PART I

KEY PROVISIONS OF COMMITTEE RECOMMENDATION

The Special Committee on Public Assistance Program Integrity recommends the following bill draft to the Joint Legislative Council for introduction in the 2011-12 Session of the Legislature.

WLC: 0106/1, Relating to Reorganization of Ch. 49 and Changes Affecting Public Assistance Programs

WLC: 106/1 makes the following changes to current law:

- Reorganizes ch. 49, Stats., into six subchapters so that general provisions are at the beginning of the chapter and Department of Health Services (DHS) and Department of Children and Families (DCF) programs and authority are more logically organized. This bill draft also moves many of the criminal offenses and penalties relating to public assistance fraud and other misconduct to the Criminal Code.
- Requires child care providers to keep accurate attendance records and to maintain the records on the premises of the child care provider.
- Permits DCF to recover overpayments under the emergency assistance program that are made to program participants and to others, such as landlords, who receive payments under the program but fail to use the payments for the purpose the payments were made.
- Limits the amount of time DCF may suspend a child care providers payments based upon a reasonable suspicion that the provider has violated a program rule. DCF would be required to allow the suspension to lapse or to pursue a longer-term suspension before the expiration of the temporary suspension.
- Requires DHS, in consultation with DCF, to promulgate rules requiring ongoing training to county and Wisconsin Works (W-2) agency employees relating to fraud prevention and investigation, error reduction, and related activities.
- Makes clear that a W-2 agency may determine if a W-2 participant has committed an intentional program violation and provides appeal rights and graduated sanctions for first and second violations. As under current law, benefits may be permanently denied upon a third intentional violation under the bill draft.
- Requires DHS and DCF to promulgate rules under which statements made in a benefits application are sworn to or otherwise affirmed as being true to the best of an applicant's knowledge. The bill draft also permits public assistance workers to administer an oath to applicants.
- Adds payments to parents of supplemental security income recipients to the list of benefits
 that are currently exempt from taxation, execution, garnishment, attachment, and other
 processes.
- Requires DCF to waive recovery of overpayments made to a child care provider who provided child care based upon reasonable reliance on information provided by an authorizing agency.

PART II COMMITTEE ACTIVITY

Assignment

The Joint Legislative Council established the Special Committee on Public Assistance Program Integrity and appointed the initial chairperson by a May 7, 2010 mail ballot. The committee was directed to: study current laws, rules, and policies relating to fraud prevention, detection, investigation, and prosecution, and the current fraud penalty structure, in public assistance programs under ch. 49, Stats. The study was required to include consideration of all of the following: (a) the findings and recommendations of recent Legislative Audit Bureau audits of the Wisconsin Shares child care subsidy program and child care regulation in Wisconsin, and implementation of those recommendations; (b) whether current fraud provisions in ch. 49 should be recodified, streamlined, and made uniform throughout the chapter; (c) the effectiveness of current prohibitions and investigatory and enforcement mechanisms; (d) whether current penalties and associated consequences of a finding of public assistance fraud achieve the goals of fraud prevention and deterrence; (e) incentives for fraud detection by entities administering public assistance programs; (f) whether eligibility provisions in certain public assistance programs increase the likelihood of fraudulent activity; and (g) funding for fraud prevention, detection, investigation, and enforcement at the state and local level.

Membership of the Special Committee was appointed by June 30, 2010 and October 14, 2010, and January 6, 2011 mail ballots. The January 6, 2011 mail ballot also appointed a new chairperson. The final committee membership consisted of two Senators, two Representatives, and eight public members. A list of committee members is included as *Appendix 3* to this report.

Summary of Meetings

The Special Committee held five meetings on the following dates:

August 4, 2010 September 8, 2010 October 12, 2010 November 16, 2010 December 14, 2010

In addition, a subcommittee was established and met twice (see below).

At the August 4, 2010 meeting, the Special Committee heard testimony from invited speakers.

Reggie Bicha, Secretary, DCF, provided an overview of program integrity efforts at DCF, including several specific organizational changes intended to increase the department's focus on program integrity. He also updated the committee regarding the fraud detection and investigation unit established to combat fraud in the Wisconsin Shares program. He made several recommendations for committee recommendations, including a revision of ch. 49, Stats.; a creation of a risk assessment officer in each agency; and treating child care providers more like businesses or vendors than like beneficiaries of state aid.

Janice Mueller, State Auditor, Legislative Audit Bureau (LAB), described LAB's role and summarized LAB's findings from audits of the Wisconsin Shares program. In addition, she discussed best practices for reducing fraud, waste, and abuse. Specifically, she highlighted the importance of increasing transparency; holding agencies accountable for waste; creating incentives for compliance; targeting resources to areas most susceptible to fraud; and imposing reporting requirements.

Following the testimony, the Special Committee had an initial discussion regarding its assignment, during which committee members shared priorities and concerns related to the committee's assignment. Among other ideas, committee members mentioned a need to consider the organizational structure for fraud detection, the possibility of moving statutory provisions with criminal penalties to the Criminal Code, and the importance of emphasizing front-end verification of program eligibility.

At the <u>September 8, 2010 meeting</u>, the Special Committee heard testimony from several invited speakers. First, *Jason Helgerson*, *Administrator*, *Division of Health Care Access and Accountability*; *Jim Jones, Deputy Administrator and Director, Food Share Program*; and Alan White, Director, Bureau of Program Integrity, DHS, described several programs administered by DHS and detailed the department's program integrity efforts with respect to each program. They mentioned the following steps taken to improve program integrity in the Medical Assistance (MA) and Food Share programs: (1) front-end verification, under which error prone cases are identified before a person receives benefits; (2) an income maintenance quality assurance system, which requires 1% of the most error prone cases to be reviewed by a supervisor each month; and (3) the federal Public Assistance Reporting Information System, which matches Wisconsin data with that of other states and federal agencies to identify duplicate benefits. They also noted efforts on the part of local agencies, including investigation and referral of potentially fraudulent activity, data entry to track fraud investigations, administrative disqualification hearings for the Food Share program, and referral of intentional program violations in Food Share and MA for criminal prosecution.

Next, J.B. Van Hollen, Attorney General, and Tom Storm, Assistant Attorney General and Director, Medicaid Fraud Control Unit, Department of Justice (DOJ), provided an overview of the Medicaid Fraud and Elder Abuse Unit in DOJ, which investigates and prosecutes Medicaid fraud. Attorney General Van Hollen explained that the unit is effective because of the unit's: (1) independence; (2) expertise; and (3) "special unit" function. He recommended that the unit's model be applied to the investigation and prosecution of other types of public assistance fraud.

Finally, a panel of representatives from county agencies testified. The panel was moderated by Sarah Diedrick-Kasdorf, Senior Legislative Associate, Wisconsin Counties Association and included John Rathman, Deputy Director, Outagamie County Department of Health and Human Services; Marcia MacKenzie, Dane County Corporation Counsel; and Sue Rohde, Fraud Investigator, Waukesha County Department of Health and Human Services. The panelists discussed the decrease and fragmentation of funding for counties' fraud investigation efforts. They also described typical fraud investigations, including the resources entailed in pursuing different types of fraud.

The meeting concluded with a discussion of the Special Committee's assignment. Chair Jauch suggested that themes that had emerged during the Special Committee's deliberations included the need for greater resources at the county level and the need to provide incentives for prosecutions.

At the October 12, 2010 meeting, the Special Committee heard testimony from *Hal Bergan*, *Administrator*, *Division of Unemployment Insurance*, *Department of Workforce Development (DWD)*. Mr. Bergan provided an overview of the Unemployment Insurance Division's approach to reducing overpayments and fraud with respect to unemployment benefits. He discussed the most common types of overpayments and the process by which the division cross-matches the names of recipients with quarterly wage records collected by DWD, state new hire records, and information shared by neighboring states. He also detailed the division's self-executing system for collecting overpayments.

The Special Committee then discussed an option to establish a new state-level unit to investigate fraud in public assistance programs. The members reached a consensus that a regional consortia approach should be explored and directed Legislative Council staff to develop an option for a regional consortia program that would potentially be established as a pilot project.

Next, the Special Committee reviewed a draft letter addressed to U.S. Department of Agriculture Undersecretary Kevin Concannon at the request of the Special Committee, in response to concerns raised by committee member Jonathan Delagrave regarding federal regulations limiting agencies' ability to report a household's lack of utilization of Food Share benefits to a child protective agency.

Finally, the Special Committee discussed Memo No. 6, *Options for Committee Discussion*. Specific options discussed included the addition of mechanisms to develop more accurate profiles of fraud-prone participants; the correction of inconsistencies with regard to sanctions; and the development of a system to identify red flags to improve system integrity in the Food Share program. The Special Committee agreed that the Drafting Subcommittee could incorporate some of the proposals in a revision of ch. 49, Stats., and that other proposals might be incorporated into a possible pilot program for regional consortia.

At the <u>November 16, 2010 meeting</u>, the Special Committee discussed several options for potential committee recommendation. First, the Special Committee discussed an option to form multicounty consortia to conduct fraud prevention and detection activities. Next, the Special Committee discussed the possibility of creating a state-level office to oversee fraud prevention and detection activities. Committee members raised questions regarding where such an office might be housed and whether DOJ's existing prosecutorial authority needs to be extended.

The Special Committee also discussed a need to increase the amount of training provided to county program administrators to investigate fraud and requested a bill draft addressing that issue.

The Special Committee then discussed concerns regarding the suspension of payments made to child care providers if there is reason to suspect they have violated a statute or rule related to the Wisconsin Shares program. There was consensus to consider a draft placing a 30-day time limit on the suspension of payments on that basis.

Next, the Special Committee discussed statutory authority related to the waiver of recovery of overpayments in the Wisconsin Shares program. The committee directed Legislative Council staff to prepare draft language to codify current administrative rules allowing agencies to waive overpayment recovery and require a waiver if a provider provides a service due to incorrect information from an agency.

In addition, the Special Committee requested a bill draft to require public assistance recipients to take an oath or an affirmation that an applicant's information is accurate and true when applying for public assistance.

Next, the Special Committee directed staff to prepare letters from the committee to DHS and DCF to recommend that both agencies improve training and information-sharing to better detect or prevent fraud.

Finally, the Special Committee reviewed the progress of the Drafting Subcommittee, including numerous technical revisions recommended by the subcommittee in consultation with DCF and DHS. In addition, the committee reviewed several changes presented by the Drafting Subcommittee that could be construed as substantive in nature. There was consensus to draft legislation to permit DCF to recover overpayments made in the emergency assistance program. In addition, the Special Committee requested drafts to require attendance records kept by child care providers participating in Wisconsin Shares to be accurate and kept on the premises and to exempt caretaker supplement payments from execution, garnishment, and attachment.

At the <u>December 14, 2010</u> meeting, the Special Committee reviewed 11 bill drafts, several draft letters, and a proposal to establish an office of inspector general in the Department of Administration (DOA). At the meeting, the Special Committee preliminarily approved the following bill drafts:

- WLC: 0028/1, a bill draft that had been reviewed by the Drafting Subcommittee. The committee members generally approved the bill draft but directed Legislative Council staff to consult with DCF regarding two minor outstanding issues.
- WLC: 0029/1, which requires child care providers to maintain accurate written records, on the provider's premises, of the daily hours of attendance for each child for whom a provider provides care under the Wisconsin Shares program.
- WLC: 0032/1, which would require DCF to recover overpayments made under the emergency assistance for families with needy children program.
- WLC: 0035/1, which would place a time limitation on DCF's authority to temporarily suspend payments to child care providers based on the department's reasonable suspicion that a provider has violated a statutory provision or administrative rule. The consensus of the committee was that the draft language should be modified to require the department, within a 30-day period, to either rescind the suspension of payments to child care providers or initiate a permanent suspension of such payments.
- WLC: 0036/1, which requires DHS to promulgate rules related to the training of county and W-2 agency employees in fraud prevention and investigation, error reduction, and related activities.
- WLC: 0047/1, which amends and clarifies the process for the denial of benefits based on a determination that an individual intentionally violated a statutory provision or rule related to W-2 or the emergency assistance program on three separate occasions and creates consequences for first and second intentional program violations.
- WLC: 0048/1, which requires administering departments to promulgate rules governing affirmation of statements made in applications for any aid or benefit under ch. 49, Stats.
- WLC: 0049/1, which adds payments made to custodial parents receiving supplemental security income to the list of payments and benefits exempt from levy, attachment, garnishment, and specified other methods of execution.

The Special Committee also reviewed WLC: 0051/1, which provides statutory standards governing DCF's waiver of the recovery of overpayments made under the W-2 and Aid to Families with Dependent Children programs. The committee determined that Legislative Council staff should work with the department to ensure that the bill draft would not jeopardize overpayment recovery efforts.

In addition, the committee discussed a proposal to establish a new entity within DOA that would oversee program integrity activities throughout the state.

The Special Committee also discussed WLC: 0033/1, which directs DHS to establish a four-year pilot program for the formation of consortia comprised of multiple counties or tribal governing bodies.

The Special Committee approved a draft letter addressed to the Co-Chairs-elect of the Joint Legislative Audit Committee, which requests, that the Joint Legislative Audit Committee direct the LAB to conduct a series of reviews of recipient fraud in Wisconsin's public assistance programs.

The Special Committee also approved draft letters, addressed to the Secretaries of DHS and DCF, which recommend that the respective department collaborate with other agencies to facilitate information sharing; conduct a review of formats prone to error; focus on front-end verification in addition to fraud investigation; and increase the amount of training provided to local agency staff.

Finally, the Special Committee reviewed WLC: 0034/1, which authorizes DOJ to prosecute crimes related to programs under ch. 49, Stats., and increases an appropriation to provide DOJ with

one additional full-time equivalent position. The committee directed Legislative Council staff to confirm that the bill draft retains concurrent jurisdiction for district attorney offices.

This was the final meeting of the Special Committee.

The Special Committee formed a Drafting Subcommittee, which met two times, on October 20, 2010 and November 10, 2010.

The Drafting Subcommittee was directed to review the provisions of ch. 49, Stats., Public Assistance and Children and Family Services, relating to fraud investigation, identification and collection of benefit overpayments, sanctions for program violations, and the procedures for imposing and appealing sanctions; make recommendations to recodify these provisions; and consider whether sections of the chapter should be reorganized. It was comprised of the following committee members: Representative Kelda Roys, and public members David Feiss, Hal Menendez, Jonathan Delagrave, and LaTonya Johnson. Various representatives from DCF and DHS also attended the meetings of the Drafting Subcommittee.

At its meetings, the Drafting Subcommittee reviewed proposals and bill drafts relating to the recodification of ch. 49, Stats.; updating terminology to reflect changes to the federal Supplemental Nutrition Assistance Program; the revision of criminal penalties for public assistance violations; and terms defined in ch. 49, Stats. It solicited feedback from DHS and DCF throughout its deliberations.

An update regarding the work of the Drafting Subcommittee was presented to the Special Committee at the Special Committee's November 16, 2010 meeting. Memo No. 8, *Update on the Drafting Subcommittee of the Special Committee on Public Assistance Program Integrity*, presented by Legislative Council staff, detailed the bill drafts reviewed by the subcommittee, including several proposals that entailed program changes recommended by the departments or that were otherwise substantive in nature.

PART III

RECOMMENDATION INTRODUCED BY THE JOINT LEGISLATIVE COUNCIL

This part of the report provides background information on, and a description of, the bill draft as recommended by the Special Committee on Public Assistance Program Integrity

The Special Committee was directed to: study current laws, rules, and policies relating to fraud prevention, detection, investigation, and prosecution, and the current fraud penalty structure, in public assistance programs under ch. 49, Stats. The study was required to include consideration of all of the following: (a) the findings and recommendations of recent Legislative Audit Bureau audits of the Wisconsin Shares child care subsidy program and child care regulation in Wisconsin, and implementation of those recommendations; (b) whether current fraud provisions in ch. 49 should be recodified, streamlined, and made uniform throughout the chapter; (c) the effectiveness of current prohibitions and investigatory and enforcement mechanisms; (d) whether current penalties and associated consequences of a finding of public assistance fraud achieve the goals of fraud prevention and deterrence; (e) incentives for fraud detection by entities administering public assistance programs; (f) whether eligibility provisions in certain public assistance programs increase the likelihood of fraudulent activity; and (g) funding for fraud prevention, detection, investigation, and enforcement at the state and local level.

WLC: 0106/1, Relating to Reorganization of Ch. 49 and Changes Affecting Public Assistance Programs

Background

Reorganization of Ch. 49

Concerns were raised by committee members that ch. 49, Stats., is difficult to navigate as currently organized. In addition, committee members suggested that awareness among law enforcement of public assistance offenses may increase if offenses are placed in the Criminal Code.

Penalty Structure for Intentional Program Violations

Under current law, if a court finds or it is determined after an administrative hearing that a person has intentionally violated, on three separate occasions, any statute or rules governing the W-2 program, a W-2 agency may permanently deny the individual W-2 benefits. No current penalties are imposed under current law for first and second intentional program violations.

Testimony to the committee indicated that there is confusion relating to findings that there has been an intentional program violation. In addition, committee members discussed the possible effectiveness of graduated sanctions.

Emergency Assistance Program Overpayments

Under current law, DCF and DHS are statutorily obligated to recover overpayments made to participants through various public assistance programs. No statutory authority exists under current law to collect overpayments made in the Emergency Assistance for Families with Needy Children program.

Suspension of Payments to Child Care Providers Based on Reasonable Suspicion

Under current law, DCF is authorized to suspend payments to child care providers based on the department's reasonable suspicion that the provider has violated any provision of the statute governing the Wisconsin Shares program, or any rule promulgated to implement the program. Current law does not specify the length of time that the department may suspend payments on that basis.

Under a separate provision, DCF is required to promulgate rules to establish policies and procedures permitting DCF to withhold payments from a child care provider if the provider is found to have submitted false, misleading, or irregular information to DCF or to have failed to comply with the terms of the Wisconsin Shares program and fails to provide an explanation for the noncompliance to the satisfaction of the department.

In addition, if a court finds or if it is determined after an administrative hearing that an individual who is receiving or has received a child care subsidy under the Wisconsin Shares program has violated any provision of the Wisconsin Shares law or rule promulgated under the Wisconsin Shares program, the individual is ineligible to receive a child care subsidy for up to five years, beginning on the date of the judgment or decision.

Concerns were raised to the committee that a child care provider could have his or her license indefinitely suspended based on a reasonable suspicion, but no finding, of a violation.

Oath Requirement for Applicants

Under current law, any person who makes any statement in a written application for aid under ch. 49, Stats., is considered to have made an admission as to the existence, correctness, or validity of any fact stated. This admission may be used in an enforcement action under ch. 49. Applicants for public assistance are not currently required to affirmatively verify the information on an application by oath or affirmation.

Attendance Records Maintained by Child Care Providers

Under current law, a child care provider who provides care for children eligible for the Wisconsin Shares child care subsidy program must maintain attendance records. Specifically, the child care provider must maintain a written record of the daily hours of attendance of each child for whom the provider is providing care under Wisconsin Shares, including the actual arrival and departure times for each child. In addition, such a provider must retain these records for each child for at least three years after the child's last day of attendance, regardless of whether the child care provider is still receiving or eligible to receive payments under Wisconsin Shares.

There was testimony to the committee that the fact that current law does not specify where such records must be maintained has been problematic for enforcement efforts.

Payments Made to Custodial Parents Exempt from Taxation

Under current law, payments made under numerous public assistance programs are exempt from every tax, and from execution, garnishment, attachment, and every other process and shall be inalienable.

Committee members discussed that payments made to custodial parents of supplemental security income recipients are not currently covered by that exemption.

Description

WLC: 0106/1 is a consolidated bill draft, which includes several proposals approved by the Special Committee.

Reorganization of Ch. 49, Stats.

The bill draft reorganizes ch. 49, Stats., which includes the statutes governing public assistance programs and children and family services. Under the bill draft, the chapter is divided into the following six subchapters:

Subchapter I – General Provisions.

Subchapter II – Children and Families; Wisconsin Works, Aid to Families, and Child Care Subsidy.

Subchapter III – Children and Families; Other Support Services.

Subchapter IV - Health; Medical Assistance.

Subchapter V – Health; Other Support and Medical Programs and Relief Block Grants.

Subchapter VI - Children and Families; Child Support.

The bill draft also reorganizes current definitions within ch. 49, Stats., to remove duplication and place definitions in the sections in which they are used or at the beginning of the chapter if they are used throughout the chapter.

Terms defined in the section providing general chapter definitions, s. 49.001, are retained there only if they are used throughout the chapter. If terms appear in only one or two sections of the chapter, the bill draft moves them to ensure that they are located in the subchapters or sections in which the terms are used.

Cross references are updated throughout the chapter to reflect the reorganization.

<u>Placement of Criminal Provisions in Criminal Code</u>

The bill draft moves several provisions of ch. 49, Stats., that are offenses with criminal penalties to ch. 946, Stats., of the Criminal Code, relating to crimes against government and its administration. Specifically, the bill draft creates four new criminal offenses in ch. 946: W-2 fraud, MA fraud, food stamp fraud, and public assistance fraud.

<u>Definition and Penalty Structure for Intentional Program Violations</u>

The bill draft creates a definition for the term "intentional program violation," which is not currently defined in ch. 49, Stats. The bill draft also clarifies that a W-2 agency determines whether a person has intentionally violated a provision of the W-2 program and includes emergency assistance in the list of programs to which the provision applies; creates sanctions for first and second intentional program violations; and provides an opportunity for a person to have a determination of each intentional program violation reviewed.

Recovery of Emergency Assistance Program Overpayments

The bill draft requires DCF to recover overpayments made under the Emergency Assistance for Families with Needy Children program. Under the bill draft, the amount recovered may not exceed the amount of emergency assistance paid. The bill draft requires DCF to promulgate rules to implement the provision.

Waiver of Overpayment Recovery

The bill draft requires DCF to waive recovery of incorrect payments to a child care provider if the child care provided services in reliance on incorrect information provided to the child care provider by a county department or an agency with which DCF contracts.

Suspension of Payments to Child Care Providers Based on Reasonable Suspicion

The bill draft establishes a time limitation for DCF's authority to suspend payments to child care providers based solely on reasonable suspicion that a provider has violated the program statute or rules. The bill draft preserves the department's authority to suspend payments based on that basis but requires the department to either rescind the suspension of payments or initiate an action for permanent suspension of payments within 30 working days after an initial suspension on the basis of reasonable suspicion.

Oath Requirement for Applicants

Under the bill draft, an employee who accepts an application for aid or a benefit has the authority to administer an oath to the applicant that the information given is true and correct to the best of the applicant's knowledge. The bill draft also requires DCF and DHS to promulgate rules requiring that information provided by an applicant for any aid or benefit under ch. 49, Stats., must be sworn to or otherwise affirmed as being true and correct to the best of the applicant's knowledge.

Attendance Records Maintained by Child Care Providers

The bill draft requires a child care provider who provides care for children who are eligible for the Wisconsin Shares child care subsidy program to maintain an accurate written record of the daily hours of attendance for each child for whom the provider is providing care under Wisconsin Shares. In addition, under the bill draft, the attendance records must be kept on the premises where child care is provided.

DHS Required to Provide Training

The bill draft requires DHS, in consultation with DCF, to provide training related to program integrity to county and W-2 agency employees who administer programs under ch. 49, Stats.

Payments Made to Custodial Parents Exempt from Taxation

The bill draft adds payments made to custodial parents of supplemental security income recipients to the list of payments and benefits that are exempt from taxation, execution, garnishment, attachment, and other processes.

Committee and Joint Legislative Council Votes

The following bill draft was recommended by the Special Committee on Public Assistance Program Integrity to the Joint Legislative Council for introduction in the 2011-12 Session of the Legislature.

Special Committee Vote

The Special Committee voted to recommend the following bill draft to the Joint Legislative Council for introduction in the 2011-12 Session of the Legislature. The vote on the bill draft is as follows:

• WLC: 0106/1, relating to reorganization of ch. 49 and changes affecting public assistance programs, on a vote of Ayes, 8 (Sens. Darling and Jauch; Reps. Hintz and Roys; and Public Members Cook, Feiss, Menendez, and Struck); Noes, 1 (Public Member Irvin-Vitela); and Not Voting, 3 (Public Members Basiliere, Delagrave, and Johnson).

STUDY ASSIGNMENT: The Special Committee is directed to study current laws, rules, and policies relating to fraud prevention, detection, investigation, and prosecution, and the current fraud penalty structure, in public assistance programs under ch. 49, Stats. The study shall include consideration of all of the following: (a) the findings and recommendations of recent Legislative Audit Bureau audits of the Wisconsin Shares child care subsidy program and child care regulation in Wisconsin, and implementation of those recommendations; (b) whether current fraud provisions in ch. 49 should be recodified, streamlined, and made uniform throughout the chapter; (c) the effectiveness of current prohibitions and investigatory and enforcement mechanisms; (d) whether current penalties and associated consequences of a finding of public assistance fraud achieve the goals of fraud prevention and deterrence; (e) incentives for fraud detection by entities administering public assistance programs; (f) whether eligibility provisions in certain public assistance programs increase the likelihood of fraudulent activity; and (g) funding for fraud prevention, detection, investigation, and enforcement at the state and local level.

12 MEMBERS: 2 Senators; 2 Representatives; and 8 Public Members.

LEGISLATIVE COUNCIL STAFF: Anne Sappenfield and Pam Shannon, Senior Staff Attorneys; Anna Henning, Staff Attorney; and Tracey Young, Support Staff.
