State Programs for Veterans

According to United States Department of Veterans Affairs (USDVA) estimates, there are approximately 325,000 United States veterans living in Wisconsin. Although many benefits received by U.S. veterans, including healthcare, pension, and educational benefits, are provided through USDVA, the state has created other benefit programs for Wisconsin veterans as well as grant programs for organizations that serve veterans. The Wisconsin Department of Veterans Affairs (DVA) administers most of these programs and assists Wisconsin veterans and eligible family members in receiving federal benefits. DVA also operates three state veterans homes, three cemeteries for veterans, and the Wisconsin Veterans Museum.

This paper provides an overview of the state's veterans benefit and grant programs and other functions of the Department of Veterans Affairs, and describes the funding sources used for these programs. The first section provides a brief introduction to the history of Wisconsin veterans benefit programs and the Department of Veterans Affairs. The second section discusses DVA-operated veterans homes, while subsequent sections summarize DVA's education and training programs, other grant and assistance programs for individuals, grant programs to veterans organizations, and DVA programs to honor and memorialize veterans' contributions. The final section describes the veterans trust fund, which is the primary funding source for most DVA programs, other than the veterans homes.

For the purposes of the programs discussed in this paper, state statutes define a "veteran" to include a person who served on active duty in the United States armed forces or in forces incorporated as part of the U.S. armed forces under honorable conditions and who: (a) served for two continuous years or more, or for the full period of his or her initial service obligation, whichever is less;

(b) served for 90 days or more during a wartime period; or (c) received an expeditionary or equivalent service medal. Individuals discharged early for reasons of hardship, service-connected disability, or a reduction in military personnel are also considered veterans, as are individuals that died while on active duty, are missing in action, died as a result of a service-connected disability, or died while training.

The Department of Veterans Affairs

The Wisconsin Department of Veterans Affairs was created by Chapter 580, Laws of 1945, to administer the state's veterans programs and to assist the state's veterans in securing federal veterans benefits. Some state veterans programs, however, existed many years before DVA was created. The Grand Army Home at King (Waupaca County) was established in 1887 by the Grand Army of the Republic, an organization of Civil War veterans. Similarly, the Grand Army of the Republic Memorial Hall, a museum for Civil War veterans, was established in the State Capitol in 1901.

Two segregated funds had also been established prior to the creation of the Department to fund benefits for veterans. The first was the soldiers rehabilitation fund, which was established in 1919 to provide cash bonuses for World War I veterans. The second was the post-war rehabilitation fund, which was established in 1943 to meet the medical, educational, and economic needs of World War II veterans.

Many of the veterans programs that existed when DVA was created continue in some form today. The Grand Army Home at King has since

been renamed the Wisconsin Veterans Home at King and two additional veterans homes, one at Union Grove (Racine County) and one at Chippewa Falls (Chippewa County), have been opened. The Wisconsin Veterans Museum honoring all veterans was opened in 1993 and includes the Memorial Hall exhibits that were relocated from the State Capitol.

A third segregated fund, the veterans housing trust fund, was created in 1947 to make second mortgages to qualified veterans. In 1961 the soldiers rehabilitation fund, the post-war rehabilitation fund, and the veterans housing trust fund were combined to form the veterans trust fund, which supports many of DVA's current programs. Another fund, the veterans mortgage loan repayment fund, was created in 1974, to collect loan repayments and pay debt service on the bonds issued to make loans, as well as fund administrative costs associated with the loan program. The veterans mortgage loan repayment fund was closed in 2019.

As a cabinet agency, DVA is headed by a Secretary appointed by the Governor. State statutes require that the Secretary be a veteran and that the Governor consult with the presiding officers of at least six Wisconsin veterans organizations prior to making the appointment.

The statutes also establish the Board of Veterans Affairs to oversee various activities of the Department. The Board consists of nine members, appointed by the Governor to four-year, staggered terms. All members must be veterans and there must be at least one member from each of the state's Congressional districts. All proposed changes or additions to the Department's administrative rules must be provided to the Board prior to submission and any written comments or opinions submitted by the Board must be included with the proposed rule when it is published or distributed.

Wisconsin Veterans Homes

The Department operates or contracts for the operation of three homes to provide nursing home or intermediate care for veterans and certain qualifying relatives. This section provides information on the services and financing of these homes.

History and Description

Since 1887, the Wisconsin Veterans Home at King has provided residential care, nursing and medical services, food services, and social and counseling opportunities to its resident veterans and dependents. The King Home currently has a total of 513 licensed skilled nursing care beds in three skilled nursing facility buildings on the campus. A new 192-bed facility, the John R. Moses Hall, opened in the fall of 2022, replacing Olson Hall, a 200-bed facility.

The Wisconsin Veterans Home at Union Grove opened in 2001 and currently has 158 skilled nursing home beds. The Union Grove Home is adjacent to the Southern Wisconsin Center for the Developmentally Disabled and the Robert E. Ellsworth Correctional Center operated by the Department of Health Services and the Department of Corrections, respectively.

The Wisconsin Veterans Home at Chippewa Falls opened in 2013, providing 72 skilled nursing care beds. Unlike the King and Union Grove veterans homes, which are operated by DVA staff, the Department contracts for most of the operations at the Chippewa Falls veterans home. In 2021-22 DVA paid the contractor, Health Dimensions Group, \$8.6 million to provide services. Separate from this contract, DVA pays certain other costs associated with operating the facility, such as administration, maintenance, municipal service fees, and debt service costs.

The skilled nursing home facilities at all three

locations are licensed and regulated by the Department of Health Services and the USDVA and are subject to state and federal rules that govern the maintenance, operation, and construction of nursing homes. These rules specify staffing requirements, program and service standards, and various sanitary and physical plant regulations.

In addition to nursing home care, each veterans home provides a variety of on-site medical services, recreational opportunities, and community services, including laundry, dining, barber and beautician services, banking, religious services, and a post office.

As of September of 2022, the King home had 303 out of 513 beds filled, Union Grove had 86 of 158 beds filled, and Chippewa Falls was filled to its capacity of 72 beds. Of all the residents at the state veterans homes, 87% were veterans, while 13% were spouses of veterans. Veterans of the Vietnam War comprised the largest share of veteran residents, with 56% of the total, while 17% were veterans of the Korean Conflict, 7% were veterans of World War II, 18% were peacetime veterans, and the rest were veterans of other conflicts.

Eligibility

Membership at any of the veterans homes is open to veterans, spouses or surviving spouses of eligible veterans, and parents of a person who died while serving in the U.S. armed forces. However, admission of surviving spouses and parents of veterans is allowed only if overall occupancy falls below an optimal level, as determined by the Board of Veterans Affairs.

Both Wisconsin residents and nonresidents are eligible for membership at the state veterans homes. However, DVA is required to maintain priority system that provides first priority to Wisconsin residents over nonresidents. Furthermore, persons who had been residents for more than six months prior to application are given priority over

those who had been residents for six months or less.

Priority for membership also depends upon eligibility group. Veterans are given first priority, followed by spouses of living veterans, followed by surviving spouses of deceased veterans, and then by parents of veterans. Within each of these categories, the residency priority rules described above are applied. Exceptions to these priorities may be made to avoid the separation of husbands and wives.

In addition to membership eligibility, an applicant for admission must demonstrate that he or she: (a) is permanently incapacitated due to physical disability or age from any substantially gainful occupation; (b) has not been convicted of a felony or other crime involving moral turpitude; (c) has not been diagnosed with certain chronic ailments unless the facility is able to provide care for the individual; (d) provides a financial statement for evaluation purposes; and (e) has care needs that the home or facility can meet.

Funding

The Department's residential care facilities are supported from five primary sources: (a) medical assistance program payments; (b) member payments; (c) USDVA per diem payments; (d) USDVA service-connected disability payments; and (e) Medicare payments. Each of these sources is described in more detail below.

Medical Assistance Payments. DVA's nursing homes are certified to participate in the medical assistance (MA) program and receive reimbursement under the program for the costs of services they provide to MA-eligible residents. Most MA costs, including payments to nursing homes for the care they provide to MA recipients, are funded on an approximately 60% federal/40% state cost-sharing basis. The veterans homes are able to claim all allowable MA costs as long as the total claim is less than the amount that would have been

paid under Medicare payment principles (the "Medicare upper limit"). Allowable costs under MA also include the interest portion of debt service costs and depreciation associated with the nursing home facilities.

Under the MA program, any income received by a beneficiary in nursing home care, including income from veterans pension and social security benefits, must be used to offset the cost of care (minus certain allowances for personal expenses, health insurance premiums, and other costs). The MA program is billed only for the net cost after this assignment of income.

Medical assistance funds currently account for the primary revenue source for 58% of all residents in nursing home care at the veterans homes.

Payments by Residents. Veterans home members who are not MA beneficiaries pay for care according to a daily private pay rate, which varies by home and by the level of care. Private pay rates are recalculated annually based on the projected cost of care for the year, including all facility and personnel costs. Rates go into effect in January and may be adjusted in July to account for any changes in costs. In 2022, private pay rates for veterans in skilled nursing care were \$351 at King, \$297 at Union Grove, and \$238 at Chippewa Falls. Rates differ for higher or lower levels of care. These rates reflect a discount to account for USDVA per diem payments made to the homes on behalf of veteran members (described below). Since the homes do not receive per diem payments on behalf of veterans' spouses, the spouses pay a higher, undiscounted private pay rate.

Currently, payments by residents is the primary source of revenue for 6% of residents in skilled nursing home care at the veterans homes.

USDVA Per Diem Payments. The Department receives USDVA per diem payments for its member veterans, which vary depending on the level of care provided. In federal fiscal year 2023,

USDVA pays \$127.17 per day for each veteran who received nursing home care. For veterans who pay for the cost of care under the private pay rate, the per diem payments reduce the amount owed.

USDVA Service-Connected Disability Payments. USDVA pays for nursing home care at state veterans homes for any veteran in need of care for a service-connected disability or who has at least a 70% service-connected disability and who is in need of nursing home care. The rate of such payments is established in accordance with agreements that USDVA makes with each home. Service-connected disability payments are made in lieu of per diem payments and are the funding source for 35% of veterans home members in skilled nursing home care.

Medicare. Medicare pays for some care for members who receive care at a veterans home. Since the costs associated with long-term care or assisted living are not eligible for Medicare reimbursement, most Medicare payments are associated with short-term rehabilitative care provided at the homes. Medicare is the primary source of revenue for 1% of veterans home members.

Table 1 shows total revenues and expenditures, by category, for veterans homes operations in 2021-22.

Veterans Education and Training Programs

Wisconsin veterans and certain dependents are eligible to receive higher education tuition and fee assistance provided by the federal government, as well as assistance provided by the State of Wisconsin. The state programs are administered by DVA, the University of Wisconsin System (UW System), and the Wisconsin Technical College System (WTCS), and the Higher Education Aids Board (HEAB). Because of the importance of

Table 1: State Veterans Home Revenues and Expenditures, 2021-22

Revenues	
Service-Connected Disability	\$29,385,800

Salary	\$37,737,700
Fringe Benefits	18,327,700
Supplies and Services	26,624,200
Other	<u>6,013,900</u>
Total Expenditures	\$88,703,500

federal education assistance for veterans and the interaction of this assistance with state programs, this section first describes the Post-9/11 G.I. Bill, which is currently the primary source for education assistance for veterans. Following this description, this section provides an outline of state education and training programs for veterans.

Federal Post-9/11 G.I. Bill

There are several federal programs to assist veterans with education and vocational training costs, although currently most federal higher education assistance for veterans is provided under the Post-9/11 Veterans Assistance Act of 2008 (commonly known as the Post-9/11 G.I. Bill). The benefits include the direct payment of all or a portion of tuition and fees, a monthly housing allowance, and an annual books and supplies stipend. The amount of the benefit varies depending upon the amount of time the eligible veteran spent on active duty after September 10, 2001, with a maximum cap that differs for public and private schools. For public institutions, the maximum benefit is 100% of resident tuition. For students attending private institutions (nonprofit or for-profit schools), the annual cap was established initially at \$17,500 for the 2011-12 academic year, but is adjusted annually at the rate of inflation for

undergraduate tuition. For the 2022-23 academic year, the private school maximum was adjusted to \$26,381.

A veteran who served at least 36 months on active duty following September 10, 2001, receives 100% of the maximum benefit. Veterans who served for shorter periods receive a lower percentage, with a minimum of 40% for those who were on active duty for at least 90 days. Veterans who were on active duty for at least 30 days, but who were discharged due to a service-connected disability are eligible for the 100% benefit. The benefit is available for a total of 36 months of schooling.

Although the Post-9/11 GI Bill pays full tuition and fees for many Wisconsin veterans, for others the federal benefit covers only part of the cost of higher education. State tuition remission and refund programs may pay all or part of the remaining costs in many cases. In this context, a remission means that the college or university deducts some amount from the net tuition and fees owed, reducing or eliminating the cost to the program beneficiary. By contrast, a tuition reimbursement occurs when the state program makes a payment to the student at the end of a semester equal to the amount the student paid to the college or university, or some fraction of that amount if the student is not eligible for full reimbursement.

University of Wisconsin and Wisconsin Technical College Tuition Remission Programs for Veterans

The state's veterans tuition remission programs require the UW System and Wisconsin technical college boards to remit 100% of tuition and fees, less any amount paid under the federal Post-9/11 G.I. Bill, for up to 128 credits or eight semesters, whichever is longer, to eligible veterans. To qualify for this remission, a student must: (a) be a resident of Wisconsin at the time of application (unless on active duty); (b) have been a Wisconsin resident at the time of entry into the armed

services or have been a resident of Wisconsin for at least five consecutive years immediately preceding the beginning of the semester; and (c) meet the active duty service requirements to qualify as a veteran under state statutes. Credits that are wholly paid for with Post-9/11 G.I. Bill benefits do not count against the 128 credit limit on state remissions. In cases where Post-9/11 G.I. Bill benefits pay for a fraction of a credit and the remainder is remitted under state law, only the portion of the credit that is remitted is counted against the 128 credit limit.

A surviving spouse or child of a veteran who died while in the line of duty or as a result of a service-connected disability or a spouse or child of a veteran who received at least a 30% service-connected disability is also eligible, with certain restrictions, for tuition remission under this program.

In 2021-22, the UW System provided tuition and fee remissions totaling \$10.7 million to 1,681 veterans enrolled as undergraduate, graduate, or professional students. The Wisconsin technical colleges provided remissions totaling \$1.6 million to 694 veterans. The UW campuses and technical colleges are partially reimbursed for the cost of tuition remissions through a state funds appropriation from the Higher Education Aids Board.

University of Wisconsin System and Wisconsin Technical College Education Cost Reimbursement for Non-Tuition Costs

In the years prior to the passage of the Post-9/11 G.I. Bill, most federal education assistance was provided through the Montgomery G.I. Bill. Under that program, qualifying veterans (as well as current reservists and certain survivors and dependents of veterans) who are enrolled as students receive a fixed monthly allowance that can be used for educational expenses. Although some veterans may be eligible under both the Post-9/11 G.I. Bill and the Montgomery G.I. Bill,

federal law does not allow a student to collect assistance under both programs, requiring the dual-eligible veteran to choose between the two programs. The Post-9/11 G.I. Bill provides more generous benefits for tuition costs (provided directly to the institution), but that program's non-tuition benefits for housing and supplies may be less than the monthly living allowance provided under the Montgomery G.I. Bill.

To make up this difference in non-tuition benefits, the UW System and Wisconsin Technical College System provide additional assistance for veterans attending one of these institutions. Under this program, a veteran who receives benefits under the Post-9/11 G.I. Bill, but whose stipend under the Montgomery G.I. Bill or certain other federal education programs (excluding any amounts for tuition) would have exceeded the amount of the non-tuition assistance received under the Post-9/11 G.I. Bill is reimbursed by the institution attended for the difference in these benefits.

As with the tuition remission programs, a surviving spouse or children of a veteran who died while in the line of duty or as a result of a service-connected disability or a spouse or child of a veteran who received at least a 30% service-connected disability is also eligible, with certain restrictions, for reimbursement under this program.

In 2021-22, the UW System provided reimbursement payments under this program totaling \$0.8 million to 187 veterans and the Wisconsin technical colleges provided \$0.5 million to 269 veterans.

Private Institution Grants for Veterans and Dependents

The Higher Aids Education Board (HEAB) makes grants to private institutions, defined as private nonprofit institutions that are members of the Wisconsin Association of Independent Colleges and Universities, in which an eligible student is enrolled to offset the tuition charged by the private

institution. Eligible students include veterans, or dependents of a deceased or disabled veteran.

The grant provided under the program is the lesser of \$2,000 or 50% of the difference amount of tuition charged by the private institution and the amount of tuition paid for the student under certain specified federal veteran educational assistance programs. The private institution receiving the grant is required to provide an equal match of the amount of the grant from institutional funds, gifts, or grants.

To qualify as an eligible veteran under the program, a student must be verified by the Department of Veterans Affairs as: (a) being a resident of this state for the purpose of receiving benefits; (b) having resided in this state for at least five consecutive years immediately preceding the semester in which the student enrolls at the private institution; and (c) having qualifying military service. Dependents are defined as any of the following of a deceased or disabled veteran: (a) a spouse; (b) an unremarried surviving spouse; or (c) a child, if the child is at least 17 but not yet 26 years of age. The program requires that if a deceased veteran was not a resident of Wisconsin at the time of entry into the service, HEAB may not make a grant on behalf a dependent of the veteran unless the dependent has resided in the state for at least five consecutive years immediately preceding enrollment in the private institution. Before HEAB can award a grant for a student for a semester or session, the student must apply to the payment of tuition all educational assistance to which the student is entitled under certain specified federal veteran educational assistance programs.

Students may participate in either the HEAB program or the remissions program from the UW-System or the technical colleges or both, but may not receive more than the longer of 128 credits or eight semesters of tuition assistance in total.

The HEAB grant program was established by

2019 Act 149 and began making grants in the 2020-21 academic year. In 2021-22, HEAB awarded grants totaling \$371,900.

Department of Veterans Affairs Tuition Reimbursement Program

The Department of Veterans Affairs administers the veterans tuition reimbursement program, which reimburses up to 100% of the cost of undergraduate tuition and fees or high school tuition or program costs, minus any other grants or scholarships received by the veteran, with a maximum reimbursement based on the costs of a UW-Madison resident undergraduate tuition. The reimbursement percentage depends upon the qualifying veteran's length of service.

While the program formerly awarded tuition reimbursement payments totaling over \$1 million annually, utilization of the program has steadily decreased over the past decade, likely due to changes in federal veterans benefits and the creation of new state veterans education benefits. In 2021-22, DVA made five tuition reimbursement payments under the program, totaling \$11,000.

Retraining Assistance Program

DVA awards grants to veterans who participate in retraining programs to enable them to obtain gainful employment. The grant amounts are limited to \$3,000 in any 12-month period and \$6,000 during his or her lifetime.

These grants are available to any veteran who: (a) is enrolled in a state technical college or an in-state proprietary school that is approved by the Education Approval Board (other than a proprietary school offering a four-year degree or a four-year program), or is engaged in a structured on-the-job training program that meets program requirements promulgated by DVA; (b) meets financial assistance criteria established by DVA; (c) has become unemployed, underemployed or received a notice

of termination of employment in the year prior to submitting the grant application; (d) will receive adequate employment skills and is in an occupation for which favorable employment opportunities are anticipated, as determined by DVA; and (e) has not received a DVA tuition reimbursement grant for the same period.

In 2021-22, DVA awarded nine retraining grants, totaling \$27,000.

Other Programs to Assist Veterans and Their Families

The state has several other programs that provide grants or direct assistance to veterans and their families. This section describes those programs.

Veterans Housing and Recovery Program

The veterans housing and recovery program (VHRP, previously called the veterans assistance program) provides transitional housing and support services to homeless veterans and veterans who are at risk of becoming homeless. By rule, a veteran is eligible for the program if the veteran's need for services is based on any of the following circumstances: (a) homelessness or conditions that indicate that the veteran is at risk of becoming homeless; (b) incarceration; (c) unemployment or underemployment that significantly limits the veteran's ability to be self-supporting; (d) an affliction with acute or chronic physical or mental health problems that significantly limits the veteran's ability to be self-supporting; and (e) insufficient monthly income and resources to pay for the cost of care provided at an assisted living facility operated at a state veterans home. DVA funds VHRP residential services in Chippewa Falls and Union Grove (on or near the state veterans homes at these locations), and at a separate site in Green Bay.

Services provided under VHRP include: (a) transitional housing; (b) referrals to service providers; (c) financial assistance to veterans who are eligible for residency at a veterans home but lack financial resources; (d) assistance in seeking vocational opportunities; and (e) single occupancy rooms at reduced rent for working veterans.

The veterans housing and recovery program is funded from a combination of federal per diem payments, an appropriation from the veterans trust fund, and payments by program participants. Veterans who receive transitional housing or single-occupancy housing assistance may be charged a program fee, which is generally capped at 30% of monthly income. In 2021-22, expenditures totaled \$2,592,800, including federal per diem payments (\$1,834,000), an appropriation from the veterans trust fund (\$612,800), and revenue contributed by veterans who received VHRP services (\$146,000).

Veterans Property Tax Credit

Since tax year 2005, Wisconsin has provided a refundable credit against the individual income tax for property taxes paid by certain disabled veterans and unremarried surviving spouses of veterans. Currently, the tax credit is equal to real and personal property taxes paid on a principal dwelling by an eligible veteran or by an eligible unremarried surviving spouse.

An eligible veteran is defined as a person who meets all of the following criteria: (a) has a service-connected disability of 100% or a 100% disability rating based on individual employability; (b) served on active duty in the U.S. armed forces; (c) was a resident of Wisconsin at the time of entry into that service or had been a Wisconsin resident for any consecutive five-year period after entry; and (d) is a resident of the state for purposes of receiving veterans benefits.

An unremarried surviving spouse includes a person whose deceased spouse meets any of the following criteria: (a) died while on active duty in

the U.S. armed forces, was a Wisconsin resident at the time of entry into service or for any subsequent, consecutive five-year period, and was a Wisconsin resident at the time of death; (b) served on active duty in the U.S. armed forces, was a Wisconsin resident at the time of entry into active service or for any subsequent, consecutive five-year period, was a resident of Wisconsin at the time of death, and had a service-connected disability of 100% or a 100% disability rating based on individual employability; (c) served in the National Guard or U.S. armed forces reserves, was a Wisconsin resident at the time of entry into active service or for any subsequent, consecutive five-year period, and died in the line of duty while on active or inactive duty while a Wisconsin resident; or (d) served on active duty, was a resident of Wisconsin at the time of entry into active service or who had been a resident of Wisconsin for any consecutive five-year period after entry into that active duty service, was a resident of Wisconsin at the time of his or her death, and following the individual's death, his or her spouse began to receive, and continues to receive, dependency and indemnity compensation under federal law.

There were 12,120 veterans and spouses who claimed the credit for 2020, totaling \$40.1 million. For additional information, see Legislative Fiscal Bureau Informational Paper #14, "Veterans and Surviving Spouses Property Tax Credit."

Subsistence and Health Care Aid Grant Program

DVA provides limited emergency financial assistance to eligible veterans and their families under the subsistence and health care aid grant program (formerly known as the assistance to needy veterans program).

The program provides two types of service: (a) assistance with health care costs associated with dental care, vision care, and hearing care, which

includes costs for dentures or other dental extensions, eyeglasses, and hearing aids; and (b) subsistence aid.

By rule, eligibility for these grants is limited to veterans in families with income less than 200% of the federal poverty level (\$27,180 for an individual and \$46,060 for a family of three in 2022). In addition, assistance under the health care component is limited to veterans whose liquid assets, excluding the first \$50,000 of cash surrender value of any life insurance policy, is below \$1,000. Each grant applicant must submit a declaration that he or she has applied for all aid offered through or administered by county, state or federal governments, and must list all assets that are available to the applicant or the applicant's family.

An individual may receive aid under both components, but may not receive a combined total of more than \$7,500 in grants during his or her lifetime, and may not receive more than \$3,000 in subsistence aid during any 12-month period.

Under the health care costs component, the Department pays the portion of the cost of dental, vision, or hearing care that is not covered by private insurance. However, the Department limits the amount of assistance provided for each type of assistance by administrative rule. If the provider does not accept as full payment the maximum aid plus insurance payment (if any), then the Department may require the veteran to also make a payment for the service if it is determined that the veteran has sufficient liquid assets.

The subsistence aid component of the program provides temporary emergency aid to veterans in the event of an illness, injury, or natural disaster that causes a loss of income. The amount an individual receives is limited to the difference between the amount of income earned before the loss of income and the amount of income earned after the loss of income. Subsistence aid is provided in 30-day increments or for a 90-day period.

In addition to veterans, the spouse and dependents of a member of the U.S. armed forces or of the Wisconsin National Guard are also eligible for assistance grants if the following apply: (a) the service member has been deployed or activated; (b) due to the activation or deployment, a loss of income has occurred; (c) an economic emergency has occurred during the activation or deployment; and (d) the spouse and dependents are residents of the state. The 200% of poverty level income threshold established for other program beneficiaries does not apply to aid provided to spouses and dependents of activated or deployed members.

The unremarried spouse and dependents of veterans who died while on active duty (including training) are also eligible to receive assistance under the program, although the income limits apply in these circumstances. In 2021-22, DVA awarded 38 grants for a total of \$56,000 under the health care assistance component and eight grants for a total of \$11,000 under the subsistence aid component.

Veterans Outreach and Recovery Program

The veterans outreach and recovery program (VORP) provides outreach, treatment, and support to veterans (and individuals who are serving in the National Guard or a reserve component of the U.S. Armed Forces) who have a mental health condition. The program employs outreach specialists to make contact with program participants to provide direct assistance as well referral to other existing social services. Referral services include mental health and substance abuse treatment, housing and utility assistance, employment and education, and transportation assistance.

VORP has 14.75 authorized positions and funding of \$1,571,900 annually in the 2021-23 biennium.

In 2021-22, VORP provided direct or referral services to 1,329 individuals.

Veterans Outreach Efforts

The Department conducts outreach events to inform and assist veterans in receiving state and federal veterans benefits. DVA, in collaboration with the Wisconsin Department of Workforce Development, conducts periodic career and benefit fairs throughout the state. The fairs feature employers providing job search assistance to veterans seeking employment, along with local, state, and federal veterans advocates offering benefits and services information to state veterans.

In addition, the Department has a Veterans Benefits Resource Center (VBRC) that provides veterans improved access to information about the Department's programs, benefits, and services via phone, chat (through DVA's website), walk-in, and e-mail communications. The goal of the VBRC is to ensure that veterans who contact DVA during business hours will be able to immediately speak to VBRC support staff trained to provide the most frequently requested information about the Department's programs, benefits, and services.

The Department's outreach staff coordinate and attend re-integrations, demobilizations and other veterans events, and also serve as agency liaisons for local governments, educational and training institutions, and nonprofit organizations on veterans issues.

Veterans Employment Grants

The Department awards grants to eligible employers as an incentive to hire disabled veterans. Under this program, an eligible employee must have a service-connected disability of at least 50% and work full- or part-time for at least twelve consecutive months. The employer receives \$5,000 following the first year of employment for each full-time disabled veteran hired and up to \$2,500 following the first year for each part-time disabled veteran hired (prorated for any employee who is employed less than half time). Employers may apply for an installment payment after six months of

consecutive employment.

The disabled veteran employment grants are funded as a component of the veterans employment and entrepreneurship program. Under that program, DVA may make grants of up to \$500,000 to improve employment outcomes for veterans. A portion of this amount is reserved for disabled veterans employment grants and the rest is allocated to grants for nonprofit organizations that assist veteran entrepreneurs (described in the following section). In 2021-22, DVA awarded \$29,300 in disabled veteran employment grants to nine employers.

American Rescue Plan Act Funding Allocation for Veterans Services

In October of 2022, the Governor announced plans to allocate a total of \$10 million from funds received by the state under the federal American Rescue Plan Act for several veterans services and initiatives. The funds are distributed as follows: (a) \$4.5 million for mental health services for veterans, including emergency services and peer supports; (b) \$2 million for rental assistance programs for veterans experiencing homelessness or at risk of homelessness; (c) \$1.5 million to hire seven additional outreach specialists under the veterans outreach and recovery program; (d) \$1.5 million to increase funding for county and tribal veterans service offices; and (e) \$0.5 million for veterans employment assistance programming administered by the Department of Workforce Development.

Assistance to Veterans Organizations

The Department administers several grant programs that provide funding to organizations or entities that assist Wisconsin veterans, which are described in this section.

Financial Support for County Veterans Service Offices

Each county is required to have a county veterans service officer (CVSO) and to provide the CVSO with office space and clerical assistance. Each CVSO must be a Wisconsin resident and a veteran who served on active duty under honorable conditions.

CVSOs are required to: (a) advise veterans of any benefits to which they may be entitled and to provide assistance regarding any complaint or problem arising from such services; (b) make reports to their county board, as the board requires; (c) cooperate with federal and state agencies that serve or grant aid or benefits to former military personnel and their dependents; and (d) furnish information about veterans burial places within the county. These duties are required to be performed separately and distinctly from any other county department.

The cost of maintaining a county veterans service office is primarily the county's responsibility, although DVA provides some financial assistance to counties that maintain and operate a county veterans service office consistent with standards developed by the Department. For counties with full-time CVSOs, the grant amounts are as follows: (a) \$14,300 for counties with a population of 75,000 or more; (b) \$12,650 for counties with a population of 45,500 to 74,999; (c) \$11,000 for counties with a population of 20,000 to 45,499; and (d) \$9,350 for counties with a population of less than 20,000. Counties with a part-time CVSO are limited to a reimbursement of \$550 annually.

In 2021-22, DVA made grants to counties totaling \$832,150, funded with an appropriation from the veterans trust fund.

American Indian Veterans Service Grants

In addition to financial assistance to CVSOs,

the Department provides financial assistance to federally recognized Indian tribes and bands that appoint a tribal veterans service officer and that meet minimum budget and operating standards. The service officer must be a veteran and must serve as a full-time employee. The tribal veterans service officer provides the same services as CVSOs provide, but provide these services to tribal members. Assistance is limited by statute to \$16,500 per year per Indian tribe or band, although the amount of funding provided in the 2021-23 biennial budget (\$110,000 per year) was insufficient to provide this full amount if each of the ten eligible tribes were to apply and claim the maximum. In 2021-22, DVA paid \$11,000 each to 10 tribes. Tribal veteran service office assistance is funded with a combination of tribal gaming revenues and an appropriation from the veterans trust fund.

Grants to Veterans Organizations for Providing Federal Benefits Assistance

The Department provides grants to state and national veterans organizations that maintain a claims service office at the USDVA regional office in Milwaukee for the purpose of assisting Wisconsin veterans with obtaining federal veterans benefits. To qualify for the state grant, the veterans organization must have maintained the office for at least five out of the ten years preceding the date of application for the grant.

Grants to each qualifying organization are equal to 50% of the total amount of its salaries and travel expenses, up to a maximum grant of \$175,000.

In 2021-22, DVA provided grants totaling \$68,300 to three organizations -- the American Legion, the Veterans of Foreign Wars, and the Military Order of the Purple Heart. Grants are funded with an appropriation from the veterans trust fund.

Transportation Services Grant Program

DVA is required to provide \$200,000 annually

to the Disabled American Veterans for the provision of transportation services to medical facilities for veterans. In addition, the Department provides grants to counties in which Disabled American Veterans does not provide transportation services for the provision of transportation services. In 2021-22, DVA provided a total of \$100,000 to 29 counties under this provision. Grants ranged in amount from \$200 to \$12,300.

Veterans Entrepreneurship Grant Program

Under the veterans entrepreneurship grant program, the Department makes grants to nonprofit organizations that provide entrepreneurship training, technical or business assistance, financial assistance or other assistance to veteran entrepreneurs. In 2021-22, DVA made five grants totaling \$300,000.

Grants to Nonprofit Organizations that Provide Assistance to Veterans

DVA is authorized to make grants totaling \$250,000 annually to nonprofit organizations that provide financial assistance or other services to veterans and their dependents. Grants to individual nonprofit organizations may not exceed \$25,000 per fiscal year. Grants are funded from veterans trust fund appropriation. In 2021-22, DVA made grants to 10 organizations under the program.

Programs to Honor and Memorialize Veterans' Contributions

In addition to grant programs for veterans and veterans organizations, the state has several other programs to honor and memorialize veterans' contributions. These programs include veterans memorial grants, state veterans cemeteries, military funeral honors, and the state Veterans Museum.

Veterans Memorial Grants

The Department has provided funding and administrative support for the construction of several veterans memorials.

The Vietnam Veterans Tribute was dedicated in September of 1988. The monument is located near Neillsville in Clark County at the Highground Memorial Park, which includes a number of tributes and trails, and provides educational and social programs. The Highground Memorial Park is operated and maintained by the Wisconsin Vietnam Veterans Memorial Project, a private, nonprofit corporation. The state has contributed funding for the construction of tributes at Highground.

The Wisconsin Korean War Veterans Memorial was dedicated in June of 1994, at a site near Plover in Portage County. It is operated by the Korean War Veterans Memorial Association of Wisconsin, Inc., also a private, non-profit corporation.

The state has also made contributions to the creation and maintenance of two women's war memorials in Washington, D.C. One grant was for the Vietnam Women's Memorial depicting women's role in that war. This memorial is located at the site of the Vietnam Veterans Memorial Wall and was dedicated in November of 1993. The second grant was for the Women in Military Service for America Memorial to honor women who served from the American Revolution to the present, as well as those who will serve in the future. This memorial is located at the grand entrance of the Arlington National Cemetery in Arlington, Virginia, and was dedicated in October of 1997.

1999 Wisconsin Act 2 provided \$166,100 GPR in one-time funding to support the construction of a World War II Memorial in Washington, D.C. This memorial was dedicated in May of 2004.

Wisconsin Veterans Cemeteries

There are two national veterans cemeteries in Wisconsin and three state veterans cemeteries. The Wood National Cemetery, operated by USDVA, is co-located with the VA Regional Office and VA Medical Center in the City of Milwaukee and is closed to new interments. In 2020, the USDVA dedicated the Northwoods National Cemetery, a new veterans cemetery in Oneida County.

DVA operates the three state veterans cemeteries: the Central Wisconsin Veterans Memorial Cemetery at the Veterans Home in King, the Southern Wisconsin Veterans Memorial Cemetery at the Veterans Home at Union Grove, and the Northern Wisconsin Veterans Cemetery near Spooner in Washburn County. The state veterans cemeteries provide burials for veterans, spouses and dependent children. Each of the state cemeteries provide casket and cremation interments.

Veterans whose military service and state residency meet specific requirements are eligible for burial at a Wisconsin veterans cemetery. The veteran must have been discharged or released from active duty service (except service on active duty for training purposes) or died while on active duty. In addition, the veteran must meet one of the following residency and service release requirements: (a) military service was entered from Wisconsin and the person was discharged or released under conditions other than dishonorable; (b) service was entered from another state but the veteran was a Wisconsin resident at the time of death and the person was discharged or released under conditions other than dishonorable; or (c) military service was entered from another state but the veteran was a Wisconsin resident for at least 12 months preceding his or her death and the person was discharged or released under honorable conditions. In addition, any member of a state veterans home is

eligible for burial in a state veterans cemetery, even without meeting the other state residency requirements. DVA is required, however, to give priority to state residents in processing applications for burial plots.

DVA receives a plot interment allowance from the federal government for each veteran interred in a state veterans cemetery. The current plot allowance is \$796.

Further, a Wisconsin resident who was a member of the National Guard or a reserve component of the U. S. armed forces at the time of that service or who was a resident of the state for at least 12 consecutive months immediately preceding death, is eligible for burial at a Wisconsin veterans cemetery, provided the individual is also eligible for burial in a national cemetery. Nonresident service members who were killed in the line of duty can also be buried in a state veterans cemetery.

The Department's budget for the operation of the state veterans cemeteries is composed primarily of federal plot allowance revenue and an appropriation from the veterans trust fund. In addition, the Department is authorized to collect interment fees for burials involving spouses and dependents of veterans, which go to support cemetery operations (no fees are collected for burials involving veterans). In 2021-22, DVA spent \$2,164,200 for cemeteries from these sources, composed of \$1,068,900 FED, \$663,600 SEG, and \$431,700 PR.

Military Funeral Honors

DVA administers a program that coordinates the provision of military honors details at funerals of deceased veterans and to deceased persons who have served under honorable conditions in any national guard or in a reserve component of the U.S. armed forces. The Department provides these services either by performing the honors with DVA's military funeral honors teams or by coordinating the performance of such honors by members of

veterans groups and the military services.

The Department also administers a funeral honors training program to certify veterans organizations and their members for the performance of these duties. DVA must provide reimbursement of up to \$50 to the local veterans groups that provide such services. These stipends are funded from the veterans trust fund. In addition, DVA distributes tuition vouchers to funeral directors to distribute to students who sound "Taps" on a bugle, trumpet or cornet during funerals with military honors. These \$25 vouchers may be used by the student at any University of Wisconsin system school or technical college. DVA encourages private institutions of higher learning to accept these vouchers.

In 2021-22, DVA coordinated 7,699 funerals and paid 7,099 stipend grants, totaling \$349,600.

Wisconsin Veterans Museum

The Wisconsin Veterans Museum contains exhibits, displays and other presentations related to Wisconsin's participation in U.S. military actions from the Civil War to the present. The museum, located on the Capitol Square in Madison, features dioramas depicting important historical events in which Wisconsin veterans participated. The museum maintains a computer database containing the military records of more than 90,000 Wisconsin Civil War veterans. The museum offers presentations by historians, authors, and museum staff on military history, world events, and the experiences of Wisconsin veterans.

The operations and exhibits of the museum are supported with GPR and veterans trust fund appropriations. In 2021-22, the Department spent \$3,373,500 for the museum, including artifact storage. Of this amount, \$248,500 was spent from a GPR appropriation and \$3,125,000 was from the SEG appropriation. In addition, the Veterans Museum Foundation provides additional support for the museum.

Veterans Trust Fund

The veterans trust fund is the funding source for most of DVA's grant and benefit programs.

The fund was created in 1961 through the consolidation of three predecessor funds -- the soldiers rehabilitation fund, the post-war rehabilitation fund, and the veterans housing trust fund. These predecessor funds were generally reliant on dedicated special taxes, transfers from the general fund, and repayments from veterans housing loan programs.

For much of its history, the main sources of revenues for the veterans trust fund have been transfers or appropriations from the state's general fund, transfers from the veterans mortgage loan repayment fund (now defunct), and the deposit of net proceeds from the sale of mortgage loan assets. Repayments from loans made under a personal loan program (also no longer operating), accounted for a significant share of revenue to the fund throughout the 1990s and early 2000s. As these loan repayments decreased, due to decreasing loan activity, the fund became increasingly dependent upon transfers from other sources. Between the years 2007 and 2019, the fund received a series of transfers, totaling \$56.1 million, from the program revenue appropriation account for the state veterans homes. Additional transfers, totaling \$10.3 million, were also made during this period from the state's general fund.

The 2019-21 biennial budget act established an ongoing general fund appropriation for making transfers to the veterans trust fund and authorized

Table 2: 2021-22 Veterans Trust Fund Revenues and Expenditures

Beginning Cash Balance	\$1,008,400
Revenues	
Transfer from the General Fund	\$15,100,000
Other Revenue	<u>529,100</u>
Total Revenues	\$15,629,000
Expenditures	
Administration of Grants and Aids	\$6,546,300
Wisconsin Veterans Museum	3,125,000
Veterans Outreach and Recovery Program	1,279,000
Veterans Funerals and Cemetery Programs	1,078,000
Veteran Service Office Grants	881,000
Veterans Housing and Recovery Program	612,800
Entrepreneurship Grants	432,000
Veterans Transportation Grants	300,000
Nonprofit Organization Grants	249,600
Payments to Veterans Organizations	248,100
Assistance to Needy Veterans	72,000
Education and Training Grants	32,000
Other Programs and Expenses	<u>82,000</u>
Total Expenditures	\$14,937,800
Changes in Assets/Liabilities	\$18,500
Ending Cash Balance	\$1,718,100

the Department of Administration to make such transfers as necessary to support DVA's trust fund appropriations. In 2021-22, a transfer of \$15.1 million was made under this provision.

Table 2 shows the 2021-22 veterans trust fund revenues and expenditures. Currently, the trust fund has few sources of ongoing revenues other than the general fund transfer. Museum sale receipts and federal per diem and rent payments received for the veterans assistance program, while formally considered trust fund revenues, are not included in the table since these revenues are dedicated to those respective programs and so are not available for other fund expenses.
