Dear Mr. Renk and Mr. Fuller:

This report is transmitted as required by s. 20.002(11)(f), Wisconsin Statutes, (for distribution to the appropriate standing committees under s. 13.172(3), Wisconsin Statutes) and confirms that the Department of Administration has found it necessary to exercise the "temporary reallocation of balances" authority provided by this section in order to meet payment responsibilities and cover resulting negative cash balances during the month of June 2017.

On June 1, 2017, the **Medical Assistance Trust Fund** cash balance closed at a negative \$30.78 million. The cash balance was negative through June 30, 2017, when it closed at a negative \$120.51 million. On June 28, 2017, the cash balance closed at a negative \$137.37 million (its intramonth low).

On June 6, 2017, the **Mediation Fund** cash balance closed at a negative \$8 thousand (its intramonth low). The cash balance was negative until June 7, 2017, when it closed at a positive \$42 thousand.

On June 8, 2017, the **History Preservation Partnership Trust Fund** cash balance closed at a negative \$31 thousand. The cash balance was sporadically negative until June 30, 2017, when it closed at a positive \$62 thousand. On June 23, 2017, the cash balance closed at a negative \$83 thousand (its intramonth low).

On June 1, 2017, the **Environmental Fund** cash balance closed at a negative \$17.71 million. The cash balance was negative through June 30, 2017, when it closed at a negative \$16.98 million. On June 22, 2017, the cash balance closed at a negative \$19.46 million (its intramonth low).

On June 26, 2017, the **Veterans Trust Fund** cash balance closed at a negative \$34.86 million (its intramonth low). The cash balance was negative until June 27, 2017, when it closed at a positive \$3.34 million.

The Medical Assistance Trust Fund, Mediation Fund, History Preservation Partnership Trust Fund and Environmental Fund shortfalls were due to the difference in the timing of revenues and expenditures. The Veterans Trust Fund shortfall was due to an accounting error. These shortfalls were not in excess of the statutory interfund borrowing limitations and did not exceed the balances of the funds available for interfund borrowing.

The distribution of interest earnings to investment pool participants is based on the average daily balance in the pool and each fund's share. Therefore, the monthly calculation by the State Controller's Office will automatically reflect the use of these temporary reallocations of balance authority, and as a result, the funds requiring the use of the authority will effectively bear the interest cost.

Sincerely,

Scott A. Neitzel
Secretary
