Paper #568

Environmental Management Account -- Conversion of GPR and PR Positions (DNR -- Air, Waste and Contaminated Land)

[LFB 2005-07 Budget Summary: Page 383, #7]

CURRENT LAW

No provision.

GOVERNOR

Convert \$2,196,000 GPR with 23.0 GPR positions and \$280,000 PR with 3.0 PR positions annually to the segregated environmental management account of the environmental fund.

MODIFICATION

Convert \$771,100 and 8.5 positions in the drinking water and groundwater program from an appropriation for groundwater research contracts to the appropriate administrative appropriation.

Explanation: The bill would inadvertently convert \$771,100 GPR and 8.5 GPR positions in the drinking water and groundwater program to a SEG appropriation for groundwater research contracts. DOA has requested a correction to transfer the funding and position authority to the intended drinking water and groundwater SEG administrative appropriation.
