## CORY TOMCZYK

STATE SENATOR • 29<sup>TH</sup> SENATE DISTRICT

### Senate Bill 210

Senate Committee on Education  
June 10, 2025

Currently, the Higher Educational Aids Board (HEAB) here in Wisconsin operates the “Academic Excellence Program” which provides a scholarship of \$2,250 to one student in a school between 80-499 students. It increases from there. If a school has 500-999 students, two scholarships are awarded. Schools with 1,000-1,499, there are three scholarships. Schools with 1,500-1,999 receive four and finally, schools with 2,500 or more receive six. The awards are given to 12<sup>th</sup> grade students and are selected based on their GPA. Half of the \$2,250 scholarship is funded by a GPR sum sufficient appropriation and the other half is funded by the institution the student will be attending. Participating institutions are: any UW System school, all Wisconsin technical colleges, many independent colleges, and Wisconsin’s two tribal colleges.

Unfortunately, if a student attends a Wisconsin school with a total enrollment of less than 80 students, there are only 10 scholarships available total. The faculty of each of these high schools is required to name the 12<sup>th</sup> grade student or students with the highest GPAs, as normally calculated by that high school, as eligible to receive a scholarship, then the 10 students with the highest GPAs are awarded the scholarships. The HEAB Secretary is also able to award two additional scholarships – one to a senior attending the Wisconsin Center for the Blind and Visually Impaired and one to a senior attending the Wisconsin Educational Services for the Deaf and Hard of Hearing.

This is practice is unfair and disproportionately affects rural students. However, you will see in the attached spreadsheet, that 211 schools have under 80 students and those schools are in every corner of the State of Wisconsin. They are in large counties like Dane and Milwaukee, and in small ones like Wood, Barron, Taylor, etc.

SB 210 makes the Academic Excellence Program available to students at ALL high schools, changing the tier of schools who receive one scholarship to 1-499. AB S10 also states that home schooled students are not eligible.

Wisconsin’s students who attend smaller schools are just as important and deserve to be given the same opportunities to succeed as students attending large schools. This bill gives them that opportunity to receive a scholarship and help with college tuition. AB 210 is a small step in helping kids reach their potential and become productive, taxpaying Wisconsinites.

Please support SB 210 for the students in YOUR districts and across the state.

STATE REPRESENTATIVE • 74<sup>TH</sup> ASSEMBLY DISTRICT

June 10<sup>th</sup>, 2025

## **Testimony on Senate Bill 210**

### **Senate Committee on Education**

Thank you, Chairman Jagler and other Senate committee members, for having a hearing today on Senate Bill 210 relating to the changes in the academic excellence higher education scholarships.

SB 210 ensures that hardworking students in smaller high schools receive the same straightforward access to academic excellence scholarships as their peers in larger schools.

Removing the nomination requirement for schools with fewer than 80 students creates a fairer and more consistent process, allowing top-performing students in all small schools to be recognized and supported based solely on their academic merit.

This change eliminates unnecessary bureaucratic hurdles and expands opportunities for students in rural and underserved areas, helping them afford higher education without the added stress of a subjective nomination process.

This bill promotes fairness, streamlines the scholarship process, and protects the program's integrity, making it a necessary and beneficial reform. This change will ensure Wisconsin students remain in-state for higher education, helping retain top academic talent and strengthen Wisconsin's future workforce.

Thank you for your time today and consideration of this bill.

I'm happy to answer any questions you might have.

**Office of Government Relations**

Van Hise Hall, 1220 Linden Drive, Madison, WI 53706

DATE: June 10, 2025

TO: Members of the Senate Committee on Education

FROM: Office of Government Relations, Universities of Wisconsin

RE: Testimony in Favor of Senate Bill 210

Thank you, Chair Jagler, Vice-Chair Quinn, and committee members for providing the Universities of Wisconsin (UWs) an opportunity to submit testimony in favor of Senate Bill 210 (SB 210).

As a student-focused organization, the Universities of Wisconsin's core mission is centered around the success of our over 164,400 students. The regional and economic impact of our 13 universities is felt in all corners of our state. As Wisconsin's largest talent generator and talent magnet, retaining and attracting current and prospective students is critical to the vibrancy of our communities and growth of our state's economy. Currently, the UWs provide a 23:1 return on state investment and deliver tens of thousands of graduates each year. Nearly 90 percent of our Wisconsin resident graduates remain in the state 5 years after graduation, and first- and second-year retention rates have also improved in the last two academic years.

In 2023-24, more than 2,300 academic excellence scholarships were awarded across the Universities of Wisconsin. These scholarships are given to Wisconsin high school seniors who have the highest-grade point average in their respective school, dependent on the number of students enrolled in the school. Through these scholarships, eligible individuals can receive an award amount of up to \$2,250 per year for tuition, where half is funded by the state and half is matched by the university.

Current law states that for high schools with enrollment of less than 80 pupils, only 10 individuals statewide can be nominated for this scholarship. SB 210 would allow the school board or governing body of a high school with an enrollment of at least one pupil but less than 500 pupils to designate one senior to receive an Academic Excellence Higher Education Scholarship with no nomination process or designation from the Wisconsin Higher Educational Aids Board.

This legislation could help encourage more Wisconsin students who attend small or rural schools to pursue higher education in Wisconsin, and it would also complement and work alongside our other admissions-related programs that we offer like Dual Enrollment, the Wisconsin Tuition Promise, and Direct Admit Wisconsin.

SB 210 would increase learning and educational opportunities for more Wisconsin students to grow and thrive, giving our state another tool in the toolbox to keep our best and brightest students here.

Thank you for giving the Universities of Wisconsin the opportunity to submit testimony in favor of SB 210.

June 10<sup>th</sup>, 2025

Senator Jagler, Chair

Senator Quinn, Vice-chair

Members of the Senate Committee on Education

**Testimony in Support of Senate Bill 210**

*Relating to: changes to amount of, and criteria for designating recipients of, academic excellence higher education scholarships.*

Dear Committee Members,

Thank you for the opportunity to provide testimony today in support of Senate Bill 210.

Firstly, I want to thank the bill authors for their communication and collaboration on this bill. They reached out to UW-Madison early in the process to gather feedback, and they have been very receptive to our input at the various stages of drafting this proposal.

As the state's public flagship institution, the University of Wisconsin – Madison strives to provide a world-class education that better the lives of all citizens across the state. The institution has a strong commitment to educating the next generation of Wisconsinites, with recognition to those in underserved and underrepresented communities, like the students from rural areas that this bill is seeking to support.

In 2023, UW-Madison joined the Small Town and Rural Students (STARS) College Network to create new pathways for students who might not otherwise recognize the full range of education options available to them. This initiative led to the creation of College for Rural Wisconsin on campus, which works to increase college access for rural, farm, and small-town students.

UW-Madison is also working to reduce financial barriers for prospective students. The university was able to increase the percentage of students graduating without debt from 47.6% to 65.5% between 2014 and 2023 through programs like Bucky's Tuition Promise, Bucky's Pell Pathway, and the Badger Promise. These efforts resulted in UW-Madison being named a "Best Value College" last year by the Princeton Review. However, the institution recognizes that affordability is still a major issue facing many students across the state.

The Academic Excellence Scholarship Program and UW-Madison share the goal of increasing access to education. The program provides \$2,250 per year for four years to students with the highest grade point average in each public and private high school throughout the state who

agree to stay in-state for college. Funding for the scholarship is 50/50 through the state and matched by the institution. During the 2023-2024 academic year, there were 811 freshman scholarships available and 730 were claimed. UW-Madison had 348 freshman scholars as students and a total of 1,417 students claiming the scholarship over four years. Madison spent approximately \$1.4 million on these scholarships.

High schools are separated into categories based on their size, and some schools are permitted to nominate more than one student for the scholarship. For example, schools with more than 80 but less than 500 pupils can only nominate one student, and schools with at least 500 but less than 1,000 pupils can nominate two students. However, schools with less than 80 students can nominate one student, but all those students from all those schools are pooled together into one group from which 10 are selected for the scholarship. Plainly stated, while all other nominees are guaranteed a scholarship, those students from the smallest schools in the state are not.

Senate Bill 210 allows all qualifying students from high schools with less than 80 pupils to receive a scholarship under the program. According to a fiscal estimate, the Higher Educational Aids Board is estimating an increase of 52 students claiming the scholarship each year, totaling 208 additional students after the adjustment is fully implemented. This would add an additional cost of \$234,000 to institutions. UW-Madison expects to bear most of the financial burden of this change in eligibility for the program given that all scholarship recipients are now guaranteed admissions to the university under 2023 Wisconsin Act 95.

Thank you again for the opportunity to provide feedback on Senate Bill 210. If you have questions, please reach out to Crystal Potts or Mitch Goettl ([crystal.potts@wisc.edu](mailto:crystal.potts@wisc.edu); [goettl@wisc.edu](mailto:goettl@wisc.edu)).
