## Budget Change Items

### 1. STANDARD BUDGET ADJUSTMENTS [LFB Paper 101]

	<b>Governor (Chg. to Base)</b>	<b>Jt. Finance (Chg. to Gov)</b>	<b>Net Change</b>
GPR	36,827,200	- \$20,222,800	\$16,604,400

**Governor:** Modify the base budget by \$18,413,600 annually for: (a) full funding of continuing position salaries and fringe benefits (\$18,269,000 annually); and (b) full funding of lease and directed moves costs (\$144,600 annually).

**Joint Finance:** Adjust fringe benefits by -\$10,111,400 annually to reflect updated estimates.

**2. RESIDENT UNDERGRADUATE TUITION FREEZE [LFB Paper 635]**

	<b>Governor (Chg. to Base)</b>	<b>Jt. Finance (Chg. to Gov)</b>	<b>Net Change</b>
GPR	\$50,400,000	- \$50,400,000	\$0

**Governor:** Prohibit the Board of Regents of the UW System from charging resident undergraduates enrolled in an institution or college campus in the 2021-22 or 2022-23 academic year more in tuition than it charged resident undergraduates enrolled in that institution or college campus in the 2020-21 academic year. Provide \$16,800,000 in 2021-22 and \$33,600,000 in 2022-23.

Beginning in the 2013-15 biennium, each biennial budget act has prohibited increases in resident undergraduate tuition rates. A 1% annual increase in resident undergraduate tuition would result in increased tuition revenues of \$8.4 million. The administration indicates the funds provided under the bill are intended to replace resident undergraduate tuition revenue which could have been generated based on a tuition increase of 2% in each year of the biennium.

**Joint Finance:** Provision not included.

**3. UW SYSTEM GENERAL PROGRAM OPERATIONS [LFB Paper 636]**

	<b>Governor (Chg. to Base)</b>	<b>Jt. Finance (Chg. to Gov)</b>	<b>Net Change</b>
GPR	\$40,000,000	- \$40,000,000	\$0

**Governor:** Provide \$20,000,000 annually for UW System operations in the UW System's largest GPR appropriation for general program operations.

**Joint Finance:** Provision not included.

**4. TUITION PROMISE EXPANSION**

	<b>Governor (Chg. to Base)</b>	<b>Jt. Finance (Chg. to Gov)</b>	<b>Net Change</b>
GPR	\$39,000,000	- \$39,000,000	\$0

**Governor:** Provide \$13,800,000 in 2021-22 and \$25,200,000 in 2022-23 in a new, annual appropriation and require the Board of Regents to develop and administer a tuition promise grant program for eligible Wisconsin resident students enrolled at UW System institutions other than UW-Madison to supplement the gap between any scholarships or grants an eligible student receives outside of the tuition promise program and the full cost of their academic fees and segregated fees. Require that, to be eligible for the program, the student would have to be enrolled

in his or her first bachelor's degree program in an on-campus program and the student's household's annual federal adjusted gross income must be \$60,000 or less. Require that eligible students would have to meet any acceptable academic standards or additional requirements developed by the Board. Specify that incoming freshmen would be eligible for grants for eight consecutive semesters and transfer students for grants for four consecutive semesters. Specify that summer terms would not be included in the consecutive semester count and the program funding could not be applied to students' summer term tuition or fees. In addition, specify that no grants could be awarded to any student who is required by federal law to register with the selective service if the person has not so registered, and no grant could be awarded to a student whose name appears on the statewide child support lien docket, unless the student provides a qualifying payment agreement to the Board. Further, specify that the Board could promulgate rules to implement and administer the program. Specify that the grant program would first apply to eligible students who initially enroll in an institution in the first fall semester beginning after the effective date of the bill.

The Bucky's Tuition Promise program at UW-Madison was implemented beginning in fall, 2018, and provides scholarships and grants to cover tuition and segregated fees for students whose household adjusted gross income is \$60,000 or less. Incoming freshmen are eligible for eight consecutive semesters and transfer students are eligible for four consecutive semesters. Aid under the program is provided after other student aid, such as grants and scholarships are applied, resulting in a student's net cost for tuition and fees of zero. Approximately 850 students have received assistance through Bucky's Tuition Promise in the two years since the program's inception. Funding for the program was provided by UW-Madison's internal resources. UW System estimates 5,900 students would receive assistance through the expanded tuition program in the first four years.

**Joint Finance:** Provision not included.

## **5. BORROWING FOR OPERATIONAL PURPOSES**

**Governor:** Provide that the Board of Regents could, upon affirmative approval by the Board at a public meeting, arrange and obtain extensions of credit, on terms approved by the Board, to obtain short-term funding for any expense associated with athletics or educational programs and related programs. Specify that extensions of credit could also be used for refinancing or refunding if the repayment period for the original extension of credit does not exceed five years. Define "athletics program" as a program for intercollegiate athletics that is all of the following: (a) a revenue-producing enterprise; (b) operated or overseen by an institution's athletics department or office; and (c) subject to the bylaws and policies of the National Collegiate Athletic Association. Specify that "extension of credit" includes a loan or line of credit from a financial institution, liquidity facility, ancillary agreement, or any other credit arrangement. Define "short-term" as a period not exceeding five years for repayment of any individual extension of credit.

In addition, specify that the Board could pledge any of the following collateral as security for repayment of an extension of credit: (a) any revenues generated by the System, arising after the initial extension of credit is entered into, as a result of the operation of any athletics program;

or (b) any guarantee, obligation or revenues furnished by a third party. Prohibit the Board from pledging the full faith and credit or taxing power of the state for repayment of an extension of credit and specify that the state shall not be generally liable for the repayment of any extension of credit or interest, and extensions of credit shall not be a debt of the state for any purpose whatsoever. Specify that an extension of credit would be repayable solely from pledged collateral, and require any instruments evidencing an extension of credit state this on their face. Provide that a creditor that provides an extension of credit would have a perfected security interest in the pledged collateral.

Further, specify that proceeds from an extension of credit could not be used to pay for any of the following: (a) expenses associated with the acquisition, construction, improvement, or maintenance of buildings or other structures or facilities, including expenses associated with a UW gifts and grants project let through single prime contracting and including any debt service; (b) expenses associated with a master lease agreement entered into by the Department of Administration (DOA) on behalf of the Board of Regents to obtain property or services under which DOA, prior to the effective date of the bill, agreed to pay the expense; or (c) the creation of a new program and its associated expenses, under which the Board obtains property or services by entering into an agreement with a person other than DOA and this person makes or agrees to make periodic payments.

Create a continuing, all moneys received, program revenue appropriation for the receipt of moneys received as proceeds of extensions of credit or for the transfer of funds from the System's largest program revenue (PR) appropriation for the repayment of extensions of credit under these provisions. Specify that all proceeds from an extension of credit would be credited to this appropriation. Further, specify that the Board could direct the Secretary of Administration to transfer to this appropriation, and require the Secretary to then transfer, from the Board's largest PR appropriation, any amount the Board determines necessary for the repayment of any obligation arising under these provisions.

The UW System's largest PR appropriation is entitled, "General Program Operations." In 2020-21 the appropriation has funding of \$2.6 billion and includes monies from tuition and fees, auxiliary operations including residence halls, food service, student unions, and athletics.

**Joint Finance:** Provision not included.

## 6. UW SYSTEM REVENUE INVESTMENT [LFB Paper 637]

**Governor:** Specify that the Board of Regents could manage the investment of any revenues designated by the Board of Regents, including revenues from gifts, grants, and donations, by directing the State of Wisconsin Investment Board (SWIB) to invest these moneys according to investment policies established by the Board of Regents. Specify that SWIB would be required to invest moneys designated by the Board of Regents under the Board of Regents' investment policies. Require SWIB to make and manage these investments in accordance with the investment directives and policies of the Board of Regents and in accordance with the terms of the contract except that SWIB may decline to involve unreasonable risk or to be in violation of SWIB's statutory standards of investment prudence.

Under current law, the Board of Regents may invest revenues from gifts, grants, and donations by doing any of the following: directly employing a financial manager; selecting a private investment firm using a competitive proposal process, or contracting with SWIB to manage the investment of these moneys. If the Board of Regents contracts with SWIB for investment of these moneys, these moneys are not required to be invested in the state investment fund (SIF). Other program revenue balances (approximately \$1.8 billion in February, 2021) of the Board are currently invested in the SIF. The SIF operates as an investment trust for managing certain state moneys and functions as a cash management fund under which cash balances are pooled and invested in liquid, low-risk investments until these moneys are needed. In February, 2021, approximately \$17.7 billion was in the SIF, including approximately \$3.0 billion of retirement trust moneys and \$5.4 billion of local government pooled investments. The annualized rate of return for the SIF was 0.08% in February 2021.

**Joint Finance:** Provision not included.

## 7. MINNESOTA-WISCONSIN RECIPROCITY AGREEMENT

**Governor:** Transfer administration of the Minnesota-Wisconsin student reciprocity agreement relating to the UW System from the Higher Educational Aids Board to the Board of Regents. The reciprocity agreement provides for the waiver of nonresident tuition and for a reciprocal fee structure for residents of either state who are enrolled in public institutions of higher education located in the other state. Maintain the current law requirements regarding the purpose of the agreement and the requirement that the reciprocal fee may not exceed the higher of the resident tuition that would be charged the student at the public institution of higher education in which the student is enrolled or the resident tuition that would be charged the student at comparable public institutions of higher education located in the student's state of residence. Maintain the current law requirement prohibiting receipt of a nonresident tuition waiver by a person whose name is on the statewide support lien docket.

Require the Higher Educational Aids Board (HEAB) to provide to the designated Minnesota body, notice of the termination of the current reciprocity agreement, with the termination effective July 1, 2022. Provide that the Board of Regents, as the representative of Wisconsin, would enter into a new reciprocity agreement with the designated representative of the state of Minnesota to become effective July 1, 2022. Specify that the new agreement would be subject to approval by the Joint Committee on Finance.

Prior to each academic year, require the Board of Regents and the Minnesota designated body to prepare an administrative memorandum that establishes policies and procedures for implementation of the agreement for the upcoming academic year, including a description of how the reciprocal fee structure would be determined and submit the memorandum to the Joint Committee on Finance subject to a 14-day passive review approval process.

Maintain the current law requirement that at the end of each semester or academic term, each state determine the number of participating students and certify to the other state the aggregate amount of its reimbursement obligation, and the state with the larger reimbursement obligation is required to pay the net obligation as provided in the agreement by a reasonable date. Modify the

largest program revenue appropriation under the UW System to authorize the payment of any reimbursement obligation under the new reciprocity agreement, effective July 1, 2022.

Under current law, HEAB administers the Minnesota-Wisconsin reciprocity agreement which covers all public institutions in both states. Under the agreement, residents can attend public universities, community colleges, and technical colleges in the adjacent state without having to pay non-resident tuition. Under the bill, the Board of Regents would administer the agreement between Minnesota and Wisconsin for UW-System institutions and HEAB would administer the agreement between Minnesota and Wisconsin for students attending Wisconsin technical colleges. Currently, tuition referred to as differential reciprocity tuition is deposited in the general fund as GPR-Earned. With the July 1, 2022, effective date for these changes, the provisions would reduce expenditures from the GPR sum sufficient appropriation under HEAB by an estimated \$6,500,000 and reduce GPR-Earned under the UW System by an estimated \$16,500,000 in 2022-23, for a net reduction to the general fund's balance of \$10,000,000.

Under current law, the GPR appropriation under HEAB is used to pay Minnesota its cost-based reimbursement. As noted above, the additional tuition paid by Minnesota students attending UW institutions over UW System resident tuition amounts is deposited in the state's general fund as GPR-Earned.

Under the bill, it is anticipated that the UW System would pay Minnesota its cost-based reimbursement (if any) from its largest PR appropriation, and would deposit the additional tuition paid by Minnesota residents in that same appropriation.

**Joint Finance:** Provision not included.

## 8. STUDENT MENTAL AND BEHAVIORAL HEALTH SUPPORT [LFB Paper 638]

	<b>Governor (Chg. to Base)</b>	<b>Jt. Finance (Chg. to Gov)</b>	<b>Net Change</b>

In their agency budget request, UW System indicated funding would support staffing, training, operations, prevention, and evaluation and assessment. A UW System Administration liaison would be established to coordinate systemwide mental and behavioral health efforts and ensure adequate staffing levels for counseling and health centers to meet behavioral health service demand using a hybrid approach of psychiatric practitioners and telepsychiatry services. Require that these positions be filled using existing authorized positions that are currently vacant in a manner that reflects an increase in the total number of agricultural agent positions and agriculture-related research positions at UW-Madison. Specify that the Chancellor of UW-Madison may not abolish these positions under current law authorizing the creation and deletion of positions.

**Governor:** Provide \$56,161,400 annually and 44.52 positions beginning in 2021-22 to reflect increases in tuition revenues that have been incorporated into UW System's operating budget since 2018. These increases would true up the appropriation amount for recent changes in tuition revenues attributable to the following: (a) changes in enrollment (\$16,685,000); (b) self-supporting programs (\$13,537,600); (c) differential tuition increases (\$1,100,100); and (d) increases in nonresident and graduate tuition (\$24,838,700). Tuition revenues are deposited in the UW System's PR general program operations appropriation, which is an all-moneys-received appropriation, meaning that the UW System can expend all moneys deposited in the appropriation regardless of the amount shown in the appropriation schedule. In addition, the Board of Regents and the UW-Madison Chancellor may create or abolish PR positions without the approval of the

Legislature or the Joint Finance Committee.

## 25. UW-MADISON DIVISION OF EXTENSION TEACHING HOURS

**Governor:** Require that the faculty and instructional staff workload monitoring and reward plan under current law recognize the time spent by state specialists teaching graduate students and teaching Wisconsin farmers, as teaching hours.
