Paper #101

### Standard Budget Adjustments

---

#### BACKGROUND

In the summer of each even-numbered year, the Department of Administration issues budget instructions to state agencies regarding the preparation of biennial budget requests. The instructions include a detailed listing of the technical aspects of budget preparation for the ensuing biennium.

The instructions include, among other things, directions on submittal of "standard budget adjustments." Standard budget adjustments are a category of changes that are common to all agencies to continue a base level of services into the next biennium. The items included as standard budget adjustments are listed below.

*Turnover Reduction.* With limited exception, a reduction of 3% is to be applied to permanent salaries of each appropriation that funds 50 or more FTE positions.

*Removal of Noncontinuing Elements from the Base.* Funding for one-time items in the base year is to be deleted.

*Full Funding of Continuing Position Salaries and Fringe Benefits.* Adjust funding for salaries and fringe benefits of positions to levels as of August of the base year.

*Funding of Ongoing 13.10 Supplements.* Adjust appropriations for funding and positions authorized by the Joint Committee on Finance on a permanent basis that are not included in the base year.

*Reclassifications and Semiautomatic Pay Progression.* Provide increases for any appropriation with fewer than 40 FTE positions where reclassifications or pay progression amounts have occurred in the base year.

*Overtime.* Overtime amounts that are budgeted in the base year are removed under "Full Funding of Continuing Positions Salaries and Fringe Benefits" and then included in each year of the ensuing biennium.

*Night and Weekend Differential Pay.* Similar to overtime, amounts for this item are removed under "Full Funding of Continuing Positions Salaries and Fringe Benefits" in the current biennium and may be restored for the ensuing biennium.

*Full Funding of Lease and Directed Moves Costs.* Funding can be provided for increases in lease costs or office relocations if required by the Department of Administration.

*Minor Transfers within the same Appropriation.* Provide technical adjustments within an appropriation if they net to zero.

This office has reviewed the standard budget adjustments for each agency to determine if the amounts conform to the budget instructions and calculations made over the past several biennia. In some instances, adjustments have been made to the amounts submitted by agencies and included in the Governor's 2021-23 budget recommendations. In total, the standard budget adjustments for 2021-23 equal \$13,234,500 and a deletion of 235.45 positions. This is \$24,192,400 lower than the amounts shown in the Governor's budget bill.

Attached is a listing of the standard budget adjustment amounts by agency and fund source. Following is a comparison of the 2021-23 standard budget adjustments of the Governor's budget bill and those reflected in the attachment.
