Executive Summary

As stated in Wis. Stat. § 115.28 (49) the Wisconsin Department of Public Instruction (DPI) is required to submit this report to the Legislature in the manner provided under Wis. Stat. § 13.172 (2) regarding the status of existing charter schools, the number of petitions for new charter schools, and the action taken by school boards and DPI on petitions for new charter schools. This report offers the results of the charter school activity survey in the 421 Wisconsin school districts during the 2018-2019 school year.

This report documents two distinct levels of decision-making regarding new charter school proposals. A first-level decision occurs during the charter school's *development* stage. The school district may approve further study of a charter school concept or participate in a consortium of school districts interested in opening a charter school. A second-level decision occurs during the *implementation* stage. The school district issues a charter school contract, provides a signature on an agreement to participate in a multi-district charter school, or signs an implementation grant application with the purpose of seeking federal charter school start-up funds from the DPI.

The department conducted an electronic survey and personally contacted school district officials to compile the necessary data. One hundred percent of the Wisconsin school districts responded to the survey.

During the 2018-2019 school year, 21 districts (5.0 percent) reported charter school activity as defined above, including at least one district in nine of the 12 regional Cooperative Educational Services Agencies (CESA). A breakdown of the activity shows 15 school boards made 19 first-level charter school decisions, and 19 school boards made 25 second-level charter school decisions. Of the first-level decisions, 19 of 19 (100 percent) were approved. Of the second-level decisions, 25 of 25 (100 percent) were approved. Two districts reported a first-level decision and not a second-level decision and six school districts reported a second-level decision but not a first-level decision.

Introduction

Charter schools, as defined by the United States Department of Education (USDE), are a form of public school choice that provides innovative educational options for parents and students. Charter schools are nonsectarian and are created through a contract, or *charter*, between the operators and a chartering authority. The charter defines the school's mission and describes how the school will meet the special needs and interests of its community, parents, and students. Therefore, charter schools become, in essence, living laboratories that may influence the larger public school system and introduce an element of entrepreneurship within that system. Although many goals for educating and preparing children are similar, each charter school fulfills a specific local need in education by offering choices in areas such as curriculum, teaching methodology, and classroom structure. The chartering authority holds the school accountable to the performance measures included in its charter. These performance measures are related to student achievement, management, operations, financial performance and other areas. Wisconsin's charter school law gives charter schools freedom from most state rules and regulations in exchange for greater accountability for results.

Charter schools have been in existence since the early 1990s. Minnesota passed the first charter school law in 1991. The following year, the first charter school in the United States opened in the Minneapolis-St. Paul area. Ten years later, in 2000, over 1,700 charter schools were in operation, serving approximately 430,000 school children (Hill, Lake, Celio, Campbell, Herdman & Bulkley 2001). During the 2017-18 school year, there were more than 7,000 charter schools in operation across the country serving close to 3.2 million students. (National Alliance for Public Charter Schools, 2018).

Stimulated by a boost of federal funding for charter schools, the number of charter schools over the last two decades has increased. USDE awarded \$25,840,123 in new awards in the 2019 fiscal year Charter School Programs State Entities grant competition (Office of Innovation & Improvement, n.d.).

Wisconsin Charter Schools

History of Wisconsin's Charter School Law

The Wisconsin Legislature established the Wisconsin Charter School Program in 1993 to provide educational alternatives for students in kindergarten through grade 12. The initial law permitted 10 school districts to establish up to two charter schools each, creating a cap of 20 schools statewide. The Stevens Point Area School Board authorized Wisconsin's first charter school in 1994. In 1995, revisions to the law gave chartering authority to school boards statewide and eliminated the cap.

Further changes to the law allowed other entities besides school boards the ability to authorize charter schools. In 1997, the state gave chartering authority in Milwaukee to the chancellor of the University of Wisconsin – Milwaukee (UW–Milwaukee), the Milwaukee Area Technical College (MATC), and the Common Council of the City of Milwaukee. In the 1998 budget adjustment session, the state allowed districts to contract with one of the 12 CESAs to operate a charter school located within the CESA region. In the 2001-2003 budget bills, the University of Wisconsin – Parkside (UW–Parkside) was given chartering authority, allowing it to establish a single charter school. In addition, a number of changes regarding authorizers were made to Wisconsin's charter school law under 2015 Wisconsin Act 55. Under Act 55, five new entities were allowed to authorize independent charter schools: (a) the Office of Educational Opportunity (OEO) in the UW System; (b) the Gateway Technical College District Board; (c) the College of Menominee Nation; (d) the Lac Courte Oreilles Ojibwa Community College; and (e) the Waukesha County Executive. These independent chartering entities are often referred to as “2r” or “2x” authorizers because Wis. Stat. § 118.40 (2r) and Wis. Stat. § 118.40 (2x) pertains to these entities. (For more information, see *Independent Authorizers*.) Act 55 also established that the Board of Regents' approval is no longer statutorily required for charter schools authorized by UW–Milwaukee and UW–Parkside. The number of independent authorizers further increased in 2017 Wisconsin Act 59, allowing any UW chancellor or any technical college district board to contract with a person to operate an independent charter school.

In addition to changes regarding authorizing entities, the law has undergone other modifications. The 1998 budget adjustment session established: a) procedures for when a school board is petitioned for the opening of a charter school; b) procedures for converting a nonsectarian private school to a charter school; and c) the requirement for charter schools to state their relationship with a school district as an instrumentality or non-instrumentality. Changes that occurred in the 2003-2005 biennial budget exempted a

specific charter school sponsored by UW–Milwaukee (Woodlands Academy) from some residency requirements. Additional changes in 2005 resulted in the elimination of previous school year attendance requirements for students residing in Milwaukee. In 2006, the law was changed again to allow authorizers to enter into a contract with a charter school that enrolls or offers limited courses to one sex, provided that a comparable school or course is available to the opposite sex. In 2008, the law was further amended to clarify requirements for virtual charter schools. In 2013, the legislature expanded the locations of charter schools authorized by the UW–Milwaukee to include charter schools located anywhere in Milwaukee County or in an adjacent county. In addition, students who resided in Milwaukee County or in an adjacent county could attend any independent charter school established in Milwaukee County or in an adjacent county. 2017 Wisconsin Act 59 removed most of the previous residency and location restrictions. The only remaining restriction is that Waukesha County Executive-authorized schools would still need to be located in Waukesha County.

In 2015, a number of changes were also made to authorizer requirements as part of 2015 Wisconsin Act 55. Changes included requiring all authorizers to adhere to the standards and principles established by the National Association of Charter School Authorizers (NACSA), strengthening the power of the charter school governance board by providing a list of specific board-related responsibilities, removing many of the residency and location restrictions on independent charter schools, and requiring all charter school authorizers to report annually to the legislature and to the state superintendent on the performance of each of its charter schools. In addition, governance board duties and powers were specified under Act 55. The new provisions specified that each charter school must be governed by a governing board that is a party to the contract with the authorizing entity and no more than a minority of the governing board's members can be employees of the school or employees or officers of the school district. Act 55 also contained no geographic restrictions within the state on where prior law authorizers can locate a school, other than the Waukesha County Executive authorizer, or on which pupils can attend these schools. Act 55 allowed operators of independent charter schools to claim state aid for providing transportation to students.

2017 Wisconsin Act 59 also allowed independent charter schools to receive funding for summer school.

Growth of Charter Schools in Wisconsin

With changes in the law, increased federal funding, and greater interest, the number of charter schools in Wisconsin has grown. Table 1 shows the growth of Wisconsin charter schools from fall of 1994 to fall of 2018.

For the 2018-2019 school year, 233 charter schools were in operation in Wisconsin, a decrease of 0.4 percent from the previous school year. There were 93 Wisconsin school boards that authorized 207 charter schools, and four non-school board authorizers that authorized 26 charter schools. While 12 charter schools closed at the end of the 2017-18 school year, 11 new charter schools opened at the beginning of the 2018-19 school year. By the end of the 2018-19 school year, 12 charter schools closed for a variety of reasons, including financial difficulties, low student enrollment, and conversion to traditional or magnet schools. Nevertheless, Wisconsin ranks among the top 10 states in the U.S. with the

most charter schools in operation (see Table 2). Over 43,000 Wisconsin students (5% of all Wisconsin K-12 students) attended a charter school during the 2018-2019 school year.

Note: Non-Wisconsin data is from NAPCS, while Wisconsin data is from the Wisconsin Department of Public Instruction.

In September 2017, DPI was the recipient of a \$95 million federal grant from USDE to support charter activities over the next five years. These federal funds are disseminated through the Wisconsin Charter Schools Program (WCSP) and administered by DPI. The department awarded over \$17 million to 26 charter schools in 2017-18 to plan, open, or expand charter schools in the state starting in the 2018-19 school year. Part of the federal grant supports the Wisconsin Resource Center for Charter Schools (WRCCS), which offers statewide technical assistance to support charter schools, governing boards, and authorizers.

It should be noted that, while charter school grant funds may influence and encourage the development of charter schools, chartering a new school at the local level is a separate and distinct activity from applying for charter school grant funds. Chartering requires communication and decision making between the operator of the charter school and the local authorizer, usually the school board.

Overview of Wisconsin's Charter Schools

Below is a brief overview of Wisconsin's charter schools. This and related information can be found on the DPI charter school website at <http://dpi.wi.gov/sms/charter-schools>. Additionally, WRCCS publishes an annual charter school yearbook that includes a description of each operating charter school in the state.

Aspects of Autonomy

Wisconsin's charter schools are exempt from most state requirements regarding public education. However, they are not exempt from local school board policies unless negotiated and documented in the charter school contract. The purpose of these exemptions is to allow charter school developers to be free in creating and establishing independent governance and administrative structures.

Charter schools are free to be creative in developing their administrative and governance structures. However, parental involvement is very important and the governing board must be autonomous and independent of the authorizer. The governance board's autonomy must extend to making decisions on issues related to policy, budget, and personnel. Therefore, a majority of the governance board members must be non-school district employees and non-school board members. Many charter schools break from traditional management models by establishing decision-making boards that include school staff, parents, area employers, and student representatives. Others have parent and teacher committees that address school needs, such as fund-raising and the budget. Parental involvement and participation are hallmarks of charter schools. Although many parents readily volunteer, parental service may not be made a condition of pupil admission.

Accessibility and Admission

Charter schools may not discriminate on the basis of sex, race, religion, national origin, ancestry, pregnancy, marital or parental status, sexual orientation, or physical, mental, emotional, or learning disability. In addition, Wisconsin's law requires the charter contract to describe how the school will achieve a racial and ethnic balance that reflects the balance in the school district as a whole.

During the admission process, preference must be given to students living within the attendance area of an existing traditional public school that is converted to a charter school. Nonresident students who want to attend the charter school may apply to do so under the Wisconsin Public School Open Enrollment Program, though placement is not guaranteed. If more students apply to attend a charter school than there are spaces available, a random lottery must be held. A charter school cannot charge tuition.

Attendance at a charter school is voluntary, and the district must provide alternative public education for pupils who do not wish to attend the charter school or who are not admitted to the charter school due to space constraints. This provision also applies should a school board enter into a contract that would result in the conversion of all the public schools in the district to charter schools.

Charter schools receiving federal grant funds are subject to the Non-regulatory Guidance of the Public Charter Schools Program of the U.S. Department of Education. For a copy of this document please visit:

<http://www2.ed.gov/programs/charter/nonregulatory-guidance.html>.

Independent Authorizers

Although most authorizers are school districts, there are other entities that state law permits to authorize charter schools. Previously, these entities included UW—Milwaukee, MATC, the Common Council of the City of Milwaukee, and UW—Parkside. 2015 Wisconsin Act 55 expanded this to add five new independent authorizers, which include each

technical college district board, the Waukesha County Executive, College of Menominee Nation, Lac Courte Oreilles Ojibwa Community College, and the OEO in the UW System. These independent chartering entities are often referred to as “2r” or “2x” authorizers because it refers to the section of charter school law within Wis. Stat. § 118.40 that grants these entities authority to authorize charter schools.

During the 2018-2019 school year, there were a total of 26 independent charter schools in operation in Wisconsin. Table 4 shows a list of these schools and their authorizers.

Instrumentality and Non-Instrumentality

For district authorized charter schools, the school board may determine whether the charter school is an instrumentality of the school district in which it is located. If the board deems it an instrumentality, the district employs all personnel for the charter school. If the board determines the charter school is not an instrumentality, the personnel are

considered employees of the charter school. In 2018-2019, of the 207 charter schools authorized by districts, there were 174 (84 percent) instrumentality and 33 (16 percent) non-instrumentality charter schools.

Although some charter schools are identified as instrumentalities of the district, the word “instrumentality” is not defined in the charter school law and has had limited use in Wisconsin. The word was initially included in the charter law to ensure continuing eligibility of charter school teachers in the Wisconsin Retirement System. *Instrumentality* as used in the retirement law defines the *employer*, making it clear that the employing school district is responsible for worker’s compensation, unemployment compensation, employee insurance and benefits, liability for acts of school staff members, and other employee-related matters.

Creating a Charter School

In Wisconsin, there are two ways to create a charter school: by petition or by proposal. Each method is described below.

Charter School Petition

Written Petition

Writing a petition is a collaborative effort between local groups, usually including teachers, administrators, parents, community members, universities or technical colleges, CESAs, students, not-for-profit organizations, or for-profit businesses. Planning requires an understanding of state and federal law as it relates to education, local needs, and educational options.

By law, a petition must include all of the following information:

1. The name of the person who is seeking to establish the charter school.
2. The name of the person who will be in charge of the charter school and the manner in which administrative services will be provided.
3. A description of the educational program of the school.
4. The methods the school will use to enable pupils to attain the educational goals under Wis. Stat. § 118.01.
5. The method by which pupil progress in attaining the educational goals under Wis. Stat. § 118.01 will be measured.
6. The governance structure of the school, including the method to be followed by the school to ensure parental involvement.

7. Subject to Wis. Stat. § 118.40 (7) (a) and (am), Wis. Stat. § 118.19 (1), and Wis. Stat. § 121.02 (1) (a) 2. the qualifications that must be met by the individuals to be employed in the school.
8. The procedures that the school will follow to ensure the health and safety of the pupils.
9. The means by which the school will achieve a racial and ethnic balance among its pupils that is reflective of the school district population.
10. The requirements for admission to the school.
11. The manner in which annual audits of the financial and programmatic operations of the school will be performed.
12. The procedures for disciplining pupils.
13. The public school alternatives for pupils who reside in the school district and do not wish to attend or are not admitted to the charter school.
14. A description of the school facilities and the types and limits of the liability insurance that the school will carry.
15. The effect of the establishment of the charter school on the liability of the school district.

To assist planners and authorizers, DPI established a contract benchmark form that outlines required and suggested items for inclusion in a charter school contract (see Appendix A).

After the petition has been written, it must be signed by at least 10 percent of the teachers district-wide or at least 50 percent of the teachers employed at one school. The petition, which requests that the school board establish a charter school, is then filed with the school district clerk.

Public Hearing

The school board must hold a public hearing within 30 days after receiving a charter school petition. At the hearing, the school board considers both the level of employee and parental support described in the petition and the fiscal impact of the establishment of the charter school on the school district. Consequently, the school board may grant or deny the petition.

For Milwaukee Public Schools only, if the school board denies a petition, then an appeal is possible. An appeal must be filed with DPI within 30 days after receiving the denial from the school board. Then DPI shall issue a decision, which is final and not subject to judicial review, within 30 days after receiving the appeal.

Contract

If the school board grants a petition, the school board must contract with the person named in the petition to operate the charter school. The contract must include all 15 provisions required in the petition and may include other provisions agreed to by all parties. The contract may not exceed five school years and may be renewed one or more terms not to exceed five years. The contract must specify the amount to be paid to the charter school during each school year.

Conditions for Total Charter School Conversion

In special circumstances, a school board may grant a petition that would result in the conversion of all the public schools in the school district to charter schools. These circumstances must meet both of the following criteria:

1. At least 50 percent of the teachers employed by the school district sign the petition.
2. The school board provides alternative public school attendance arrangements for pupils who do not wish to attend or are not admitted to a charter school.

Charter School Proposal

Written Proposal

A school board may on its own initiative contract with an outside party to operate a charter school. The contract must include all of the 15 provisions required in a petition (as noted above) and may include other provisions as agreed to by all parties. The term of this contract may not exceed five school years and may be renewed for one or more terms not exceeding five years. The contract must specify the amount to be paid to the charter school during each school year and often includes reasons and procedures for revocation or renewal.

Notification

Whenever a school board intends to establish a charter school, Wis. Stat. § 118.40 (1) requires that the State Superintendent of Public Instruction be notified. A notice must include a description of the proposed school. A charter school contract submitted to the department, which must include 15 items according to Wis. Stat. § 118.40, satisfies this required notification.

Public Hearing

In some situations, a private school may want to convert to a charter school or a school may want to be established as a non-instrumentality charter school. This process starts with a public hearing held by the school district at least 30 days before entering into a contract. At the hearing, the school board considers both the level of employee and parental support for

the changes and the fiscal impact of the establishment of the charter school on the school district.

Conditions for Total Charter School Conversion

A school board may not enter into a contract that would result in the conversion of all public schools in the school district to charter schools, except as noted above under *Charter School Petition*.

First-Level and Second-Level Decisions

School districts have two distinct levels of decision-making related to charter schools. A first-level decision occurs during the *development* stage of a new charter school when the school district approves further study of a charter school concept, decides to participate in a consortium of school districts, or signs a planning grant with the purposes of seeking federal charter school planning funds from DPI. A second-level decision occurs at the *implementation* stage when the school district issues a charter, provides a signature on an agreement to participate in a multi-district charter school, or signs an implementation grant with the purpose of seeking federal charter school start-up funds from DPI. Both levels of decision-making are to help define petition and proposal activity as it relates to the planning and implementation of new charter schools. To measure this activity, DPI annually distributes an electronic survey. The results of the 2018-2019 charter school activity survey are summarized in the next section.

Petition and Proposal Activity – Survey Results

This section describes the petition and proposal activity in school districts during the 2018-2019 school year as well as the action taken by school districts and DPI. The terms “proposal” and “petition” are used interchangeably here. Additionally, although there are multiple authorizers in the state of Wisconsin (e.g. independent authorizers), the data in this report specifically address local school board actions and do not include activity or actions taken on new charter school proposals by non-school board authorizers.

An introductory email was sent to the superintendents of all 421 school districts (see Appendix B). The email requested that each district complete an electronic online survey that asked questions regarding charter school petitions and/or proposals during the 2018-2019 school year. By sending reminders and contacting districts directly, 100 percent of school districts responded.

The electronic online survey had 13 questions (see Appendix C). The person completing the survey was asked to identify their name, title, CESA, email address, and decisions regarding new charter schools during the 2018-2019 academic year. Questions 1 through 5 pertained to first-level decisions made regarding new charter schools. Questions 6 through 10 related to second-level decisions made regarding new charter schools. Questions 11 through 12 dealt with concepts and proposals of the new charter schools. The final question, 13, allowed for open comments, giving districts an opportunity to comment generally about charter schools.

General Information

Most of the survey respondents were high-level administrators. Specifically, 383 (91 percent) indicated their title as being District Administrator, Superintendent, or Interim Superintendent. Sixteen survey respondents (four percent) indicated their position as Assistant Superintendent, Assistant to the Superintendent, Administrative Assistant, or Executive Assistant.

Twenty-two survey respondents (five percent) indicated their title as being a Charter School Executive Director, Principal, Curriculum Director, Director of Pupil Services, Director of Business Services, Director of Teaching and Learning, Director of Instruction, Director of Secondary Education and other director-level positions.

Figure 1 provides a breakdown by CESA, comparing the number of first-level decisions made on proposed new charter schools during the 2017-2018 and the 2018-2019 school years. As shown, the number of first-level decisions made increased in CESA 1, 2, 6, 11, and

12. There were no first-level decisions made in CESA 3 or 4 during the 2017-18 or 2018-19 school years.

Figure 2 displays a comparison of the number of districts with operating charter schools to the number of districts with first-level decisions for proposed new charter schools in the 2018-2019 school year. Of the 15 districts that made first-level decisions, eight of them (53 percent) were not operating a charter school at the time of the decision.

First-Level Decisions

Between July 1, 2018 and June 30, 2019, 15 districts reported a total of 19 first-level decisions. Districts approved 100 percent of the filed proposals for the reasons noted in Table 5.

■ Table 5

Reasons for Approval of First-Level Decisions

Reason	Number (n=15)	Percentage
Realizes an alternative vision for schooling	14	93%
Attracts students	13	87%
Increases parent/community involvement	10	67%
Serves a special population	9	60%
Increases student achievement	7	47%
Participates in a charter school consortium	2	13%

Source: The Wisconsin Department of Public Instruction, 2019

Note: Districts were able to indicate more than one reason for approval, therefore, percentages will not equal 100.

As noted in the table, the reasons most given for approving new proposals by the respondents to our Wisconsin-wide survey was “realizes an alternative vision for schooling” (93 percent) and “attracts students” (87 percent). “Increases parent/community involvement” (67 percent), “serves a special population” (60 percent), and “Increases student achievement” (47 percent) were also frequently cited. Only two districts (13 percent) noted “Participates in a charter school consortium” as a reason.

Second-Level Decisions

After the first-level approval, proposals must pass a second level of approval before a charter school can be established. Between July 1, 2018 and June 30, 2019, 19 Wisconsin school districts reported making 25 second-level decisions. All 25 second-level decisions were approved. Reasons for second-level decision approval of a proposal are noted in Table 6.

■ Table 6

Reasons for Approval of Second-Level Decisions

Reason	Number (n=19)	Percentage
Realizes an alternative vision for schooling	18	95%
Attracts students	15	79%
Increases parent/community involvement	13	68%
Increases student achievement	10	53%
Serves a special population	10	53%
Participates in a charter school consortium	6	32%

Source: The Wisconsin Department of Public Instruction, 2019

Note: Districts were able to indicate more than one reason for approval, therefore, percentages will not equal 100.

The reasons respondents provided for approving second-level decisions were generally consistent with the reasons provided for approving first-level decisions. “Realizes an alternative vision for schooling” was cited by 95 percent of respondents. “Attracts students” (79 percent) and “Increases parent/community involvement” (68) were the other two most indicated reasons listed for approval of second-level decisions.

Source of Petitions and Proposals

A majority of charter school proposals came directly from the district superintendent. Table 7 shows the distribution of charter school proposal initiators.

■ Table 7

Source of Charter School Petitions and Proposals

Source	Number (n=21)	Percentage
District Superintendent	14	67%
School Administration	13	62%
Parents	10	48%
Community (not-for-profit)	9	43%
Teachers	7	33%
CESA	6	29%
Business (for-profit)	2	10%

Note: Districts were able to indicate more than one reason for approval, therefore, percentages will not equal 100.

Planning Group Participants

Survey results indicate that district superintendents, communities, school administrators, parents, and teachers made up the majority of charter school planning groups during the 2018-2019 school year. CESAs and businesses played a smaller role.

■ Table 8

Charter School Planning Group Members

Comments from Survey

Only a few respondents offered additional comments regarding charter schools during the 2018-2019 academic year. Comments were made regarding the importance of charters because they offer choice and alternative options for students. Additional comments described the importance of grant funds in supporting charter schools.

DPI Action on Federal Charter School Grant Applications

In September 2017, DPI received a federal CSP grant of approximately \$95 million for the five-year project period from 2017 to 2022. In 2017-18, the department received 45 grant applications to plan, open, or expand charter schools. The department awarded 26 grants totaling over \$17 million starting in the 2018-19 school year.

Conclusion

Wisconsin has been one of the leading states in cultivating an environment that fosters innovation in education through charter schools. The number of public school districts that made decisions regarding new charter schools during the 2018-2019 school year is evidence that districts throughout the state support innovation in education and are exploring how and to what extent charter schools can provide quality options to parents and students in their districts. The Wisconsin Charter Schools Program supports high-quality charter schools.

CHARTER SCHOOL CONTRACT BENCHMARKS

In order to receive or maintain a DPI school code, or to receive federal Charter Schools Program Grant Funds for Implementation or Replication/Expansion, a charter school must have a duly executed contract on file with the DPI that satisfies all provisions required under state law and federal law, where applicable.

The purpose of these benchmarks is to provide a resource for authorizers and charter school governance boards to ensure that charter contracts contain all necessary state and federal provisions and to identify additional provisions to consider during contract development.

Please use the benchmarks below to ensure the charter school contract meets the requirements of the law. The benchmarks have been organized as follows:

MANDATORY BENCHMARKS

A. Benchmarks Required for a DPI School Code.

(Charter school will not receive a DPI code without these benchmarks)

1. Benchmarks required by state law for all charter schools (district-authorized and independent-authorized).
2. Benchmarks required by state law for district-authorized charter schools only.
3. Benchmarks required by state law for independent-authorized charter schools only.
 - For Benchmarks required by state law for 2x(cm) charter schools, contact the DPI.

B. Benchmarks Required for Federal Charter Schools Program Funds.

(Charter school will not receive Federal Charter Schools Program Funds without these benchmarks)

ADDITIONAL BENCHMARKS

C. Benchmarks for All Charter Schools from Principals and Standards Established by the National Association of Charter School Authorizers.

D. Benchmarks DPI Strongly Encourages for All Charter Schools.

E. Benchmarks for Virtual Charter Schools.

As you complete your contract, please indicate, in the appropriate column, the page number and corresponding section of the contract where each provision is located.

Submit this form along with your contract to the DPI.

MANDATORY BENCHMARKS		
A. BENCHMARKS REQUIRED FOR A DPI SCHOOL CODE		
<i>These are benchmarks that are required for any charter school to receive a DPI school code. Additional benchmarks are needed for charter schools seeking federal charter school program funds, see pg. 6.</i>		
1. Benchmarks Required by State Law for all Charter Schools (District-authorized and Independent-authorized).		
BENCHMARK	LOCATION IN CONTRACT (SCHOOL USE)	PRESENT/ABSENT (DPI USE)
The name of the person seeking to establish the charter school. §118.40(1m)(b)1		
The name of the person who will be in charge of the charter school and the manner in which administrative services will be provided. §118.40(1m)(b)2		
A description of the educational program of the school. §118.40(1m)(b)3		
The method used to enable pupils to attain educational goals under Wisconsin Statutes 118.01. §118.40(1m)(b)4		
The method by which evidence of student achievement or progress in attaining academic skills and knowledge will be measured. §118.40(1m)(b)5		

<p>The governance structure of the school, including method to be followed to ensure parental involvement. §118.40(1m)(b)6. <i>This provision should explain the basic structure of the governance board such as how the governance board is organized, how directors will be elected, and how parents will be involved (e.g., as members of the board or committee members)</i></p>		
<p>Methods employed to review qualifications that must be met by individuals employed by the school, assuring that every teacher, supervisor, administrator or professional staff member holds a certificate, permit or license issued by the department before entering duties for such a position [Wisconsin Statutes 118.19(10) and 121.02(1)(a)2.] §118.40(1m)(b)7</p>		
<p>Procedures the school will follow to ensure the health and safety of the pupils. §118.40(1m)(b)8</p>		
<p>The procedures used to achieve a racial and ethnic balance among pupils that is reflective of the school district population. §118.40(1m)(b)9</p>		
<p>The requirements for admission to the school. §118.40(1m)(b)10</p>		
<p>The manner in which annual audits of the financial and programmatic operations of the school will be performed. §118.40(1m)(b)11</p>		
<p>The procedures by which students will be disciplined. §118.40(1m)(b)12</p>		
<p>The public school alternatives for pupils who reside in the school district and do not wish to attend or are not admitted to the charter school. §118.40(1m)(b)13</p>		
<p>A description of the facilities and the types and limits of the liability insurance that the school will carry. §118.40(1m)(b)14</p>		
<p>Evidence that the contract is duly executed. §118.40(3)(a) <i>Typically dates and signatures of the authorizer and the governance board president of the charter school.</i></p>		
<p>The amount to be paid to the charter school each year of the contract. §118.40(3)(b)</p>		

<p>The term of the contract, not to exceed 5 years. §118.40(3)(b) <i>This must indicate the date the contract becomes effective and the date the contract terminates, a period which may not exceed five (5) years.</i></p>		
<p>The procedures school will follow to randomly select students if more students apply for admission than space available at the school. The random selection plan must give preference to students who were enrolled in the charter school in the previous year and to siblings of students who are enrolled in the school. The school may give preference to children of the school’s founders, governing board members, and full-time employees, but this preference can be given to no more than 10% of school’s total enrollment. §118.40(3)(g)</p>		
<p>Evidence that the charter governance board is a legally incorporated governing board independent of the authorizer. <i>This is evidence that the charter governance board is a nonstock corporation, for profit corporation, LLC, or partnership organized under the laws of the State of Wisconsin.</i></p>		
<p>If the charter school is authorized by two or more boards that have entered into an agreement under s. 66.0301, the names and locations of all school districts that are a party to the agreement. §118.40(3)(c)(1)(a)</p>		
<p>If the charter school is authorized by two or more boards that have entered into an agreement with the board of a cooperative educational service agency, the names and locations of all school districts that are a party to the agreement. §118.40(3)(c)(1)(b)</p>		
<p>If more than one charter school will be allowed under the charter contract, a statement authorizing the establishment of additional charter schools. §118.40(3)(f)1</p>		
<p>If more than one charter school will be allowed under the charter contract, the name, location and description of each charter school.</p>		
<p>2. Requirements under State Law for District-Authorized Charter Schools Only. <i>This section does not apply to independent authorizers</i></p>		
<p>BENCHMARK</p>	<p>LOCATION IN CONTRACT</p>	<p>PRESENT/ABSENT (DPI USE)</p>

	(SCHOOL USE)	
The status of the school as a non-instrumentality or instrumentality of the school district. §118.40(7)(a)		
The effects of the establishment of the charter school on the liability of the school district §118.40(1m)(b)15		
3. Benchmarks Required by State Law for Independent-Authorized Charter Schools Only. <i>This includes all 2r and 2x schools but does not apply to district-authorized schools. These are benchmarks that are required for independent-authorized charter schools to receive a DPI school code.</i>		
BENCHMARK	LOCATION IN CONTRACT (SCHOOL USE)	PRESENT/ABSENT (DPI USE)
The annual academic and operational performance standards developed in accordance with the performance framework of the authorizer and a statement that the governing board must adhere to such standards. §118.40(2r)(b)2.a. and 118.40(2x)(b)2a		
The corrective measures the governing board will take if the school fails to meet performance standards. §118.40(2r)(b)2.b and 118.40(2x)(b)2b		
A provision allowing the governing board to open one or more additional charter schools if all of the charter schools operated by the governing board were assigned to one of the top 2 performance categories in the most recent school and school district accountability report. §118.40(2r)(b)2.c		
The methodology that will be used by the governing board to monitor and verify pupil enrollment, credit accrual and course completion. §118.40(2r)(b)2.d. and 118.40(2x)(b)2d		
A statement that the authorizer shall have direct access to pupil data and governing board shall provide data needed for the authorizer to complete its annual report under §118.40(3m)(f). §118.40(2r)(b)2.e and i. and 118.40(2x)(b)2e and i.		
A description of the administrative relationship between the parties. §118.40(2r)(b)2.f. and 118.40(2x)(b)2f.		

A statement that the governing board will hold parent-teacher conferences at least annually. §118.40(2r)(b)2.g. and 118.40(2x)(b)2g.		
A requirement that if more than one charter school is operated under the contract, the charter school governing board reports to the authorizer on each charter school separately. §118.40(2r)(b)2.h and 118.40(2x)(b)2h.		
A statement that the governing board will participate in any training provided by the authorizer. §118.40(2r)(b)2.j. and 118.40(2x)(b)2j.		
A description of all fees that the authorizer will charge the governing board. §118.40(2r)(b)2.k and 118.40(2x)(b)2k.		
If the charter contract includes grounds for expelling a pupil from the charter school, the procedures to be followed by the charter school prior to expelling a pupil. 118.40(2r)(b)2m.b. and 118.40(2x)(b)3b.	<i>May not apply</i>	
The effect of the establishment of the charter school on the liability of the contracting entity. §118.40(2r)(b)2 and 118.40(2x)(b)2.		

B. BENCHMARKS REQUIRED FOR FEDERAL CHARTER SCHOOLS PROGRAM FUNDS

*These are benchmarks that are required for any charter school seeking Federal Charter Schools Program Funds. These are **IN ADDITION** to all other state law requirements.*

BENCHMARK	LOCATION IN CONTRACT (SCHOOL USE)	PRESENT/ABSENT (DPI USE)
Describes the level of autonomy afforded the charter school relative to policy, operation, budget development, staffing and evaluation. ESSA §4303(f)(2)(A)		
Addresses how the school district will allocate federal funding for which the charter school is eligible. ESSA §4303(f)(1)(A)(iii)		
Describes or identifies any waivers of school district policy agreed to by the authorizer and the operator of the charter school. ESSA §4303(f)(3)(B)		
Describes the quality controls agreed to between the charter school and the authorizer. ESSA §4303(f)(1)(C)		

Describes how the charter school’s performance in the State’s accountability system and impact on student achievement will be one of the most important factors for renewal or revocation of the charter school’s contract. ESSA§4303(f)(1)(C)		
Describes how the authorizer will reserve the right to revoke or not renew the charter school’s contract based on financial, structural or operational factors involving the management of the school. ESSA§4303(f)(1)(C)		

ADDITIONAL BENCHMARKS

A. BENCHMARKS FOR ALL CHARTER SCHOOLS FROM PRINCIPALS AND STANDARDS ESTABLISHED BY THE NATIONAL ASSOCIATION OF CHARTER SCHOOL AUTHORIZERS (NACSA).

All authorizers are required to consider the Principles and Standards established by the National Association of Charter School Authorizers when contracting for the establishment of a charter school. Below are select NACSA contracting provisions that should be considered for contracting purposes. See <http://www.qualitycharters.org/for-authorizers/principles-and-standards/> for the complete document containing all Principles and Standards.

BENCHMARK	LOCATION IN CONTRACT (SCHOOL USE)	PRESENT/ABSENT (DPI USE)
States the rights and responsibilities of the school and the authorizer		
States and respects the autonomies to which schools are entitled— based on statute, waiver, or authorizer policy—including those relating to the school’s authority over educational programming, staffing, budgeting, and scheduling		
Defines performance standards, criteria, and conditions for renewal, intervention, revocation, and non-renewal, while establishing the consequences for meeting or not meeting standards or conditions		
States the statutory, regulatory, and procedural terms and conditions for the school’s operation		

States reasonable pre-opening requirements or conditions for new schools to ensure that they meet all health, safety, and other legal requirements prior to opening and are prepared to open smoothly		
States the responsibility and commitment of the school to adhere to essential public-education obligations, including admitting and serving all eligible students so long as space is available, and not expelling or counseling out students except pursuant to a legal discipline policy approved by the authorizer		
States the responsibilities of the school and the authorizer in the event of school closures		
Includes the performance standards under which schools will be evaluated, using objective and verifiable measures of student achievement as the primary measure of school quality		
Defines clear, measurable, and attainable academic, financial, and organizational performance standards and targets that the school must meet as a condition of renewal, including but not limited to state and federal measures		
Includes expectations for appropriate access, education, support services, and outcomes for students with disabilities		
Defines the sources of academic data that will form the evidence base for ongoing and renewal evaluation, including state-mandated and other standardized assessments, student academic growth measures, internal assessments, qualitative reviews, and performance comparisons with other public schools in the district and state		
Defines the sources of financial data that will form the evidence base for ongoing and renewal evaluation, grounded in professional standards for sound financial operations and sustainability		
Defines the sources of organizational data that will form the evidence base for ongoing and renewal evaluation, focusing on fulfillment of legal obligations, fiduciary duties, and sound public stewardship		

Includes clear, measurable performance standards to judge the effectiveness of alternative schools, if applicable—requiring and appropriately weighting rigorous mission-specific performance measures and metrics that credibly demonstrate each school’s success in fulfilling its mission and serving its special population.		
For any school that contracts with an external (third-party) provider for education design and operation or management, includes additional contractual provisions that ensure rigorous, independent contract oversight by the charter governing board and the school’s financial independence from the external provider		
B. <u>DPI STRONGLY ENCOURAGES THESE BENCHMARKS</u> FOR ALL CHARTER CONTRACTS		
BENCHMARK	LOCATION IN CONTRACT (SCHOOL USE)	PRESENT/ABSENT (DPI USE)
<p>Specify the membership of the charter school’s governing board. No more than a minority of the board members can be employees of the charter school or employees or officers of the school district in which the charter school is located. §118.40(4)(ag)</p> <p><i>Under federal rules, charter schools receiving federal charter school program funds may not have any employees or officers of the authorizing entity on the charter school’s governing board.</i></p>		
<p>Specify that, subject to the terms in the contract, the charter school governing board has all the powers necessary to carry out the terms of the contract, including:</p> <ul style="list-style-type: none"> • Receiving and disbursing funds for school purposes; • Securing appropriate insurance; • Entering into contracts, including contracts with institutions of higher educations for technical or financial assistance, academic support, curriculum review, or other services. • Incurring debt in reasonable anticipation of the receipt of funds; 		

<ul style="list-style-type: none"> • Pledging, assigning or encumbering its assets to be used as collateral for loans or extensions of credit; • Soliciting and accepting gifts or grants for school purposes; • Acquiring real property for its use; • Suing or be sued in its own name. §118.40(4)(d). 		
Specify that the program and attendance at the charter school is voluntary. §118.40(6)		
Clearly state that the charter school does not charge tuition. §118.40(4)(b)1

Charter School Activity Data

Due Date: August 30, 2019

Dear District Administrator,

The Department of Public Instruction must annually report to the Legislature on the status of existing charter schools, the number of petitions/proposals for new charter schools, and school board and departmental action on petitions/proposals for new charter schools.

In compliance with this requirement, each year the State Superintendent requests districts' participation in a DPI administered electronic survey to gather necessary data to include in our annual report to the legislature.

If your district **DID NOT** make any decisions regarding new charter schools between July 1, 2018, and June 30, 2019, indicate this on the survey.

If your district **DID** make decisions regarding new charter schools between July 1, 2018, and June 30, 2019, respond to the questions below regarding approval or denial for each petition or proposal filed, and select a reason(s) for approval or denial for each petition or proposal filed. If multiple proposals have been approved or denied, provide clarification of reasons in the space for comments at the end.

A first-level decision is defined as a concept approval for the purposes of further study, participation in a consortium or a signed charter school planning and implementation or planning and replication grant. A second-level decision is defined as an approved charter contract between the district and the operator of a charter school for a new charter school, a written agreement to participate in a consortium or a signature on a charter school implementation or replication grant.

The form will be electronically submitted by clicking the "Submit Survey" button at the bottom of the survey.

Complete and submit the survey electronically by **August 30, 2019**. If you have questions while completing the survey or encounter difficulty when transmitting the survey, contact [HYPERLINK "mailto:charterschools@dpi.wi.gov?subject=PII-00574%20Charter%20School%20Activity%20Data"](mailto:charterschools@dpi.wi.gov?subject=PII-00574%20Charter%20School%20Activity%20Data) charterschools@dpi.wi.gov.
