(1m) The authority may issue bonds only if a majority of the board of directors determines that, to the extent possible without having an adverse impact on the ability of the authority to sell bonds at a given interest rate, the terms on which the bonds are to be offered are structured in such a way as to accommodate the possibility of the early termination of the lease or affiliation agreement, or both. The board shall base a determination under this subsection on the best information available to the board at the time the determination is made.

The state is not liable for the payment of the principal of or interest on a bond or for the performance of any pledge, mortgage, obligation or agreement that may be undertaken by the authority. The breach of any pledge, mortgage, obligation or agreement undertaken by the authority does not impose pecuniary liability upon the state or a charge upon its general credit or against its taxing power.
