TO: Members
Blue Ribbon Commission on School Funding

FROM: Christa Pugh, Fiscal Analyst

SUBJECT: Transportation Costs and Transportation Aid -- Memorandum #8

In response to a question raised by a member of the Commission, I am providing information about costs incurred by school districts for pupil transportation, as well as aid provided to school districts for pupil transportation.

The attachment shows total and per pupil transportation costs for each school district in 2015-16, the most recent year for which this data is available. The attachment also includes each district's area in square miles and its pupil population density in pupils per square mile. In 2015-16, statewide pupil transportation costs totaled \$350.0 million.

Two appropriations provide reimbursement for school districts for pupil transportation costs. For the primary aid program, a flat, annual amount is provided per transported pupil which varies according to the distance that each pupil is transported to school. Under current law, \$35,000 annually is allocated from this appropriation to reimburse school districts for 75% of the cost of transporting pupils to and from an island over ice (Bayfield), including costs for equipment maintenance and storage. If the transportation aids appropriation in any year exceeds the amount of claims, DPI is required to distribute the balance in proportion to each district's total aid entitlement generated by the per pupil amounts based on distance transported. The appropriation is equal to \$24.0 million GPR annually in 2017-18 and 2018-19. The table below shows the reimbursement rates under this program.

Pupil Transportation Reimbursement Rates

<u>Distance</u>	<u>Regular Year</u>	<u>Summer School</u>
0-2 miles (Hazardous Areas)	\$15	---
2-5 miles	35	\$10
5-8 miles	55	20
8-12 miles	110	20
12 miles and over	365	20

High cost transportation aid is provided to districts with higher per pupil transportation costs compared to the statewide average. A district is eligible for aid if it meets two criteria: (a) per pupil transportation cost, based on audited information from the previous fiscal year, exceeding 145% of the statewide average per pupil cost; and (b) pupil population density of 50 pupils per square mile or less. Aid is distributed to eligible districts based on the difference between the district's per pupil transportation cost and the aid threshold of 145% of the statewide average. If appropriated funds are insufficient to pay the full amounts, payments are prorated. The appropriation totals \$12.7 million GPR annually in 2017-18 and 2018-19.
