Agency Responsibility: The Office of the Secretary of State performs a variety of services for state government and Wisconsin municipalities. Wisconsin’s Constitution requires the secretary of state to maintain the official acts of the legislature and governor, and to keep the Great Seal of the State of Wisconsin and affix it to all official acts of the governor.

The Office of the Secretary of State keeps the Great Seal of the State of Wisconsin. Office Operations Associate Billie Zeien affixes the seal to an official state document. (Kathleen Sitter, LRB)
**Executive Branch**

**Organization:** The secretary of state, a constitutional officer elected on a partisan ballot in the November general election, heads the Office of the Secretary of State.

**Unit Functions:** The Administrative Services Division maintains revenue and expenditure accounting systems and provides administrative support for the agency.

The Government Records Division keeps the Great Seal of the State of Wisconsin and affixes it to all official acts of the governor, issues notary public commissions, registers trade names and trademarks, coordinates the publication of state laws with the Legislative Reference Bureau, records official acts of the legislature and the governor, and files oaths of office. It also files deeds for state lands and buildings, issues notary authentications and apostilles (a form of international authentication of notaries public), preserves the original copies of all enrolled laws and resolutions, and files annexations, charter ordinances, and incorporation papers for villages and cities. Municipal records and deeds, registered trademarks, and information about notaries commissioned in Wisconsin can be accessed via the agency Web site.

**History:** The 1836 congressional act that organized the Territory of Wisconsin provided for a secretary of the territory to be appointed by the President of the United States. This office was the forerunner of the post of secretary of state created by the Wisconsin Constitution. Delegates to the constitutional conventions of 1846 and 1848 determined that the secretary of state would be a constitutional officer. From the beginning of statehood until 1970, the secretary of state was elected for a 2-year term. Pursuant to a constitutional amendment ratified in 1967 and effective since the 1970 election, the term was extended to 4 years.

In the early days of statehood, the secretary of state personally performed a broad range of duties that are now delegated to the specialized departments of the executive branch. Chapter 276, Laws of 1969, created the Office of the Secretary of State to assist the secretary.

History: The territorial treasurer, an office created in 1839, was appointed by the governor, but the Wisconsin Constitution, adopted in 1848, made the office an elective partisan position. From 1848 through 1968, the state treasurer was elected to a 2-year term in the November general election. Since 1970, following ratification of a constitutional amendment in April 1967, the state treasurer has been elected to a 4-year term. Chapter 276, Laws of 1969, created the Office of the State Treasurer to assist the treasurer.

Statutory References: Section 15.94; Chapter 38.

Agency Responsibility: The Technical College System Board is the coordinating agency for the Technical College System. The board establishes statewide policies and standards for the educational programs and services provided by the 16 technical college districts that cover the state. The district boards, in turn, are responsible for the direct operation of their respective schools and programs. They are empowered to levy property taxes, provide for facilities and equipment, employ staff, and contract for services. The districts set academic and grading standards, appoint the district directors, hire instructional and other staff, and manage the district budget.

The system board supervises district operations through reporting and audit requirements and consultation, coordination, and support services. It sets standards for building new schools and adding to current facilities. It also provides assistance to districts in meeting the needs of target groups, including services for the disadvantaged, the disabled, women, dislocated workers, the incarcerated, and minorities.

The board administers state and federal aids. It works with the Department of Public Instruction to coordinate secondary and postsecondary vocational and technical programs. It also cooperates with the University of Wisconsin System to establish coordinated programming to make the services of the two agencies fully available to state residents. The board cooperates with the Department of Workforce Development to provide training for apprentices.

Organization: The 13-member Technical College System Board includes 9 members appointed by the governor to serve staggered 6-year terms and a technical college student appointed for a 2-year term. The student must be 18 years of age and a state resident who is enrolled at least half-time and in good academic standing. The governor may not appoint a student member from the same technical college in any two consecutive terms. No person may serve as board president for more than two successive annual terms. A 1971 opinion of the attorney general held that a member of a technical college district board could not serve concurrently on the state board (60 OAG 178). The board appoints a director from outside the classified service to serve at its pleasure, and the director selects the executive assistant and division administrators from outside the classified service.

The 16 technical college districts encompass 47 campuses. Each district is headed by a board of 9 members who serve staggered 3-year terms. District boards include 2 employers, 2 employees, a school district administrator, a state or local elected official, and 3 additional members as defined by statute. A district appointment committee, composed of county board chairper-
sons or school board presidents, appoints the board members, subject to approval of the state system board. Each district is administered by a director, called a “president”, appointed by the district board.

Unit Functions: The Office of Policy and Government Relations provides leadership for systemwide policy analysis and development, public outreach, and federal and state government relations. It is responsible for coordination of systemwide budgeting and planning; research; labor market information; personnel certification; and coordination of state and federal grant programs.

The Division of Finance has oversight responsibility for internal operations including accounting, budgeting, procurement, payroll, human resources, facilities, and information technology. In addition, the division provides guidance to the technical colleges in developing financial policies and standards, distributes state aid, and assists the board in determining student fees and tuition rates and approving district facility development projects. The division is also responsible for management information and oversight of district budgets and enrollments.

The Division of Teaching and Learning has responsibility for program definition, approval, evaluation, and review. It focuses on programs in agriculture, office services, marketing, home economics (including family and consumer education), health occupations, trade and industry (including apprenticeship, fire service, law enforcement, safety, and technical and vocational training), general education, adult basic education, and environmental education.

History: Laws passed in 1907 permitted cities to operate trade schools for persons age 16 or older as part of the public school system (Chapter 122), and allowed them to establish technical schools or colleges, under the control of either the school board or a special board (Chapter 344). In Chapter 616, Laws of 1911, Wisconsin was the first state to establish a system of state aid and support for industrial education. The law required every community with a population of 5,000 or more to establish an industrial education board, which was authorized to levy a property tax. It created the State Board of Industrial Education and an assistant for industrial education in the office of the State Superintendent of Public Instruction.

In the Laws of 1911, Wisconsin was the first state to set up apprenticeship agreements (Chapter 347) and require employers to release 14- to 16-year-olds for part-time attendance in continuation schools for apprentices, if such schooling was available (Chapter 505). Hours in class were to count as part of the total paid work hours. The schools, established through the work of Charles McCarthy, first director of the present-day Legislative Reference Bureau, emphasized general cultural and vocational education, as well as trade skills.

Due in part to the efforts of McCarthy, the U.S. Congress passed the Smith-Hughes Act in 1917, the first federal legislation specifically designed to promote vocational education, which it modeled on Wisconsin’s vocational training programs. The act offered financial aid to states to help pay teachers’ and administrators’ salaries and provided funds for teacher training.

Chapter 494, Laws of 1917, changed the name of the State Board of Industrial Education to the State Board of Vocational Education, authorized it to employ a state director, and designated it as the sole agency to work with the newly created federal board.

During the Great Depression, Wisconsin tightened its compulsory school attendance laws, which resulted in more 14- to 18-year-olds attending vocational school. The demand for adult education also increased, as recognized by Chapter 349, Laws of 1937, which renamed the board the State Board of Vocational and Adult Education. During that same period, the vocational school in Milwaukee began to offer college transfer courses.

Events of the 1960s transformed the Wisconsin vocational-technical system into the postsecondary system of today. Federal vocational school legislation affected business education and emphasized training for the unemployed. The federal Vocational Education Act, passed in 1963, helped the local boards build new facilities. Chapter 51, Laws of 1961, authorized the state board to offer associate degrees for 2-year technical courses. The 1965 Legislature passed Chapter 292, which required a system of vocational, technical and adult education (VTAE) districts covering
the entire state by 1970 and changed the board’s name to the State Board of Vocational, Technical and Adult Education. (Chapter 327, Laws of 1967, dropped “State” from the name.) College transfer programs were authorized in Madison, Milwaukee, and Rhinelander.

As a result of federal and state legislative changes in the 1960s, VTAE enrollments more than doubled to 466,000 between 1967 and 1982. The 1970s also saw significant increases in the number of associate degree programs. Other major statutory changes included the requirement that VTAE schools charge tuition and that they improve cooperation and coordination with the University of Wisconsin System. More recently, a greater emphasis has been placed on services to 16- to 18-year-old students.

In the past two decades, the system has increased its focus on lifelong learning; education for economic development; and services for groups that formerly had less access to education, including people in rural areas, women, and minorities. The system has placed special emphasis on assisting the unemployed, displaced homemakers, and those with literacy problems.

1993 Wisconsin Act 399 renamed the VTAE system, changing it to the Technical College System, and designated the state board as the Technical College System Board. District VTAE schools became “technical colleges”.

EDUCATIONAL APPROVAL BOARD

Number of Employees: 5.00.

Statutory References: Sections 15.945 (1) and 38.50.

Agency Responsibility: The Educational Approval Board is an independent state agency responsible for protecting Wisconsin’s consumers, by regulating and monitoring for-profit post-secondary business, trade, or distance learning schools; out-of-state, nonprofit colleges and universities; and in-state, nonprofit institutions incorporated after 1991. The board currently oversees more than 130 schools serving more than 30,000 adults in degree and nondegree programs.

The board consists of not more than 7 members who serve at the pleasure of the governor and represent state agencies and others interested in educational programs. It employs the executive secretary and other staff from the classified service. Originally formed by order of the governor in 1944, the legislature created the agency in Chapter 137, Laws of 1953, as the Governor’s Educational Advisory Committee to approve and supervise schools and educational courses that trained veterans under various federal laws. A 1957 law (Chapter 438) directed the committee to certify those private vocational schools that offered adequate courses and to prevent fraud and misrepresentation. Chapter 568, Laws of 1963, gave the committee responsibility for licensing agents of private vocational schools, and Chapter 595, Laws of 1965, renamed it the Educational Approval Council. It was renamed the Educational Approval Board and attached to the Department of Public Instruction by Chapter 214, Laws of 1967. The board was attached to the Board of Vocational, Technical and Adult Education by Chapter 125, Laws of 1971.

The Educational Approval Board was repealed by 1995 Wisconsin Act 27, as part of an initiative to create a state Department of Education. The Wisconsin Supreme Court ruled the measure unconstitutional and the agency’s functions were continued under Executive Orders 283 and 287 which created the Educational Approval Council. The legislature recreated the board in 1997
Wisconsin Act 27 and attached it to the Higher Educational Aids Board. In 1999 Wisconsin Act 9, the board was attached to the Department of Veterans Affairs. 2001 Wisconsin Act 16 repealed statutory language which specifically made the board responsible for approving schools and courses of instruction for veterans and war orphans. The board was attached to the Technical College System by 2005 Wisconsin Act 25.

The Industry Relations team works with private businesses to encourage both new development and expansion of existing projects. The Communications team works with the news media worldwide to develop positive stories about Wisconsin as a travel destination.

ing organizations around the state, and then makes the details on more than 13,000 attractions, restaurants, accommodations, and events readily available to potential visitors.

Through market research, coordinated advertising, promotional campaigns and programs, grant programs, and publications targeted to travelers’ interests, the bureau is charged with attracting in-state and out-of-state tourists and associated travel dollars. It assists in the production of commercials, advertisements, educational materials, and the annual Governor’s Conference on Tourism. The bureau also maintains and operates Wisconsin’s 10 travel information centers that are located at points of entry on the state’s borders. It produces a consumer show program that provides information at exhibitions focusing on hunting, fishing, boating, golf, sports, and other outdoor activities.

History: State tourism promotion originated in the Department of Natural Resources to encourage travel to state parks and commercial recreational sites. Chapter 39, Laws of 1975, transferred tourism functions to the Department of Business Development and created the Division of Tourism as a statutory entity within the department. Chapter 361, Laws of 1979, created the Department of Development, which absorbed the division, through a merger of the Department of Business Development and the Department of Local Affairs and Development. 1995 Wisconsin Act 27 reorganized the division as the Department of Tourism, effective January 1, 1996.

As a funding agency, the board assists arts organizations and individual artists through a variety of programs designed to provide broad public access to the arts, strengthen the state’s artistic resources, and create opportunities for individuals of exceptional talent. Financial support programs for individuals and organizations include apprenticeships, artists-in-education programs, challenge grants, community activities, fellowships, opportunity grants, program assistance and support, and programs for presenters. Agency Responsibility: The 11-member Kickapoo Reserve Management Board manages 8,569 acres in the Kickapoo Valley Reserve to preserve and enhance the area’s environmental, scenic, and cultural features; provides facilities for the use and enjoyment of visitors; and promotes the reserve as a destination for vacationing and recreation. Subject to the approval of the governor, the board may purchase land for inclusion in the reserve and trade land in the reserve under certain conditions. The Kickapoo Valley Reserve Visitor Center offers meetings and classrooms, interactive exhibits, educational programs, and tourist information.

The board also may lease land for purposes consistent with the management of the reserve or for agricultural purposes; authorize, license, regulate, and collect and spend revenue from private concessions in the reserve; accept gifts, grants, and bequests; and cooperate with and provide matching funds to nonprofit groups organized to provide assistance to the reserve.

The board may not authorize mining in the reserve or on any land acquired by the board and may not sell land that is in the reserve. It has authority to promulgate rules about use of the waters, land, and facilities under its jurisdiction, and the Department of Tourism is responsible for enforcement of state laws and rules relating to the reserve.

The governor appoints board members for staggered 3-year terms. Four members must be residents of villages, towns, and school districts in the immediate vicinity of the reserve; 2 must be residents of the Kickapoo River watershed outside of the immediate vicinity of the reserve; and 3 members who are not residents of the watershed are appointed by the governor to represent education, environment, and tourism issues. **Agency Responsibility:** The State Fair Park Board manages the State Fair Park and supervises its use for fairs, exhibits, or promotional events for agricultural, commercial, educational, and recreational purposes. It also leases or licenses the property at reasonable rates for other uses when not needed for public purposes. The board is directed to develop new facilities at State Fair Park and to provide a permanent location for an annual Wisconsin State Fair, major sports events, agricultural and industrial expositions, and other programs of civic interest.

**Organization:** The State Fair Park Board consists of 13 members. Legislative members, who represent the majority and minority parties, are nominated by party leadership and appointed by the governor. The 7 citizen members serve staggered 5-year terms. The board appoints the park director from outside the classified service.

**History:** Beginning with the first Wisconsin State Fair at Janesville in October 1851, the event has served as a showcase for Wisconsin agriculture and commerce. The State Agricultural Society, which sponsored the first fair, continued to operate it through 1897. In that year, Chapter 301 created the Wisconsin State Board of Agriculture and placed operation of the fair under its control. When the Department of Agriculture was created in 1915, the state fair became part of the new department.

In Chapter 149, Laws of 1961, the independent Wisconsin Exposition Department, headed by a 7-member board, was created to manage the fair and the park’s year-round operation. Under the 1967 executive branch reorganization, the Exposition Department became the Wisconsin Exposition Council in the Department of Local Affairs and Development.

Chapter 125, Laws of 1971, created a 3-member State Fair Park Board, appointed by the governor and attached to the Department of Agriculture for administrative purposes. In 1985 Wisconsin Act 20, the legislature increased board membership to 5, specified 5-year terms of service, and required senate confirmation of the governor’s nominees.

In 1990, as provided by 1989 Wisconsin Act 219, the State Fair Park Board became an independent body. 1995 Wisconsin Act 27 attached the board to the Department of Tourism, and 1999 Wisconsin Act 197 revised and increased board membership.

Pattison State Park in Douglas County features the highest waterfalls in Wisconsin and the fourth highest waterfall east of the Rocky Mountains. Little Manitou Falls (pictured above) is 31 feet high and downstream from it Big Manitou Falls has a drop of 165 feet. (Department of Tourism)
Over the years, the location of the state fair was debated and even its continued existence was in doubt. At various times between 1851 and 1885, Fond du Lac, Janesville, Madison, Milwaukee, and Watertown hosted the fair. Milwaukee was chosen as the state fair site from 1886 through 1891, and the fairs held there were so successful that a permanent site was purchased in what is now West Allis, a Milwaukee suburb. That site, first used for the 1892 fair, is included in the state fair’s location today.

Several studies published during the 1960s recommended that the fair be moved to a larger site in the Milwaukee area. Chapter 125, Laws of 1971, decided the fair would remain at its site (partially in West Allis, partially in Milwaukee), with updated or new facilities being funded through self-amortizing state bonds. Fair operations have been self-financed since 1935. 1999 Wisconsin Act 9 provided funding for substantial construction and renovation of park facilities. 1999 Wisconsin Act 197 authorized the board to create a nonprofit corporation to raise funds and provide support and contract with that same corporation for operation and development of the park. Act 197 also authorized the park board to permit private individuals to construct facilities on fair grounds under a lease agreement with the board.

Today, State Fair Park draws more than 2 million visitors to its events and activities each year, and the Wisconsin State Fair, with attendance of more than 900,000, remains the state’s oldest and largest annual event.

Agency Responsibility: The Department of Transportation is responsible for the planning, promotion, and protection of all transportation systems in the state. Its major responsibilities involve highways, motor vehicles, motor carriers, traffic law enforcement, railroads, waterways, mass transit, and aeronautics.

The department works with several federal agencies in the administration of federal transportation aids. It also cooperates with departments at the state level in travel promotion, consumer protection, environmental analysis, and transportation services for elderly and handicapped persons.

Organization: The secretary is appointed by the governor with the advice and consent of the senate and has overall management responsibility for the department. The secretary appoints the deputy secretary, executive assistant, and all division administrators from outside the classified service.

Unit Functions: The Division of Business Management plans and administers the department's programs for accounting and auditing, information technology, human resources, purchasing, vehicle fleet, facilities, and management services.

The Division of Motor Vehicles issues vehicle titles and registrations, individual identification cards, and handicapped parking permits; examines and licenses drivers, commercial driving instructors, and vehicle salespersons; certifies commercial driver examiners; licenses motor carriers, commercial driving schools, vehicle dealers, manufacturers, and distributors; and investigates consumer complaints about vehicle sales and trade practices. It keeps the records of drivers' traffic violations and demerit points. It is responsible for the vehicle emissions inspection program, and it administers reciprocal trucking agreements with other states and the Canadian provinces and provides traffic accident data to law enforcement officials, highway engineers, and traffic safety and media representatives. The division operates 5 district offices and over 90 customer service centers to support the state's approximately 4 million licensed drivers and over 5 million registered vehicles.

The Division of State Patrol promotes highway safety by enforcing state traffic laws regarding motor vehicles and motor carriers. The State Patrol also has criminal law enforcement powers and can assist local law enforcement agencies by providing emergency police services. It operates the statewide mobile data communications network, which is available to local law enforcement agencies, and it makes annual inspections of Wisconsin's school buses and ambulances. The division oversees 5 regional offices and a law enforcement training academy open to all federal, state, county, local, and tribal law enforcement officers.

The Division of Transportation Investment Management performs statewide planning for highways, railroads, harbors, airports, and mass transit and promotes a multimodal transportation system to best serve state citizens and businesses. The division directs data collection; provides service to local governments and planning agencies; and manages state road aids, highway finance, and other transportation assistance programs. The division is responsible for uniform statewide direction in the planning, design, construction, maintenance, and operation of Wisconsin's airports, harbors, highways, and railroads. The division is involved with the state's 134 public use airports, 3,400 miles of railroad tracks, 15 commercial water ports, and the approximately 12,000 miles of roads and streets in the STH system, including 640 miles of Interstate highways within the state. The division administers all state and federal funding for airport, railroad, and harbor development projects in Wisconsin.

The Division of Transportation System Development ensures the efficient delivery, maintenance, and operations of the State Trunk Highway (STH) system. The division is split into two basic areas: Statewide Bureaus and Regional Operations. It provides uniform direction in planning, design, and construction phases of project delivery as well as improving the safety and efficiency of the STH system. The division also provides leadership in the protection of public interests and resources through public and local interactions.

The five state statewide bureaus include: 1) Equity and Environmental Services, 2) Highway Operations, 3) Project Development, 4) Structures, and 5) Technical Services. These statewide bureaus advise the regional offices as well as other divisions regarding engineering, economic,
environmental, and social standards and practices. It also monitors the quality and efficiency of the department’s various programs and assures compliance with federal and state laws and regulations. The five regional offices manage the operation and development of state highways and participate in the development, management, and implementation of local road and nonhighway transportation projects. They also maintain working relationships with local units of government, represent the department in local and regional planning efforts, and represent local and regional needs in departmental processes.

**History:** The history of the Department of Transportation mirrors the evolution of twentieth century transportation. The Highway Commission was created when Chapter 337, Laws of 1911, authorized state aid for public highways. Later, Chapter 410, Laws of 1939, consolidated registration, licensing, inspection, enforcement, and highway safety promotion in the Motor Vehicle Department. The legislature established the Aeronautics Commission in Chapter 513, Laws of 1945, and directed it to cooperate with the federal government and other states to “prepare for the generally expected extensive expansion of aviation following the termination of World War II.”

The Department of Transportation was created by Chapter 75, Laws of 1967, which merged the Highway Commission, the Aeronautics Commission, and the Motor Vehicle Department. Chapter 500, Laws of 1969, required three divisions within the department: aeronautics, highways, and motor vehicles. The department was strengthened by Chapter 29, Laws of 1977, which vested accountability at the departmental, instead of divisional, level and gave the secretary, rather than the governor, the authority to appoint division heads. The secretary was also allowed to reorganize the department with the governor’s approval.

The board includes the chairpersons of the senate and assembly committees with jurisdiction over transportation matters. Its 8 nonlegislative members serve staggered 4-year terms, and at least 4 of them must be nominees of the Wisconsin Counties Association. Agency Responsibility: The prime responsibilities of the University of Wisconsin System are teaching, public service, and research. The system provides postsecondary academic education for more than 160,000 students, including 120,000 full-time equivalent undergraduates.

Organization: The UW System consists of 13 four-year universities, 13 two-year colleges, and statewide extension programs. UW-Madison and UW-Milwaukee offer bachelor’s, master’s, doctoral, and professional degrees. Eleven other universities in the UW System offer associate, bachelor’s, and master’s degree programs: UW-Eau Claire, UW-Green Bay, UW-La Crosse, UW-Oshkosh, UW-Parkside, UW-Platteville, UW-River Falls, UW-Stevens Point, UW-Stout, UW-Superior, and UW-Whitewater.

The two-year UW Colleges serve local and commuter students by providing freshman-sophomore university course work that is transferable to other campuses. In addition, the colleges offer general education associate degrees. While UW colleges faculty and staff are employed by the UW System, municipalities and/or counties own the campuses and buildings in which the UW Colleges are located.
UW-Extension provides noncredit and for-credit classroom and distance learning courses, as well as continuing education and a wide range of public service programs.

The 18-member Board of Regents of the University of Wisconsin System establishes policies to govern the system and plans for the future of public higher education in Wisconsin. Two members serve ex officio; the student members serve staggered 2-year terms; and the other 14 members serve staggered 7-year terms. The governor may not appoint a student member from the same institution in any 2 consecutive terms.

The board appoints the president of the UW System, the chancellors of the 13 universities, the chancellor of UW-Extension and the UW Colleges, and the deans of the 13 UW Colleges. All appointees serve at the pleasure of the board. The board also sets admission standards, reviews and approves university budgets, and establishes the regulatory framework within which the individual units operate.

**Unit Functions:** The president of the University of Wisconsin System has full executive responsibility for system operation and management. This officer carries out the duties prescribed by statute; implements the policies established by the Board of Regents; manages and coordinates the system’s administrative offices; and exercises fiscal control through budget development, management-planning programs, and coordination and evaluation of the academic programs on all campuses.

Each chancellor serves as executive head of a particular campus or program, administers board policies under the direction of the system’s president, and is accountable to the board of regents. Subject to board policy, the chancellors, in consultation with their faculties, design curricula and set degree requirements; determine academic standards and establish grading systems; define and administer institutional standards for faculty peer evaluation; screen candidates for appointment, promotion, and tenure; administer auxiliary services; and control all funds allocated to or generated by their respective programs. One chancellor administers both UW Colleges and UW-Extension.

**History:** Today’s UW System is the product of the 1971 merger of two existing university boards – the Board of Regents of the University of Wisconsin and the Board of Regents of the State Universities – and the institutions they governed.

From earliest times, Wisconsin lawmakers recognized the need for a tax-supported university. The territorial legislature passed laws in 1836, 1838, and 1839 regarding establishment and location of a university, and Article X, Section 6, of the state constitution ratified in 1848, provided for a state university at or near the seat of state government. Chapter 20, Laws of 1848, which implemented the constitutional provision, delegated university administration to a board of regents and classes began in 1849. Critical to the university’s early development was Chapter 114, Laws of 1866, which reorganized the board of regents, expanded its authority, and authorized the governor to appoint the regents. The 1866 reorganization provided for instruction in agriculture on the Madison campus and an experimental farm, thereby making the university eligible, as Wisconsin’s land-grant institution, to receive the proceeds derived from sale of lands granted by the federal government to support agricultural education and research.

The State Universities originated with Chapter 82, Laws of 1857, which provided funds for a system of 2-year normal schools to train teachers and created the Board of Regents of Normal Schools. The first normal school opened at Platteville in 1866 and the ninth 50 years later at Eau Claire. In 1929, the 9 normal schools became “state teachers colleges” and were authorized to offer baccalaureate degree programs. They were renamed state colleges in 1951 and state universities in 1964. Chapter 75, Laws of 1967, renamed the governing body, designating it the Board of Regents of State Universities.

Chapter 100, Laws of 1971, mandated the merger of Wisconsin’s two systems of public higher education to form the University of Wisconsin System. Chapter 335, Laws of 1973, recreated Chapter 36 of the statutes and provided a single statutory charter to govern public higher education in Wisconsin. The University of Wisconsin Colleges, which were previously called UW Centers, were renamed by 1997 Wisconsin Act 237.

Publications: The Bugle; The Courier; Old Abe the War Eagle; USS Wisconsin; ForwardVETERANS, WDVA Update; Wisconsin in the Civil War; Wisconsin’s Warriors; brochures on the state veterans’ programs and services for Wisconsin veterans, Wisconsin Veterans M useum (M adison), the Wisconsin Veterans Home (K ing), the Wisconsin Veterans Home (U nion Grove), and Wisconsin’s veterans memorial cemeteries.

Agency Responsibility: The Department of Veterans Affairs provides educational and economic assistance to eligible veterans of the U.S. Armed Forces and their dependents through loan and grant programs. It also operates the Wisconsin veterans homes at King and Union Grove, the Wisconsin Veterans M useum in Madison, the Southern Wisconsin Veterans M emorial Cemetery at Union Grove, the Northern Wisconsin Veterans M emorial Cemetery near Spooner, and the Central Wisconsin Veterans M emorial Cemetery at King.

The department currently serves an estimated 470,000 veterans living in Wisconsin, including approximately 76,200 veterans of the World War II era, 65,200 from the Korean War era, 150,000 from the Vietnam War era, and 66,000 from the Gulf War era.

Organization: The department is headed by a board of 7 members who serve staggered 6-year terms. All board members must be veterans, as defined by statute, and at least 2 must be Vietnam War veterans. Administrative powers and duties are exercised by the department secretary, who is appointed by the board.

Unit Functions: The Division of Administration administers data processing and fiscal management, systems analysis, human resources, personnel benefits and training, procurement, verification and processing of veterans’ eligibility applications, and veterans’ disability and pension claims.

The Division of Veterans Benefits administers loan and emergency grant programs offered by the state, state veteran cemeteries, and the state military funeral honors program.

The department offers 30-year fixed rate home loans as well as home improvement loans with terms up to 15 years. These loan programs are funded through self-amortizing general obligation bonds. The division’s property management section maintains properties reclaimed by foreclosure due to loan defaults and arranges to sell them at fair market value to recoup loan expenses.

The department also offers through the division of veterans benefits, personal loans to qualified veterans. These loans can be used for any purpose. Personal loans under this program are funded through the veterans trust fund. Revenue from these loans fund veteran benefits and department operating costs.

Emergency grants are available to qualified veterans to provide subsistence aid for veterans who have experienced a loss of income due to illness or disability, and veterans who require health care that cannot be obtained through other means. These grants have strict income and asset limits.

The division provides administration for the veterans memorial cemeteries. These cemeteries provide burial space for veterans, their spouses, and eligible family members. Veterans can be buried free of charge; non-veteran spouses and family members are charged a burial fee.
The division administers the military funeral honors program, coordinating the efforts of veterans service organizations, the active duty military and reserve forces, as well as the Wisconsin National Guard. The division provides training of veteran organizations and military units who provide military funeral honors requested by the family. The division has limited capability to provide military funeral honors teams with departmental staff.

The Division of Veterans Homes administers the state’s facilities for eligible veterans who are permanently incapacitated from performing any substantially gainful employment due to age or physical disability and who may be admitted if they meet service and residency criteria. Applicants must apply their income and resources to the cost of their care as required by Medicaid eligibility standards. The spouses of eligible veterans may also be admitted.

The Wisconsin Veterans Home at King serves approximately 740 members. It includes licensed skilled nursing care buildings, cottages for married couples, and the Central Wisconsin Veterans Memorial Cemetery. Residents receive complete medical and nursing care, along with therapeutic treatments and social services. Veterans and spouses or surviving spouses may be admitted at King.

The Wisconsin Veterans Home at Union Grove is capable of serving 240 members by providing three assisted living residences and a 120-bed skilled nursing facility. This continuum of care is available to veterans and their spouses and offers assistance with health care, daily living needs, memory care, short-term rehabilitation, and long-term care.

The Division of Veterans Services administers education and employment services programs, claims services, and transition assistance programs.

As part of the Bureau of Veterans Training and Employment, the Veterans Assistance Program operates veterans assistance centers in Tomah, King, and Union Grove. Through the centers, homeless veterans and veterans at risk of becoming homeless receive education, job training, and rehabilitative services to enable them to obtain steady employment and affordable housing. The program is a joint effort with the U.S. Department of Veterans Affairs and community-based agencies and is supplemented by service delivery support and outreach to veterans service organizations, veterans health care facilities, and correctional institutions. The bureau also provides an array of employment and educational services to include transition assistance, grants, job refer-

rals, academic credit for military experience programs, and assistance in obtaining teaching credentials through the Troops to Teachers Program.

The State Approving Agency coordinates programs and approves schools to assist veterans to effectively use their GI Bill benefits.

The Wisconsin Veterans Museum in Madison is dedicated to Wisconsin veterans of all wars. It houses and exhibits artifacts related to Wisconsin’s participation in U.S. military actions from the Civil War to the present and offers programs to the public on the history of Wisconsin’s war efforts. It also houses exhibits and archives documenting the history of the Wisconsin National Guard and operates the Wisconsin National Guard Museum at Camp Douglas.

**History:** Legislation to benefit Wisconsin veterans dates back to the post-Civil War era. Most of the enactments between the Civil War and World War I were concerned with providing relief for destitute veterans and their families. In 1887, the Grand Army of the Republic (GAR), the prominent Civil War veterans’ organization, founded the Grand Army Home at King, supported by private donations and federal and state subsidies. Now called the Wisconsin Veterans Home, the institution was first operated by the GAR and later by a state board and the adjutant general’s office. Further recognition of Civil War veterans came in 1901, when the legislature established a Grand Army of the Republican headquarters and museum in the State Capitol. In 1993, the state opened the Wisconsin Veterans Museum in a separate building on the Capitol Square. The Southern Wisconsin Veterans Home at Union Grove, authorized in 1999 Wisconsin Act 9, opened in 2001.

After World War I, the 1919 Legislature granted a cash bonus, or alternatively an education bonus, to soldiers who fought in the war. It also created a fund for the relief of sick, wounded, or disabled veterans, administered by the Service Recognition Board and later its successor, the Soldiers’ Rehabilitation Board. Other legislation between World Wars I and II provided funds for hospitalization, memorials, and free courses through the University of Wisconsin-Extension.

Chapter 443, Laws of 1943, created the Veterans Recognition Board to provide medical, hospital, educational, and economic assistance to returning Wisconsin veterans of World War II and their dependents.

The creation of the Department of Veterans Affairs by Chapter 580, Laws of 1945, brought all veterans programs under a single agency. The department absorbed the Grand Army Home, the GAR Memorial Hall, the veterans claim services, and the Soldiers’ Rehabilitation Board. The department was assigned the economic aid, hospital care, and education grants programs. It also took over three segregated veterans funds that were combined into the Veterans Trust Fund in 1961.

Two major new programs relating to housing and education were implemented after World War II. Beginning with legislation in 1947, programs were established to help veterans finance home loans through a trust fund. The state supreme court declared earmarking liquor tax moneys for the fund unconstitutional under the internal improvements clause, but a constitutional amendment, approved by the voters in 1949, resolved the problem. Chapter 627, Laws of 1949, authorized loans to qualified veterans for a portion of the value of their housing. The legislature converted this program to a second mortgage home loan program in 1973, when it established the Primary Home Loan Program that is financed with general obligation bonds. The state’s use of general obligation bonding to offer home loans to veterans raised constitutional concerns. The legislature responded by proposing an amendment to the Wisconsin Constitution, which the voters ratified in April 1975.

1997 Wisconsin Act 27 expanded eligibility for state veterans benefits to any person who has served on active duty in the U.S. armed forces for two continuous years or the full period of the individual’s initial service obligation, whichever is less, regardless of when or where the service occurred, including during peacetime. Previously, to be considered a “veteran” for the purposes of state benefits, a person must generally have performed active service for 90 days or more during a designated war period or a period of duty during specified conflicts or peacekeeping operations.

1999 Wisconsin Act 136 required the department to administer a program to coordinate the provision of military funeral honors to eligible deceased veterans. 2003 Wisconsin Act 102 authorized the department to develop and operate residential, treatment, and nursing care facilities in...
northwestern Wisconsin, on surplus land located at the Northern Wisconsin Center for the Developmentally Disabled in Chippewa Falls.

Agency Responsibility: The Department of Workforce Development conducts a variety of work-related programs designed to connect people with employment opportunities in Wisconsin. It has major responsibility for the state’s employment and training services, including Wisconsin Works (W-2), which is designed to move welfare recipients into the labor force; job centers; job training and placement services provided in cooperation with private sector employers; apprenticeship programs; and employment-related services for people with disabilities. It oversees the unemployment insurance and worker’s compensation programs and is also responsible for adjudicating cases involving employment discrimination, housing discrimination, and labor law.

Organization: The department is administered by a secretary who is appointed by the governor with the advice and consent of the senate. The secretary appoints the division administrators from outside the classified service.

Unit Functions: The Administrative Services Division provides management and program support to the other divisions, including budget, facilities, finance, human resources, and information technology services.

The Division of Employment and Training oversees all workforce services administered by the department including the state labor exchange system; analyzes and distributes labor market information; monitors migrant worker services; and operates the state apprenticeship program. The division also administers a comprehensive interdepartmental employment and training system through public-private partnerships and a statewide network of 78 job centers.

The Equal Rights Division, created by Chapter 327, Laws of 1967, enforces state laws that protect citizens from discrimination in employment, housing, and public accommodations. It also administers the enforcement of family and medical leave laws and the labor laws relating to hours, conditions of work, minimum wage standards, and timely payment of wages. It determines prevailing wage rates and enforces them for state and municipal public works projects not including highway projects. The division also enforces child labor laws and plant closing laws.

The Division of Family Supports administers the Wisconsin Works (W-2), the Wisconsin Shares child care subsidy, and child support programs.

The Division of Unemployment Insurance administers programs to pay benefits to unemployed workers, collect employer taxes, resolve contested benefit claims and employer tax issues, detect unemployment insurance fraud, and collect unemployment insurance overpayments and delinquent taxes. The division also collects wage information for national and Wisconsin New Hire Directory databases.

The Division of Vocational Rehabilitation provides employment services to individuals who have significant physical and mental disabilities that create barriers in obtaining, maintaining, or improving employment. Each person is counseled and may receive medical, psychological, and vocational evaluations and training services. Employment programs, which are supported through state and federal funding, include vocational rehabilitation for eligible persons with disabilities; supported employment, including job coaching for individuals with severe disabilities; and the Business Enterprise Program, which establishes business or vending stand locations for individuals who are legally blind.

The Worker’s Compensation Division administers programs designed to ensure that injured workers receive required benefits from insurers or self-insured employers; encourage rehabilitation and reemployment for injured workers; and promote the reduction of work-related injuries, illnesses, and deaths.
**History:** In response to the state’s industrialization, which began in the 1880s, Wisconsin took the lead nationally in adjusting labor laws to modern industrial conditions. Based on European models, the legislature adopted social insurance, whereby the costs of correcting labor problems, such as worker injuries and unemployment, were imposed on employers as an inducement to prevent the problems.

Wisconsin’s laws, enacted during the early part of the 20th century, dealt with minimum wages, conditions of employment for women and children, worker’s compensation, free public employment offices, apprenticeship standards, and job safety regulations. Many of these programs served as models for legislation in other states. Wisconsin’s original worker’s compensation act (Chapter 50, Laws of 1911) was the first state law of its kind in the nation. In the 1930s, Wisconsin led in developing the unemployment compensation system (Chapter 20, Laws of Special Session 1931) and issued the first benefit check in the nation in 1936.

Since World War II, Wisconsin has enacted legislation prohibiting discrimination in employment on the basis of race, sex, creed, national origin, marital status, ancestry, arrest or conviction record, off-duty use of lawful products, membership in military reserve, sexual orientation, age, and disability. Similar laws now protect access to housing and public accommodations.

Early in the 20th century, the state delegated labor law administration to a politically independent body of experts, the State Industrial Commission, and its advisory committees. The commission was encouraged to solve problems through administrative decisionmaking and the development of administrative rules to supplement the laws. A close tie between state government and the University of Wisconsin enabled the governor and legislature to translate reforms conceived in the academic arena into law. This cooperative meshing of academic research and government action came to be known as “The Wisconsin Idea”.

The Department of Workforce Development evolved from the Wisconsin Bureau of Labor Statistics, which was created in 1883. The bureau was succeeded by the State Industrial Commission in 1911. Following the 1967 executive branch reorganization, the commission directed the new Department of Industry, Labor and Human Relations (DILHR) and was renamed the Industry, Labor and Human Relations Commission by Chapter 276, Laws of 1969. The commission was replaced by a secretary in Chapter 29, Laws of 1977.

Effective July 1, 1996, the Department of Industry, Labor and Human Relations was renamed the Department of Industry, Labor and Job Development by 1995 Wisconsin Act 29, but the department was given the option of using the name Department of Workforce Development in 1995 Wisconsin Act 289. It formally chose to exercise that option beginning July 1, 1996, and the legislature officially recognized the name choice in 1997 Wisconsin Act 3.

The department was significantly altered by 1995 Wisconsin Act 27. It assumed many duties formerly performed by other agencies, in particular supervision of welfare and income maintenance programs and vocational rehabilitation services, which were transferred from the former Department of Health and Social Services. At the same time, the Division of Safety and Buildings was transferred out of the department to the new Department of Commerce. 1997 Wisconsin Act 191 assigned the department primary responsibility for establishing and operating a statewide system for enforcing child, family, and spousal support obligations, including expanded authority to deny, revoke, or suspend various licenses, permits, and credentials of delinquent payors.

The statutes provide that the minimum wage is set through the administrative rules process, which includes legislative review. In January 2004, the secretary established the Minimum Wage Advisory Council to recommend an appropriate increase in the minimum wage. The council was comprised of representatives from business, labor organizations, the university system, and the legislature, and issued its final report on May 1, 2004.

Number of Employees: 4.00 (not state funded).

Statutory Reference: Chapter 231.

Agency Responsibility: The Wisconsin Health and Educational Facilities Authority (WHEFA) issues bonds on behalf of tax-exempt health care and educational facilities to help them finance their capital costs. Since interest earned on the bonds is exempt from federal income taxation, they can be marketed at lower interest rates, which reduces the cost of borrowing. The Authority has no taxing power and receives no general appropriations from the state; it supports its operations by imposing fees on participating institutions. WHEFA's bonds and notes are funded solely through loan repayments from the borrowing institution or sponsor. Technically, they are not a debt, liability, or obligation of the State of Wisconsin or any of its subdivisions.

WHEFA may issue bonds to finance any qualifying capital project, including new construction, remodeling, and renovation; expansion of current facilities; and purchase of new equipment or furnishings. Some projects require prior approval from the Department of Health and Family Services (DHFS). Upon completion of a project, the Authority may collect rents and revenues to cover the principal and interest on the bonds and administrative expenses. WHEFA may establish rules for the use of a project and appoint the institution or unit administering the facility as its agent.

WHEFA may also issue bonds to refinance outstanding debt of qualifying health care and educational institutions. Health care institutions qualify only when DHFS certifies that refinancing will lead to rate reductions.

Organization: WHEFA is a public corporation. Its 7 members are appointed for staggered 7-year terms, and no more than 4 may be members of the same political party. Each member's appointment remains in effect until a successor is appointed. The governor annually appoints one member as chairperson, and the members appoint the vice chairperson and executive director. The executive director and staff are employed outside the classified service and are not paid by state funds.

History: The agency was created as the Wisconsin Health Facilities Authority by Chapter 304, Laws of 1973. Operations began in September 1979, after the Wisconsin Supreme Court found the law constitutional in State ex rel. Wisconsin Health Facilities Authority v. Lindner, 91 Wis. 2d 145 (1979), when it ruled that assistance to a religiously affiliated hospital does not advance religion or foster unnecessary entanglement between church and state. The Authority issued its first debt in December 1979.

1987 Wisconsin Act 27 expanded the scope of the agency to include assistance to private, tax-exempt colleges and universities and continuing care retirement communities and changed its name to reflect the broader responsibilities. 1993 Wisconsin Act 438 added not-for-profit institutions that have health education as their primary purpose. 2003 Wisconsin Act 109 further expanded the scope of the agency to include the issuance of bonds for the benefit of private, tax-exempt elementary or secondary educational institutions.

Agency Responsibility: The Wisconsin Housing and Economic Development Authority (WHEDA) provides loans for low- and moderate-income housing, as well as small business and agricultural development projects. The Authority finances most of its programs through the sale of bonds that technically are not an obligation of the State of Wisconsin. Since interest earned on the bonds is exempt from federal income taxation, they can be marketed at lower interest rates, which reduces the cost of borrowing.

WHEDA’s single family housing programs include the WHEDA Home Loan Program and the Home Improvement Loan Program. The WHEDA Home Loan Program provides loans to qualified Wisconsin low- and moderate-income families who are purchasing a first home or buying housing in a designated target area. Home improvement loans are provided to low- and moderate-income households at below-market rates to assist them in repairing or improving the energy efficiency of their homes. Other single family programs include a lease-purchase program and assistance program for closing costs. The Authority also administers the property tax deferral loan program for low-income elderly homeowners to enable them to pay property taxes and special assessments on their homes.

Both federally taxable and tax-exempt bonds are used to finance multifamily housing programs, which include homeless and special needs housing initiatives and loans to help with prede-
velopment of rental housing projects. In addition, the Authority administers the federal Affordable Housing Tax Credit Program for developers of affordable rental housing.

WHEDA acts for the state in administering federally funded housing programs in coordination with the U.S. Department of Housing and Urban Development. Foremost among these are the Section 8 programs of the federal Housing and Community Development Act of 1979, which fund construction and rehabilitation of rental housing through rent subsidies to owners.

A companion organization, the WHEDA Foundation, makes grants to nonprofit organizations and local governments for housing projects that benefit persons-in-crisis. Grants are made to acquire and/or rehabilitate existing housing or construct new housing. The foundation also receives grant money on behalf of WHEDA.

WHEDA administers several economic development programs that encourage job creation and economic growth. These include the Credit Relief Outreach Program (CROP), a loan guarantee program for Wisconsin farmers, and the Linked Deposit Loan Program, which provides an interest rate subsidy for loans to businesses owned and controlled by women and minorities.

The Authority administers a variety of loan guarantee programs: the Agribusiness Fund for businesses that utilize Wisconsin agricultural commodities; the Farm Assets Reinvestment Management Loan Program that assists qualified farmers in acquiring equipment, facilities, land, or livestock or improving facilities or land; and the WHEDA Small Business Guarantee for the expansion of businesses with 50 or fewer employees. It administers the Beginning Farmer Bond Program to help new farmers finance their first farm through tax-exempt bonds.

Organization: WHEDA is a public corporation consisting of 12 members. In addition to the secretary of administration and the secretary of commerce, or their designees, there are 4 legislative members who must represent the majority and minority party in each house. The 6 public members serve staggered 4-year terms, and the governor selects one to serve as chairperson for a one-year term. The governor appoints WHEDA’s executive director with the advice and consent of the senate for a 2-year term. Staff members are employed outside the classified service and are not paid from state funds.

History: WHEDA was created as the Wisconsin Housing Finance Authority by Chapter 287, Laws of 1971. Program operations began in July 1973, after the Wisconsin Supreme Court declared the Housing Finance Authority constitutional in State ex rel. Warren v. Nusbaum, 59 Wis. 2d 391 (1973). The Authority issued its first debt instruments in March 1974. In 1983, Wisconsin Act 81 broadened the Authority’s mission to include financing for economic development projects and changed the name to the Wisconsin Housing and Economic Development Authority. In 1985 Wisconsin Acts 9 and 153 and 1987 Wisconsin Act 421, the legislature expanded WHEDA’s powers to include the insuring and subsidizing of farm operating loans, drought assistance loan guarantees, and interest rate reductions. The legislature added loan guarantee programs for agricultural development and small businesses (1989 Wisconsin Act 31), recycling (1989 Wisconsin Act 335), tourism businesses (1989 Wisconsin Act 336), and businesses located in targeted areas of the state (1991 Wisconsin Act 39). 1993 Wisconsin Act 16 transferred the property tax deferral loan program to WHEDA from the Department of Administration. In 2005, WHEDA’s Modernization Bill (2005 Wisconsin Act 75) was passed, representing the first comprehensive enhancement of WHEDA’s programs in over 30 years. This legislation has increased WHEDA’s financing capacity for rental housing, small businesses, and single mortgages to first-time home buyers. WHEDA estimates that this Modernization Bill will generate nearly $500 million in economic impact throughout Wisconsin over the next several years.

The center is the home of the Milwaukee Bucks basketball team, the Milwaukee Admirals hockey team, and the Marquette University men’s basketball team. The governor appoints the remaining 8 nominees for 7-year terms, but they must represent diverse artistic interests and each of the geographic regions of the state, with one member knowledgeable in marketing and fundraising. REGIONAL AGENCIES

The following agencies were created by state law to function in one specific area of the state, usually an area composed of more than one county.

REGIONAL PLANNING COMMISSIONS

Regional planning commissions advise local units of government on the planning and delivery of public services to the citizens of a defined region, and they prepare and adopt master plans for the physical development of the region they serve. Regional planning provides a way to address problems that transcend local government boundaries, and offers joint solutions for intergovernmental cooperation.

The commissions may conduct research studies; make and adopt plans for the physical, social, and economic development of the region; assist in grant writing for financial assistance; provide advisory services to local governmental units and other public and private agencies; and coordinate local programs that relate to their objectives. Many commissions serve as a one-stop source of statistical information for the local governments of their area.

Currently, there are nine regional planning commissions, serving all but five of the state’s 72 counties. Their boundaries are based on such considerations as common topographical and geographical features; the extent of urban development; existence of special or acute agricultural, forestry, or other rural problems; or regional physical, social, and economic characteristics.

Among the many categories of projects developed or assisted by regional planning commissions are rail and air transportation, waste disposal and recycling, highways, air and water quality, farmland preservation and zoning, outdoor recreation, parking and lakefront studies, and land records modernization.

Chapter 466, Laws of 1955, created the statute that governs the state’s regional planning commissions (Section 66.0309, Wisconsin Statutes) and authorized the governor (or a state agency designated by the governor) to create a regional planning commission upon petition by the local governing bodies.

Membership of regional planning commissions varies according to conditions defined by statute. Unless otherwise specified by a region’s local governments, the term of office for a commissioner is six years. The commissions are funded through state and federal planning grants, contracts with local governments for special planning services, and a statutorily authorized levy of up to .003% of equalized real estate value charged to each local governmental unit.

As authorized by state law, Wisconsin’s regional planning commissions have established the Wisconsin Council of Regional Planning Organizations. The council’s purposes include assisting the study of common problems and serving as an information clearinghouse.

It is funded by operating revenue and special sales taxes on hotel rooms, restaurant food and beverages, and car rentals within its taxing boundaries (Milwaukee County). The WCD is classified by law as a local exposition district that may acquire, construct, and operate an exposition center and related facilities; enter into contracts and grant concessions; mortgage district property and issue bonds; and invest funds as the district board considers appropriate. Local exposition districts are public corporations. Interest income on exposition district bonds is tax-exempt, and the district is exempt from state income and franchise taxes.

The board has 15 members, 13 of whom serve 3-year terms. Legislative members serve for terms concurrent with their term of office. Public officials can no longer serve after their term of office expires. Public sector representatives appointed by the Milwaukee Common Council President must be city residents. The 2 private sector representatives the Mayor of Milwaukee appoints must reside in the city. The private sector representatives the county executive appoints must live outside the City of Milwaukee. Of the 4 gubernatorial appointees, 2 must live in Milwaukee County but not in the City of Milwaukee. The governor’s appointees must include the secretary of the state Department of Administration (or designee) and a member who has significant involvement with the lodging industry. Local exposition districts were created by 1993 Wisconsin Act 263.
INTERSTATE AGENCIES AND COMPACTS

Wisconsin is party to a variety of interstate compacts. These agreements are binding on two or more states, and they establish uniform guidelines or procedures for agencies within the signatory states. It also describes interstate compacts that are expressly ratified in the Wisconsin Statutes but do not require appointment of delegates.

In 1989, the governors of Illinois, Michigan, Minnesota, New York, Ohio, Pennsylvania, and Wisconsin signed the formal agreement creating the Great Lakes Protection Fund, and the Wisconsin Legislature approved the state’s participation in 1989 Wisconsin Act 31. The fund was incorporated as a not-for-profit corporation, managed by a board of directors composed of 2 representatives from each member state. On June 15, 2000, the U.S. Secretary of Transportation designated the entire 250-mile length of the Wisconsin Great
River Road as a National Scenic Byway, thereby recognizing it as an outstanding example of America's scenic beauty.

**Organization:** The 17-member Wisconsin commission includes 12 voting members, appointed to 4-year terms, and 5 nonvoting ex officio members. The 4 legislative members must represent the two major political parties in each house.

The commission selects its own chairperson who is Wisconsin’s sole voting representative at national meetings of the Mississippi River Parkway Commission.

**History:** The Wisconsin commission is part of the Mississippi River Parkway Commission, which was given statutory recognition by Chapter 482, Laws of 1961. It dates back to 1939 when Wisconsin Governor Julius P. Heil appointed a 10-member committee to cooperate with agencies from other Mississippi River states in planning the Great River Road. This scenic route extends from the Gulf of Mexico to the Mississippi River’s headwaters at Lake Itasca, Minnesota. North of Lake Itasca, the route connects with the Trans-Canada Highway and terminates at Minaki, Ontario.

The Federal Highway Aid Acts of 1973, 1976, and 1978 provided Wisconsin approximately $21 million in Great River Road funding. While categorical funding is no longer available, the Wisconsin Department of Transportation has continued improvements to Wisconsin’s portion of the Great River Road, including pedestrian and bicycle trails, landscaping, preservation of historic sites, and other programs. Wisconsin has also received more than $4 million in discretionary grants from the National Scenic Byways Program from 2000 through 2006. These grants were matched with 20% state and local government funds.

The compact was created to help ensure that these juveniles are adequately supervised, that public safety is adequately protected, and that the juveniles are returned to the requesting states. The compact also helps to develop procedures to manage the interstate movement of these juveniles, including tracking, to resolve pending charges against the juveniles, and to establish a system of uniform data collection.
