Summary Prepared by the Department of Natural Resources

1. **Statutes interpreted:** Section 28.11(5m)(am), Stats., as created by 2007 Wis. Act 20.
2. **Statutory authority:** Sections 227.11(2)(a), Stats.
3. **Explanation of agency authority:** Section 28.11(5m) gives authority to the Department to make grants to counties having lands entered in the county forest program to fund 50% of the cost of a county forest administrator or assistant county forest administrator. The statute also directs the Department to fund up to 50% of a county's dues to a non-profit agency that provides leadership and counsel to county forest administrators and serves as an organizational liaison to the Department.
4. **Related statute or rule:** Section 28.11(1), 28.11(2), and 28.11(4) Stats. provide for the purpose, definition, entry and management of county lands in the county forest program.
5. **Plain language analysis:**
Encouraging counties to hire professional foresters has long been a focus of the Department. Earlier versions of this grant program have been in operation since 1994. Prior to that, DNR cost-shared administrator positions were on staff in seven counties. The objective of this grant program will continue to be to promote and encourage the Counties to employ forestry professionals in the management of their forests. The rule revision will rename the grant program (formerly the County Forest Administrator Grant). The name change was made to accommodate the new opportunity for a county to receive up to 50% grant funding for dues they pay towards a not-for-profit organization that provides leadership and counsel to county forest administrators and functions as an organizational liaison to the Department. This change will continue to promote the professionalism of the individual counties and provide efficiencies to the Department in interacting with the county forests. The non-profit group currently providing this leadership is the Wisconsin County Forests Association (WCFA). Prior grant funding for salary / benefits of a professional forester in the role of county forest administrator will continue under the new format.
6. **Summary of and comparison with existing or proposed federal legislation:**
There is no comparable federal legislation.
7. **Comparison with rules in adjacent states:** Both Minnesota and Michigan have county forests however they are structured entirely differently than Wisconsin's. They have no similar grant programs. Illinois does not have a county forest program.
8. **Summary of factual data and analytical methodologies:** The non-profit organization currently providing leadership to the individual counties is the Wisconsin County Forests Association, Inc. (WCFA). Their current dues structure for member counties is \$1000 per county plus an assessment

of \$.047 per acre. Twenty-nine counties currently participate in the program with total acreage of 2,358,185. Total dues equate to \$139,835 annually. Fifty percent of that equals \$69,918 which exceeds the maximum allotted \$50,000 for this portion of the grant. Allocations for this portion of the grant will need to be prorated to each county. Fiscal impact for this grant change will be \$50,000 annually.

9. **Summary of methodologies used in support of the proposed rule:** In their support of the statutory change in Act 20, the legislature acknowledged the benefit of such a non-profit group to the department's oversight role of the county forest program. Such a group provides a point of contact for issues common to all county forests and facilitates management and oversight of the entire county forest program. It also provides leadership and counsel to forest administrators throughout Wisconsin.
 10. **Effect on small business:** This rule change will not affect small business.
