understanding and practical application of the scientific and technical principles taught in agricultural colleges and experiment stations, so as to effect the greatest possible coordination between the science and the art or practice of breeding, but such work shall not be merged with the work of any educational institution. Any corporation organized hereunder shall have authority to pay all necessary expenses properly incurred in carrying out the purposes of the corporation, including compensation to employees and to directors for services actually rendered in conducting the affairs of the corporation, but no pecuniary profit shall ever be paid to any incorporator or director.

(2) Any corporation organized under this section shall be managed and directed by a self-perpetuating board of directors of 5 members, consisting of the dean of the College of Agricultural and Life Sciences of the University of Wisconsin-Madison, who shall be permanent chairperson of the board, and 4 others to be appointed in the first instance by the incorporators; at least 3 of the 5 members shall always be representative livestock breeders of the state. If the dean of the College of Agricultural and Life Sciences fails to act as a member of the board by reason of refusal, disability, or vacancy in the chair of the dean, the remaining members of the board shall appoint a representative livestock breeder to act in his or her place on the board until the time as such refusal, disability, or vacancy in the chair ceases to exist. Whenever the dean of the College of Agricultural and Life Sciences becomes a member of the board of directors after any such interim, the dean shall automatically become chairperson of the board.

(3) The term of office of all members of the board, except the permanent chairperson, shall expire one each year by lot. The remaining members shall elect a member to succeed the person whose term shall have thus expired. Vacancies occurring during the year may be filled at once by the remaining members.

(4) Any such corporation shall have the general powers of other corporations and its articles of organization shall conform to s. 181.0202 with such modifications as this section requires.

**History:** 1973 c. 335 s. 12; 1979 c. 32; 1993 a. 184; 1997 a. 79; 2001 a. 103.

**95.17 Animal diseases; cooperation with United States.** Whenever it is determined by the department and the state constitutional officers that it is necessary to combat dangerous diseases in animals in this state in cooperation with the U.S. department of agriculture and to destroy animals affected with or

which have been exposed to any such disease or to destroy property in the disinfection of the premises or to do any other act or incur any other expense reasonably necessary in suppressing or combating such disease, the department may accept, on behalf of the state, the rules and regulations prepared by the U.S. department of agriculture under authority of an act of congress relating to the suppression of any such disease and cooperate with the authorities of the U.S. in the enforcement of their provisions; or it may follow such procedure as to inspection, vaccination, condemnation, appraisal, disinfection and other acts reasonably necessary in the suppression of such diseases as may be agreed upon and adopted by the department and the state constitutional officers with the representatives of the U.S. department of agriculture. Within the amount which may, subsequent to March 23, 1915, be appropriated for this purpose, the state shall pay such proportion of the expense incurred in suppressing or combating any such disease and in compensating owners of animals slaughtered under this section as shall be determined by and mutually agreed upon with the U.S. department of agriculture.

**History:** 1975 c. 308; 2001 a. 56.

**95.18 Animals in transit.** Animals in transit in the state are subject to all the provisions of law relating to contagious or infectious diseases of animals, and to the regulations and orders of the department.

**Cross-reference:** See also chs. [ATCP 10](#) and [12](#), Wis. adm. code.

**95.185 Voluntary individual animal identification. (1) DEFINITION.** In this section, “RFID tag” means a radio frequency identification tag, regardless of whether it uses low or high frequency technology.

**(2) VOLUNTARY INDIVIDUAL ANIMAL IDENTIFICATION.** The department shall create and administer a voluntary program under which a person who has obtained a livestock premises registration under s. [95.51](#) may obtain RFID tags for individual bovine animals, goats, sheep, swine, or farm-raised deer. An RFID tag must include a 15-digit individual animal identification number that is connected to the livestock premises identification code for the animal’s premises of origin. As part of the program under this section, the department shall maintain on its Internet site a link to the U.S. Department of Agriculture’s list of authorized manufacturers of animal identification number devices. The department may contract with an agent to collect and maintain individual animal identification records, which may include submitting the information to an existing state or federal database. Individual animal identification records held by the department or by an agent with whom the department has contracted are not subject to copying or inspection under s. [19.35 \(1\)](#) and, unless an exemption provided under s. [95.51 \(5\) \(b\)](#) or [\(c\)](#) applies, the department or the agent may not disclose such records. The department may promulgate rules to implement this section. The department may amend any rules promulgated under this section as necessary to adapt to future advances in animal identification technology, including to substitute RFID tags with another technology if RFID technology becomes obsolete.

**History:** 2019 a. 178.

**95.19 Diseased animals. (1) DEFINITIONS.** In this section, “knowingly” means that the actor believes that the specified fact exists.

**(2) PROHIBITIONS.** No person may do any of the following:

- (a) Import, sell, transport or exhibit an animal that is exposed to a contagious or infectious disease, except as provided in sub. [\(3\) \(a\)](#).
- (b) Import, sell, transport or exhibit an animal that is infected with a contagious or infectious disease, except as provided in sub. [\(3\) \(a\)](#).

(c) Knowingly conceal that an animal that is imported, sold, transported or exhibited has been exposed to or infected with a contagious or infectious disease.

(d) Knowingly misrepresent that an animal has not been exposed to or infected with a contagious or infectious disease.

(e) Knowingly permit an animal that has been exposed to or infected with a contagious or infectious disease to commingle with other animals under conditions that may cause the disease to spread to an animal owned by another person.

**(3) RULE MAKING.** The department may promulgate rules:

(a) Authorizing the transport under a department permit of an animal exposed to or infected with a contagious or infectious disease for slaughter or other purposes prescribed by the department.

(b) Specifying those contagious or infectious diseases to which the prohibitions of sub. [\(2\)](#), and the rules promulgated under par. [\(a\)](#), apply.

**(4) DAMAGES.** A person who violates this section is liable to any person injured for damages sustained as a result of the violation.

**History:** 1989 a. 277.

**Cross-reference:** See also chs. [ATCP 10](#) and [12](#), Wis. adm. code.

Use of the phrase “any person injured” does not show that the legislature intended to allow recovery under this section only when a violation of this section causes personal injuries, as opposed to economic losses. *Wilson v. Tuxen*, 2008 WI App 94, 312 Wis. 2d 705, 754 N.W.2d 220, 07-1964.

This section specifically gives the Department of Agriculture, Trade and Consumer Protection the authority to specify which contagious or infectious diseases can create liability under sub. [\(2\) \(a\)](#) to [\(e\)](#), which it has done. The two claims found in sub. [\(2\) \(a\)](#) and [\(b\)](#) are strict liability statutes that are restricted by rule to specified diseases. Sub. [\(2\) \(c\)](#) to [\(e\)](#) prohibit 3 different kinds of knowing conduct. By rule, liability under sub. [\(2\) \(c\)](#) to [\(e\)](#) may be based on any disease that is either contagious or infectious. *Wilson v. Tuxen*, 2008 WI App 94, 312 Wis. 2d 705, 754 N.W.2d 220, 07-1964.

**95.195 Diseases; implied warranty in sale of animals.**

**(1) DEFINITION.** In this section, “covered disease” means a disease that the department specifies under sub. [\(4\) \(a\)](#) is covered by this section.

**(2) WARRANTY.** Except as provided in sub. [\(3\)](#), in every contract for the sale of an animal of a type specified by the department under sub. [\(4\) \(b\)](#), there is an implied warranty that the animal is not infected with a covered disease unless the seller discloses to the buyer in writing, prior to sale, all of the following:

(a) The management classification of the animal’s herd with respect to the covered disease.

(b) If the animal is a reactor with respect to the covered disease, that the animal is a reactor.

**(3) EXCEPTION.** The warranty under sub. [\(2\)](#) does not apply to an animal sold directly to slaughter.

**(4) RULES.** The department shall promulgate rules that do all of the following:

(a) Specify covered diseases.

(b) Specify types of animals to which this section applies.

(c) Prescribe a system for determining management classifications of herds with respect to covered diseases.

**History:** 1989 a. 277; 1999 a. 160.

**Cross-reference:** See also chs. [ATCP 10](#) and [12](#), Wis. adm. code.

The legislature intended this section as an implied warranty in addition to the implied warranties found in ss. 402.314 and 402.315, not as a stand-alone provision. As a result, the provisions of ch. 402, including the notice of breach requirement in s. 402.607 [\(3\) \(a\)](#), apply to a claim for breach of the warranty under this section. *Wilson v. Tuxen*, 2008 WI App 94, 312 Wis. 2d 705, 754 N.W.2d 220, 07-1964.

**95.197 Financial assistance for paratuberculosis testing. (1)** The department shall provide financial assistance to owners of livestock herds for conducting testing for paratuberculosis.

(2) The department shall promulgate rules for providing financial assistance under sub. (1).

**History:** 1999 a. 9.

**Cross-reference:** See also ch. ATCP 10, Wis. adm. code.

**95.20 Import and movement of animals.** The department may prohibit or regulate the importing of animals into this state or the movement of animals within this state if the department has reasonable grounds to believe that regulation or prohibition is necessary to prevent the introduction or spread of a disease in this state that threatens the health of animals or of humans.

**History:** 1981 c. 291; 1981 c. 391 s. 210; 2001 a. 56.

**Cross-reference:** See also chs. ATCP 10 and 12, Wis. adm. code.

(a) "Humane officer" means an officer appointed under s. 173.03.

(am) "Isolation facility" means a humane society shelter, veterinary hospital, municipal pound or other place specified by an officer which is equipped with a pen or cage which isolates the animal from contact with other animals.

(b) "Officer" means a peace officer, local health officer, as defined in s. 250.01 (5), humane officer, warden, an employee designated by the department or other person designated by the governing body of the county, city, village or town.

(c) "Owner" includes a person who owns, harbors, keeps or controls an animal.

(d) "Peace officer" has the meaning designated under s. 939.22 (22).

(e) "Veterinarian" has the meaning designated under s. 89.02 (7).

(em) "Veterinary technician" has the meaning designated under s. 89.02 (12).

(f) "Warden" has the meaning designated under s. 24.01 (11).

**(2) RABIES VACCINATION REQUIRED FOR DOGS.** (a) *Requirement for vaccination.* Except as provided in s. 174.054 or sub. (9) (d), the owner of a dog shall have the dog vaccinated against rabies by a veterinarian or, if a veterinarian is physically present at the location the vaccine is administered, by a veterinary technician, pursuant to s. 89.05 (2) (d), at no later than 5 months of age and revaccinated within one year after the initial vaccination. If the owner obtains the dog or brings the dog into this state after the dog has reached 5 months of age, the owner shall have the dog vaccinated against rabies within 30 days after the dog is obtained or brought into the state unless the dog has been vaccinated as evidenced by a current certificate of rabies vaccination from this state or another state. The owner of a dog shall have the dog revaccinated against rabies by a veterinarian or, if a veterinarian is physically present at the location the vaccine is administered, by a veterinary technician, pursuant to s. 89.05 (2) (d), before the date that the immunization expires as stated on the certificate of vaccination or, if no date is specified, within 3 years after the previous vaccination.

(b) *Issuance of certificate of rabies vaccination.* The person who administers the vaccine under par. (a) shall complete and issue to the owner a certificate of rabies vaccination bearing a serial number and in the form approved by the department stating the owner's name and address, the name, sex, spayed or unspayed, neutered or unneutered, breed and color of the dog, the date of the vaccination, the type of rabies vaccine administered and the manufacturer's serial number, the date that the immunization expires as specified for that type of vaccine by the center for disease control of the U.S. department of health and human services and the city, village or town where the dog is required to be licensed.

(c) *Copies of certificate.* The veterinarian shall keep a copy of each certificate of rabies vaccination in a file maintained for this purpose until the date that the immunization expires or until the dog is revaccinated whichever occurs first.

(e) *Rabies vaccination tag.* After issuing the certificate of rabies vaccination, the person who administers the vaccine under par. (a) shall deliver to the owner a rabies vaccination tag of durable material bearing the same serial number as the certificate, the year the vaccination was given and the name, address and telephone number of the supervising veterinarian.

(f) *Tag to be attached.* The owner shall attach the rabies vaccination tag or a substitute tag to a collar and a collar with the tag attached shall be kept on the dog at all times but this requirement does not apply to a dog during competition or training, to a dog while hunting, to a dog securely confined indoors, to a dog securely confined in a fenced area or to a dog while actively involved in herding or controlling livestock if the dog is under the control of its owner. The substitute tag shall be of a durable material and contain the same information as the rabies vaccination tag. The requirements of this paragraph do not apply to a dog which is not required to be vaccinated under sub. (2) (a).

(g) *Duplicate tag.* The person who administers the vaccine under par. (a) may furnish a new rabies vaccination tag with a new serial number to an owner in place of the original tag upon presentation of the certificate of rabies vaccination. The person who administers the vaccine under par. (a) shall then indicate the new tag number on the certificate and keep a record in the file.

(h) *Cost.* The owner shall pay the cost of the rabies vaccination and the cost associated with the issuance of a certificate of rabies vaccination and the delivery of a rabies vaccination tag.

**(3) DISTRICT QUARANTINE.** (a) *Dogs confined.* If a district is quarantined for rabies, all dogs within the district shall be kept securely confined, tied, leashed or muzzled. Any dog not confined, tied, leashed or muzzled is declared a public nuisance and may be impounded. All officers shall cooperate in the enforcement of the quarantine. The clerk of every town, city or village wholly or partly within the quarantine district shall promptly post in at least 3 public places in the town, city or village, notices of quarantine furnished by the department for posting.

(b) *Exemption of vaccinated dog from district quarantine.* A dog which is immunized currently against rabies as evidenced by a valid certificate of rabies vaccination or other evidence is exempt from the district quarantine provisions of par. (a) if a rabies vaccination tag or substitute tag is attached to the dog's collar.

**(4) QUARANTINE OR SACRIFICE OF AN ANIMAL SUSPECTED OF BITING A PERSON OR BEING INFECTED OR EXPOSED TO RABIES.** (a) *Quarantine or sacrifice of dog or cat.* Except as provided in par. (d), an officer shall order a dog or cat quarantined if the officer has reason to believe that the animal bit a person, is infected with rabies or has been in contact with a rabid animal. If a quarantine cannot be imposed because the dog or cat cannot be captured, the officer may kill the animal. The officer may kill a dog or cat only as a last resort or if the owner agrees. The officer shall attempt to kill the animal in a humane manner and in a manner which avoids damage to the animal's head.

(b) *Sacrifice of other animals.* An officer may order killed or may kill an animal other than a dog or cat if the officer has reason to believe that the animal bit a person or is infected with rabies. Except as provided in s. 95.36, if an animal of a species raised primarily to produce food for human consumption is killed under this paragraph, the owner is eligible for an indemnity payment in an amount equal to the indemnity provided under s. 95.31 (3). If the decision is made by an employee of the department, the indemnity shall be paid from the appropriation under s. 20.115 (2)

(b). If the decision is made by another officer, the indemnity shall be paid from the dog license fund.

(c) *Sacrifice of a dog or cat.* An officer may order killed or may kill a dog or cat if the owner of the dog or cat violates sub. (5) (a), (b) or (c).

(d) *Exception for law enforcement dogs.* 1. In this paragraph, “law enforcement agency” has the meaning given in s. 165.83 (1) (b).

2. The quarantine requirement in par. (a) does not apply to a dog that is used by a law enforcement agency and that bites a person while the dog is performing law enforcement functions if the dog is immunized against rabies as evidenced by a valid certificate of rabies vaccination or other evidence. The law enforcement agency shall make the dog available for examination at any reasonable time. The law enforcement agency shall notify the local health department, as defined in s. 250.01 (4), if the dog exhibits any abnormal behavior.

(5) QUARANTINE OF DOG OR CAT. (a) *Delivery to isolation facility or quarantine on premises of owner.* An officer who orders a dog or cat to be quarantined shall deliver the animal or shall order the animal delivered to an isolation facility as soon as possible but no later than 24 hours after the original order is issued or the officer may order the animal to be quarantined on the premises of the owner if the animal is immunized currently against rabies as evidenced by a valid certificate of rabies vaccination or other evidence. If an officer delivers a dog or orders a dog to be delivered to an isolation facility and the dog is exempt from the requirement to be vaccinated against rabies under sub. (9) (d), the owner of the dog may choose an isolation facility that is a veterinary hospital.

(b) *Health risk to humans.* If a dog or cat is ordered to be quarantined because there is reason to believe that the animal bit a person, the custodian of an isolation facility or the owner shall keep the animal under strict isolation under the supervision of a veterinarian for at least 10 days after the incident occurred. In this paragraph, “supervision of a veterinarian” includes, at a minimum, examination of the animal on the first day of isolation, on the last day of isolation and on one intervening day. If the observation period is not extended and if the veterinarian certifies that the dog or cat has not exhibited any signs of rabies, the animal may be released from quarantine at the end of the observation period.

(c) *Risk to animal health.* 1. If a dog or cat is ordered to be quarantined because there is reason to believe that the animal has been exposed to a rabid animal and if the dog or cat is not currently immunized against rabies, the custodian of an isolation facility or the owner shall keep the animal leashed or confined for 180 days. The owner shall have the animal vaccinated against rabies between 155 and 165 days after the exposure to a rabid animal, unless the animal is exempt from the requirement to be vaccinated against rabies under sub. (9) (d).

2. If a dog or cat is ordered to be quarantined because there is reason to believe that the animal has been exposed to a rabid animal but if the dog or cat is immunized against rabies, the custodian of an isolation facility or the owner shall keep the animal leashed or confined for 60 days. The owner shall have the animal revaccinated against rabies as soon as possible after exposure to a rabid animal.

(d) *Sacrifice of a dog or cat exhibiting symptoms of rabies.* If a veterinarian determines that a dog or cat exhibits symptoms of rabies during the original or extended observation period, the veterinarian shall notify the owner and the officer who ordered the animal quarantined and the officer or veterinarian shall kill the animal in a humane manner and in a manner which avoids damage to the animal’s head. If the dog or cat is suspected to have bit-

ten a person, the veterinarian shall notify the person or the person’s physician.

(6) DELIVERY OF CARCASS; PREPARATION; EXAMINATION BY LABORATORY OF HYGIENE. An officer who kills an animal shall deliver the carcass to a veterinarian or local health department, as defined in s. 250.01 (4). The veterinarian or local health department shall prepare the carcass, properly prepare and package the head of the animal in a manner to minimize deterioration, arrange for delivery by the most expeditious means feasible of the head of the animal to the state laboratory of hygiene and dispose of or arrange for the disposal of the remainder of the carcass in a manner which minimizes the risk of exposure to any rabies virus. The laboratory of hygiene shall examine the specimen and determine if the animal was infected with rabies. The state laboratory of hygiene shall notify the department, the veterinarian or local health department which prepared the carcass and, if the animal is suspected to have bitten a person, that person or that person’s physician.

(8) RESPONSIBILITY FOR QUARANTINE AND LABORATORY EXPENSES. The owner of an animal is responsible for any expenses incurred in connection with keeping the animal in an isolation facility, supervision and examination of the animal by a veterinarian, preparation of the carcass for laboratory examination and the fee for the laboratory examination. If the owner is unknown, the county is responsible for these expenses.

(9) LOCAL PROGRAMS. (a) This section does not prohibit or restrict a county, city, village or town from imposing a rabies control program with more restrictive provisions.

(b) This section does not prohibit a county, city, village or town from imposing its own rabies control program if the department approves the program. The department may not approve a program unless it provides for at least 2 examinations of the quarantined animal by a veterinarian or a trained individual with veterinarian involvement during a 10-day isolation period. The department shall promulgate rules establishing criteria for the approval of programs under this paragraph and defining “trained individual” and “veterinarian involvement”.

(c) The department may provide training to persons who administer local rabies control programs or who conduct rabies examinations under those programs. The department may charge fees to cover the cost of training. The fees collected under this paragraph shall be credited to the appropriation under s. 20.115 (2) (j).

(d) A city, village, or town may exempt the owner of a dog from the requirement to have the dog vaccinated against rabies for a year based on a letter from a veterinarian stating that vaccination is inadvisable because of a reaction to a previous vaccination, a physical condition, or a regimen of therapy that the dog is undergoing. The city, village, or town shall require the owner to provide a new letter for each year in which the owner seeks an exemption under this paragraph.

(10) PENALTIES. (a) *Failure to obtain rabies vaccination.* An owner who fails to have a dog vaccinated against rabies as required under sub. (2) (a) may be required to forfeit not less than \$50 nor more than \$100.

(b) *Refusal to comply with order or quarantine.* An owner who refuses to comply with an order issued under this section to deliver an animal to an officer, isolation facility or veterinarian or

who does not comply with the conditions of an order that an animal be quarantined shall be fined not less than \$100 nor more than \$1,000 or imprisoned not more than 60 days or both.

(c) *Other violation.* A person who violates any provision of this section not specified under pars. (a) and (b) may be required to forfeit up to \$50.

(b) The department shall indemnify the owner of an animal that must be killed in order to conduct testing under par. (a) in an amount equal to two-thirds of the difference between the net salvage value and the appraised value of the animal but not more than \$1,500 for one animal, except as provided in s. 95.31 (3m). The department may pay an indemnity under this paragraph from the appropriation account under s. 20.115 (2) (b) only if funds received by the department under s. 20.115 (2) (m) and (8) (ks) for the payment of indemnities are insufficient to pay the indemnity.

(2) Upon request of an authorized inspector or agent of the department, sheriffs and police officers shall assist in the enforcement of the laws relating to animal health.

(3) Upon reasonable notice from the department, owners or persons in charge of animals shall cause them to be restrained or confined so that they may be identified, examined and tested or otherwise treated or disposed of as authorized by law.

(3) (a) No type of living vaccine for immunizing against anthrax or swine erysipelas may be administered to any domestic animal or sold or dispensed in this state without first having obtained the written approval of the chief veterinarian of the department. Approval to administer such vaccine shall be granted to licensed veterinarians only, and then only to qualify the domestic animal for export or in the event that any of the following has been established:

1. The domestic animals to be so treated are infected.
2. The domestic animals to be so treated are on premises known to be contaminated.
3. The domestic animals to be so treated have been exposed within 40 days to infection with the disease for which the living vaccine is prescribed as a proper immunizing agent.

**95.26 Brucellosis control program.** (3) If the existence of brucellosis within the state results in the termination of its status as a certified brucellosis-free area by the U.S. department of agriculture, the department shall request the release of funds by the joint committee on finance from the appropriation under s. 20.865 (4) (a) to pay for official vaccination, as provided in s. 95.46 (2), of all female calves located within any county where the incidence of brucellosis disqualifies it for such designation.

(4) Cattle and American bison that are classified as "reactors" to the brucellosis test, whether or not conducted pursuant to this section, shall be slaughtered. A report of any test disclosing reactors shall be mailed to the owner thereof. The reactors shall be identified by a reactor tag and permanent mark as prescribed by the department. The owner shall effect slaughter of the reactors within 15 days of the date they are so identified, except that the department, for cause shown, may extend the time an additional 15 days. If the owner of reactors fails to comply with this subsection within the time limited, the department shall cause the removal and slaughter of the reactors. No indemnity shall be paid on any reactors disposed of by the department. No milk shall be

sold from any reactors or from any herd of cattle in which reactors are kept contrary to the provisions of this section.

(5) When reactors to any brucellosis test are disclosed in a herd of cattle or American bison the department shall quarantine the entire herd by serving written notice thereof, either personally or by mail, on the owner or person in charge, but such quarantine shall not be imposed if the department, upon the basis of the clinical history of the herd with respect to brucellosis and the recommendation of the attending veterinarian, determines it is improbable that the cattle or American bison will contract brucellosis. No cattle or American bison subject to the quarantine shall be removed from the premises where the cattle or American bison are quarantined, except upon written permit of the department. The quarantine shall remain in full force until removed by the department. Such retests shall be conducted as the department finds necessary to eliminate all reactors or other evidence of infection in the herd.

(5m) (a) The department may obtain blood or tissue samples from swine and farm-raised deer to test for brucellosis.

(b) The department may condemn swine and farm-raised deer that are reactors to the brucellosis test and may quarantine the herd from which the reactors come.

(6) The department may acquire, equip and maintain laboratories, including mobile units and promulgate rules and regulations not inconsistent with law so as to effectively execute its functions under the brucellosis control program.

(7) For each animal of a species raised primarily to produce food for human consumption, including farm-raised deer, condemned and slaughtered, except as provided in ss. 95.36 and 95.48, the owner shall receive and, upon certificate of the department, the state shall pay two-thirds of the difference between the net salvage value and the appraised value of the animal, but the payment may not exceed \$1,500 for an animal. With the consent of the owner the department may condemn, in infected herds, animals which have been exposed and which are suspected of being infected, although the animals have not reacted to the brucellosis tests.

(3) The department may enter into cooperative agreements with the federal government or any department or other agency for the control and eradication of pseudorabies in this state, including the payment of indemnities authorized under this section.

(4) Subject to sub. (5) and s. 95.36, the department shall indemnify the owner of swine that have been condemned and destroyed under this section. The department shall pay to the owner for each animal destroyed the difference between the net salvage value and the appraised value of the animal, but the payment may not exceed \$1,500 for an animal. State payments shall be made from the appropriation under s. 20.115 (2) (b).

(5) Indemnities may not be paid under this section unless the owner of affected swine enters into, and acts in accordance with, an agreement with the department for the eradication of pseudorabies. An agreement entered into under this section shall con-

tain a plan for the eradication of pseudorabies and shall be based upon scientifically accepted methods. The department shall monitor the implementation of an agreement to determine compliance and to determine whether the agreement needs to be modified.

The department may condemn animals that are affected with or exposed to a contagious or infectious disease if the department determines that it is necessary to do so to prevent or control the spread of the disease. Condemned animals shall be slaughtered or destroyed as directed by the department.

(2) If the department determines that it is necessary to condemn an animal under sub. (1), the department shall, in all cases where the payment of indemnities is authorized under this chapter, appraise the animal as provided in s. 95.32 and shall notify the owner in writing of the appraised value. The notice shall include the number and description of the animals and the name of the owner.

(3) In addition to the indemnities for specific animal diseases provided under ss. 95.25, 95.26 and 95.27 or under special emergency programs and subject to s. 95.36, the department shall pay indemnities on livestock condemned and slaughtered or destroyed because of other diseases if the department determines that the condemnation and slaughter or destruction is necessary to protect public health or the livestock industry. The indemnity under this subsection shall be two-thirds of the difference between net salvage value and appraised value, but may not exceed \$1,500 for an animal, except as provided in sub. (3m). As used in this subsection, "livestock" means animals of species raised primarily to produce food for human consumption, including farm-raised deer.

(3m) If the department condemns an animal because the animal is suspected to have a transmissible spongiform encephalopathy and the owner disposes of the carcass as directed by the department, the department shall increase the amount of the indemnity calculated under sub. (3) or s. 95.23 (1m) (b) by the costs of the destruction of the animal and of the disposal, transportation, and any necessary storage of the animal's carcass. An indemnity paid because of the condemnation of an animal to which this subsection applies may exceed \$1,500.

(4) In the event of a major or serious outbreak of a contagious or infectious disease that may affect public health or the health of animals and that requires special control measures, the department may request the joint committee on finance to release funds

appropriated under s. 20.115 (2) (b) as needed to conduct emergency control programs independently or in cooperation with federal or local units of government and, subject to s. 95.36, to pay indemnities on animals of species raised primarily to produce food for human consumption, including farm-raised deer, condemned and slaughtered or destroyed under the emergency control programs. For all indemnities paid under this subsection, the state shall pay two-thirds of the difference between the net salvage value and the appraised value of an animal, except that no payment may exceed \$1,500 for an animal.

(3) The appraised value of a registered purebred animal of an animal type that is frequently sold at public auction shall equal 125 percent of the amount determined under sub. (2) for that animal type.

(4) Using a method specified under sub. (5) (c), the department shall determine the appraised value of an animal of an animal type that is not frequently sold at public auction.

(5) (a) The department shall promulgate rules specifying animal types for the purposes of this section. The animal types may be based on characteristics of animals that include species, gender and age. The rules shall specify whether each animal type is frequently sold at public auction.

(b) The department shall promulgate rules specifying the period of public auction sales that will be used in the appraisal of each animal type to which sub. (2) applies. The period may not begin more than 6 months before the date on which the department makes the appraisal.

(c) The department shall promulgate rules specifying methods for determining the appraised value of animals of animal types that are not frequently sold at public auction. The methods shall be as consistent as possible with the method under sub. (2).
