Regional Hazardous Substance Emergency Response Teams -- Equipment Grants

Motion:

Move to provide one-time funding of \$500,000 GPR in 2019-20 to the continuing appropriation for regional hazardous substance emergency response teams for the replacement of equipment utilized for responses.

Note:

The Division of Emergency Management within DMA contracts with various local units of government across the state to receive regional hazardous substance emergency response services. Under 2017 Act 59, a continuing appropriation, funded at \$500,000 GPR in 2017-18, was created to assist regional response teams with the replacement of equipment used for hazardous substance responses. Base funding for the appropriation is \$0.

The motion would provide an additional \$500,000 GPR on a one-time basis in 2019-20 to award grants to local units of government to support the replacement of equipment utilized for hazardous substance emergency response.

[Change to Base: \$500,000 GPR]

[Change to Bill: \$500,000 GPR]
