

Bureau of Aeronautics

Wisconsin Airport Security

**Scott Brummond, Chief
Aeronautical and Technical Services**

Bureau of Aeronautics

Airport Security

- Pre 9/11
- Post 9/11

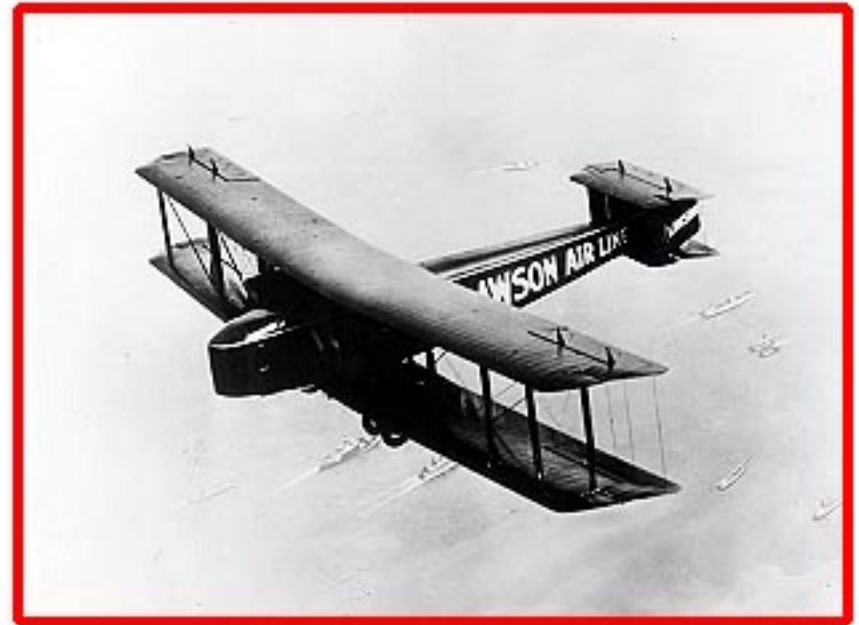

Bureau of Aeronautics

Airport Security

Pre 9/11

- Minimal passenger screening
- Minimal cargo screening
- Minimal attention to GA airports
- Terrorism happened outside the United States

Bureau of Aeronautics

Airport Security

Post 9/11 -- Airport security is essential

- The threat is REAL!
- But, what is the threat?
- Where is the threat?
- How do we deal with it?
- It's a new way of life.

Airport Security

Post 9/11

- 9/11 = paradigm shift.
- General Aviation affected.
- Aviation security goes beyond terrorist threats.
- Airports: Each is unique: specific needs = specific solutions.
- People: Stakeholder groups

Applicability

- Air carrier airports (TSA responsibility)
- General aviation airports (TSA and BOA)
- Private airports and landing facilities.

.....

- Special Interest - aerial applicators

Bureau of Aeronautics

Stake Holders

- General Aviation -- airport managers
- Aircraft owners and groups
- Flight instructor groups
- Pilots and pilot groups
- Aerial applicators
- Airport tenants

Bureau of Aeronautics

Securing our airports

It's about **TEAMWORK**

BOA Airport Security Team

Pilot Reminder

* Remove Keys
and Lock Aircraft

*Close Your
Flight Plan

- Focus - general aviation
- Security tools
 - Operations and Security Bulletins
 - Emergency Airport Notification System
 - Wisconsin Airport Security Plan (WASP)
- Airport visits/education/audits
- Funding

Wisconsin Aviation -- Scope

- 698 aviation facilities
- 132 public-use airports
 - Many are privately-owned and have no public funding, direct federal oversight, or security requirements
- 8 air carrier airports
 - Subject to TSA 1542
- 124 General Aviation airports

Wisconsin Aviation -- Scope

- 12,340 active pilots
- 5,362 registered aircraft
- 100+ Flight inst. locations
- 73 registered aerial applicators
- 25 USDA-registered aerial applicator companies

Bureau of Aeronautics

Preventive Measures

- Airport Security Assessment completed Fall 2004
- Audits on a 3 year cycle
- Federal and state dollars (DHS and OJA)

Bureau of Aeronautics

Preventive Measures

- Fences, lights, signs, education, cameras and locks
- Security projects part of programming
- Wisconsin Airport Security Plan (WASP)

Bureau of Aeronautics

Airport Security Outlook

- Lifestyle changes
- Local, State, and Federal level interest
- Active participants nationwide
- Continue to educate, guide, and equip Wisconsin GA airports.
- Airport Security enhancements are now part of every airport development plan.
