UNEMPLOYMENT INSURANCE

This bill makes various changes in the unemployment insurance (UI) law, which is administered by the Department of Workforce Development. Significant changes include all of the following:

***Identity proofing***

The bill requires DWD to implement identity-proofing measures for UI claimants who are engaging in benefit-related transactions with DWD that 1) require a claimant to verify his or her identity prior to filing an initial claim for benefits and when engaging in other transactions with DWD, and 2) achieve the IAL2 and AAL2 standards adopted in the National Institute of Standards and Technology's Digital Identity Guidelines.

***Statute of limitations***

Under current law, a prosecution for a felony must be commenced within six years after it was committed. Current law provides several exceptions for certain felonies, and the bill adds another exception. Under the bill, a prosecution for a

felony must be commenced within eight years after it was committed if the felony involves fraud in obtaining UI benefits and benefits under the special unemployment benefit programs under the federal Coronavirus Aid, Relief, and Economic Security (CARES) Act of 2020.

***Education and informational materials***

Current law requires DWD to compile and provide to employers certain information about how the UI system works, including a handbook on the UI system for employers and information concerning the financing of the UI system that is published on DWD's website. The bill requires DWD to also provide certain training materials for employers and claimants on the UI system. The bill requires DWD to publish training videos on its website and also to provide live training seminars for employing units that are free of charge and provided on a quarterly basis.

***Assistance call center***

The bill requires DWD to operate a call center to assist claimants for UI benefits or similar federal payments. Furthermore, the bill requires DWD to do the following:

1. If the volume of calls has increased by 100 percent or more over the same week during the previous year or if there is a declared state of emergency for the state that causes or relates to an increase in UI claims, operate the call center with hours of at least 9 a.m. to 5 p.m. on weekdays.
2. If the volume of calls has increased by 300 percent or more over the same week during the previous year or if there is a declared state of emergency for the state that causes or relates to an increase in UI claims, operate the call center with evening hours after 5 p.m. and weekend hours.

***Database comparisons***

The bill requires DWD to perform a comparison of state and national databases that track death records, employment records, prison records, citizenship and immigration, and immigrations and customs against recipients of UI benefits for the purposes of detecting fraud or erroneous payments. The bill requires DWD to perform the comparison on at least a weekly basis. The bill provides that DWD may also make such comparisons with other databases.

***Fraud detection***

The bill requires DWD, if it suspends or reduces any method used by the department to detect fraud committed against the unemployment insurance program, to submit a notification detailing the suspension or reduction and the reasons therefor to the Council on Unemployment Insurance, the Governor, and the appropriate standing committees of the legislature.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
