PART I

KEY PROVISIONS OF COMMITTEE RECOMMENDATIONS

The Special Committee on Improving Educational Opportunities in High School recommends the following bill drafts to the Joint Legislative Council for introduction in the 2013-14 Session of the Legislature.

WLC: 0054/2, RELATING TO ACADEMIC AND CAREER PLANS

WLC: 0054/2 requires each school board and each operator of a charter school established by the City of Milwaukee, University of Wisconsin (UW)-Milwaukee, UW-Parkside, or Milwaukee Area Technical College (MATC) to provide access to an academic and career plan for each pupil beginning in grade six until the completion of grade 12. The requirement begins in the 2018-19 school year.

WLC: 0054/2 requires the State Superintendent of Public Instruction to promulgate rules establishing procedures for the use of academic and career plans. The rules must also prescribe the form and content of the plans and a mechanism for school districts to demonstrate compliance. Lastly, the draft requires the Department of Public Instruction (DPI) to include an appropriation in its 2015-17 budget request that requests aid to schools to implement the use of academic and career plans.

WLC: 0056/2, RELATING TO PUPIL ASSESSMENTS

Current law requires the State Superintendent of Public Instruction to adopt or approve examinations designed to measure pupil attainment of knowledge and concepts in the 4th, 8th, and 10th grades. The State Superintendent has adopted the Wisconsin Knowledge and Concepts Examinations (WKCE) to meet this requirement.

Annually, each school board must administer the 4th, 8th, and 10th grade WKCE. Current law alternatively permits school boards to administer examinations in those grades that have been developed or adopted by the school board. The school district must also administer the WKCE to pupils in charter schools located in the school district.

Under current law, each operator of a charter school established by the City of Milwaukee, UW-Milwaukee, UW-Parkside, or MATC District Board must annually administer 4th, 8th, and 10th grade examinations. For the 4th and 8th grade examinations, a charter school may administer the WKCE or an examination the operator of the charter school has developed or adopted on its own.

A school board or an operator of a charter school established by the City of Milwaukee, UW-Madison, UW-Parkside, or MATC is not required to administer the 4th and 8th grade WKCE if: (a) the school board or operator of the charter school administers its own 4th and 8th grade examinations; (b) the school board or operator of the charter school provides the State

Superintendent with statistical correlations of those examinations with the WKCE; and (c) the federal Department of Education approves administration of the alternative examination.

Current law requires that each private school participating in the Milwaukee Parental Choice Program (MPCP) or the Racine Parental Private School Choice Program (PPSCP) must administer the 4th, 8th, and 10th grade WKCE examinations.

WLC: 0056/2 requires the State Superintendent of Public Instruction to adopt or approve examinations designed to measure pupil attainment of knowledge and concepts in 9th and 11th grades. The draft specifies that examinations adopted or approved for 9th, 10th, and 11th grades must include examinations offered by ACT, Inc.

WLC: 0056/2 also requires each school board; operator of a charter school established by the City of Milwaukee, UW-Milwaukee, UW-Parkside, or MATC; and governing body of a private school participating in the MPCP or the Racine PPSCP to annually administer the 9th and 11th grade examinations offered by ACT, Inc. that are approved or adopted by the State Superintendent to all pupils enrolled in 9th or 11th grades. The 9th grade examination offered by ACT, Inc. must be administered within the first 30 days of the school year.

WLC: 0056/2 appropriates general purpose revenue for fiscal years 2013-14 and 2014-15 in order for DPI to implement the ACT, Inc. examinations statewide.

WLC: 0056/2 specifies that if DPI requires the ACT series of examinations to be offered in 9th, 10th, and 11th grades, five years after those examinations are implemented DPI must submit a report to the appropriate legislative standing committees and the Joint Committee on Finance that evaluates the advantages and disadvantages of continuing to offer the ACT series of examinations and recommends any legislation regarding pupil assessments that DPI determines is necessary.

WLC: 0059/2, RELATING TO THE YOUTH OPTIONS PROGRAM

Under the Youth Options program, any pupil enrolled in the 11th or 12th grade who satisfies certain requirements may attend a post-secondary institution in Wisconsin for the purpose of taking a course or courses for high school and post-secondary credit. For purposes of the program, post-secondary institutions are any Wisconsin Technical College System (WTCS) campus, UW-System institution, Wisconsin tribally controlled college, or Wisconsin private, nonprofit institution of higher education.

In order to attend the UW, a tribally controlled college, or a private college, a pupil must apply to the university or college in the school semester prior to the one in which the student plans to take the post-secondary course. The pupil must also notify the school board of the pupil's intention to enroll in a post-secondary institution, the titles of the courses in which the pupil intends to enroll, the number of credits of each course, and whether the pupil will be taking the course for high school or post-secondary credit. A university or college may admit a pupil under the Youth Options program only if space is available.

In order to attend a technical college, in addition to applying to the technical college and notifying the school board, a pupil must have completed the 10th grade, be in good academic standing, and not qualify as a child at risk.

If the pupil wants to take a course for high school and post-secondary credit, the school board must determine whether the course is comparable to a course offered in the school district, whether the course satisfies any of the high school graduation requirements, and the number of high school credits to award the pupil for the course, if any. The school board must pay for any course taken at a post-secondary institution or technical college that is taken for high school credit and that is not comparable to a course offered in the school district.

WLC: 0059/2 requires that, beginning in the 2019-2020 school year, a pupil's notification to the school board of the pupil's intention to enroll in a post-secondary institution or technical college must include a description of how the courses in which the pupil intends to enroll relate to the pupil's academic and career plan. The 2019-2020 school year is one year after the requirement that all students have an academic and career plan becomes effective under WLC: 0054/2.

WLC: 0060/2, RELATING TO THE NUMBER OF MATHEMATICS AND SCIENCE CREDITS REQUIRED FOR A HIGH SCHOOL DIPLOMA

Under current law, a school board may not grant a high school diploma to any student unless the student has earned all of the following minimum credits in the high school grades: four credits of English; three credits of social studies; two credits of mathematics; two credits of science; and one and one-half credits of physical education. Current law also requires the completion of one-half credit of health education in grades 7 to 12 to earn a high school diploma.

WLC: 0060/2 increases the required credits in mathematics and science to three.

OTHER RECOMMENDATIONS

The Special Committee on Improving Educational Opportunities in High School submitted letters with nonlegislative recommendations to the following recipients:

- Governor Scott Walker, regarding the proposed Career and Technical Education Grant Program and the ACT Suite and WorkKeys.
- State Superintendent of Public Instruction Tony Evers, regarding outreach about career and technical education and post-secondary enrollment, the ACT Suite and WorkKeys, the 10th grade science assessment, alternative pathways to teacher licensure, high school credit flexibility and earning high school credit by demonstrating competencies, and incorporating core abilities into high school assessment.
- Secretary Reggie Newson, Department of Workforce Development (DWD), regarding outreach to businesses regarding opportunities to mentor and provide career and technical education to high school students, creating an online resource about career

and technical education programs for high school students, and facilitating communication and coordination regarding programs and options available to high school students.

- Joint Committee on Audit Co-Chairs, requesting an audit of work-based learning programs available to high school students and an audit of programs that offer post-secondary credits to high school students.
- Joint Legislative Council Co-Chairs, requesting Special Committees in the 2014 interim to review the 20 education standards and educator preparation programs.
- Kevin Reilly, President, UW System and Rolf Wegenke, President, Wisconsin Association of Independent Colleges and Universities, requesting a review of educator preparation programs, to ensure the programs include instruction in 21st Century skills.
- John Ashley, Executive Director, Wisconsin Association of School Boards, regarding opportunities to partner with other entities to increase the availability of technical education in high school.
- Kathleen Cullen, Vice President, WTCS, encouraging WTCS to increase the availability of online resources, seek additional funding to provide more online courses and work with school districts in order to provide high school students greater access to online courses.
- Thomas Eckert, Blackhawk Technical College, requesting that a task force be created to coordinate information and resources regarding work-based learning, career opportunities, and post-secondary options for high school students. [A copy of this letter was sent to each Technical College President.]
- Jim Rickabaugh, CESA 1, encouraging the CESA to increase efforts to facilitate communication among school districts and post-secondary institutions regarding technical education opportunities for high school students and explore ways for the CESA to offer technical education courses to high school students. [A copy of this letter was sent to each CESA.]

PART II

COMMITTEE ACTIVITY

ASSIGNMENT

The Joint Legislative Council established the Special Committee on Improving Educational Opportunities in High School and appointed the chairperson by an April 24, 2012 mail ballot. The committee was directed develop legislation to create and enhance opportunities for both lower and higher achieving students in high school. The committee shall: evaluate current options available to high school students for both career and technical education and post-secondary enrollment, including the Youth Options Program; examine both career and technical education and post-secondary enrollment options available to high school students in other states; and determine how to promote coordination between high schools, technical colleges, universities, and employers to ensure that high school students have the skills necessary to meet the workforce needs of employers in this state.

Membership of the Special Committee was appointed by a May 31, 2012 mail ballot. The final committee membership consisted of four Senators, one Representative, and 14 public members. A list of committee members is included as *Appendix 3* to this report.

SUMMARY OF MEETINGS

The Special Committee held six meetings on the following dates:

July 16, 2012

August 20, 2012

September 13, 2012

October 24, 2012

November 19, 2012

December 17, 2012

At the July 16, 2012 meeting, the Special Committee received testimony from several invited speakers on the workforce in Wisconsin. Testimony included information on the skills gap in Wisconsin, changes in workforce skills, and the preparation of the workforce. The speakers were: Dennis Winters, Chief Economist, DWD; Jim Morgan, Vice President, Wisconsin Manufacturers and Commerce; Tim Sullivan, Special Consultant for Business and Workforce Development to Governor Walker; and Melanie Holmes, Vice President, World of Work Solutions, ManpowerGroup.

At the August 20, 2012 meeting, the Special Committee received testimony from several invited speakers on high school education in Wisconsin. Testimony included information on requirements for high school graduation, alternatives available to high school pupils, the

Education for Employment Program, and career and technical education. The speakers were: Beth Lewis, Alternative Education and GED/HSED Administrator, DPI; Sharon Wendt, Director, Career and Technical Education, DPI; Patricia Deklotz, Superintendent, Kettle Moraine School District; Stephanie Borowski, President, Second Chance Partners for Education; Michael Shiels, Dean, Industrial and Engineering Technologies Division, Waukesha County Technical College; Tania Kilpatrick, Career and Technical Education Coordinator, CESA 6; and Bill Fitzpatrick, Superintendent, New London School District.

At the September 13, 2012 meeting, the Special Committee received testimony from several invited speakers on academic and career plans, the Youth Options Program, work-based learning programs, and other educational opportunities available to high school pupils. The speakers were: Lori Peacock, Career/Technical Education and Counseling Coordinator, Green Bay Area Public School District; Steve Schneider, School Counselor, Sheboygan South High School; S. Mark Tyler, President, OEM Fabricators, Inc.; Randy Guttenberg, Superintendent of Schools, Waunakee Community School District; Timothy Schell, Director of Curriculum and Instruction, Waunakee Community School District; Joe Gothard, Assistant Superintendent, Secondary Education, Madison Metropolitan School District (MMSD); Tim Casper, Public Affairs and Government Relations Officer, Madison College; Sharon Wendt, Director, Career and Technical Education, DPI; Sara Baird, Education Consultant, DPI; Robin Kroyer-Kubicek, Youth Apprenticeship Curriculum Coordinator, CESA 6; and Cathy Crary, Youth and Projects Unit Supervisor, DWD.

At the October 24, 2012 meeting, the Special Committee received testimony from several invited speakers on core abilities, EXPLORE PLAN ACT, and new requirements for school districts. The speakers were: Mary Diez, Professor of Education and Dean of the School of Education, Alverno College; Patricia Hoben, Principal, Carmen High School of Science and Technology; Paul Brost, Principal, Monona Grove High School; Andrew Briddell, Director of Instruction, Monona Grove School District; Nicole North Hester, Science Teacher/Instructional Coach, Monona Grove High School; Len Mormino, School Counselor, James Madison Memorial High School; Miles Tokheim, Career and Technical Education Coordinator, MMSD; Erica Kruger, Program Support Counselor, MMSD; Joe Garza, Superintendent, New Berlin School District; Dr. Eileen Depka, Director of Curriculum and Instruction, New Berlin School District; Mary Washburn, Director of Teaching and Learning, New Berlin School District; Michelle Schwab, Director of Educator Effectiveness, New Berlin School District; Larry Lueck, Director of Learning Technology, New Berlin School District; and Joan Paque, Chief Academic Officer, New Berlin School District. The committee also discussed issues and options for further consideration by the committee.

At the November 19, 2012 meeting, the Special Committee received testimony from invited speakers on students with disabilities and technical education. The speakers were: Beth Swedeen, Executive Director, Wisconsin Board for People with Developmental Disabilities; and James Golembeski, Executive Director, Bay Area Workforce Development Board. The committee also discussed potential recommendations for committee action and requested the preparation of bill drafts and draft letters to certain agencies and individuals.

At the December 17, 2012 meeting, the Special Committee reviewed and discussed the following bill drafts:

- WLC: 0052/1, relating to the number of English, mathematics, and science credits required for a high school diploma and making an appropriation.
- WLC: 0060/1, relating to the number of mathematics and science credits required for a high school diploma and making an appropriation.
- WLC: 0054/1, relating to academic and career plans.
- WLC: 0056/1, relating to pupil assessments and making an appropriation.
- WLC: 0062/1, relating to pupil assessments and making an appropriation.
- WLC: 0059/1, relating to the youth options program and making an appropriation.

In addition, the committee reviewed and discussed draft letters, including letters relating to the ACT Suite, assessments, alternative pathways to licensure, audit requests, awareness of information and resources, competency and core abilities, educator preparation programs, 20 education standards, technical education, and platforms for communication and coordination. The committee also discussed the Youth Apprenticeship Program.

PART III

RECOMMENDATIONS INTRODUCED BY THE JOINT LEGISLATIVE COUNCIL

WLC: 0054/2, RELATING TO ACADEMIC AND CAREER PLANS

Background

Current law does not require school districts to provide access to an academic and career plan for each pupil.

The committee received testimony on academic and career plans being used by the Green Bay School District and Sheboygan South High School, also known as individual graduation plans or individual learning plans. The use of academic and career plans was also recommended in “The Road Ahead: Restoring Wisconsin’s Workforce Development,” the report prepared by Tim Sullivan for Governor Scott Walker. The committee recommended that school districts be required to provide access to an academic and career plan for each pupil beginning in 6th grade.

Description

WLC: 0054/2 requires each school board and each operator of a charter school established by the City of Milwaukee, UW-Milwaukee, UW-Parkside, or MATC to provide access to an academic and career plan for each pupil beginning in 6th grade until the completion of 12th grade. The requirement begins in the 2018-19 school year.

WLC: 0054/2 requires the State Superintendent of Public Instruction to promulgate rules establishing procedures for the use of academic and career plans. The rules must also prescribe the form and content of the plans and a mechanism for school districts to demonstrate compliance. Lastly, the draft requires DPI to include an appropriation in its 2015-17 budget request that requests aid to schools to implement the use of academic and career plans.

WLC: 0056/2, RELATING TO PUPIL ASSESSMENTS

Background

Current law requires the State Superintendent of Public Instruction to adopt or approve examinations designed to measure pupil attainment of knowledge and concepts in the 4th, 8th, and 10th grades. The State Superintendent has adopted the WKCE to meet this requirement.

Annually, each school board must administer the 4th, 8th, and 10th grade WKCE. Current law alternatively permits school boards to administer examinations in those grades that have been developed or adopted by the school board. The school district must also administer the WKCE to pupils in charter schools located in the school district.

Under current law, each operator of a charter school established by the City of Milwaukee, UW-Milwaukee, UW-Parkside, or MATC District Board must annually administer 4th, 8th, and 10th grade examinations. For the 4th and 8th grade examinations, a charter school may administer the WKCE or an examination the operator of the charter school has developed or adopted on its own.

A school board or an operator of a charter school established by the City of Milwaukee, UW-Madison, UW-Parkside, or MATC is not required to administer the 4th and 8th grade WKCE if: (a) the school board or operator of the charter school administers its own 4th and 8th grade examinations; (b) the school board or operator of the charter school provides the State Superintendent with statistical correlations of those examinations with the WKCE; and (c) the federal Department of Education approves administration of the alternative examination.

Current law requires that each private school participating in the MPCP or the Racine PPSCP must administer the 4th, 8th, and 10th grade WKCE examinations.

The committee received testimony on the EXPLORE PLAN ACT (ACT Suite) and WorkKeys. The EXPLORE test assesses a pupil's strengths and weaknesses in academics and potential career options; the PLAN test assesses a pupil's academic progress in high school and assists with college and career planning; the ACT test is a college entrance exam; and WorkKeys assesses job skills. Under its 2013-15 budget proposal, DPI would require 9th grade pupils to take EXPLORE, 10th grade pupils to PLAN, and 11th grade pupils to take ACT and WorkKeys. The committee recommended adopting DPI's proposal regarding the ACT Suite and WorkKeys but also recommended specifying that EXPLORE be taken at the beginning of 9th grade.

Description

WLC: 0056/2 requires the State Superintendent of Public Instruction to adopt or approve examinations designed to measure pupil attainment of knowledge and concepts in 9th and 11th grades. The draft specifies that examinations adopted or approved for 9th, 10th, and 11th grades must include examinations offered by ACT, Inc.

WLC: 0056/2 also requires each school board; operator of a charter school established by the City of Milwaukee, UW-Milwaukee, UW-Parkside, or MATC; and governing body of a private school participating in the MPCP or the Racine PPSCP to annually administer the 9th grade and 11th grade examinations offered by ACT, Inc. that are approved or adopted by the State Superintendent to all pupils enrolled in 9th or 11th grades. The 9th grade examination offered by ACT, Inc. must be administered within the first 30 days of the school year.

WLC: 0056/2 appropriates general purpose revenue for fiscal years 2013-14 and 2014-15 in order for DPI to implement the ACT, Inc. examinations statewide.

WLC: 0056/2 specifies that if DPI requires the ACT series of examinations to be offered in 9th, 10th, and 11th grades, five years after those examinations are implemented DPI must submit a report to the appropriate legislative standing committees and the Joint Committee on Finance that evaluates the advantages and disadvantages of continuing to offer the ACT series of examinations and recommends any legislation regarding pupil assessments that DPI determines is necessary.

WLC: 0059/2, RELATING TO THE YOUTH OPTIONS PROGRAM

Background

Under the Youth Options program, any pupil enrolled in the 11th or 12th grade who satisfies certain requirements may attend a post-secondary institution in Wisconsin for the purpose of taking a course or courses for high school and post-secondary credit. For purposes of the program, post-secondary institutions are any WTCS campus, UW System institution, Wisconsin tribally controlled college, or Wisconsin private, nonprofit institution of higher education.

In order to attend the UW, a tribally controlled college, or a private college, a pupil must apply to the university or college in the school semester prior to the one in which the student plans to take the post-secondary course. The pupil must also notify the school board of the pupil's intention to enroll in a post-secondary institution, the titles of the courses in which the pupil intends to enroll, the number of credits of each course, and whether the pupil will be taking the course for high school or post-secondary credit. A university or college may admit a pupil under the youth options program only if space is available.

In order to attend a technical college, in addition to applying to the technical college and notifying the school board, a pupil must have completed the 10th grade, be in good academic standing, and not qualify as a child at risk.

If the pupil wants to take a course for high school and post-secondary credit, the school board must determine whether the course is comparable to a course offered in the school district, whether the course satisfies any of the high school graduation requirements, and the number of high school credits to award the pupil for the course, if any. The school board must pay for any course taken at a post-secondary institution or technical college that is taken for high school credit and that is not comparable to a course offered in the school district.

The committee received testimony on the Youth Options program, including testimony on the costs to school districts to offer the program and the types of courses taken under the program. The committee recommended that a pupil participating in the program include in the notification to the school board a description of how each course in which the pupil intends to enroll relates to the pupil's academic and career plan.

Description

WLC: 0059/2 requires that, beginning in the 2019-2020 school year, a pupil's notification to the school board of the pupil's intention to enroll in a post-secondary institution or technical college must include a description of how the courses in which the pupil intends to enroll relate to the pupil's academic and career plan. The 2019-2020 school year is one year after the requirement that all students have an academic and career plan becomes effective under WLC: 0054/2.

WLC: 0060/2, RELATING TO THE NUMBER OF MATHEMATICS AND SCIENCE CREDITS REQUIRED FOR A HIGH SCHOOL DIPLOMA

Background

Under current law, a school board may not grant a high school diploma to any student unless the student has earned all of the following minimum credits in the high school grades: four credits of English; three credits of social studies; two credits of mathematics; two credits of science; and one and one-half credits of physical education. Current law also requires the completion of one-half credit of health education in grades 7 to 12 to earn a high school diploma.

The committee received testimony on the importance of instruction in mathematics and science to a pupil's college or career readiness. The committee recommended that a pupil be required to take three credits of mathematics and three credits of science in order to receive a high school diploma, and the committee discussed the importance of allowing courses in applied mathematics and science to count towards fulfilling the required number of credits.

Description

WLC: 0060/2 increases the required credits in mathematics and science to three.

APPENDIX 1

COMMITTEE AND JOINT LEGISLATIVE COUNCIL VOTES

The following drafts were recommended by the Special Committee on Improving Educational Opportunities in High School to the Joint Legislative Council for introduction in the 2013-2014 Session of the Legislature.

SPECIAL COMMITTEE VOTE

The Special Committee voted on the drafts as follows:

- WLC: 0054/2, relating to academic and career plans, passed by a vote of Ayes, 16 (Sens. Olsen, Farrow, and Cullen; Rep. Pope-Roberts; and Public Members Burgin, Fitzpatrick, Garza, Hein, Hoben, Kaiser, Kelley, Leef, Monday, Muir, Neudecker, and Ruhland); Noes, 2 (Sen. Grothman; and Public Member Hughes); and Not Voting, 1 (Public Member Tyler).
- WLC: 0056/2, relating to pupil assessments, passed by a vote of Ayes, 16 (Sens. Olsen, Farrow, and Cullen; Rep. Pope-Roberts; and Public Members Burgin, Fitzpatrick, Garza, Hoben, Hughes, Kaiser, Kelley, Leef, Monday, Muir, Neudecker, and Ruhland); Noes, 2 (Sen. Grothman; and Public Member Hein); and Not Voting, 1 (Public Member Tyler).
- WLC: 0059/2, relating to the youth options program, passed by a vote of Ayes, 13 (Sens. Olsen, Farrow, and Cullen; Rep. Pope-Roberts; and Public Members Burgin, Fitzpatrick, Garza, Kaiser, Kelley, Leef, Monday, Muir, and Neudecker); Noes, 5 (Sen. Grothman; and Public Members Hein, Hoben, Hughes, and Ruhland); and Not Voting, 1 (Public Member Tyler).
- WLC: 0060/2, relating to the number of mathematics and science credits required for a high school diploma, passed by a vote of Ayes, 13 (Sens. Olsen, Farrow, and Cullen; Rep. Pope-Roberts; and Public Members Garza, Hein, Hoben, Hughes, Kaiser, Kelley, Monday, Muir, and Neudecker); Noes, 5 (Sen. Grothman; and Public Members Burgin, Fitzpatrick, Leef, and Ruhland); and Not Voting, 1 (Public Member Tyler).

STUDY ASSIGNMENT: The Special Committee is directed to develop legislation to create and enhance opportunities for both lower and higher achieving students in high school. The committee shall: evaluate current options available to high school students for both career and technical education and post-secondary enrollment, including the Youth Options Program; examine both career and technical education and post-secondary enrollment options available to high school students in other states; and determine how to promote coordination between high schools, technical colleges, universities, and employers to ensure that high school students have the skills necessary to meet the workforce needs of employers in this state.

19 MEMBERS: 1 Representatives; 4 Senators; and 14 Public Members.

LEGISLATIVE COUNCIL STAFF: Jessica Karls-Ruplinger and Rachel Letzing, Senior Staff Attorneys; and Tracey Young, Support Staff.
