

Wisconsin Indian

Business Alliance

MISSION STATEMENT

The mission of the Wisconsin Indian Business Alliance is to strengthen the Native American business economy and build business activity in local communities.

The Wisconsin Indian Business Alliance (WIBA) accomplishes this by encouraging, promoting, and supporting entrepreneurial activity of Tribal members. We promote business-building resources, and support and partner with Tribal governments and communities in creating conducive environments that strengthen Native American entrepreneurship in Wisconsin.

The Wisconsin Indian Business Alliance is made up of a wide variety of people committed to building Native economies including private business, Tribal Program Administrators, elected Tribal officials, State Agencies, Federal Program representatives, and Native American organizations.
