

## Youth Options Enrollment and Credit History

The chart below shows the duplicated count of students who enrolled in Youth Options courses during the indicated years as well as the average credits for each course taken through Youth Options. The information is disaggregated by the three college systems – Wisconsin Technical College System, University of Wisconsin (including the two year centers), and Wisconsin private colleges and universities.

As noted, these are duplicated counts. In other words, each student counted below represents a student who enrolled in a specific college course through Youth Options during the indicated year. A student who took more than one college course through Youth Options would count as a separate student for each course taken. Because many students take more than one Youth Options course, the total number of students enrolling in Youth Options is actually less than the numbers in the chart below. The data does not provide the ability to determine the unduplicated number of students who enrolled in Youth Options.

Year	Students	Avg. Credits	WTCS		UW		Private	
			Students	Credits	Students	Credits	Students	Credits
2011	8,574	2.94	5,365	2.76	2,803	3.15	406	3.3
2010	7,717	2.89	5,146	2.73	2,198	3.14	373	3.14
2009	7,967	2.94	5,300	2.77	2,314	3.21	353	3.29
2008	7,435	2.90	4,974	2.71	2,129	3.18	332	3.39
2007	7,149	2.91	4,778	2.71	1,926	3.16	445	3.4
2006	7,508	2.90	5,158	2.68	1,865	3.23	485	3.31
2005	8,581	2.90	6,153	2.71	1,922	3.22	506	3.37
2004	8,748	2.86	6,231	2.68	1,892	3.16	625	3.44
2003	5,599	2.93	3,692	2.79	1,467	3.13	440	3.19
