**709.02 Disclosure.** (1) In regard to transfers described in s. 709.01, the owner of the property shall furnish, not later than 10 days after acceptance of a contract of sale or option contract, to the prospective buyer of the property a completed copy of the report under s. 709.03 or 709.033, whichever is applicable, subject to s. 709.035, except that the owner may substitute for any entry information supplied by a licensed engineer, professional land surveyor, as defined in s. 443.01 (7m), or structural pest control operator, by an individual who is a qualified 3rd party, or by a contractor about matters within the scope of the contractor's occupation, if the information is in writing and is furnished on time and if the entry to which it relates is identified, and except that the owner may substitute for any entry information supplied by a public agency. Information that substitutes for an entry on the report under s. 709.03 or 709.033 and that is supplied by a person specified in this section may be submitted and certified on a sup-

plemental report prepared by the person, as long as the information otherwise satisfies the requirements under this section. A report under s. 709.03 or 709.033 is considered complete only if the owner answered, or supplied information under s. 709.035 for, each item on the report. A prospective buyer who does not receive a report within the 10 days may, within 2 business days after the end of that 10-day period, rescind the contract of sale or option contract by delivering a written notice of rescission to the owner or to the owner's agent and is entitled to the return of any deposits or option fees paid in the transaction.

- (2) In regard to a transfer of a condominium unit, if the owner is required under s. 709.01 to provide the information under sub. (1), the owner shall furnish, in addition to and at the same time as the information required under sub. (1), all the following information as an addendum to the report under s. 709.03 or 709.033:
- (a) The name of the condominium and the date the condominium was created by recording condominium instruments with the register of deeds under s. 703.07; the unit number of the property offered for sale; and the name, address, and telephone number of the seller or the seller's agent.
- (b) The name and address of the condominium association; a statement specifying whether the association is self-managed or has hired or retained management; and the name, address, and telephone number of the individual who may be contacted as a representative of the association regarding the sale, in particular, or the condominium, in general.
- (c) The amount of current condominium assessments, fees, special assessments, or other charges for which a unit owner is responsible and whether the current charges for the unit have been paid.
- (d) Unless excused by s. 703.365 (8), a copy of the executive summary required under s. 703.33 (1) (h).

**History:** 1991 a. 162; 1995 a. 180; 1999 a. 150 s. 672; 2003 a. 283; 2011 a. 107, 203; 2013 a. 165, 358; 2021 a. 96.

Note: 2003 Wis. Act 283, which affected this section, contains extensive explanatory notes.

There is nothing in this section or s. 709.03 that requires a seller to provide details of specific safety and health hazards associated with any property defect. Sellers of real estate are required to disclose general descriptions of potential defects in the property. In the case of a natural gas pipeline, this chapter does not require a seller to disclose all potential problems that could foreseeably arise as a result of the pipeline's presence. Hoekstra v. Guardian Pipeline, LLC, 2006 WI App 245, 298 Wis. 2d 165, 726 N.W.2d 648, 03-2809.

Sub. (1) and the statutory form under s. 709.03 clearly set out the reasonable expectation regarding who may rely on a real estate condition report. In sub. (1), prospective buyer" refers specifically to a buyer already in contract with the seller. Thus, that term in the context of the statute must be limited to a future buyer within the specific transaction at issue. The statutes establish that a seller must reasonably expect reliance by only the prospective buyer in the current transaction. Pagoudis v. Keidl, 2023 WI 27, 406 Wis. 2d 542, 988 N.W.2d 606, 20-0225. Residential Real Property Disclosure Duties. Hinkston. Wis. Law. May 2002.

**History:** 1991 a. 162; 1995 a. 27 ss. 7067, 9116 (5), 9130 (4); 1995 a. 180; 2007 a. 121; 2009 a. 211; 2011 a. 32, 107; 2013 a. 304; 2017 a. 222, 338; 2021 a. 47, 96; 2021 a. 238 s. 45; 2021 a. 239 s. 74.

There is nothing in this section or s. 709.02 that requires a seller to provide details of specific safety and health hazards associated with any property defect. Sellers of real estate are required to disclose general descriptions of potential defects in the property. In the case of a natural gas pipeline, this chapter does not require a seller to disclose all potential problems that could foreseeably arise as a result of the pipeline's presence. Hoekstra v. Guardian Pipeline, LLC, 2006 WI App 245, 298 Wis. 2d 165, 726 NW 2d 648, 03-2809

Section 709.02 (1) and the statutory form under this section clearly set out the reasonable expectation regarding who may rely on a real estate condition report. In s. 709.02 (1), "prospective buyer" refers specifically to a buyer already in contract with the seller. Thus, that term in the context of the statute must be limited to a future buyer within the specific transaction at issue. The statutes establish that a seller must reasonably expect reliance by only the prospective buyer in the current transaction. Pagoudis v. Keidl, 2023 W1 27, 406 Wis. 2d 542, 988 N.W.2d 606, 20-0225.

**709.033 Vacant land disclosure report form.** The report required under s. 709.02 with respect to real property, as defined in s. 709.001 (5) (b), shall be in substantially the following form and shall include at least all of the following information:

E22.	Are you aware that all or part of the property is enrolled in the managed forest land program?  The managed forest land program is a landowner incentive program that encourages sustainable forestry on private woodlands by exempting the landowner from the payment of property taxes in exchange for the payment of a lower acreage share payment and compliance with certain conservation practices. Orders designating lands as managed forest lands remain in effect for 25 or 50 years. When ownership of land enrolled in the managed forest land program changes, the new owner must sign and file a report of the change of ownership on a form provided by the Wisconsin Department of Natural Resources (DNR) and pay a fee. By filing this form, the new owner agrees to comply with the management plan for the land and the managed forest land program rules. The DNR Division of Forestry monitors forest management plan compliance. Changes that a landowner makes to property that is subject to an order designating it as managed forest land, or to its use, may jeopardize benefits under the program or cause the property to be withdrawn from the program and may result in the assessment of penalties. For more information, call your local DNR forester or visit http://dnr.wi.gov/topic/forestry.html.
