Subject: State Tribal Relations Study Topic's from Lac du Flambeau

Representative Mursau, I have contacted several tribal staff regarding potential topics and have the following responses which I will list below. Also, attached to this email is the Conservation Law Enforcement topics in a letter.

AODA/MH Program Directors Topics:

- *Tribes having their own certified/qualified tribal assessors
- *Tribes completing their own OWI assessments and recommendations back to tribal programs/resources
- *Introducing new cultural sensitive language into the WAIDE assessment tool used for individuals ticked with drunken driving violations

- *Obtaining funding sources for tribal IDP Programs

Conservation Law Topics: see attached letter

Law changes proposed or changed that affect Tribal Lands, Ceded Territories, and tribal resources including but not limited to mining.

I appreciate the opportunity to participate on the Committee.

Thank You.
