This bill requires the Department of Transportation to inquire whether an applicant for an operator's license or vehicle registration wants to provide specified emergency contact information to DOT. If an applicant provides emergency contact information, DOT must record that information in DOT's file for the applicant. DOT must provide a method for a law enforcement agency that identifies a person to electronically request and automatically receive the emergency contact information recorded in the person's file.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
