***The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:***

JOINT LEGISLATIVE COUNCIL PREFATORY NOTE: This bill was prepared for the Joint Legislative Council's Special Committee on Placement of Sex Offenders. The bill does the following:

*Release of Specified Information to Law Enforcement Officer Regarding Certain ch. 980 Sexually Violent Persons (SVPs)*

Under a provision in the Mental Health Act (ch. 51, stats.), treatment records of an individual may be released without informed written consent under certain specified circumstances. One of these circumstances, set forth in s. 51.30 (4) (b) 16., stats., permits such a release, if authorized by the secretary of health and family services, to a law enforcement officer, upon request, if the individual was admitted under ch. 971 (not responsible by reason of mental disease or defect) or 975 (the sex crimes law), stats., or transferred under other specified statutory provisions. That subdivision limits the information that is permitted to be released to certain specified information, including information as to the individual's whereabouts during any time period. *Individuals committed under ch. 980 as SVPs are not included in s. 51.30 (4) (b) 16.* Thus, this ch. 51 provision treats the disclosure of information related to ch. 980 patients differently from other high-risk mental health patients (i.e., patients who are committed, in part, because of their commission of a crime).

This bill revises s. 51.30 (4) (b) 16. to make it apply to individuals committed or detained under ch. 971, 975, or 980 thus permitting a law enforcement officer to obtain the information set forth in that subdivision about ch. 980 commitments, including the individual's whereabouts during any time period. The bill also:

1. Modifies the focus of the current provision on inpatient commitments by substituting "committed or detained" for "admitted." This change permits the Department of Health and Family Services (DHFS) to provide this information relating to patients on supervised release in the community.
2. Deletes the language in this provision that allows DHFS to provide this information only "upon request" of a law enforcement officer.

*Child Safety Zones*

The bill requires the Department of Corrections (DOC) to prohibit a person, as a condition of probation, parole, or extended supervision, or DHFS to prohibit a person on conditional release or parole under ch. 975, for a violation of first- or second-degree sexual assault or engaging in repeated acts of sexual assault of the same child, from going to places or entering zones containing places where children congregate and where it would be in the interest of public protection to prohibit the person from going, as determined by DOC, during any part of the person's period of probation, parole, extended supervision, or conditional release.

The bill also requires the court to impose such conditions during any part of the person's sentence or during any period of probation when sentencing a person for first- or second-degree sexual assault or engaging in repeated acts of sexual assault of the same child.

**BILL***Sex Offender Registration Requirements*

Under current law, a person must register with DOC as a sex offender if he or she has been convicted of certain sex offenses, found not guilty of certain sex offenses by reason of mental disease or defect, or adjudicated delinquent on the basis of certain sex offenses.

DOC may require a person registered as a sex offender to provide DOC with his or her fingerprints, a recent photograph, and certain other information including the address at which he or she is or will be residing, the name and address of the place at which he or she is or will be employed, and the name and location of any school in which he or she is or will be enrolled. If any information contained in DOC's registry of sex offenders changes, the registrant must provide DOC with the updated information in compliance with time limits set forth under current law.

Under the bill, a person who is required to register with DOC as a sex offender must also provide, and update, his or her email account and the Internet address of any Web site he or she maintains.

Under current law, in general, a person who is registered as a sex offender must register *annually* with DOC, as directed by DOC. At that time, the person must provide DOC with information such as his or her current address and the name and location of any employer or school the person attends.

A person who is subject to lifetime sex offender registration and has been found to be an SVP must register every 90 days, as directed by DOC.

The bill requires a person registered as a sex offender to register *every six months* and to provide DOC with the registry information *in person*. At the time of the registration, DOC must photograph the person and then update the registry with the person's most current photograph.

The bill maintains the requirement that certain persons subject to lifetime sex offender registration register every 90 days but requires that registration be in person at least once every six months. At the time of in-person registration, DOC must photograph the person and then update the registry with the person's most current photograph.

*Information Provided to Director of Security of Postsecondary School*

Under current law, when a person is registered as a sex offender with DOC, DOC must make specified information immediately available to the police chief of any community and the sheriff of any county in which the person is residing, is employed, or is attending school. DOC must make the information available through a direct electronic data transfer system. Also under current law, DOC is required to provide the police chief of any community and the sheriff of any county in which the person is residing, is employed, or is attending school with special bulletin notices relating to certain sex offenders and may provide a special bulletin notice concerning any sex offender.

The bill requires DOC to make this information available to the director of security for any postsecondary educational institution in the community in which the person is residing, is employed, or is attending school. Postsecondary educational institution is defined as a public or private college or university, or a vocational or technical institution or school.

However, under the bill, DOC may not provide information to the director of security for a postsecondary educational institution that relates to a child who is registered as a sex offender or that relates to a juvenile delinquency adjudication for a sex offense.

**BILL**

The bill also requires DOC to provide a director of security for a postsecondary educational institution with information obtained through the global positioning tracking system for certain sex offenders, upon request of the director of security. DOC determines the information provided and the manner in which it is provided.

*Information on DOC Internet Site*

Under current law, DOC is required to provide access to information concerning registered sex offenders by creating and maintaining an Internet site and by any other means that DOC determines is appropriate. DOC must provide the following information on a registered sex offender on the site:

1. If the person is an SVP under ch. 980, stats., a notice, written in red letters, of that status.
2. A current color photograph of the person, if available, and a physical description including sex, race, height, weight, eye color, and hair color.
3. The person's name and home address.
4. Whether the person has responded to the last contact letter from DOC.
5. The crime committed for which the person must register.
6. Any conditions of the person's supervised release, except for any condition that may reveal the identity of the victim of the crime that the person committed for which he or she must register.
7. The date, time, and place of any scheduled hearings for supervised release or discharge under ch. 980, stats.
8. The name of the judge who authorized supervised release or discharge for the person.
9. The most recent date on which the information was updated.

The bill expands the list of required information on the DOC Internet site to include the following about these registered persons:

1. If the person is an SVP or a registered "*high-risk sex offender*," the *geographic area* of any current employer of the person or any business the person is operating and the geographic area of any school the person is attending. The bill creates a definition of "high-risk sex offender."
2. A *full body* photograph of the person. This is in addition to the other photograph requirements in the bill and in current law.
3. *Two or more current color photographs* of the person. The photographs must be updated at least every six months. If one or more current color photographs of the person are impossible to obtain, one or more other photographs of the person may be used.
4. A specific description of any *distinguishing marks* on the person's body.

This bill also requires DOC to include links to other state agency Web sites that provide information on the prevention and identification of sexual abuse and other sex crimes and information on how to report suspected sexual abuse or other sex crimes.
