### INTRODUCTION

This Staff Brief provides background information for the members of the 2018 Joint Legislative Council Study Committee on the Use of Police Body Cameras. The Study Committee is directed to review law enforcement policies regarding the use of body cameras and recommend legislation to establish uniform procedures regarding the retention and release of body camera video for state and local law enforcement agencies.

The remainder of the Staff Brief is organized as follows:

- **Part I** summarizes selected provisions of current law regarding public records and their retention as applicable to police body camera video.
- **Part II** summarizes bills introduced during the 2017-18 legislative session relating to the use of police body cameras.
- **Part III** provides selected statutes and records retention schedules applicable to police body camera video retention and release.
- **Part IV** provides copies of the bills introduced during the 2017-18 legislative session relating to the use of police body cameras.

This Staff Brief was prepared by Dan Schmidt, Principal Analyst, and Steve McCarthy, Staff Attorney.

## Part I – Current Law Overview

#### Open Records Law in General

Wisconsin's Open Records Law is contained in ss. 19.31 to 19.39, Stats. (See Part III for the statute in full.) Section 19.31, Stats., provides as follows:

**Declaration of policy**. In recognition of the fact that a representative government is dependent upon an informed electorate, it is declared to be the public policy of this state that all persons are entitled to the greatest possible information regarding the affairs of government and the official acts of those officers and employees who represent them. Further, providing persons with such information is declared to be an essential function of a representative government and an integral part of the routine duties of officers and employees whose responsibility it is to provide such information. To that end, ss. 19.32 to 19.37 shall be construed in every instance with a presumption of complete public access, consistent with the conduct of governmental business. The denial of public access generally is contrary to the public interest, and only in an exceptional case may access be denied. [s. 19.31, Stats]

Section 19.35, Stats., essentially codifies case law and generally requires that a record held by an authority remain open for inspection and copying. Broadly speaking, an "authority" is a state body, local body, or elected official having custody of a record. Further, an authority usually delegates to a named individual the responsibilities of acting as a legal custodian who will respond to requests for access to records. [ss. 19.32 (1) and 19.33, Stats.]

In discussing the applicability of, and the exceptions to, a predecessor of s. 19.35, Stats., the Wisconsin Supreme Court has stated the following:

We have concluded, however, where statutes, common law or court decisions have not limited the public's right to examine records, "presumptively public records and documents must be open for inspection." ... "[P]ublic policy, and hence the public interest, favors the right of inspection of documents and public records." There exists the legislative presumption that "where a public record is involved, the denial of inspection is contrary to the public policy and the public interest." Thus, the general presumption of our law is that public records shall be open to the public unless there is a clear statutory exception, unless there exists a limitation under the common law, or unless there is an overriding public interest in keeping the public record confidential. [*Hathaway v. Joint School District No. 1*, 116 Wis. 2d 388, 397, 342 N.W.2d 682, 686-687 (1984); citations omitted.]

To summarize, Wisconsin's Open Records Law provides that a record must remain open for inspection and copying unless:

- 1. There is a clear statutory exception to this requirement;
- 2. There exists a limitation on inspection and copying under the common law; or
- 3. On a case-by-case basis, a record custodian decides that the harm done to the public by disclosure of a record outweighs the public's interest in access to the record.

An authority receiving a record request must either fill the request or notify the requester of the authority's determination to deny the request in whole or in part, including specific reasons for the denial. Every written denial of a request by an authority must inform the requester that if the request for the record was made in writing, then the determination to deny the request is subject to review by mandamus or upon application to the attorney general or a district attorney. [s. 19.35 (4) (a) and (b), Stats.]

Section 19.37 (1), Stats., provides that if an authority withholds a record, or part of a record, a requester may either:

- 1. Bring an action for mandamus asking a court to order release of the record; or
- 2. In writing, request the district attorney of the county where the record is found, or request the attorney general, to bring an action for mandamus asking a court to order release of the record to the requester.

#### **Open Records Law and Law Enforcement Records**

Wisconsin courts have generally held that while there may be a strong presumption of openness under the Open Records Law, law enforcement investigative records are of a category of records that are particularly sensitive and may have a greater adverse effect on public interests if they are released.<sup>1</sup> Despite this recognition, the Wisconsin Supreme Court has held that decisions against release must be made on a case-by-case basis.<sup>2</sup> With this in mind, the Wisconsin attorney general has indicated that the following policy interests represent some of the arguments against disclosure of law enforcement records:

- Interference with police business.
- Privacy and reputation.
- Uncertain reliability of "raw investigative data."
- Revelation of law enforcement techniques.
- Danger to individuals identified in the record.

<sup>&</sup>lt;sup>1</sup> See *Linzmeyer v. Forcey*, 2002 WI 84, ¶ 30, 254 Wis. 2d 306, 646 N.W.2d 811.

<sup>&</sup>lt;sup>2</sup> See *Linzmeyer*, 2002 WI 84, ¶ 42.

Additionally, the attorney general has indicated that the following policy interests arguments for disclosure of law enforcement records:

- Public oversight of police and prosecutorial actions.
- Reliability of corroborated evidence.
- The degree to which sensitive information already has been made public.<sup>3</sup>

In addition to these general public policy interests, special considerations may need to be made for confidential informants,<sup>4</sup> as well as children<sup>5</sup> and juveniles,<sup>6</sup> when determining whether to release or withhold law enforcement records.

All of these interests are likely to guide public policy in regard to the release of police body camera video.

#### **Retention of Law Enforcement Records**

Section 19.21 (4) (b), Stats. (see Part III for the statute in full), generally permits a town, city, or village to establish records retention periods by ordinance unless a specific period of time is required by statute. With the exception of certain public utility records, the retention period established by ordinance may not be less than seven years, unless a shorter period is fixed by the Public Records Board (PRB). Section 19.21 (5) (c), Stats., establishes a similar seven-year general retention provision (and exception for retention periods fixed by the PRB) for counties. As there is no statutory retention requirement for police dashboard camera video recordings and local authorities often determine that seven years is too long to maintain such footage, local governments often look to the PRB for approval of a shorter retention period for these records.

The PRB has general authority over the management and retention of state agency records. In addition, s. 16.61 (3) (e), Stats. (see Part III for the statute in full), permits the PRB to establish the minimum period of time for retention of records for any county, city, town, or village (local governmental units) in Wisconsin. In the case of police body camera video recordings, the PRB has not established a specific minimum retention period. Rather, they have encouraged local governmental units to seek appropriate legal counsel when establishing a retention schedule for PRB approval and directed the local governmental unit to the state agency retention requirement for monitoring and surveillance recordings for basic policy guidance.<sup>7</sup> The monitoring and surveillance requires a minimum retention of 120 days before destruction, but generally permits the retention of such records as long as needed for legal or program purposes. The 120-day retention period is generally required because this is the time limit for an individual to file a claim against a governmental body or state employee.<sup>8</sup> Legal counsel is specifically

recommended because claims for federal civil rights violations, including excessive use of force, in particular, may be filed for up to six years after an incident.<sup>9</sup>

A brief survey of police body camera video retention policies indicates that current retention periods vary by locality in concert with the explanation given above. The retention requirement for body camera recordings ranges from 120 days to 5 months depending on the individual policy the PRB has approved, with 121 days as the most prevalent retention period. [See Part IV for examples of current body camera retention disposition authorizations.]

# PART II – LEGISLATIVE PROPOSALS FROM THE 2017-18 LEGISLATIVE SESSION

A number of legislative proposals relating to the use of police body cameras were introduced during the 2017-18 legislative session.

2017 Assembly Bill 351 was introduced by Representative Jesse Kremer on May 31, 2017. Its companion bill, 2017 Senate Bill 279, was introduced by Senator Patrick Testin on June 2, 2017.<sup>10</sup> Assembly Bill 351 received a public hearing in the Assembly Committee on Criminal Justice and Public Safety on October 5, 2017.

Representative Kremer offered Assembly Substitute Amendment 1 to Assembly Bill 351 on October 27, 2017. The Assembly passed the substitute amendment, including one amendment to the substitute amendment,<sup>11</sup> by a voice vote on November 9, 2017. Assembly Bill 351, as amended by Substitute Amendment 1, received a public hearing and was passed by the Senate Committee on Judiciary and Public Safety, but failed to be concurred in by the Senate pursuant to Senate Joint Resolution 1.

2017 Assembly Bill 557 was introduced by Representative Chris Taylor on October 18, 2017. Assembly Bill 557 did not receive a public hearing and failed to pass pursuant to Senate Joint Resolution 1.

Identified below are broad categories of law relating to the use of police body cameras addressed by Assembly Bill 351, Substitute Amendment 1 to Assembly Bill 351, and Assembly Bill 557, along with details of each proposal's treatment of each category. See Part IV for copies of the bills and amendments in full.

# LAW ENFORCEMENT AGENCY POLICIES, TRAINING, AND COMPLIANCE RELATED TO BODY CAMERAS

#### **Assembly Bill 351**

Under Assembly Bill 351, if a law enforcement agency uses a body camera on a law enforcement officer, the law enforcement agency must administer a policy regarding all of the following:

- The use, maintenance, and storage of body cameras and body camera data.
- Any limitations the law enforcement agency imposes on which law enforcement officers may wear a body camera.

<sup>&</sup>lt;sup>10</sup> For brevity and clarity, this Staff Brief refers only to Assembly Bill 351, as that bill and Senate Bill 279 contain identical language.

<sup>&</sup>lt;sup>11</sup> Assembly Substitute Amendment 1 and Assembly Amendment 1 to Assembly Substitute Amendment 1 are referred to collectively as "Substitute Amendment 1" throughout this Staff Brief.

- Any limitations the law enforcement agency imposes on situations, persons, or encounters that may be recorded by a body camera.
- Also, under the bill, if a law enforcement agency uses a body camera on a law enforcement officer, the law enforcement agency must do all of the following:
  - Train all law enforcement officers wearing a body camera on the policy described above and on the body camera data retention requirements discussed below.
  - Train all employees that use, maintain, store, or release body camera data on all of the following: (1) the law enforcement agency's policy on body cameras described above; (2) the body camera data retention requirements discussed below; and (3) the requirements regarding when the body camera data may be released as discussed below.
  - Periodically review practices regarding the body cameras and body camera data to ensure compliance with: (1) the law enforcement agency's policy on body cameras described above; (2) the body camera data retention requirements discussed below; and (3) the requirements regarding when the body camera data may be released as discussed below.

#### Substitute Amendment 1 to Assembly Bill 351

Substitute Amendment 1 does not amend any provisions of the bill discussed above that are related to the requirements regarding policies, training, and compliance review of body cameras.

#### **Assembly Bill 557**

Under Assembly Bill 557, if a law enforcement agency uses a body camera on a law enforcement officer, the law enforcement agency must administer a policy, which must be conspicuously posted on an Internet site the agency maintains, that includes all of the following:

- That no personnel except law enforcement officers who have the authority to arrest and conduct searches may wear a body camera.
- That the audio and video functions of the body camera must be activated when the law enforcement officer responds to a call or initiates an interaction for enforcement or investigation purposes and may not be discontinued during the response or interaction except as provided under the bill.
- How the law enforcement agency must classify, download, store, administratively use, and ensure the security of data from a body camera.
- Disciplinary measures for violating the policy.
- Which employees may access data from body cameras.

Assembly Bill 557 further provides that the law enforcement agency must train all law enforcement officers on the policy and relevant laws and that the law enforcement agency must confiscate a body camera if the camera has data recording an incident involving a law enforcement officer that resulted in death or bodily harm to an individual, involving the use of force by a law

enforcement officer, or involving a law enforcement officer's discharge of a firearm. No law enforcement officer involved in the incident may be allowed to review or be informed about the contents of the data before the officer completes any required initial reports, statements, or interviews regarding the incident.

The bill requires that a law enforcement officer who is wearing a body camera must notify an individual that the individual is being recorded as soon as practically possible if the law enforcement officer is going to interact with the individual for enforcement or investigation purposes. If the interaction is because the individual is a crime victim, the law enforcement officer must obtain the individual's verbal consent before recording him or her.

Assembly Bill 557 also prohibits law enforcement officers and personnel from taking certain actions and using a body camera to record certain situations. Specifically, no law enforcement officer or personnel may do any of the following:

- Access data from a body camera for personal use.
- Record a conversation in public or in a law enforcement agency without the knowledge of the speakers during routine nonenforcement activities.
- Record activity that is unrelated to a response to a call or to an interaction initiated for enforcement or investigation purposes.
- Record off-duty or personal activity.
- Use a body camera for a purpose other than law enforcement.
- Merge data from a body camera with other data collected by a law enforcement agency or subject data from a body camera to automated analysis or analytics.
- Record activity with the intent of inhibiting or curbing the exercise of a right under the First Amendment of the U.S. Constitution and article I, section 18, of the Wisconsin Constitution.

Unless a law enforcement officer is confronting a violent suspect or anticipates the need to use force or unless a person is at risk of bodily harm or death, a law enforcement officer may not record any of the following:

- A situation in which a recording could risk the safety of an informant or an undercover officer unless the law enforcement officer receives from the informant or the undercover officer, whichever is applicable, permission, recorded on the body camera data.
- An individual who wants to anonymously report a crime or aid an investigation unless the law enforcement officer receives permission from the individual, recorded on the body camera data.
- A strip search unless the law enforcement officer receives permission from the subject of the search, recorded on the body camera data.
- Any activity on the grounds of any public, private, or parochial elementary or secondary school that does not involve a threat to life or safety.

- Any activity in a patient care area of a hospital, rape treatment center, or other health care facility that does not involve an enforcement action unless the law enforcement officer receives permission, recorded on the body camera data, from all the recorded subjects.
- Any activity in a place where a significantly heightened expectation of privacy exists unless the law enforcement officer receives permission, recorded on the body camera data, from all the recorded subjects who have the expectation.

#### **RETENTION OF BODY CAMERA DATA**

#### **Assembly Bill 351**

In general, Assembly Bill 351 requires all body camera data to be retained for a minimum of 120 days after the date of recording and authorizes destruction of the data after that time. The bill provides the following exceptions for longer retention:

- Data must be retained until disposition of the case or complaint if the data records any of the following:
  - An encounter that resulted in the death of any individual or actual or alleged physical injury to an individual.
  - An encounter that resulted in a custodial arrest.
  - A search during an authorized temporary questioning (commonly referred to as a "Terry Stop") as provided under current law.
- Retention beyond 120 days may be directed by a law enforcement officer or law enforcement agency, a prosecutor, a defendant, or a court that determines that the data have evidentiary value in a prosecution. An entity making the directive must submit a preservation order within 120 days after the incident.
- Data retained that are used in a criminal, civil, or administrative hearing may not be destroyed except upon all of the following: (1) final disposition; (2) a determination from the court or hearing examiner that the data are no longer needed; and (3) an order from the court or hearing examiner. Data retained in internal investigations that are not subject to any such jurisdiction may be disposed of by the law enforcement agency.

#### Substitute Amendment 1 to Assembly Bill 351

Substitute Amendment 1 generally retains the retention requirements prescribed in Assembly Bill 351, but for the following changes:

• Provides that retention beyond either 120 days or the final disposition of any case or complaint to which the data pertains, if the body camera data record any of the events listed above, may also be directed by a board of police and fire commissioners. The substitute amendment also clarifies that a preservation directive must be submitted to the law enforcement agency having custody of the record.

- Eliminates the provision that authorizes a law enforcement agency to dispose of "data retained in internal investigations that are not subject to any such jurisdiction."
- Clarifies that body camera data may not be destroyed at any time after the receipt of an open records request except as provided by current law.<sup>12</sup>

#### Assembly Bill 557

In general, Assembly Bill 557 requires all body camera data to be retained for six months and destroyed after that time. The bill provides the following exceptions for longer retention:

- Data must be retained until any applicable issue is finally resolved or for 42 months, whichever is longer, if the data are a record of any of the following:
  - An encounter about which a formal or informal complaint has been filed by the subject of the data. The law enforcement agency that is the custodian of the data must allow the subject to access the data in a timely manner to determine whether to file a complaint.
  - $\circ~$  An encounter during which a law enforcement officer discharged his or her firearm or used force.
  - An encounter that resulted in the death of or bodily harm to any person.
  - An encounter that resulted in a detention or arrest, excluding a traffic stop that did not result in further detention or arrest.
  - An encounter with evidentiary value for a criminal proceeding, as determined by a supervisor, prosecutor, defendant, or court or the law enforcement officer.
  - An encounter that is or may be used as evidence in any court or administrative proceeding, as determined by the law enforcement agency that is the custodian, by the law enforcement officer, or by an individual who is the subject of the data. The law enforcement agency that is the custodian of the data must allow the subject to access the data in a timely manner to determine if the data must be retained under this subdivision.
  - A subject of an ongoing investigation.
- If, within the immediately preceding six months, data have been the subject of an open records request regarding a specific law enforcement incident, the data relating to that specific incident must be retained.

<sup>&</sup>lt;sup>12</sup> Current law prohibits an authority from destroying any record after the receipt of an open records request until "after the request is granted or until at least 60 days after the date that the request is denied or, if the requester is a committed or incarcerated person, until at least 90 days after the date that the request is denied. If an authority receives written notice that an action relating to a record has been commenced under [current law], the record may not be destroyed until after the order of the court in relation to such record is issued and the deadline for appealing that order has passed, or, if appealed, until after the order of the court hearing the appeal is issued. If the court orders the production of any record and the order is not appealed, the record may not be destroyed until after the request for inspection or copying is granted." [s. 19.35 (5), Stats.]

• A law enforcement agency may retain data from a body camera for any period if the data will be used only for law enforcement training purposes.

#### RELEASE OF BODY CAMERA DATA

#### Assembly Bill 351

Under Assembly Bill 351, body camera data are, in general, confidential and not open to inspection and copying under the Open Records Law. The bill provides an exception to this general rule if the camera records any of the following:

- An encounter that resulted in the death of any individual or actual or alleged physical injury to an individual.
- An encounter that resulted in a custodial arrest.
- A search during an authorized "Terry Stop."

If the body camera data includes any of the instances listed above, it is generally open to inspection and copying under the Open Records Law. The exception to this is when the data record any of the instances listed above in a location where an individual may have a "reasonable expectation of privacy." Under the bill, if the body camera data record any of the instances listed above, in a location where an individual may have a reasonable expectation of privacy, then all of the following apply:

- The body camera data is not subject to the right of inspection and copying under the Open Records Law unless each individual who is a "known victim or witness" or an "owner," or a person authorized by each such individual as provided under current law, provides the law enforcement agency with written permission for the release.
- If a law enforcement agency receives an open records request for the body camera data, the law enforcement agency generally must mail a request for permission to release the body camera data to the last-known address of each individual who is a "known victim or witness" or an "owner." The law enforcement agency is not required, however, to mail requests for permission to release body camera data if the law enforcement agency denies the request on other grounds.
- If the law enforcement agency has not received the requisite permission to release the body camera data within 14 business days after mailing the request, then the law enforcement agency may deny the request. Any written permission for the release received after the 14-day period is valid with respect to any subsequent requests for the same data.
- If a law enforcement agency mails requests for permission for the release of body camera data, the law enforcement agency is not required to mail such requests for any subsequent open records request for the same body camera data.

• The law enforcement agency must retain any correspondence related to the body camera data for at least as long as the law enforcement agency retains the body camera data to which the correspondence relates.

A "known victim or witness" is defined by the bill to mean an individual to whom all of the following apply: (1) the individual was present at the location during the recording; (2) the individual's identity is known to the law enforcement agency; and (3) the individual is not suspected of committing a crime or other violation of law in connection with the law enforcement officer's presence in the location that was recorded.

An "owner" is defined by the bill to mean an individual to whom all of the following apply: (1) the individual owns or otherwise controls the property at the location that was recorded; and (2) the individual is not suspected of committing a crime or other violation of law in connection with the law enforcement officer's presence in the location that was recorded.

The bill also provides that for purposes of an open records request for access to body camera data used by a law enforcement agency, the law enforcement agency is the legal custodian of the record. If any other authority has custody of such data, that authority is not the legal custodian of that data and must deny any portion of an open records request that relates to that body camera data.

#### Substitute Amendment 1 to Assembly Bill 351

Substitute Amendment 1 generally retains the release requirements prescribed in Assembly Bill 351, but for the following changes:

- Adds another criterion to the definition of "known victim or witness" that the individual is not a law enforcement officer who was acting in an official capacity, unless a crime or other violation of law has been committed or is alleged to have been committed against the law enforcement officer while the law enforcement officer was present at the location that was recorded.
- Makes modifications and clarifications to the requirement that certain known victims or witnesses or owners receive notice of an open records request, including permitting personal service of a notice and requiring that the notice briefly describe the requested data and include a description of the rights of the individual or person to deny permission to the law enforcement agency to release the data.
- Permits a law enforcement agency to release data from a body camera if the law enforcement agency determines that releasing the data is in the interests of justice, except that data may not be released in the interests of justice if data from a body camera record a location where an individual may have a reasonable expectation of privacy, unless each individual who is a known victim or witness or an owner, or a person authorized by each such individual, provides the law enforcement agency with written permission for the release.

• Provides that all of the provisions related to the release of body camera data do not prohibit a district attorney from releasing body camera data when required to do so under current law governing the review of deaths involving officers.

#### **Assembly Bill 557**

Under Assembly Bill 557, body camera data are, in general, open to inspection and copying under the Open Records Law. The bill provides an exception to this general rule if any of the following applies:

- The data are subject only to the six-month retention period.
- The data depict nudity.
- The data depict matter that is subject to a privilege under ch. 905, Stats.

Assembly Bill 557 also includes statements of public policy relating to treatment of crime victims, minors, and individuals with a reasonable expectation of privacy. Specifically, the bill provides that the privacy of a victim of a sensitive or violent crime, a minor, or an individual in a location where the individual has a reasonable expectation of privacy who is a subject of the data must be maintained and that access to such data must be provided only if the public interest in allowing access is so great as to outweigh that public policy. In these cases, the victim's, minor's, or individual's face and anything else that would allow the victim or minor to be identified must be censored using pixelization or another method of censorship.

The presumption regarding the privacy of a victim does not apply if the victim, or his or her next of kin if the victim is deceased, does not object to granting access to the data. The presumption regarding the privacy of a minor does not apply if the parent or legal guardian of the minor does not object to granting access to the data. The presumption regarding the privacy of an individual with a reasonable expectation of privacy does not apply if the individual does not object to granting access to the data.

Additionally, the bill provides that if a law enforcement agency enters into a contract regarding any aspect of the use of body cameras, no party to the contract may use data from the body camera in a manner inconsistent with the bill or with any policies and procedures of the law enforcement agency.

Assembly Bill 557 also clarifies that the law enforcement agency is the legal custodian of the record and neither a party to a contract regarding any aspect of the use of body cameras nor a person that has custody of a record for the primary purpose of information storage, information technology processing, or other information technology usage is the legal custodian of the record.

#### **CRIMINAL PENALTIES AND COURT REMEDIES**

#### Assembly Bill 351 and Substitute Amendment 1 to Assembly Bill 351

Neither Assembly Bill 351 nor Substitute Amendment 1 to Assembly Bill 351 provide criminal penalties for tampering with or improperly destroying a body camera or body camera data or list remedies a court may impose for violations of police body camera laws.

#### Assembly Bill 557

Assembly Bill 557 provides that an individual who does any of the following is guilty of a Class I felony:<sup>13</sup>

- Except as permitted under the bill, tampers with, deletes, copies, or uploads data obtained from a body camera.
- Except as permitted under the bill, intentionally tampers with or destroys any body camera, or part of a body camera.
- Intentionally violates the requirement that a body camera be confiscated by a law enforcement agency under certain circumstances or the prohibition on a law enforcement officer involved in an incident that requires body camera confiscation from reviewing or being informed about the contents of the data before the officer completes any required initial reports, statements, or interviews regarding the incident.

Additionally, Assembly Bill 557 provides that a court may impose any of the following remedies if the court determines a law enforcement officer or member of law enforcement personnel violated any provisions of the bill:

- The court may suppress data recorded in violation of this section or a policy.
- The court may presume in favor of a criminal defendant who reasonably asserts that an officer or member of personnel destroyed or failed to capture exculpatory data in violation of this section.
- The court may presume on behalf of a civil plaintiff who reasonably asserts that an officer or member of personnel destroyed or failed to capture favorable data in violation of this section.

#### CREATION OF LAW ENFORCEMENT BODY CAMERA COUNCIL

#### Assembly Bill 351 and Substitute Amendment 1 to Assembly Bill 351

Neither Assembly Bill 351 nor Substitute Amendment 1 to Assembly Bill 351 provide for the creation of a law enforcement body camera council.

#### **Assembly Bill 557**

Assembly Bill 557 provides for the creation of a law enforcement body camera council within the Wisconsin Department of Justice and chaired by the attorney general or his or her designee.

<sup>&</sup>lt;sup>13</sup> The penalty for a Class I felony is a fine not to exceed \$10,000 or imprisonment not to exceed three years and six months, or both. [s. 939.50 (3) (i), Stats.]

The bill provides for council members to serve two-year terms and requires that membership of the council consist of the following individuals:

- Three citizens from underrepresented communities, including a citizen from a first class city, selected by the governor from a list prepared by the Wisconsin Conference of the National Association for the Advancement of Colored People, Centro Hispano of Dane County, and Centro Hispano Milwaukee.
- The attorney general or his or her designee.
- A member of the crime victims' council representing an organization providing victim support services, appointed by the attorney general.
- A sheriff, selected by the Badger State Sheriffs' Association and the Wisconsin Sheriffs and Deputy Sheriffs Association, or his or her designee.
- A chief of police, selected by the Wisconsin Chiefs of Police Association, or his or her designee.
- The executive director of the Wisconsin Professional Police Association, or his or her designee.
- A district attorney, selected by the Wisconsin District Attorneys Association, or his or her designee.
- A state public defender, selected by the Public Defender Board, or his or her designee.
- The executive director of the Wisconsin Freedom of Information Council, or his or her designee.
- A member or staff member of the American Civil Liberties Union, as selected by the American Civil Liberties Union of Wisconsin.
- An attorney specializing in civil rights or an expert in constitutional law, selected by the governor from a list prepared by the State Bar of Wisconsin.

Assembly Bill 557 provides that the law enforcement body camera council must do all of the following:

- Establish best practices and standards for the use of a body camera by a law enforcement agency and submit an annual report to the Legislature that includes recommendations to the Legislature on the subject of body cameras.
- Examine best practices for data storage, including determining if centralized storage of data is feasible, cost effective, and efficient.
- Establish best practices for determining when a law enforcement officer or law enforcement personnel may access or review data recorded by a body camera, including which personnel and for what purposes.

- Develop guidelines for where a law enforcement officer must wear his or her body camera, including whether it should be in public view and where on his or her torso or head it should be worn.
- Establish best practices on any issues the council finds appropriate for ensuring that data recorded by a body camera are uploaded, processed, and stored properly and securely, including classification, download, and storage of data, data security, discipline of law enforcement officers for violating agency policy on body cameras, administrative use of recordings, and which law enforcement officers should wear body cameras.
- Establish best practices for open records and public release of body camera data.

Finally, Assembly Bill 557 provides for repeal of the law enforcement body camera council on the first day of the 121<sup>st</sup> month beginning after publication of the bill's enactment.

## PART III – Selected Applicable Statutes and Records Retention Schedules

#### WIS. STATS., CHAPTER 19, SUBCHAPTER II – PUBLIC RECORDS AND PROPERTY

Further, providing persons with such information is declared to be an essential function of a representative government and an integral part of the routine duties of officers and employees whose responsibility it is to provide such information. To that end, ss. 19.32 to 19.37 shall be construed in every instance with a presumption of complete public access, consistent with the conduct of governmental business. **19.35** Access to records; fees. (1) Right to inspection. (a) Except as otherwise provided by law, any requester has a right to inspect any record. Substantive common law principles construing the right to inspect, copy or receive copies of records shall remain in effect. The exemptions to the requirement of a governmental body to meet in open session under s. 19.85 are indicative of public policy, but may be used as grounds for denying public access to a record only if the authority or legal custodian under s. 19.33 makes a specific demonstration that there is a need to restrict public access at the time that the request to inspect or copy the record is made.

(am) In addition to any right under par. (a), any requester who is an individual or person authorized by the individual has a right to inspect any personally identifiable information pertaining to the individual in a record containing personally identifiable information that is maintained by an authority and to make or receive a copy of any such information. The right to inspect or copy information in a record under this paragraph does not apply to any of the following:

1. a. Endanger an individual's life or safety.

b. Identify a confidential informant.

3. Any record that is part of a records series, as defined in s. 19.62 (7), that is not indexed, arranged or automated in a way that the record can be retrieved by the authority maintaining the records series by use of an individual's name, address or other identifier.

(b) Except as otherwise provided by law, any requester has a right to inspect a record and to make or receive a copy of a record. If a requester appears personally to request a copy of a record that permits copying, the authority having custody of the record may, at its option, permit the requester to copy the record or provide the requester with a copy substantially as readable as the original.

(c) Except as otherwise provided by law, any requester has a right to receive from an authority having custody of a record which is in the form of a comprehensible audio recording a copy of the recording substantially as audible as the original. The authority may instead provide a transcript of the recording to the requester if he or she requests.

(d) Except as otherwise provided by law, any requester has a right to receive from an authority having custody of a record which is in the form of a video recording a copy of the recording substantially as good as the original. (em) If an authority receives a request to inspect or copy a record that is in handwritten form or a record that is in the form of a voice recording which the authority is required to withhold or from which the authority is required to delete information under s. 19.36 (8) (b) because the handwriting or the recorded voice would identify an informant, the authority shall provide to the requester, upon his or her request, a transcript of the record or the information contained in the record if the record or information is otherwise subject to public inspection and copying under this subsection.

(f) Notwithstanding par. (b) and except as otherwise provided by law, any requester has a right to inspect any record not specified in pars. (c) to (e) the form of which does not permit copying. If a requester requests permission to photograph the record, the authority having custody of the record may permit the requester to photograph the record. If a requester requests that a photograph of the record be provided, the authority shall provide a good quality photograph of the record.

(g) Paragraphs (a) to (c), (e) and (f) do not apply to a record which has been or will be promptly published with copies offered for sale or distribution.

(h) A request under pars. (a) to (f) is deemed sufficient if it reasonably describes the requested record or the information requested. However, a request for a record without a reasonable limitation as to subject matter or length of time represented by the record does not constitute a sufficient request. A request may be made orally, but a request must be in writing before an action to enforce the request is commenced under s. 19.37.

(i) Except as authorized under this paragraph, no request under pars. (a) and (b) to (f) may be refused because the person making the request is unwilling to be identified or to state the purpose of the request. Except as authorized under this paragraph, no request under pars. (a) to (f) may be refused because the request is received by mail, unless prepayment of a fee is required under sub. (3) (f). A requester may be required to show acceptable identification whenever the requested record is kept at a private residence or whenever security reasons or federal law or regulations so require.

(j) Notwithstanding pars. (a) to (f), a requester shall comply with any regulations or restrictions upon access to or use of information which are specifically prescribed by law.

(k) Notwithstanding pars. (a), (am), (b) and (f), a legal custodian may impose reasonable restrictions on the manner of access to an original record if the record is irreplaceable or easily damaged.

(L) Except as necessary to comply with pars. (c) to (e) or s. 19.36 (6), this subsection does not require an authority to create a new record by extracting information from existing records and compiling the information in a new format.

(2) Facilities. The authority shall provide any person who is authorized to inspect or copy a record under sub. (1) (a), (am), (b) or (f) with facilities comparable to those used by its employees to inspect, copy and abstract the record during established office hours. An authority is not required by this subsection to purchase or lease photocopying, duplicating, photographic or other equipment or to provide a separate room for the inspection, copying or abstracting of records.

(3) Fees. (a) An authority may impose a fee upon the requester of a copy of a record which may not exceed the actual, necessary and direct cost of reproduction and transcription of the record, unless a fee is otherwise specifically established or authorized to be established by law.

(b) Except as otherwise provided by law or as authorized to be prescribed by law an authority may impose a fee upon the requester of a copy of a record that does not exceed the actual, necessary and direct cost of photographing and photographic processing if the authority provides a photograph of a record, the form of which does not permit copying.

(c) Except as otherwise provided by law or as authorized to be prescribed by law, an authority may impose a fee upon a requester for locating a record, not exceeding the actual, necessary and direct cost of location, if the cost is \$50 or more.

(d) An authority may impose a fee upon a requester for the actual, necessary and direct cost of mailing or shipping of any copy or photograph of a record which is mailed or shipped to the requester.

(e) An authority may provide copies of a record without charge or at a reduced charge where the authority determines that waiver or reduction of the fee is in the public interest.

An authority (f) may require prepayment by a requester of any fee or fees imposed under this subsection if the total amount exceeds \$5. If the requester is a prisoner, as defined in s. 301.01 (2), or is a person confined in a federal correctional institution located in this state, and he or she has failed to pay any fee that was imposed by the authority for a request made previously by that requester, the authority may require prepayment both of the amount owed for the previous request and the amount owed for the current request.

(g) Notwithstanding par. (a), if a record is produced or collected by a person who is not an authority pursuant to a contract entered into by that person with an authority, the authorized fees for obtaining a copy of the record may not exceed the actual, necessary, and direct cost of reproduction or transcription of the record incurred by the person who makes the reproduction or transcription, unless a fee is otherwise established or authorized to be established by law.

(4) Time for compliance and procedures. (a) Each authority, upon request for any record, shall, as soon as practicable and without delay, either fill the request or notify the requester of the authority's determination to deny the request in whole or in part and the reasons therefor.

(b) If a request is made orally, the authority may deny the request orally unless a demand for a written statement of the reasons denying the request is made by the requester within 5 business days of the oral denial. If an authority denies a written request in whole or in part, the requester shall receive from the authority a written statement of the reasons for denying the written request. Every written denial of a request by an authority shall inform the requester that if the request for the record was made in writing, then the determination is subject to review by mandamus under s. 19.37 (1) or upon application to the attorney general or a district attorney.

(c) If an authority receives a request under sub. (1) (a) or (am) from an individual or person authorized by the individual who identifies himself or herself and states that the purpose of the request is to inspect or copy a record containing personally identifiable information pertaining to the individual that is maintained by the authority, the authority shall deny or grant the request in accordance with the following procedure:

1. The authority shall first determine if the requester has a right to inspect or copy the record under sub. (1) (a).

2. If the authority determines that the requester has a right to inspect or copy the record under sub. (1) (a), the authority shall grant the request.

3. If the authority determines that the requester does not have a right to inspect or copy the record under sub. (1) (a), the authority shall then determine if the requester has a right to inspect or copy the record under sub. (1) (am) and grant or deny the request accordingly.

(5) Record destruction. No authority may destroy any record at any time after the receipt of a request for inspection or copying of the record under sub. The permanent preservation of records of the University of Wisconsin System may be accomplished under par. (b). The society may deposit in the regional depositories established under s. 44.10, title remaining with the society, the records of state agencies or their district or regional offices which are primarily created in the geographic area serviced by the depository, but the records of

departments, all central offices. establishments and agencies shall remain in the main archives in the capital city under the society's immediate jurisdiction, except that the society may place the records temporarily at a regional depository for periods of time to be determined by the society. Nothing in this subsection nor in ch. 44 prevents the society's taking the steps for the safety of articles and materials entrusted to its care in library, museum or archives, including temporary removal to safer locations, dictated by emergency conditions arising from a state of war, civil rebellion or other catastrophe.

(b) The board may designate an archival depository at each university as defined in s. 36.05 (13) which shall meet standards for university archival depositories established by the board with the advice of the board of regents and the historical society or their respective designated representatives. The board may transfer to the appropriate university archival depository all original records and reproductions the board deems worthy of permanent preservation.

(c) The historical society shall, in cooperation with the staff of the board, as and soon practicable, adequately as conveniently classify and arrange the state records or other official materials transferred to its care, for permanent preservation under this section and keep the records and other official materials accessible to all persons interested, under proper and reasonable rules promulgated by the historical society, consistent with s. 19.35. Copies of the records and other official materials shall, on application of any citizen of this state interested therein, be made and certified by the director of the historical society, or an authorized representative in charge, which certificate shall have the same force as if made by the official originally in charge of them.

(d) 1. Except as provided in subd. 2., records which have a confidential character while in the possession of the original custodian shall retain their confidential character after transfer to the historical society unless the board of curators of the historical society, with the concurrence of the original custodian or the custodian's legal successor, determines that the records shall be made accessible to the public under such proper and reasonable rules as the historical society promulgates. If the original custodian or the custodian's legal successor is no longer in existence, confidential records formerly in that person's possession may not be released by the board of curators unless the release is first approved by the public records board. For public records and other official materials transferred to the care of the university archival depository under par. (b), the chancellor of the university preserving the records shall have the power and duties assigned to the historical society under this section.

2. Notwithstanding subd. 1., a record which is transferred to an archival depository under this subsection and which has a confidential character shall be open to inspection and available for copying 75 years after creation of the record unless the custodian, pursuant to ss. 19.34 and 19.35, determines that the record shall be kept confidential.

(e) This subsection does not apply to patient health care records, as defined in s. 146.81 (4), that are in the custody or control of the department of health services.

**16.611** State public records; optical disc and electronic storage. (1) In this section, "public records" has the meaning given under s. 16.61 (2) (b).

(b) The department shall prescribe, by rule, procedures governing the operation of its optical disc and electronic storage facility under s. 16.62 (1) (bm).

(c) The department shall prescribe, by rule, qualitative standards for optical discs and for copies of documents generated from optical discs used to store public records and records of the University of Wisconsin Hospitals and Clinics Authority and of the Wisconsin Aerospace Authority.

(d) The department shall prescribe, by rule, qualitative standards for the storage of public records in electronic format and for copies of public records stored in electronic format.

GENERAL RECORDS SCHEDULE, FACILITIES MANAGEMENT AND RELATED RECORDS, FAC00082 – MONITORING AND SURVEILLANCE RECORDINGS

## **General Records Schedule**

# **Facilities Management and Related Records**

Approved by the Public Records Board

# February 22, 2010

Revised: August 24, 2015

Expiration: February 22, 2020

For use by all units of Wisconsin Government at the State, County, and Municipal level

### Scope

This general records schedule covers the facility and related records of Wisconsin government agencies. There are six broad categories:

- -General Policies and Procedures
- -Capital Budget Related records
- -Use and Operation of Facilities related records including parking
- -Security related record Series
- -Health, Safety and Risk management Facility related records
- -Records related to state owned and operated cemeteries

For the Capital Budget section this schedule covers facilities that are constructed under the statutory authority of the State Building Commission which has responsibility for developing and implementing the state building program. Facility related records related to state transportation functions which have separate statutory authority are not included within the scope of this general records schedule. These records would be covered by program specific records schedules.

When the General Records Schedule for Budget and Budget Related Records was approved in March 2002 it did not include the record series related to the capital budget which follows its own set of policies and procedures until the approved State Building Commission biennial building program is added to the biennial budget bill by the Joint Committee on Finance. The Legislature then considers the capital budget as part of the biennial budget bill.

The sections on Use and Operation of Facilities; Security related records and Health, Safety and Risk management have general applicability to all state owned and or operated facilities.

The section on state owned and operated cemeteries narrowly applies to the state agencies that own and operate such facilities. This retention schedule applies to records in all media. A companion document Introduction to General Records Schedules June 2009 provides more information and guidance about the use of general records schedules by Wisconsin government agencies. In particular agencies are cautioned about destroying records at the end of the required retention time period if:

-records are required for a financial or performance audit;

-records are relevant to an existing, pending, or impending legal proceeding

-a relevant public records request has been received and not completed;

-a revised retention schedule is under development that would extend the retention time period.

enforcement officers.

#### Analysis by the Legislative Reference Bureau

This bill creates requirements for law enforcement agencies that use body cameras on law enforcement officers, including requirements for agency policies and training and for the retention and confidentiality of data recorded by the body cameras.

The bill also provides that if a public authority has custody of data from a body camera used by a law enforcement agency, that authority is not considered to be the custodian of that data. For purposes of requests for access to such data, the bill provides that the law enforcement agency is considered to be the custodian of that data and the bill directs any other authority that has custody of any such data to deny access to that data.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.

3 (c) 1. If a law enforcement agency has otherwise decided under s. 19.35 to 4 permit access to data from a body camera that is subject to disclosure under par. (b)  $\mathbf{5}$ and the data record a location where an individual may have a reasonable 6 expectation of privacy, the law enforcement agency shall, before permitting access 7 and subject to subd. 3., serve notice of the request for the data on each individual who 8 is a known victim or witness or an owner, or a person authorized by each such 9 individual as described under s. 19.32 (1m), either by mail or by personally serving 10 the notice. The notice may be mailed to the individual's or person's last-known 11 address if his or her current address is not known. The notice shall briefly describe 12the requested data and include a description of the rights of the individual or person 13 to deny permission to the law enforcement agency to release the data. The data 14recording the location are confidential and not subject to the right of inspection and 15copying under s. 19.35 (1) unless each individual who is a known victim or witness 16 or an owner, or a person authorized by each such individual as described under s. 1719.32 (1m), provides the law enforcement agency with written permission for the 18 release.

2. If the law enforcement agency has not received the requisite permission to release data under subd. 1. within 14 business days after the law enforcement agency makes the request, or a longer period determined by the law enforcement agency, the law enforcement agency shall deny the request, but any written permission for the release received after that period shall be valid as to any subsequent request for the same data.

1	3. After a law enforcement agency makes a request for permission under subd.
<b>2</b>	1., the law enforcement agency is not required to make such a request for any
3	subsequent request under s. 19.35 (1) for the same data.
4	4. A law enforcement agency shall retain any correspondence related to data
<b>5</b>	to which this paragraph applies for at least as long as the law enforcement agency
6	retains the data to which the correspondence relates.
7	(d) 1. Notwithstanding par. (b), a law enforcement agency may release data
8	from a body camera if the law enforcement agency determines that releasing the data
9	is in the interests of justice, except as provided in subd. 2.
10	2. If data from a body camera record a location where an individual may have
11	a reasonable expectation of privacy, a law enforcement agency may not release data
12	under subd. 1. unless each individual who is a known victim or witness or an owner,
13	or a person authorized by each such individual as described under s. 19.32 (1m),
14	provides the law enforcement agency with written permission for the release.
15	(e) 1. In this paragraph, "authority" has the meaning given in s. 19.32 (1).
16	2. For purposes of requests under s. 19.35 (1) for access to data from a body
17	camera used by a law enforcement agency, the law enforcement agency is the legal
18	custodian of the record, and if any other authority has custody of any such data, that
19	authority is not the legal custodian of that data. If any other authority receives a
20	request under s. 19.35 (1) for that data, that authority shall deny any portion of the
21	request that relates to that data.
22	(f) Nothing in this subsection prohibits the release of data from a body camera
23	under s. 175.47 (5) (b).

This bill creates requirements for law enforcement agencies that use body cameras on law enforcement officers, including requirements for agency policies, which encounters must be recorded, restrictions on the use of recordings, and retention practices as well as limitations on encounters that may not be recorded. The bill creates limitations on access to data from body cameras. The bill makes it a Class I felony to tamper with, delete, copy, or upload data obtained from a body camera or to tamper with or destroy a body camera. This bill also creates the Law Enforcement Body Camera Council in the Department of Justice to make recommendations to the legislature and to establish best practices regarding body cameras worn by law enforcement officers.
