SUBCHAPTER II

GENERAL AID

121.01 Purpose. It is declared to be the policy of this state that education is a state function and that some relief should be afforded from the local general property tax as a source of public school revenue where such tax is excessive, and that other sources of revenue should contribute a larger percentage of the total funds needed. It is further declared that in order to provide reasonable equality of educational opportunity for all the children of this state, the state must guarantee that a basic educational opportunity be available to each pupil, but that the state should be obligated to contribute to the educational program only if the school district provides a program which meets state standards. It is the purpose of the state aid formula set forth in this subchapter to cause the state to assume a greater proportion of the costs of public education and to relieve the general property of some of its tax burden.

The school finance system under ch. 121 is constitutional under both Art. I, sec. 1 and Art. X, s. 3. Students have a fundamental right to an equal opportunity for a sound basic education. Uniform revenue−raising capacity among districts is not required. Vincent v. Voight, 2000 WI 93, 236 Wis. 2d 588, 614 N.W.2d 388, 97−3174.

(c) If an order of school district reorganization under ch. 117 is not effective due to litigation until after the 3rd Friday in September but takes effect before April 1 of the current school year, state aid for any affected school district for the first year of operation shall be computed after the order takes effect using calculations by the state superintendent of the number of pupils enrolled and teacher–pupil ratio for the territory in the affected school district, which shall be made as if the school district had been in existence on the 3rd Friday in September.

(b) The “primary ceiling cost per member” is $1,000.

(c) The “primary shared cost” is that portion of a district’s shared cost which is less than or equal to the primary ceiling cost per member multiplied by its membership.

(d) The “secondary ceiling cost per member” in the 2001–02 school year and in each school year thereafter is an amount determined by dividing the state total shared cost in the previous school year by the state total membership in the previous school year and multiplying the result by 0.90.

(dg) The “secondary shared cost” is that portion of a school district’s shared cost which is greater than the secondary ceiling cost per member multiplied by its membership and less than or equal to the secondary ceiling cost per member multiplied by its membership.

2. For a school district from which territory was detached to create a school district under s. 117.105, in each of the 3 school years beginning on the July 1 following the effective date of the reorganization under s. 117.105, the amounts under pars. (a) to (bm) shall be multiplied by 1.05 and rounded to the next lower dollar.

(8) GUARANTEED VALUATION. A school district’s primary, secondary and tertiary guaranteed valuations are determined by multiplying the amounts in sub. (7) by the district’s membership.

If the state superintendent determines that the determination, decision, or judgment is final and that it has been filed within the 4–year period, the state shall pay to the school district in the
subsequent fiscal year, from the appropriation under s. 20.255 (2) (ac), an amount equal to the difference between the state aid computed under s. 121.08 for the school year commencing after the year subject to the valuation recertification, using the school district’s equalized valuation as originally certified, and the state aid computed under s. 121.08 for that school year using the school district’s equalized valuation as recertified under s. 70.57 (2).

(2) If, on or after May 3, 1984, the state board of assessors, the tax appeals commission or a court makes a final redetermination on the assessment of property subject to taxation under s. 70.995 that is higher than the previous assessment, the state superintendent shall notify the school district in which the property is located of the recertification by the department of revenue under s. 70.57 (2). (2m) If after June 30, 1995, and before July 26, 2003, the state board of assessors, the tax appeals commission, or a court makes a final redetermination on the assessment of telephone company property subject to taxation under s. 70.112 (4) and subch. IV of ch. 76 that is higher than the previous assessment, the school board of the school district in which the property is located may, within 4 years after July 26, 2003, file the redetermination with the state superintendent, requesting an adjustment in state aid to the school district. If the state superintendent determines that the redetermination is final and that it has been filed within the 4-year period, the state shall pay to the school district in the subsequent fiscal year, from the appropriation under s. 20.255 (2) (ac), an amount equal to the difference between the state aid computed under s. 121.08 for the school year commencing after the year subject to the valuation recertification, using the school district’s equalized valuation as originally certified, and the state aid computed under s. 121.08 for that school year using the school district’s equalized valuation as recertified under s. 70.57 (2).

(2r) If after July 26, 2003, the state board of assessors, the tax appeals commission, or a court makes a final redetermination on the assessment of telephone company property subject to taxation under s. 70.112 (4) and subch. IV of ch. 76 that is lower than the previous assessment, the school board of the school district in which the property is located may, within 4 years after July 26, 2003, file the redetermination with the state superintendent, requesting an adjustment in state aid to the school district. If the state superintendent determines that the redetermination is final and that it has been filed within the 4-year period, the state shall pay to the school district in the subsequent fiscal year, from the appropriation under s. 20.255 (2) (ac), an amount equal to the difference between the state aid computed under s. 121.08 for the school year commencing after the year subject to the valuation recertification, using the school district’s equalized valuation as originally certified, and the state aid computed under s. 121.08 for that school year using the school district’s equalized valuation as recertified under s. 70.57 (2).

(3) In the school year in which a school district consolidation takes effect under s. 117.08 or 117.09 and in each of the subsequent 4 school years, the consolidated school district’s state aid shall be an amount that is not less than the aggregate state aid to which the consolidating school districts were eligible in the school year prior to the school year in which the consolidation takes effect. The additional state aid shall be paid from the appropriation under s. 20.255 (2) (ac).

(4) In the school year in which a whole grade sharing agreement under s. 118.50 first takes effect and in each of the subsequent 4 school years, the department shall pay additional aid to each school district that is participating in the agreement to ensure that the school district receives no less state aid than the amount of state aid to which the school district was eligible in the school year prior to the school year in which the whole grade sharing agreement took effect. In the 5th school year following the school year in which a whole grade sharing agreement first takes effect, the department shall pay additional aid to each school district that is participating in the whole grade sharing agreement in an amount that is equal to 66 percent of the payment that the school district received under this subsection in the prior school year. The provision for the transportation, at public expense, of students to and from private schools on an attendance area basis is constitutional. Vanko v. Kahl, 52 Wis. 2d 206, 188 N.W.2d 460 (1971).

For purposes of sub. (4) [now sub. (1)], and in the absence of fraud or collusion, when a religious school demonstrates by its corporate charter and bylaws that it is independent of, and unaffiliated with, a religious denomination, further inquiry by the state would violate Art. I, sec. 18. Holy Trinity Community School, Inc. v. Kahl, 82 Wis. 2d 119, 282 N.W.2d 210 (1978).

As construed by the Wisconsin Supreme Court, sub. (1) is a facially neutral and generally applicable law that deprives all private schools—religious and secular alike—of receiving transportation funding already claimed by another school affiliated with the same group or organization. Therefore, the defendants did not violate the free exercise clause of the 1st amendment when they denied a Catholic private school’s busing application in reliance on sub. (1) because another school shared its institutional affiliation and served the same catchment zone. St. Augustine School v. Evers, 906 F.3d 591 (2018).

In applying the test of affiliation with a single sponsoring group under sub. (1), state officials must accept a religious organization’s self-characterization. In this case, the defendants did not consider the private school’s theology or religious practices in violation of the establishment clause of the 1st amendment. Rather, the defendants did not consider the statements on the school’s website and busing request form that the school was a Catholic school. The defendants were not required to consider statements in the school’s articles of incorporation and bylaws, which purportedly would have shown that the school’s leadership disclaimed affiliation with the Catholic Church. St. Augustine School v. Evers, 906 F.3d 591 (2018).

121.52 Vehicle, operator and driver requirements.

(1) (a) Rules governing the design, construction, inspection and operation of school buses adopted by the secretary of transportation under s. 110.06 (2) shall by reference be made part of any contract for the transportation of pupils.

(b) The school board may adopt additional rules, not inconsistent with law or with rules of the secretary of transportation or the state superintendent, for the protection of the pupils or to govern the conduct of the person in charge of the motor vehicle used for transportation of pupils for compensation.

(2) (a) All drivers of motor vehicles owned by the school district and used for the transportation of pupils shall be under written contract with the school board of the district.

(b) The owner or lessee of all private or owned motor vehicles transporting pupils for compensation shall be under written contract with the school board of the district for which such transportation is provided. The contract shall require the owner or lessee to perform any action necessary for the owner or lessee or the school board to fulfill any obligation specified in sub. (5) or s. 121.555.

(c) The form of contract shall be prescribed by the department and shall provide that all parties to the contract are subject at all times to rules adopted by the secretary of transportation under s. 110.06 (2) and by the department.

(3) (a) If the contract is made under sub. (2) (b), the contract shall provide that the owner or lessee require his or her bus drivers, as a condition of employment, to take a physical examination, including a chest X-ray or tuberculin test, and to submit the physical examination report to the secretary of transportation.

(b) The contract shall provide that a physical examination report may be submitted on forms prescribed by the federal authority regulating motor carriers or the department and that a copy of a physical examination report obtained for other purposes within one year of the date of the contract may be substituted for the examination, if the report contains substantially the same information required by the department.

(c) Such physical examinations, chest X-rays or tuberculin tests shall not be required of a bus driver who files with the school board an affidavit setting forth that the bus driver depends exclusively upon prayer or spiritual means for healing in accordance with the teachings of a bona fide religious sect, denomination or organization and that the bus driver is to the best of the bus driver’s knowledge and belief in good health and that the bus driver claims exemption from health examination on these grounds. Notwithstanding the filing of such affidavit, if there is reasonable cause to believe that the bus driver is suffering from an illness detrimental to the health of the pupils, the school board may require a health examination of the bus driver sufficient to indicate whether or not the bus driver is suffering from such an illness. No bus driver may be discriminated against by reason of filing such affidavit.

(4) The use of any motor vehicle to transport pupils shall be discontinued upon receipt of an order signed by the state superintendent or the secretary of transportation ordering such discontinuance. Personnel under the state superintendent or the secretary of transportation may ride any school bus at any time for the purpose of inspection.

(5) Upon written request of a parent or guardian of a pupil for whom the school district provides transportation, the school board shall disclose the name of each driver who transports the pupil under sub. (2) (a) or (b).

History: 1977 c. 29 s. 1654 (7) (d); 1985 a. 218; 1993 a. 492; 1995 a. 27 ss. 4079, 9145 (3); 1997 a. 27; 2003 a. 280.

Sub. (1) (b) is permissive. It neither governs driver conduct nor requires school districts to adopt rules to that end. It merely allows districts to do so. Reuter v. Murphy, 2000 WI App 276, 240 Wis. 2d 110, 622 N.W.2d 464, 99–3349.

121.53 School bus insurance.

(1) No motor vehicle may be used as a school bus unless a policy of bodily injury and property damage liability insurance, issued by an insurer authorized to transact business in this state, is maintained thereon. The policy shall provide property damage liability coverage with a limit of not less than $10,000. The policy also shall provide bodily injury liability coverage with limits of not less than $75,000 for each person and, subject to such limit for each person, total limits as follows:

(a) $150,000 for each accident for each such motor vehicle having a seating capacity of 7 passengers or less.

(b) $200,000 for each accident for each such motor vehicle having a seating capacity of 8 to 15 passengers.

(c) $250,000 for each accident for each such motor vehicle having a seating capacity of 16 to 24 passengers.

(d) $375,000 for each accident for each such motor vehicle having a seating capacity of 25 to 36 passengers.

(e) $1,000,000 for each accident for each such motor vehicle having a seating capacity of 37 or more passengers.

(2) The policy under this section shall cover the transportation of pupils, their parents or guardians, authorized chaperones, school district officers, faculty and employees and school doctors, dentists and nurses:

(a) To and from the school or school district which operates the school bus or contracts for its operation.

(b) In connection with any extracurricular school activity authorized by and made in compliance with s. 121.54 (7).

(3) An insurer issuing a policy under this section may exclude coverage for public or livery use of the school bus, but any such exclusion does not apply:

(a) When the school bus, while regularly used as such, also is used to transport pupils of another public or private school, whether or not a charge is made for such transportation.

(b) When used in accordance with sub. (2), whether or not any person lawfully transported is required to pay a charge therefor.

(c) When the school bus is used as specified in s. 340.01 (56) (am) for the purpose of transporting seniors or individuals with
(4) Every school board shall require that there be filed with it and with the department of transportation a certificate of insurance showing that an insurance policy has been procured and is in effect which covers the owner and operator of the school bus and the school board or shall procure an insurance policy and file such certificate with the department of transportation. Unless such certificate is on file with the department of transportation, no registration plates for a school bus may be issued by the department of transportation. No such policy may be terminated prior to its expiration or canceled for any reason, unless a notice thereof is filed with the department of transportation and with the school board by the insurer at least 10 days prior to the date of termination or cancellation. The department of transportation shall revoke the registration of a school bus on which the policy has been terminated or canceled, effective on the date of termination or cancellation.

(5) Subsections (1) to (4) do not apply to:

(a) A motor vehicle owned or operated by a parent or guardian transporting only the parent’s or guardian’s own children, whether or not any contract is made with or compensation paid to the parent or guardian for such transportation by a school board.

(b) A motor vehicle operated by a common carrier certificated under ch. 194, where such motor vehicle is used under contract pursuant to this subchapter, if the common carrier has complied with s. 194.41 or 194.42.

(c) A taxicab regulated by a municipal ordinance under s. 349.24 when used to transport pupils.

(6) Within 10 days after its occurrence, every accident involving a motor vehicle while providing transportation under this subchapter shall be reported to the appropriate school board.

121.54 Transportation by school districts. (1) CITY OPTION. (a) Subsections (2) and (6) and s. 121.57 do not apply to pupils who reside in a school district that contains all or part of a city unless the school they attend is located outside the city but within the boundaries of the school district.

(b) If a school district elects under sub. (2) (c) to provide transportation for the pupils under par. (a), state aid shall be paid in accordance with s. 121.58, and there shall be reasonable uniformity in the transportation furnished to the pupils, whether they attend public or private schools.

(c) Paragraph (a) does not apply to pupils who reside in a school district that contains all or part of a 1st, 2nd or 3rd class city with a population exceeding 40,000 unless transportation for the pupils is available through a common carrier of passengers operating under s. 85.20 or ch. 194.

(2) GENERAL TRANSPORTATION. (a) Except as provided in sub. (1), every school board shall provide transportation to and from public school for all pupils who reside in the school district 2 miles or more from the nearest public school they are entitled to attend.

(am) In lieu of transporting a pupil who is eligible for transportation under par. (a) to and from his or her residence, a school district may transport the pupil to or from, or both, a before- and after-school child care program under s. 120.125, a child care program under s. 120.13 (14), or any other child care program, family child care home, or child care provider.

(b) 1. Except as provided in sub. (1) or otherwise provided in this subsection, the school board of each district operating high school grades shall provide transportation to and from the school a pupil attends for each pupil residing in the school district who attends any elementary grade, including kindergarten, or high school grade at a private school located 2 miles or more from the pupil’s residence, if such private school is a school within whose attendance area the pupil resides and is situated within the school district or not more than 5 miles beyond the boundaries of the school district measured along the usually traveled route.

2. In lieu of transporting students under sub. 1. and paying for transportation under sub. (8) (b), an underlying elementary school district of a union high school district may elect, by resolution adopted at its annual or special meeting, to transport elementary school children who reside within the underlying district and qualify for transportation under subd. 1., in vehicles owned, operated or contracted for by the district. Once adopted, such a resolution may be repealed only upon one year’s notice to the board of the union high school district of which the underlying district is a part. An elementary school district shall notify the union high school district of the action taken under this paragraph no later than June 15 preceding the school year in which the elementary school district’s action takes effect.

3. Annually by April 1, each private school shall submit its proposed attendance area for the ensuing school year to the school board of each school district having territory within the proposed attendance area. If a proposal is not submitted by April 1, the existing attendance area shall remain in effect for the ensuing school year.

4. No later than May 15 in each year, each private school shall notify each school board of the names, grade levels and locations of all pupils, if any, eligible to have transportation provided by such school board pursuant to this paragraph and planning to attend such private school during the forthcoming school term. The school board may extend the notification deadline.

(c) An annual or special meeting of a common or union high school school district, or the school board of a unified school district, may elect to provide transportation for pupils who are not required to be transported under this section, including pupils attending public school under s. 118.145 (4) or 118.53. Transportation may be provided for all or some of the pupils who reside in the school district to and from the public school they are entitled to attend or the private school, within or outside the school district, within whose attendance area they reside. If transportation is provided for less than all such pupils there shall be reasonable uniformity in the minimum distance that pupils attending public and private schools will be transported. Except for elementary school districts electing to furnish transportation under par. (b) 2., this paragraph does not permit a school district operating only elementary grades to provide transportation for pupils attending private schools.

(d) A school board may provide transportation for teachers to and from public school, subject to the same controls and limitations as apply to the transportation of pupils.

(e) Notwithstanding par. (a), if a pupil is living outside the school district in which he or she is enrolled because the pupil’s parents or guardians have joint legal custody, as defined in s. 767.001 (1s), of the pupil, upon the request of the pupil’s parent or guardian the school district shall transport the pupil to and from an agreed—upon location within the school district.

(3) TRANSPORTATION FOR CHILDREN WITH DISABILITIES. Every school board shall provide transportation for children with disabilities, as defined in s. 115.76 (5), to any public or private elementary or high school, to the school operated by the Wisconsin Center for the Blind and Visually Impaired or the school operated by the Wisconsin Educational Services Program for the Deaf and Hard of Hearing or to any special education program for children with disabilities sponsored by a state tax–supported institution of higher education, including a technical college, regardless of distance, if the request for such transportation is approved by the state superintendent. Approval shall be based on whether or not the child can walk to school with safety and comfort. Section 121.53 shall apply to transportation provided under this subsection.

(4) SUMMER CLASS TRANSPORTATION. A school board may provide transportation for pupils residing in the school district and attending summer classes. If the school board provides transportation for less than all pupils, there shall be reasonable unifo-
(5) TRANSPORTATION TO TECHNICAL COLLEGES. The school board of a district operating high school grades may provide for the transportation or board and lodging of residents of the school district attending technical colleges outside the school district who are not high school graduates, are less than 20 years of age and attend such colleges full time. The school board of such a district may also provide transportation for residents of the district participating in vocational education programs organized cooperatively between school districts under s. 66.0301. The school district shall be paid state aid for such transportation or board and lodging in accordance with s. 121.58. This subsection does not apply if the distance between a pupil’s home and the technical college along the usually traveled public highway is more than 15 miles, unless the pupil resides on an approved bus route or board and lodging are provided.

(6) TRANSPORTATION IN SPECIAL CASES. The school board of a district operating high school grades which, under s. 121.78 (2) (a), must permit a pupil to attend high school outside the school district shall provide transportation for such pupil if the pupil resides 2 or more miles from the high school that the pupil attends.

(7) TRANSPORTATION FOR EXTRACURRICULAR ACTIVITIES. (a) A school board may provide transportation for pupils attending public or private schools, their parents or guardians, authorized chaperones, school officers, faculty and employees and school doctors, dentists and nurses in connection with any extracurricular activity of a private or public school, such as a school athletic contest, school game, after school practice, late activity, school outing or school field trip or any other similar trip when:

1. A school bus or motor bus or a motor vehicle under s. 121.555 (1) (a) is used and such transportation is under the immediate supervision of a competent adult.

2. A school operated by the school district or the private school has an actual interest in the safety and welfare of the children transported to the activity;

3. The school principal or other person with comparable authority authorizes such use.

(b) 1. If transportation is provided to pupils and other persons in connection with any extracurricular activity of a public school under par. (a), the school board may make a charge for such transportation, to be paid by the persons transported, sufficient to reimburse the school board in writing that an area of unusual hazard exists. The school board shall send a copy of the board’s reply to the sheriff of the county in which the principal office of the school district is located and to the state superintendent. Upon receipt of the school board’s reply, the aggrieved person may request a hearing before the state superintendent for a determination as to whether an area of unusual hazard exists. If the state superintendent determines that an area of unusual hazard exists, the state superintendent shall direct the school board to proceed as provided in par. (a).

(b) Within 30 days after the sheriff’s report is received by the state superintendent, any aggrieved person may request a hearing before the state superintendent on the determination by the sheriff and on the plan. After such hearing, the state superintendent shall proceed as provided in par. (a).

(c) The state superintendent and the department of transportation shall establish a definition of “unusual hazards” and “area of unusual hazards” for the implementation of this subsection. Such definition shall be promulgated, as a rule, by the state superintendent.

(10) ATTENDANCE IN NONRESIDENT SCHOOL DISTRICT. Subject to s. 118.51 (14) (a) 2., a school board may elect to provide transportation, including transportation to and from summer classes, for nonresident pupils who are attending public school in the school district under s. 118.51 or 121.84 (4), or its resident pupils who are attending public school in another school district under s. 118.51 or 121.84 (4), or both, except that a school board may not provide transportation under this subsection for a nonresident pupil to or from a location within the boundaries of the school district in which the pupil resides unless the school board of that school district approves.

121.545 Additional transportation. (1) The parent or 
guardian of a pupil who attends a public or private school and who 
is not required to be transported under s. 121.54 may contract with 
the school board of the district for transportation under this sub- 
section. The school board or the district may provide transportation 
under this subsection to a pupil not required to be transported under s. 121.54, if 
requested to do so by the parent or guardian of the pupil. The school board may charge a fee for the cost of pro-
viding transportation under this subsection and may waive the fee or 
portion of the fee for any person who is unable to pay the fee. State aid shall not be provided for transportation under this subsection.

(2) A school board may provide transportation for children residing 
in the school district whom the school district is not required to transport under s. 121.54 to or from, or both, a before- 
and after-school child care program under s. 120.125, a prekindergarten class under s. 120.13 (13), a child care program under s. 120.13 (14), or any other child care program, family child care home, or health care provider approved to provide prekindergarten class. The school board may charge a fee for the cost of providing such transportation. The school board may waive the fee or any portion of the fee for any person who is unable to pay the fee. State aid shall not be provided for transportation under this subsection.

121.55 Methods of providing transportation. (1) School boards may provide transportation by any of the follow-
ing methods:

(a) By contract with a common carrier, a taxi company or any 
other party.

(b) By contract with the parent or guardian of the pupil to be 
transported. If the school board and the parent or guardian cannot 
agree upon the amount of compensation, the department shall 
determine the amount of compensation to be designated in the 
contract.

c) By contract with another school board, board of control of 
a cooperative educational service agency or the proper officials of 
y any private school or private school association.

(d) By contract between 2 or more school boards and an indi-
vidual or a common carrier.

(e) By the purchase and operation of a motor vehicle.

(3) (a) If the estimated cost of transporting a pupil under s. 121.54 (2) (b) 1. is more than 1.5 times the school district’s aver-
age cost per pupil for bus transportation in the previous year, 
exclusive of transportation for kindergarten pupils during the 
noon hour and for pupils with disabilities, the school board may 
fulfill its obligation to transport a pupil under s. 121.54 (2) (b) 1. 
by offering to contract with the parent or guardian of the pupil. 
Except as provided in pars. (b) and (c), the contract shall provide for 
an annual payment for each pupil of not less than $5 times the 
distance in miles between the pupil’s residence and the private 
school he or she attends, or the school district’s average cost per 
pupil for bus transportation in the previous year exclusive of trans-
portation for kindergarten pupils during the noon hour and for 
pupils with disabilities, whichever is greater.

(c) Except as provided in par. (c), if 2 or more pupils reside in 
the same household and attend the same private school, the con-
tract under par. (a) may, at the discretion of the school board of 
the school district operating under ch. 119, provide for a total annual 
payment for all such pupils of not less than $5 times the distance in miles between the pupils’ residence and the private school 
they attend, or the school district’s average cost per pupil for bus trans-
portation in the previous year exclusive of transportation for kin-
dergarten pupils during the noon hour and for pupils with disabili-
ties, whichever is greater.

The payment under this subsection shall not exceed the 
actual cost nor may the aids paid under s. 121.58 (2) (a) for 
the pupil exceed the cost thereof. A school board which intends to 
offer a contract under par. (a) shall notify the parent or guardian of 
the private school pupil of its intention at least 30 days before 
the commencement of the school term of the public school district.

Notice under sub. (3) only must be given to parents if the school board seeks to use 
the reduced form under sub. (3) and not when the standard parental contract 
method under sub. (1) is pursued. Providence Catholic School v. Bristol School Dis- 
tric No. 1, 231 Wis. 2d 159, 605 N.W.2d 238 (Ct. App. 1999), 98–1390.

121.555 Alternative methods of providing transporta-
tion. (1) A school board or the governing body of a private school may provide pupil transportation services by the following alternative methods:

(a) A motor vehicle transporting 9 or less passengers in addi-
tion to the operator.

(b) A motor vehicle transporting 10 or more passengers in 
addition to the operator and used temporarily to provide trans-
portation for purposes specified under s. 340.01 (56) (a) when the 
school board or the governing body requests the transportation to 
determine that an emergency exists because no regu-
lar transportation is available. The secretary of transportation 
shall approve or deny the request in writing. Any authorization 
granted under this paragraph shall specify the purpose and need 
for the emergency transportation service.

(2) The school board or governing body of a private school shall determine that any motor vehicle used under sub. (1) com-
plies with the following conditions:

(a) Insurance. If the vehicle is owned or leased by a school 
or a school bus contractor, or is a vehicle authorized under sub. (1) 
(b), it shall comply with s. 121.53. If the vehicle is transporting 
9 or fewer persons in addition to the operator and is not owned or 
leased by a school or by a school bus contractor, it shall be insured 
by a policy providing property damage coverage with a limit of 
not less than $10,000 and bodily injury liability coverage with 
limits of not less than $25,000 for each person, and, subject to the 
limit for each person, a total limit of not less than $50,000 for each accident.

(b) Inspection. If the vehicle is owned or leased by a school 
or a school bus contractor or is operated by a school district 
employee, it shall be inspected annually for compliance with the
requirements of s. 110.075, ch. 347, and the rules of the department of transportation. The owner or lessee of the vehicle is responsible for the annual inspection.

(c) Operator requirements. The operator:
1. Shall possess a valid Wisconsin operator’s license or a valid operator’s license issued by another jurisdiction, as defined in s. 340.01 (41m), or a valid commercial driver license issued by Mexico.
2. Shall be at least 18 years of age.
3. Shall have sufficient use of both hands and the foot normally employed to operate the foot brake and foot accelerator. The department of transportation may require substantiation of such use by a driving examination conducted by the department or by a medical opinion.
4. Shall submit at least once every 3 years to the school a medical opinion in such form as the school may prescribe that the operator is not afflicted with or suffering from any mental or physical disability or disease such as to prevent the operator from exercising reasonable control over a motor vehicle. The examination report prescribed in s. 118.25 (2) and (4) may be used to satisfy this requirement. This subdivision applies only if the vehicle used under sub. (1) is owned or leased by a school or a school bus contractor or is operated by a school district employee.

(cm) Waiver of operator requirement. Notwithstanding par. (c) 3., with respect to the operator of a vehicle under sub. (1) (a), a school board or the governing body of a private school may waive the requirement that an operator have sufficient use of both hands if the operator has sufficient use of one hand to safely operate the vehicle which the school board or governing body of the private school proposes the operator use, as substantiated by a special driving examination conducted by the department of transportation. The department of transportation shall conduct the special examination under this paragraph upon the request of a school board, the governing body of a private school or the operator.

(d) Seating requirements. The vehicle may not be used to transport more persons than can be seated on the permanently mounted seats facing forward without interfering with the operator.

(3) (a) Subject to par. (c), any person that employs or contracts with an individual, except an individual who holds a valid school bus endorsement issued under s. 343.12, to operate a motor vehicle under sub. (1) to transport pupils shall do all of the following before the individual is initially permitted to operate the vehicle and every 4 years thereafter:
1. Notwithstanding ss. 111.321, 111.322, and 111.335, request from the records maintained by the department of justice a criminal history search of the individual. Notwithstanding ss. 111.321, 111.322, and 111.335, if the individual who is the subject of the criminal history search has not resided in this state at any time within the 2 years preceding the date of the search, the person shall make a good faith effort to obtain additional criminal history information from any state in which the individual has resided during this time period or from any other applicable federal or state agency.
2. Request the individual’s operating record from the department of transportation under s. 343.24 or, if the operating record has already been obtained by another entity, from that entity if there are reasonable grounds to believe that the operating record obtained from that entity is accurate and was furnished by the department of transportation to that entity not more than 2 months previously.

      2. Notwithstanding ss. 111.321, 111.322, and 111.335, any conviction or operating privilege revocation that, under sub.       3. Any suspension or revocation of the individual’s operating privilege, or cancellation of a school bus endorsement, by this state or another jurisdiction.

Abridgment of this section to various methods of transportation is discussed. 75 Aty. Gen. 146 (1986).

121.56 School bus routes. The school board of each district shall make and be responsible for all necessary provisions for the transportation of pupils, including establishment, administration and scheduling of school bus routes. Upon the request of any school board, the state superintendent shall provide advice and counsel on problems of school transportation. Any private school shall, upon the request of the public school officials, supply all necessary information and reports. The transportation of public and private school pupils shall be effectively coordinated to insure the safety and welfare of the pupils. Upon receipt of a signed order from the state superintendent, the school board shall discontinue any route specified by the state superintendent.

History: 1993 a. 492; 1995 a. 27; 1997 a. 27.

The refusal by a public school board to transport parochial pupils during a public school vacation violated s. 121.54 (2) (b) 1. Hahner v. Wisconsin Rapids Board of Education, 89 Wis. 2d 180, 278 N.W.2d 474 (Ct. App. 1979).

121.57 Board and lodging or house rental in lieu of transportation. (1) (a) If a school board determines it is to the advantage of the school district and if the parent or guardian determines it is to the advantage of the pupil that board and lodging in lieu of transportation be provided for all or part of the time for a pupil of the school district required to be transported or for whom it has been authorized under s. 121.54 (2), the school board shall enter into a written contract under which the pupil shall be properly boarded and lodged and the school board shall pay for such board and lodging. The pupil’s parent or guardian may select the home in which the pupil is boarded and lodged. If a school board determines it is in the interest of the school district, it may pay the tuition of a pupil in a school in another school district in lieu of providing transportation to a school in the school district of residence or board and lodging. If the distance from the pupil’s home to the school in another school district is 2 miles or more, the school board of the district of residence shall provide transportation.

(b) This subsection also applies to children with disabilities. The state superintendent may grant permission for a child with a disability to be transported to a school in another school district if an acceptable form of transportation is provided and if such school offers equal or better educational opportunities for the child.

(2) If a school board determines it is in the interest of the school district to rent a house for the family of children required to be transported in lieu of providing such transportation, it may enter into a written lease for such housing and pay as rental therefor not more than the amount which otherwise would be paid for transportation.

(3) This section does not apply to pupils who attend private schools.

121.575 School transportation bio–diesel fuel cost assistance. (1) In this section:

(a) “Bio–diesel fuel” has the meaning given in s. 16.045 (1) (c).

(b) “Petroleum–diesel fuel” has the meaning given for “diesel fuel” in s. 78.005 (5), but does not include bio–diesel fuel.

(2) (a) The department may provide school transportation aids to school districts for the increased costs incurred by districts in utilizing bio–diesel fuel as compared with the costs of utilizing petroleum–diesel fuel for school bus transportation.

(b) If the department determines to provide aids to school districts under par. (a), the department, in conjunction with the department of administration, shall apply to the federal government for bio–diesel fuel cost assistance for the purpose of financing payment of the aids. The department shall disburse federal aids received from the appropriation under s. 20.255 (2) (m).

(3) If the federal government requires, as a condition of full federal financial participation under sub. (2) (b), that this state provide assistance for the purposes of sub. (2) (a) from state resources, the department shall provide the assistance from the appropriation under s. 20.255 (2) (cr) in the minimum amount required to obtain full federal financial participation.

(4) (a) Any school district that utilizes bio–diesel fuel for school bus transportation may apply to the department for state assistance to finance the costs of utilizing that fuel. Except as provided in sub. (5), the department shall proration assistance to school districts on the basis of the increased costs incurred by each school district in utilizing bio–diesel fuel as compared to the cost that the school district would have incurred in utilizing petroleum–diesel fuel for school bus transportation in the fiscal year preceding the fiscal year for which aids are paid, as adjusted to reflect any change in the statewide average cost of bio–diesel fuel for the current fiscal year as compared to the statewide average cost of such fuel for the preceding fiscal year.

(b) For purposes of par. (a), if a school district does not utilize bio–diesel fuel for some or all of the school bus transportation provided by the school district in any fiscal year, the department shall compute and utilize, for purposes of this subsection, the cost differential that the school district would have incurred in utilizing bio–diesel fuel on the basis of statewide average costs.

(c) The department shall annually determine the statewide average cost of bio–diesel fuel and petroleum–diesel fuel for purposes of administration of this subsection.

(d) If in any fiscal year there are insufficient moneys available to reimburse all school districts that apply for state assistance under par. (a) for the full amount of reimbursable costs under this subsection, the department shall, after making any required deduction under sub. (3), prorate the available moneys among the school districts entitled thereto on a per pupil basis.

(5) Each school district that receives aids under sub. (2) (a) for any fiscal year shall report to the department, in the form prescribed by the department, a statement of its actual costs incurred in utilizing bio–diesel fuel for school bus transportation in that fiscal year. If the actual increased costs incurred by a school district in utilizing bio–diesel fuel for school bus transportation in any fiscal year, as compared to the costs that the school district would have incurred in utilizing petroleum–diesel fuel for school bus transportation, are less than the amount of the aids received by the school district under sub. (2) (a) for that fiscal year, the department shall deduct the amount of the difference from the amount of the aids payable to the school district under sub. (2) (a) for the current fiscal year.

History: 2005 a. 43.

No state aid of any kind may be paid to a school district which charges the pupil transported or his or her parent or guardian any part of the cost of transportation provided under s. 121.54 (1) to (3), (5), (6) and (10) and 121.57 and which willfully or negligently fails to transport all pupils for whom transportation is required under s. 121.54.

(b) A school board that provides transportation under s. 121.54 (2r) (am) shall be paid state aid for such transportation at the rates specified and according to the conditions established under pars. (a) and (am), except that the amount of state aid may not exceed the amount which the school district would receive for transporting the child between the child’s residence and school attended under s. 121.54 (1) to (3), (5), (6) or (9) or 121.57.

(c) A school district which provides transportation to and from a school under s. 121.54 (9) shall be paid state aid for such transportation at the rate of $12 per school year per pupil so transported in the 2005−06 school year and $15 per school year per pupil so transported thereafter. Such state aid shall be reduced proportionately in the case of a pupil transported for less than a full year because of nonenrollment. State aid for such transportation shall not exceed the actual cost thereof.

(d) In addition to any other payments made under this section, the department shall allocate $35,000 annually to reimburse school districts for 75 percent of the costs incurred to transport pupils over ice from their residence on an island to school on the mainland and back to their residence on the island, including the costs of maintaining and storing equipment. If in any school year the amount to which school districts are entitled under this paragraph exceeds $35,000, the department shall prorate the payments among the eligible school districts.

(5) STATE SUPERINTENDENT APPROVAL. If the state superintendent is satisfied that transportation or board and lodging was provided in compliance with law, the state superintendent shall certify to the department of administration the sum due the school district. The state superintendent may not certify payment of state aid under sub. (2) for the number of pupils calculated under s. 121.85 (6) (am). In case of differences concerning the character and sufficiency of the transportation or board and lodging, the state superintendent may determine such matter and his or her decision is final.

(6) APPROPRIATION; PRORATION; DISTRIBUTION OF BALANCE. (a) If the appropriation under s. 20.255 (2) (cr) in any one year is insufficient to pay the full amount of approved claims paid in full under this section and s. 121.57, the department shall distribute the balance to those school districts and charter school operators entitled to state aid under this section, with each entitled recipient receiving a percentage of the balance equal to its percentage of the total approved claims.

(7) PAYMENT. Each school district and charter school operator entitled to state aid under this section shall receive its total aid entitlement in January.

(5) Upon request by a school board, the state superintendent may increase the school district’s limit under s. 121.91 (1), 1995 stats., by the amount necessary to allow the school district to avoid increasing its level of short-term borrowing over the amount of short-term borrowing incurred by the school district in the 1992–93 school year if the school district presents clear and convincing evidence of the need for the increase in the limit. The
school board shall provide the state superintendent with any information that the state superintendent requires to make the determination.

(6) In determining a school district’s limit under sub. (2m) (c) for the 1997–98 school year, if the average of the number of pupils enrolled in the current and the 2 preceding school years, as calculated under sub. (2m) (c) 4., is more than 2 percent less than the average of the number of pupils enrolled in the 3 previous school years, as calculated under sub. (2m) (c) 1., the school district’s limit shall be calculated as if the decrease had been 2 percent.

(7) Except as provided in subs. (4) (f) 2. and (n) to (qe) and (8), if an excess revenue is approved under sub. (3) for a recurring purpose or allowed under sub. (4), the excess revenue shall be included in the base for determining the limit for the next school year for purposes of this section. If an excess revenue is approved under sub. (3) for a nonrecurring purpose, the excess revenue shall not be included in the base for determining the limit for the next school year for purposes of this section.

(8) If a school district’s initial revenue limit for the current school year, as calculated under s. 121.905 or sub. (2m), whichever is appropriate, before making any adjustments under sub. (3) or (4), is less than the amount determined by multiplying the amount under sub. (2m) (i) 1. by the average of the number of pupils enrolled in the 3 preceding school years, the school district’s initial revenue limit for the current school year, before making any adjustments under sub. (3) or (4), is the amount determined by multiplying the amount under sub. (2m) (i) 1. by the average of the number of pupils enrolled in the 3 preceding school years. Any additional revenue received by a school district as a result of this subsection shall not be included in the base for determining the school district’s limit under sub. (2m) for the following school year. This subsection does not apply to a school district’s revenue limit calculated for the 2011–12 and 2012–13 school years.

121.92 Penalty for exceeding revenue ceiling or limit.

(1) In this section, “excess revenue” means the amount by which a school district’s revenue exceeds its ceiling under s. 121.905 or its limit under s. 121.91.

(2) The state superintendent shall do all of the following:

(a) Deduct from the state aid payment to a school district under s. 121.08 in the school year in which the school district exceeded the revenue ceiling or limit an amount equal to the excess revenue for the school district or the amount of those aids, whichever is less.

(b) If the amount of the deduction under par. (a) is insufficient to cover the excess revenue, deduct from the other state aid payments to the school district in the school year in which the school district exceeded the revenue ceiling or limit an amount equal to the remaining excess revenue or the amount of those payments, whichever is less.

(c) If the amount of the deductions under pars. (a) and (b) is insufficient to cover the excess revenue, order the school board to reduce the property tax obligations of its taxpayers by an amount that represents the remainder of the excess revenue. The school district’s refunds to taxpayers who have already paid their taxes shall be increased by interest at the rate of 0.5 percent per month. If the school board violates the order, any resident of the school district may seek injunctive relief. This paragraph does not apply to property taxes levied for the purpose of paying the principal and interest on a valid bond or note issued or state trust fund loan obtained by the school board.

(d) Ensure that the amount of state aid reduction under pars. (a) and (b) lapses to the general fund.

(e) Ensure that the amount of the excess revenue is not included in determining the school district’s ceiling or limit in the succeeding school year.
