*The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:*

**JOINT LEGISLATIVE COUNCIL PREFATORY NOTE:** This draft was prepared for the Joint Legislative Council’s Study Committee on Adoption Disruption and Dissolution.

Under current law, information regarding a child who enters the child welfare system is recorded into the Wisconsin Statewide Automated Child Welfare Information System (eWiSACWIS). The system maintains information on all aspects of a child welfare case, including intake, assessment, case management, and court proceedings. Generally, information on whether a child is adopted is not recorded. However, federal law requires a report to the U.S. Department of Health and Human Services, Administration for Children and Families, on children who entered state custody after being adopted from another country.

This draft requires certain petitions and agreements related to the welfare of a child to state whether the child has previously been adopted. This information is required in all cases in which the adoption status is known or can be ascertained, and is required whether the adoption occurred in the United States or another country. The status information then becomes a part of the child’s case record, to track when a child who has previously been adopted is subject to proceedings under the child welfare system or juvenile justice system, or when an adoption is dissolved by a termination of parental rights. Recording of a child’s adoption status is not required for a child or juvenile who is held in custody for less than 48 hours (excluding weekends and legal holidays) and who is released to the parent, guardian, or legal custodian without a hearing.
