Analysis by the Legislative Reference Bureau

This bill authorizes two or more municipalities (any city, village, or town) to
jointly create a fire service district (district). A district is a local unit of government
that is a body corporate and politic and that is separate and distinct from, and
independent of, the state and the municipalities within its jurisdiction. Generally,
a district’s jurisdiction consists of two or more municipalities that adopt similar
enabling resolutions within a 30-day period. The resolution declares a
municipality’s intent to create a district and that the district will provide fire
protection or emergency medical services or both.

A municipality that is not in the district may also join with approval from at
least 50 percent of the municipalities that are part of the district. The territory of
a municipality may be in only one district. A district may be in more than one county,
although a county may not be a part of a district. A municipality may contract with
a district to receive services without becoming part of a district.

Before a district may be created, the governing bodies of each of the
municipalities that adopted an enabling resolution must reach an agreement that
addresses a number of issues, including the number of members of the commission,
which may not be greater than nine; a method of appointing temporary members of
the commission to serve until the initial election and qualification of members; an
apportionment plan for the election of commissioners, or an agreement to not have
an apportionment plan; and a list of issues and actions of the commission that are
subject to review by a veto panel (see below). The agreement may also address any
other issue. Before such an agreement may be entered into, the participating
municipalities must select an arbitrator who will decide by November 1 any of the
issues that are not resolved by the municipalities by September 1, except the issue
of whether to elect members of the commission pursuant to an apportionment plan
(see below).

A district is governed by its commission. The members of the commission must
choose from among themselves a chairperson, vice chairperson, secretary, and
treasurer. A district may take action based on the affirmative vote of at least a
majority of the members of the commission. The members of the commission are
elected for three-year terms, except that the terms of the nearest whole number to
one-third of the initial commissioners shall be one year and the terms of the nearest
whole number to one-third of the initial commissioners shall be two years.

The first election of members of the commission occurs in the April following
creation of the district. Unless unanimously agreed to by the governing bodies of all
municipalities that lie within the district, the commissioners are elected at large
pursuant to a plan of apportionment under which each commissioner resides in a
separate geographic area. If unanimously agreed to by the respective governing
bodies, the commissioners may be elected at large without a plan of apportionment.
Upon its creation, a commission and each municipality that is part of the district must determine which property, facilities, and other assets of the municipality shall be transferred from the municipality to the district. Real property and attachments that relate to a service provided by the district, and associated debts of such property and attachments, must be transferred to a district, as well as vehicles and specialized equipment with a value of at least $50,000. Unused property, equipment, or other assets must be returned by the district from the municipality from which it came. If the commission and a municipality are unable to reach an agreement on the transfer of property, equipment, and other assets within 90 days after the municipality becomes a part of a district, the parties must agree on the selection of an arbitrator who shall decide on the terms of settlement.

A district must provide fire or emergency medical services or both and it may use the services of volunteer or paid on-call fire fighters. Generally, instead of imposing property taxes, a district may impose a fee, as a special charge for the services it provides, to the same extent that a city, village, or town may impose a special charge, except that the district’s fee may not take effect unless it is approved in a referendum by every municipality within the district’s jurisdiction.

If a municipality becomes a part of a district, the district must employ all municipal employees covered by a collective bargaining agreement who provided the services to be provided by the district, and the district must adhere to all terms of the collective bargaining agreement. When the agreement expires, if the district offers continued employment to the employees, the employees retain the seniority they accumulated with their municipal employers.

In connection with property or facilities used or needed by a district to perform the services it provides, the powers of a district include the authority to acquire, develop, maintain, improve, operate, and manage the property or facilities; the authority to operate facilities or programs; the authority to enter into contracts; the authority to employ personnel; the authority to issue debt for capital improvements to property or facilities; and the authority to levy a property tax to carry out the district’s functions. Generally, a property tax imposed by a district is subject to levy limits to the same extent that levy limits apply to any city, village, town, or county.

Under the bill, a district is considered to be a municipality for purposes of determining eligibility for and receiving a payment under the expenditure restraint program. Under current law, generally, a municipality that imposes a property tax levy rate of more than five mills receives an expenditure restraint program payment, if any increase in the municipality’s budget for the year is no more than the allowable increase under the program. The allowable increase is based, generally, on the property value in the municipality and the inflation rate.

No municipality that is part of the jurisdiction of a district may expend any funds to support property or facilities that are owned by the district, or impose an impact fee for property or facilities that are related to providing a service that the district provides to that municipality. In addition, such a municipality must reduce its budget to reflect the fact that it is not spending money on services provided by a district.
Upon the creation of a district, there is also created a veto panel, consisting of the chief executive officer of each municipality that is part of the district. The veto panel exists, generally, for ten years after its creation. The commission must notify the veto panel, and each municipality’s clerk, whenever it takes action on an item that is subject to veto panel review. Each member of the panel may notify the commission’s clerk within ten business days of being notified of such commission action that the member objects to the commission’s action. If at least 50 percent of the members of the panel object to the commission’s action, the action of the commission is vetoed and may not take effect. The commission may override a veto, however, by a two-thirds vote of all of the members of the commission.

A municipality may withdraw from a district if it adopts a resolution stating its intention to withdraw and if all of the other municipalities that are a part of the district adopt resolutions of approval.

Disputes between municipalities and the commission involving the creation, governance, functions, or services provided by a district, or the transfer of property and facilities from a district to a municipality upon a district’s dissolution, must be submitted to arbitration.

Subject to providing for the payment of its debts, and the performance of other contractual obligations, a district may be dissolved by its commission. Upon dissolution, the property of the district shall be transferred to the municipalities that are a part of the district, based on a number of factors, such as the current value of the property and facilities transferred by the municipality to the district and the amount of money or other contributions made to the district by the municipality during the district’s existence.

Because this bill relates to an exemption from state or local taxes, it may be referred to the Joint Survey Committee on Tax Exemptions for a report to be printed as an appendix to the bill.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.

CHAPTER 229

SUBCHAPTER VI

FIRE SERVICE DISTRICTS
**229.86 Definitions.** In this subchapter:

1. **Chief executive officer** means, as to a sponsoring municipality or as to a municipality that is wholly within the jurisdiction of a district, the mayor or city manager of a city, the village president of a village, or the town board chairperson of a town.

2. **Commission** means a fire service commission, which is the governing body of a district.

3. **District** means a fire service district, which is a special purpose district created under this subchapter.

4. **Enabling resolution** means a resolution, or an amendment of a resolution, adopted by the governing body of a municipality and signed by the chief executive officer to create a district.

5. **Municipality** means any city, village, or town.

6. **Sponsoring municipality** means any municipality that creates a district in combination with another municipality.

**229.861 Creation, organization, and administration.** (1) Subject to sub. (3), 2 or more municipalities may create a district that is a unit of government, that is a body corporate and politic, that is separate and distinct from, and independent of, the state and the sponsoring municipalities, and that has the powers under s. 229.863, if the sponsoring municipalities do all of the following:

(a) Adopt an enabling resolution, subject to sub. (2), that declares its intent to create a district and declares that the district will provide fire protection or emergency medical services or both.

(b) File copies of the resolution with the clerk of each municipality and county that is wholly or partly within the boundaries of the district.
(2) Subject to sub. (3), a district shall consist of at least 2 municipalities. Each sponsoring municipality shall be identified in a substantially similar enabling resolution that is adopted by the governing body of each sponsoring municipality within a 30-day period beginning with the date of adoption of the first enabling resolution.

(3) (a) Before a district may be created, the governing bodies of each municipality that has adopted an enabling resolution under sub. (2) shall adopt a resolution or enact an ordinance, not later than September 1 of the year in which the resolution under sub. (1) is approved, that, subject to par. (b), contains an agreement among each of the governing bodies which may address any issue, but shall address at least the following:

1. The number of members of the commission, which may not be greater than 9.

2. A method of appointing temporary members to the commission under sub. (4) (a) to serve until the initial members are elected at the spring election and qualified to take office.

3. An apportionment plan for the election of members of the commission under sub. (4) (b), unless the governing bodies of all of the municipalities of which the district is initially comprised provide for the election of members of the commission without an apportionment plan.

4. A list of issues and actions of the commission that are subject to review by a veto panel under s. 229.865. If the governing bodies of all of the municipalities that are part of the district agree, and adopt similar resolutions, the list of items that are subject to veto review may be modified as specified in the resolutions.
(b) 1. Before the municipalities may consider a resolution or ordinance that is described in par. (a), all of the municipalities shall enter into an agreement on the selection of an arbitrator who will decide any of the issues under par. (a) that are not resolved by the municipalities by September 1 of the year described under par. (a), except as provided in subd. 2. If the municipalities are unable to reach agreement on any of the items listed in par. (a), the arbitrator shall enter a binding decision, which resolves all such outstanding items, not later than November 1 of the year described under par. (a).

2. If the municipalities are unable to reach an agreement concerning whether the commission shall be elected with or without an apportionment plan under sub. (4) (b), the commission shall be elected pursuant to an apportionment plan.

(4) (a) 1. The district is governed by its commission. The commission may adopt bylaws to govern the district’s activities, subject to this subchapter.

2. The commission members shall be elected at the spring election pursuant to an apportionment plan under par. (b) unless the governing bodies of each of the municipalities of which the district is comprised by resolution determine, no later than November 1 preceding any spring election, that the members of the commission shall be elected at that election and thereafter without an apportionment plan. If the governing bodies of each municipality of which the district is comprised determine to elect members of the commission without an apportionment plan, the governing bodies may, no later than November 1 preceding a spring election, by resolution determine to elect members of the commission at that election and thereafter pursuant to an apportionment plan, if an identical plan is adopted by each of those governing bodies by that date.
3. The first election of members of the commission shall occur in April of the year following the year described in sub. (3) (a). Temporary members shall be appointed according to the agreement reached under sub. (3) (a) 2. or imposed by an arbitrator under sub. (3) (b) to serve until the initial members are elected at the spring election and qualified to take office.

(b) 1. Each apportionment plan shall divide the entire district into apportioned geographic areas for the election of members of the commission. Unless the number of commissioners is changed under s. 229.864 (1), the boundaries of the apportioned areas shall remain unchanged unless the governing bodies of each of the municipalities of which the district is comprised agree, by resolution adopted no later than November 1 preceding a spring election, to prescribe revised boundaries for the election of members of the commission at that election and thereafter, and except that, if a municipality becomes a part of the district after its creation, the governing bodies of the municipalities of which the district is comprised shall, by resolution, prescribe identical revised boundaries of the apportioned areas no later than September 1 preceding the first spring election at which members of the commission are to be elected from the new district. If the governing bodies are unable to reach an agreement concerning an identical apportionment plan by September 1 preceding that spring election, an arbitrator appointed pursuant to sub. (3) (b) 1. shall resolve the dispute no later than November 1 preceding that election.

2. If the members of the commission are elected pursuant to an apportionment plan, each candidate for member of the commission shall state on the face of his or her declaration of candidacy and nomination papers the apportioned area for which the candidate seeks office.
(c) Each member of the commission shall be a resident of the district and, if an apportionment plan for the election of members of the commission is used, shall be a resident of the apportioned area for which he or she is elected at the time that the member takes the oath of office. If a member of the commission who is elected from an apportioned area ceases to be a resident of that area after the beginning of his or her term of office but continues to be a resident of the district, the member may continue to serve for the remainder of the term for which he or she was elected or appointed.

(d) The terms of the members of the commission shall be 3 years, beginning on the 3rd Tuesday of April following their election, except that the terms of the nearest whole number to one-third of the initial persons elected to office shall expire on the 3rd Tuesday of April that is one year following the year of their election; and the terms of the nearest whole number to one-third of the initial persons elected to office shall expire on the 3rd Tuesday in April that is 2 years following the year of their election. Members of the commission may be removed from office before the expiration of their terms, for cause, as provided under s. 17.13 (3) and may be recalled as provided under s. 9.10. Vacancies in the office of member of the commission shall be filled as provided under s. 17.27 (1f).

(e) The commission shall elect from its membership a chairperson, a vice chairperson, a secretary, and a treasurer. A majority of the current membership of the commission constitutes a quorum to do business. The district may take action based on the affirmative vote of at least a majority of the members of the commission.

(f) 1. The commission shall appoint a person to serve as clerk of the district. The clerk shall serve under the direction of the commission. Within 7 days after the
appointment of any person to fill a vacancy on the commission, the clerk shall notify
the person of his or her appointment.

2. No later than 5 p.m. on the 2nd Tuesday in January, the clerk shall certify
to the county clerk of each county lying wholly or partially within the district the
names of candidates who have filed valid nomination papers for member of the
commission and who are eligible to have their names appear on the ballot under s.
8.30. If any municipality lying wholly or partially within the district prepares its
own ballots under s. 7.15 (2) (c), the clerk shall similarly certify the names of
candidates to the municipal clerk. In making these certifications, the clerk shall
designate the form of each candidate’s name to appear on the ballot in the manner
prescribed under s. 7.08 (2) (a). If a primary is held for any seat on a commission,
the clerk shall certify to the county clerk of each county lying wholly or partially
within the district the names of candidates who have won nomination to the
commission and who are eligible to have their names appear on the ballot under s.
8.30. If any municipality lying wholly or partially within the district prepares its
own ballots under s. 7.15 (2) (c), the clerk shall similarly certify the names of
candidates to the municipal clerk. The clerk shall notify the municipal clerk of each
municipality lying wholly or partially within the district of any district election and
deliver each municipal clerk with a copy of the notice of the district election. If paper
ballots are utilized at a district election, the clerk shall provide each municipal clerk
with an adequate supply of ballots for the election at least 22 days before the election.
The clerk shall issue certificates of election to persons who are elected to the
commission after each election in the manner provided under s. 7.53 (4).

(g) The members of the commission shall be reimbursed for their actual and
necessary expenses incurred in the performance of their duties.
(h) Upon the election under par. (a) and qualification of a majority of the members of a commission, the commission may exercise the powers and duties of a commission under this subchapter, subject to s. 229.865 (1).

(i) The commission may choose a name for the district, or change the name, at any time.

(5) (a) The territory of a municipality may be in only one district.

(b) A district may be in more than one county, although a county may not be part of a district.

(e) A municipality that joins a district under s. 229.862 (3) or (4) shall accept the fire protection or emergency medical services, or both, provided by the district at the time that the municipality joins the district.

(f) Once a district is created, it shall remain in effect unless it is dissolved as provided in s. 229.867.

(h) If a city or village whose territory is in one district annexes territory that contains property or facilities that are located in a different district, that district shall transfer ownership of the property or facilities that are located in the annexed territory to the district whose territory includes the annexing city or village. The district which receives the annexed territory shall negotiate a settlement agreement with the district from which the territory was annexed to compensate that district for the property or facilities that are transferred, based on at least all of the following factors:

1. The current value of property or facilities that are transferred.

2. The amount of money or any other contribution made by the district for the property or facilities that are transferred.
3. The amount of money or any other contribution made by the municipality for the property or facilities that are transferred.

    (i) If the districts are unable to negotiate a settlement under par. (h) within 60 days after the effective date of the annexation that results in the transfer of territory, the districts shall agree on the selection of an arbitrator who shall decide the settlement amount, and send written notification of his or her decision to all parties, within 30 days after his or her appointment.

    (j) A transfer of ownership under par. (h) takes effect on the date on which a settlement is reached under par. (h) or the date on which an arbitrator sends written notification of his or her decision under par. (i).

(6) (a) A municipality which is part of a district may withdraw from the district as provided in this subsection if the governing body of the municipality adopts a resolution declaring its intention to withdraw from the district and if the governing bodies of all of the other municipalities that are part of the district adopt a resolution approving the municipality’s resolution. If a municipality withdraws from a district under this subsection, title to the property or facilities of the district that are located in the municipality shall be transferred from the district to the municipality.

    (b) If a municipality adopts a resolution declaring its intention to withdraw from the district and if the governing bodies of all of the other municipalities that are part of the district approve the resolution, the district shall dissolve as provided in s. 229.867 if only one municipality remains a part of the district after a municipality withdraws under this subsection. If more than one municipality remains a part of the district after a municipality withdraws, the municipality that withdraws and the district shall negotiate a settlement agreement to compensate that district for the
property or facilities that are located in the municipality, based on at least all of the following factors:

1. The current value of property or facilities that are transferred.

2. The amount of money or any other contribution made by the district for the property or facilities that are transferred.

3. The amount of money or any other contribution made by the municipality for the property or facilities that are transferred.

(c) If the municipality and the district are unable to negotiate a settlement under par. (b) within 60 days after the last governing body approves the municipality’s resolution under par. (b), the municipality and the district shall agree on the selection of an arbitrator who shall decide the settlement amount, and send written notification of his or her decision to all parties, within 30 days after his or her appointment. The municipality shall comply with the arbitrator’s decision during any court challenge to the decision.

(d) A withdrawal under this subsection takes effect on the 3rd Tuesday of April following the date on which a settlement is reached or the date on which an arbitrator sends written notification of his or her decision, except that if a withdrawal would otherwise become effective during the period beginning on November 1 and ending on the succeeding 3rd Tuesday of April, the withdrawal becomes effective on the 2nd succeeding 3rd Tuesday of April following that date.

(e) On the effective date of any withdrawal, the office of each member of the commission who resides in the withdrawn municipality is vacated.

229.862 Jurisdiction and expansion. (1) The initial jurisdiction of a district shall consist of the territory of all of the sponsoring municipalities that have acted under s. 229.861 (1) and (2).
(2) If the governing body of a municipality that is not part of a district adopts a resolution requesting that it become part of a district, the municipality may become part of the district only upon the approval of at least 50 percent of the governing bodies of the municipalities that are part of the district.

(3) A municipality may contract with a district to receive fire protection or emergency medical services or both from the district without becoming part of a district, upon mutually agreeable terms.

(4) (a) Subject to par. (b) and s. 229.865 (1), the commission and each municipality that is part of the district’s initial jurisdiction, or that becomes part of the district as described under this section, shall determine which property, facilities, and other assets of the municipality shall be transferred from the municipality to the district.

(b) 1. A municipality shall transfer to the district all of the following:

   a. Real property and attachments that relate to a service provided by the district and liability for any debt that is associated with such property and attachments.

   b. All vehicles and specialized equipment that relate to a service provided by the district and that have a fair market value of at least $50,000 and liability for any debt that is associated with such vehicles and equipment.

   2. A municipality may transfer, sell, lease, or donate to the district, or to any other person if the district does not want the item, any property or asset that is not specified in subd. 1.

   3. If any property or other asset that is transferred by a municipality to the district is not used by the district, the district shall return the property or asset to the municipality from which it was received.
(c) If the commission and a municipality are unable to reach an agreement on the property, facilities, or other assets that are to be transferred to the district under par. (a) or (b) within 90 days after the municipality becomes part of a district, and the system of payments for such items, the municipality and the district shall agree on the selection of an arbitrator who shall decide the terms of the settlement and send written notification of his or her decision to all parties, within 30 days after his or her appointment.

(5) Eligible electors of a municipality who are included in the expanded jurisdiction of a district may vote for members of the commission at the first election occurring after the effective date of the expansion at which members of the commission are elected.

229.863 Powers of district. (1) A district has all of the powers necessary or convenient to carry out the purposes and provisions of this subchapter.

(2) Subject to sub. (3), a district shall provide fire or emergency medical services or both.

2. A board created under this paragraph shall be organized in the same manner as boards of police and fire commissioners under s. 62.13 (1).

3. A board created under this paragraph is subject to the provisions of s. 62.13 (2) to (5) and (7) to (12) to the extent that the provisions apply to 2nd and 3rd class cities. In applying s. 62.13 under this paragraph the commission’s chairperson has the powers and duties specified for a mayor, the commission has the powers and
duties specified for a common council and the district has the powers and duties
specified for a city.

4. The fire fighters employed by the district, subject to par. (g), who are not
subject to Titles II and XVIII of the federal Social Security Act on the day on which
they become employees of the district, shall continue not to be subject to those
provisions unless the fire fighters and the district agree otherwise through the
collective bargaining process.

5. A district may use the services of volunteer fire fighters or paid on-call fire
fighters, including individuals who are considered volunteers under 29 CFR 553.106.

(c) 1. Whenever a municipality becomes a part of a district, the district shall

provide if the employees, as municipal employees, are covered by a collective
bargaining agreement under subch. IV of ch. 111.

2. Until the expiration date of a collective bargaining agreement specified in
subd. 1., the district shall provide the municipal employees who become district
employees wages and benefits at least equal to those provided under the collective
bargaining agreement and shall adhere to all terms of the collective bargaining
agreement relating to seniority and hours and conditions of employment.

3. The district shall employ the municipal employees specified in subd. 1. until
the expiration date of the collective bargaining agreement specified in subd. 1.
Beginning on the expiration date, the district may, under sub. (4) (e), offer continued
employment to the employees, and those employees who accept the offer are
considered for seniority purposes to have been employed by the district for the same
period of time as they were employed by their municipal employer.
4. Notwithstanding s. 111.70 (4) (d), if, in any collective bargaining unit that is initially created at a district, a majority of the former municipal employees were represented by the same representative when they were employed by a municipality, that representative shall become the initial representative of the employees in the collective bargaining unit without filing a petition or conducting an election.

(4) In addition to all other powers granted by this subchapter, a district may do all of the following:

The commission shall establish the tax levy rate. The tax levy shall be applied to the respective real property and personal property tax rolls of each city, village, and town, or part of a town, included in the district’s jurisdiction and shall not be included within any limitation on county or municipality taxes. Collected taxes levied under this paragraph shall be paid to the district treasurer. Collected taxes levied under this paragraph may not be used to provide a service that is not provided to every municipality within the district.

(i) Accept gifts and other aid, which may be used only for the following purposes:

1. Maintaining the district’s property or facilities.

Such a fee shall be subject to the provisions of s. 66.0627 to the extent that such provisions apply to a city, village, or town that may impose a special charge under s. 66.0627.
2. If a commission adopts a resolution imposing a fee under this paragraph, the resolution may not take effect in the district until it is approved in a referendum in every municipality that is located within the district’s jurisdiction. The referenda must be held on the same day in each municipality. If a commission decides to impose a fee under this paragraph to replace the tax it imposed under par. (h), the total amount of revenue collected by the fee may not exceed the amount of revenue collected from the tax imposed under par. (h) for the last year in which the tax was imposed.

**229.864 Powers and duties of, and limitations on, municipalities. (1)**

The number of members of the commission determined under s. 229.861 (3) (a) 1. may be changed only by an agreement that is approved unanimously by ordinance or resolution of the governing bodies of each municipality that makes up the jurisdiction of the district. Each such ordinance or resolution shall include an identical revised schedule for expiration of the terms of office of the commissioners under s. 227.861 (4) (d) that does not change the term of office of any current or future commissioner and if commissioners are elected pursuant to an apportionment plan under s. 229.861 (4) (b) 1., an identical revised apportionment plan. Any change that is adopted or enacted by all municipalities on or before November 1 of any year is effective with respect to terms of office that begin on the 3rd Tuesday of April following that November 1. Any change that is adopted or enacted by all municipalities after November 1 of any year is effective with respect to terms of office that begin on the 2nd succeeding 3rd Tuesday of April following that November 1.

**229.864 (2)** Except as otherwise provided in this section, the governing body of each municipality that makes up the jurisdiction of the district may not expend any funds to support property or facilities that are owned by the district, or impose an impact
fee under s. 66.0617 for property or facilities that are related to providing a service being provided by a district to that municipality.

(3) In addition to any powers that it may otherwise have, a municipality located wholly or partly within a district’s jurisdiction may do any of the following:

(a) Make loans to a district upon terms that the municipality considers appropriate.

(b) Lease or transfer property to a district upon terms that the municipality considers appropriate.

(4) A fire district that exists on the effective date of this subsection .... [LRB inserts date], may become a district under this subchapter if the municipalities that created the fire district follow the procedures in this subchapter for creating a district.

229.865 Dispute resolution, veto panel. (1) (a) Upon the creation of a district under this subchapter, there shall be created for that district a veto panel, the membership of which shall be the chief executive officer of each municipality that is part of the district. If a municipality becomes part of a district after its creation, the chief executive officer of the municipality shall become a member of the veto panel. A veto panel that is created under this section shall dissolve on the first day of the 120th month beginning after its creation.

(b) If the commission takes any action on an item that is specified on the list that is described in s. 229.861 (3) (a) 4., the clerk of the commission shall send a written description of the action taken to the members of the veto panel and to the municipal clerk of each municipality that is part of the district. Each member of the panel may notify the clerk in writing, not later than 10 business days after he or she receives the description of the action taken, that he or she objects to the commission’s
action. If at least 50 percent of the members of the panel object to the commission’s action as provided in this paragraph, the action of the commission is vetoed and may not take effect. If an action of the commission is vetoed, the clerk shall include a veto override session in the agenda of the commission’s next regularly scheduled meeting, although an override session may be held at an emergency meeting that is called before the next regularly scheduled meeting. If two-thirds of all of the members of the commission vote to override the veto, the commission’s action that was vetoed takes effect notwithstanding the objections of the veto panel.

(2) Other than a dispute for which arbitration is specified in this subchapter, any dispute between a commission and a municipality, in any of the following areas, shall be submitted to arbitration under ch. 788:

(a) The creation of a district.
(b) The governance of a district.
(c) The functions of a district.
(d) The services provided by a district.
(e) The transfer of property and facilities from a district to a municipality upon the dissolution of a district under s. 229.867.

229.866 Commencement of services. A district shall commence providing its initial services on January 1 of the year following the year in which the first election of commissioners takes place. A municipality shall cease providing the service as of the date specified by the district, and shall reduce its budget to reflect the fact that it is not expending revenue to provide the services specified in s. 229.863 (2). If the district begins to provide a service other than at the start of a municipality’s fiscal year, the municipality that receives the service shall transfer to the district the unexpended municipal funds from its current year’s budget that are specified for the
SECTION 46

provision of such service. The amount of unexpended funds that are transferred shall be based on the date on which the municipality stops, and the district starts, providing the service.

229.867 Dissolution of district. (1) Subject to providing for the payment of its debts, and the performance of its other contractual obligations, a district may be dissolved by the action of the commission. If the district is dissolved, the commission shall certify to each of the municipalities that are a part of the district that the district is dissolved, and the property of the district shall be transferred to such municipalities by the commission, based on at least all of the following factors:

(a) The current value of property and facilities transferred by a municipality to a district.

(b) The amount of money contributed to the district during its existence by a municipality under s. 229.863 (4) (h) and (L).

(c) The amount of any other contribution made by a municipality to a district, including any contribution that is made under s. 229.864 (3).
