

December 28, 2023

Edward A. Blazel
Assembly Chief Clerk
17 West Main Street, Room 401
Madison, WI 53703

Dear Chief Clerk Blazel:

In accordance with Wis. Stat. § 115.996, the Department of Public Instruction submits this report relating to the status of bilingual-bicultural education programs. This report provides data for the 2023 fiscal year (school year July 1, 2022, through June 30, 2023).

This report presents details on the state's administration and funding of bilingual education in Wisconsin, including the number of pupils served in bilingual-bicultural education programs for each language group by school district; the cost of the program per pupil for each school district; and the number of pupils in each school district and language group who, as a result of participation in a bilingual-bicultural education program, improved their English language ability and no longer need program services.

Please direct questions to Kevyn Radcliffe, Legislative Liaison, at (608) 264-6716.

Sincerely,

A handwritten signature in blue ink that reads "Jill Underly".

Jill K. Underly, PhD
State Superintendent

Report on the Status of Bilingual-Bicultural Education Programs in Wisconsin

Background

Under Section 115.996, Wisconsin Statutes, the state superintendent is required to report to the legislature on the status of bilingual-bicultural education programs funded under this authority. This report provides the specific information required by law for the 2022-23 school year (paid during FY 2024).

Wisconsin school districts view Chapter 115, Subchapter VII, Wisconsin Statutes, as vital. It provides partial, yet critical, funding for English learner (EL)¹ students in the state whose language education needs must be met by the districts in which they are enrolled.

Language Programs and Locations

In the 2022-23 school year, 372 public school districts in Wisconsin had one or more English learner students enrolled, totalling 51,638 English learner students statewide. Fifty two school districts applied to receive state bilingual-bicultural categorical aid. Those districts served 25,155 ELs who were eligible for state aid.² This equates to 48.7 percent of all English learners in the state receiving bilingual-bicultural services that were partially reimbursed by the state. Students from eight language backgrounds were supported by the state bilingual-bicultural aid program: Arabic, Burmese, Chinese, Hmong, Korean, Somali, Spanish, and Swahili.

The number of English learners included in this report is drawn from WISEdata, the bilingual-bicultural end-of-year report, and the ACCESS for ELLs assessment, which is the state's annual English language proficiency assessment that meets criteria under the Elementary and Secondary Education Act (ESEA). It should be noted this report will use the term English learner (EL) rather than Limited English Proficient student, which follows the precedent set in the reauthorization of ESEA, as amended by the Every Student Succeeds Act. The table below includes information about the number of EL students identified in the state, the number of

¹ An English learner (EL) student is defined in federal law as a student whose proficiency in English impacts their academic performance. The complete definition can be found here: [20 USC § 7801\(20\)](#)

² An EL student is eligible for state aid if he or she is part of a language group that meets statutorily set numbers and is served by appropriately qualified staff.

EL students served in state-reimbursed programs, and the number of state-reimbursed programs serving EL students.

2022-23: Languages and Program Locations	
Number of EL students identified	51,638
Number of EL students served in state-reimbursed programs	25,155
Number of state-reimbursed programs	52 Abbotsford, Appleton, Baraboo, Barron, Beloit, Clinton, Clintonville, DC Everest, Darlington, Delavan-Darien, Eau Claire, Edgerton, Elk Mound, Elkhorn, Fond du Lac, Franklin, Green Bay, Holmen, Howard-Suamico, Janesville, Kenosha, Kewaunee, La Crosse, Lake Geneva J1, Lake Geneva-Genoa City UHS, Luxemburg-Casco, Madison, Manitowoc, Marshall, Menasha, Menomonie, Middleton-Cross Plains, Milwaukee, New London, North Fond du Lac, Onalaska, Oregon, Oshkosh, Racine, Reedsburg, Sauk Prairie, Sheboygan, Stevens Point, Verona, Walworth J1, Waterloo, Watertown, Waukesha, Wausau, Whitewater, Wisconsin Dells, and Wisconsin Rapids

Program Costs for Categorically Aided District Programs

When the bilingual-bicultural state aids program was first established, the appropriation from the state legislature was divided evenly among districts so that each received the same percentage of reimbursement for its approved expenditures. In 1999, Wisconsin Act 9 (the biennial budget) set aside \$250,000 from the bilingual-bicultural appropriation. This set-aside was to be divided proportionally among school districts participating in the bilingual-bicultural aid program whose enrollments in the previous school year were at least 15 percent English learners. The remainder of the appropriation was divided evenly among all the districts according to their approved total budgets. The same formula continues through the current fiscal year. Nine districts were eligible for this set-aside in 2022-23: Abbotsford, Beloit, Darlington, Delavan-Darien, Green Bay, Madison, Sheboygan, Waterloo, and Whitewater.

Program costs vary from district to district due to several factors, including, but not limited to, the following:

- Number of students served;
- Base cost for a language program;
- Variety of languages spoken by students and families in a district;
- English-language proficiency level of students and range of proficiency levels among students in a classroom or in a school;
- Amount of previous schooling of English learners;
- Staff/student ratio;
- Amount of instructional contact time;
- Instructional resources provided (e.g., texts, equipment, native language materials/assessments);
- Type of program, such as in-class vs. pull-out programs, or self-contained (e.g., two-way dual language); and
- Outreach and services to EL students and families, immigrant children and youth, or refugee status of students and families.

It is important to note that, even if a school district has English learners and a bilingual program, it does not necessarily mean that all ELs in the district are enrolled in the bilingual program. This could be for several reasons: the bilingual program may be targeted at specific grade levels; the bilingual program may be offered at some schools in the district, but not others; or there could be a bilingual program for one language group in the district that meets the statutorily set threshold numbers, but not for students speaking other languages.

Bilingual programs provide EL students with some measure of instructional support in their home language. This support can be provided by a teacher with a bilingual license or, for students who are not Spanish speakers, by a teacher with an English as a Second Language (ESL) license and a bilingual aide. EL students not receiving bilingual services must be served by other types of language instruction educational programs, such as English as a Second Language (ESL) program models. Per Wisconsin Statute 115.95, only students served in bilingual programs are eligible for reimbursement.

The following data tables demonstrate the costs of educating ELs in bilingual programs, as reported by participating districts, and the reimbursement rate for 2022-23 costs (paid in 2023-24).

2022-23 Program Costs for Categorically Aided District Programs		
Average approved cost/EL student		\$4,274
Average state reimbursement/EL student		\$391
Number of state-reimbursed programs		52
Percentage of Reimbursement to Categorically Aided District Programs (to be Paid in FY24)		
Percent of reimbursement to all aided districts except those receiving set-aside	Formula = $\frac{\$10,089,800 - 250,000}{107,517,324}$	9.15183%
Districts receiving set-aside (EL enrollments of at least 15% of their student enrollment receive a percentage of the set-aside of \$250,000)	Abbotsford, Beloit, Darlington, Delavan-Darien, Green Bay, Madison, Sheboygan, Waterloo, and Whitewater	

Historical Profile: Fully English Proficient Students

The following statistics trace the history of bilingual education in Wisconsin over the past 20 years. This data includes the number of students served in programs receiving categorical aid and the number of students in those programs who became fully English proficient during the school year. Both the total number of eligible students and the number of districts eligible for bilingual-bicultural categorical aid have grown significantly over the years. However, the percentage of approved costs being reimbursed by state aid has significantly decreased. The reimbursement rate for FY 24 is slightly higher due to an increase of \$1.5 million to the bilingual-bicultural categorical aid allocation. Despite the increase, the reimbursement rate represents a small portion of the actual costs incurred by districts.

Historical Demographic Data

School Year	Number of Districts Reporting EL Students	Number of EL Students Reported	Number of Aided Districts	Number of EL Students in Aided Programs Reclassified as Fully English Proficient	Number of Eligible EL Students Served	Number of Non-Aided Districts	"Balance" of EL Students

2003-04	247	35,602	49	1,443	22,311	189	13,291
2002-03	211	34,199	43	1,076	22,136	168	12,063

³ This number is low due to the impact of the COVID-19 pandemic on some districts' ability to administer the ACCESS test.

⁴ This number was updated on 11/18/2020 from 374 to 365.

⁵ This number is low compared to previous years due to a new standard for exiting on the ACCESS test; more information on the WIDA web page.

⁶ Beginning with the March 2011 census, and for subsequent years through the 2014 census, different business rules were established resulting in totals that differ from previous years' data. The data in the shaded cells might differ if compared to an earlier report.

⁷ Beginning with the March 2011 census, data sources differ from previous years and numbers for PK students identified as EL are again included. The change has caused an apparent drop in the number of ELs, though that drop is more than likely due to the change in data sources.

⁸ This count appears low because it does not include most EL migrant students or ELS students in PK.
