SUBCHAPTER II

GENERAL FISH AND GAME REGULATION

29.011 Title to wild animals. (1) The legal title to, and the custody and protection of, all wild animals within this state is vested in the state for the purposes of regulating the enjoyment, use, disposition, and conservation of these wild animals.

(2) The legal title to a wild animal or carcase, taken or reduced to possession in violation of this chapter, remains in the state. The title to a wild animal or carcase, lawfully acquired, is subject to the condition that upon the violation of the chapter relating to the possession, use, giving, sale, barter or transportation of a wild animal or carcase by the owner, the ownership shall revert, as a result of the violation, to the state.

(3) This section does not apply to farm–raised deer, farm–raised game birds, farm–raised fish, or wild animals that are subject to regulation under ch. 169.

History: 1997 a. 248 s. 87; 2001 a. 56.

Cross-reference: See also ss. NR 10.20, 10.28, 10.29, 10.30, 10.31, 10.32, 10.33, 10.35, and 10.36, Wis. adm. code.

29.014 Rule–making for this chapter. (1) The department shall establish and maintain open and closed seasons for fish and game and any bag limits, size limits, rest days and conditions governing the taking of fish and game that will conserve the fish and game supply and ensure the citizens of this state continued opportunities for good fishing, hunting and trapping.

(1m) (a) If the department establishes an open season for hunting deer, elk, small game, wild turkey, or bear with a firearm,
excluding any season established under s. 29.016 (3), the season shall also be open for hunting that animal with a crossbow and a bow and arrow.

(b) If the department establishes an open season for hunting deer, elk, small game, wild turkey, or bear with a bow and arrow but not with a firearm, the department shall also establish an open season for hunting the respective game with a crossbow.

(1s) If the department establishes an open season for hunting or trapping any of the following animals, the department shall end the open season for each on the Sunday nearest January 6:

(a) Pheasant.
(b) Gray partridge.
(c) Fisher.
(d) Wild turkey, if the open season begins in the fall.
(e) Deer, if the season is open only to archers.

(11) (a) Notwithstanding sub. (1s), if the department determines, based on harvest registration data for an animal in a specific area of the state, that hunters or trappers are likely to take more than the quota set for that animal for the open season in that area, the department may close the season for that animal in that area.

(b) Notwithstanding sub. (1s), the department may change the end date for an open season for the hunting or trapping of any animal listed in sub. (1s) (a) to (e) in specific areas of the state if the department determines it is necessary to promote the growth or control the population of that animal in that area.

(2) (b) All of the rules promulgated under this chapter are prima facie reasonable and lawful until found to be otherwise in a final determination by a court.

(c) Any reference to this chapter includes any rules promulgated under this chapter and any reference to any provision of this chapter includes any rules promulgated under that provision.

(3) Any rule of the department is subject to review in the manner provided in ch. 227, except that if the rule affects only the county in which the appellant resides, the appeal shall be to the circuit court of that county.

(4) No person may challenge the validity of a rule promulgated under this chapter in any prosecution of that person for a violation of this chapter or rules promulgated under this chapter unless the person has previously brought a separate action under s. 227.40 seeking a declaratory judgment on the validity of the rule.

Cross-reference: See also chs. NR 10 and 11, Wis. adm. code.

The Department of Natural Resources has express authority under sub. (1) to adopt a rule allowing an open hunting season for mourning doves. The legislature has granted broad authority to the department to set open and closed seasons for game under sub. (1). Mourning doves fall within the definition of game applicable to this section, although the doves also fall within the definition of nongame species applicable to s. 29.039. Wisconsin Citizens Concerned for Cranes & Doves v. DNR, 2004 WI 40, 270 Wis. 2d 318, 677 N.W.2d 612, 02–1166.

29.016 Department authority; deer hunting seasons and license restrictions. (1) The department may not do any of the following:

(a) Require a person who holds a license that authorizes the hunting of deer to take an antlerless deer before the person may take the person's first antlered deer under that license.

(b) Except as provided in subs. (2) and (3), establish a fall open season for hunting deer with firearms that begins before the Saturday immediately preceding the 4th Thursday in November.

(2) Subsection (1) (b) does not prohibit the department from promulgating a rule that establishes a fall open season for hunting deer with firearms that begins before the Saturday immediately preceding the 4th Thursday in November if any of the following applies:

(a) The department limits the open season to hunting deer by any of the following persons:
1. Persons who are under 16 years of age.
2. Persons who hold a Class A, Class B, or Class C permit under s. 29.193 (2).
3. Persons who are learning to hunt.
(b) The department establishes the fall open season because a fall open season is necessary to control the spread of chronic wasting disease or other disease in deer and if all of the following apply:
1. The rule authorizes the hunting of only antlerless deer.
2. The rule provides for a closing date for the fall open season that is on or before October 15.
3. The rule provides that the rule does not apply beginning 270 days after the effective date of the rule.

(3) The department may establish a fall open season for hunting deer within the Apostle Islands National Lakeshore that begins before the Saturday immediately preceding the 4th Thursday in November if the season is open for hunting deer only with muzzle-loading firearms.

1. Wildlife resources are managed by the respective states for the benefit of all residents and visitors.
2. The protection of wildlife resources of a state is materially affected by the degree of compliance with state laws, regulations, ordinances, resolutions, and administrative rules relating to the management of those resources.
3. The preservation, protection, management, and restoration of wildlife resources contribute immeasurably to the aesthetic, recreational, and economic aspects of those natural resources.
4. Wildlife resources are valuable without regard to political boundaries; therefore, every person should be required to comply with wildlife resource preservation, protection, management, and restoration laws, regulations, ordinances, resolutions, and administrative rules of the participating states as a condition precedent to the continuance or issuance of any approval to hunt, fish, trap, or possess wildlife.
5. Violation of wildlife resource laws interferes with the management of wildlife resources and may endanger the safety of persons and property.
6. The mobility of many violators necessitates the maintenance of channels of communication among the various states.
7. Usually, if a person is cited for a wildlife violation in a state other than the person’s home state, one or more of the following occur:

8. 9. Usually, a person receiving a wildlife citation in his or her home state is permitted to accept the citation from the officer at the scene of the violation and immediately continue on his or her way after agreeing or being instructed to comply with the terms of the citation.
10. The enforcement practices described in subd. 7, may cause unnecessary inconvenience and hardship for the violator who is unable at the time to post collateral, furnish a bond, stand trial, or pay a penalty, and thus is compelled to remain in custody until some alternative arrangement is made.
11. The enforcement practices described in subd. 7, consume an undue amount of law enforcement time.

(b) It is the policy of the participating states to do all of the following:
1. Promote compliance with the laws, regulations, ordinances, resolutions, and administrative rules relating to management of wildlife resources in their respective states.
2. Recognize the suspension of wildlife license privileges of any person whose license privileges have been suspended by a participating state and treat the suspension as if it had occurred in the home state.
3. Allow a violator, except as provided in sub. (3) (b), to accept a wildlife citation and, without delay, proceed on his or her way, whether or not a resident of the state in which the citation was issued, if the violator’s home state is party to this compact.
4. Report to the appropriate participating state, as provided in the compact manual, any conviction recorded against a violator whose home state was not the issuing state.

29.164 Wild turkey hunting approvals. (1) Definitions. As used in this section:
   (a) “Family member” means a person who is related to another person as a parent, child, spouse or sibling.
   (b) “Landowner” means the owner of record of a parcel of land or the purchaser of land under a land contract who has the right to occupy and the right to use the land.
   (c) “Operator” means a resident who is residing on a parcel of land under a rental agreement, lease, agreement or contract and who is engaged in farm activities or other operations on the land.
   (d) “Resident applicant” includes a qualified resident landowner who applies for a wild turkey hunting license.

(2) Authorization; restrictions. (a) Department authority. The department may regulate and limit the hunting of wild turkeys by issuing licenses under this section. The department may not require the possession or validation of a wild turkey carcass tag and may not require that a carcass tag be attached to a lawfully killed wild turkey.
(b) Type of hunting authorized. A license issued under this section authorizes hunting with a firearm, bow and arrow, or crossbow.

(c) Requirements. 1. No person may hunt wild turkey unless he or she has a valid wild turkey hunting license and a valid wild turkey hunting stamp attached to or imprinted on the person’s wild turkey hunting license in the manner required by the rule promulgated under s. 29.024 (5) (a) 3.

2. If the department establishes a wild turkey hunting zone where or a season time period during which wild turkey hunting is permitted, no person may hunt wild turkeys in that wild turkey hunting zone or during that season time period unless the person has a wild turkey hunting license and a valid wild turkey hunting stamp as required under sub. 1. and unless the person has a wild turkey hunting authorization that is valid for that zone and that time period.

(d) Exception. Any person holding a senior citizen recreation card or a conservation patron license is exempt from the requirements under par. (c) if the person has received a notice of approval under sub. (3) (e) and the person is exempt from paying the fee for the wild turkey hunting license.

(3) WILD TURKEY HUNTING LICENSES. (a) Cumulative preference system. 1. If the department requires wild turkey hunting licenses under sub. (2) (a) and the number of applications for wild turkey hunting authorizations for a given wild turkey hunting zone or a given wild turkey hunting season time period exceeds the number of available wild turkey hunting authorizations allocated by the department for that zone or that season time period, the department shall issue wild turkey hunting licenses and authorizations for that zone or that season time period according to the cumulative preference system under this subsection.

2. If the department requires wild turkey hunting licenses under sub. (2) (a) and the number of applications for wild turkey hunting authorizations for a given wild turkey hunting zone or a given wild turkey hunting season time period does not exceed the number of available wild turkey hunting authorizations allocated by the department for that zone or that season time period, the department shall issue a wild turkey hunting license and authorization to each applicant.

(b) Qualified resident landowners. 1. The department shall create a first preference category in the issuance of wild turkey hunting licenses to applicants who are qualified resident landowners. The number of licenses issued under this paragraph for a season for an established wild turkey hunting zone may not exceed 30 percent of all licenses issued for that season for that zone.

2. For purposes of subd. 1., a qualified resident landowner is a resident who owns at least 50 acres in one parcel in an established wild turkey hunting zone. If more than one individual is the landowner of a single parcel of land, only one individual may be considered a qualified resident landowner.

3. A qualified resident landowner may assign his or her eligibility to apply for a wild turkey hunting license under this paragraph as a qualified resident landowner to a family member, to an operator, to a family member of the operator, or to a minor. A qualified resident landowner may not receive any consideration for the assignment of his or her eligibility under this subdivision. The department may specify the procedures and forms which are required to be followed and completed to effect this assignment. After this assignment, the assignee may apply for a wild turkey hunting license under this paragraph as a qualified resident landowner and the qualified resident landowner who assigned his or her eligibility may not so apply.

(c) Second preference. The department shall create a 2nd preference category in issuing wild turkey hunting licenses to resident applicants who in a previous season applied for but were not issued wild turkey hunting licenses:

1. For the previous season if the department establishes one open season per year; or

2. For the previous corresponding season if the department establishes more than one open season per year.

(cg) Third preference. The department shall create a 3rd preference category in issuing wild turkey hunting licenses to all other resident applicants.

(ci) Fourth preference. The department shall create a 4th preference category in issuing wild turkey hunting licenses to applicants who are qualified nonresident landowners. For purposes of this paragraph, a qualified nonresident landowner is a person who is not a resident and who owns at least 50 acres in one parcel in an established wild turkey hunting zone and who agrees to allow other persons to hunt wild turkeys on that land if those persons first obtain permission to hunt from the landowner. If more than one individual is the landowner of a single parcel of land, only one individual may be considered a qualified nonresident landowner.

(cm) Fifth preference. The department shall create a 5th preference category in issuing wild turkey hunting licenses to all other nonresident applicants.

(cr) Cumulative preference. 1. In issuing licenses under the 2nd preference category under this subsection, the department shall give, within that preference category, a preference point to each applicant for each previous corresponding season for which the person applied but was not issued a wild turkey hunting license. The department shall create subcategories for each point total and place each applicant in the applicable subcategory. The department shall rank the subcategories according to the number of preference points received, giving higher preference to subcategories with more points than those with fewer points. Applicants who fail to apply at least once during any 3 consecutive years shall lose all previously accumulated preference points.

2. If the number of applicants within a preference category or a subcategory under this subsection exceeds the number of wild turkey hunting licenses available in the category or subcategory, the department shall select at random within the category or subcategory the applicants to be issued the licenses.

(d) License limitation. No person may apply for or receive more than one wild turkey hunting license during one season.

(e) Notification; issuance; payment. The department shall issue a notice of approval to those qualified applicants selected to receive a wild turkey hunting license and authorization under par. (a). A person who receives a notice of approval and who pays the license fee in the manner required by the department shall be issued a wild turkey hunting license, subject to ss. 29.024 and 54.25 (2) (c) 1. d., and an authorization. The department may not charge a fee for an authorization that is issued under this paragraph.

(3m) WILD TURKEY HUNTING LICENSES ISSUED TO MEMBERS OF ARMED FORCES, DISABLED VETERANS, AND RECIPIENTS OF THE PURPLE HEART MEDAL. (a) Notwithstanding sub. (3), the department may issue wild turkey hunting licenses and authorizations without requiring that the licenses and authorizations be issued pursuant to the cumulative preference system under sub. (3) to members of the U.S. armed forces who are all of the following:

1. Residents.

2. In active service with the U.S. armed forces outside this state.

3. On furlough or leave within the state.

(am) Notwithstanding sub. (3). A disabled veteran is a resident who produces evidence that shows that he or she is a veteran, as defined in 38 USC 1101, and is receiving disability compensation benefits under 38 USC 1110 to 1163 for disabilities that result in a disability rating that is 50 percent or greater under 38 USC 1141 or 1134, or is receiving disability compensation benefits due to being individually unemployable under 38 CFR 4.16 as authorized under...

USC 501. The department shall recognize an annual disabled veteran recreation card issued under s. 29.236 as sufficient evidence that a person is a disabled veteran. A qualified recipient of the purple heart medal is a person who exhibits proof that he or she has received the medal.

(b) The department may not impose any deadline or other restriction on the timing for applications or issuing licenses or authorizations under this subsection. If a license and authorization under this subsection are issued during the applicable hunting season, the license and authorization shall authorize hunting beginning on the date of issuance.

(c) An applicant for a wild turkey hunting license under this subsection is eligible for the same number of wild turkey hunting authorizations for each applicable season time period as an applicant who is issued authorizations under the cumulative preference system under sub. (3).

(4) WILD TURKEY HUNTING STAMPS: ADDITIONAL AUTHORIZATIONS. (a) Issuance. The wild turkey hunting stamp shall be issued by the department subject to s. 29.024.

(b) Additional authorizations. The department may issue the wild turkey hunting authorizations that were allocated for a given wild turkey hunting zone or season time period under sub. (3) (a) 2. but that were not issued. The department shall charge the fee specified in s. 29.563 (2) (f) or (g) for each of these additional authorizations. The issuance of an authorization under this paragraph does not affect the priority that the person receiving the authorization may have under the cumulative preference system.

(5) USE OF MONEYS FROM FEES. The fees collected from the sale of wild turkey hunting stamps shall be credited to the appropriation account under s. 20.370 (1) (ht).

For purposes of this paragraph, a qualified service member is a member of the armed forces who exhibits proof that he or she is in active service with the armed forces outside this state and proof of one of the following:

1. That he or she is a resident who is on furlough or leave.
2. That he or she was a resident at the time he or she entered active service and that he or she is on furlough or leave.

29.177 Special deer hunting permits. (1) Issuance. The department may issue a hunter’s choice deer hunting permit, a deer hunting party permit or other special deer hunting permit to a person with a valid deer hunting license who applies for the permit and to a person who is exempt from obtaining a deer hunting license under s. 29.063 (5) who applies for a permit.

(2) Authorization. A hunter’s choice deer hunting permit may authorize or require the permit holder to take deer of a sex or type not authorized by a regular deer hunting license. A deer hunting party permit may authorize members of a deer hunting party to take additional deer not authorized by a regular deer hunting license. Except as authorized by rule, a person may not apply for or be issued more than one special deer hunting permit in a single season.

(3) Findings. The department may issue permits authorized under this section and s. 29.181 only in those years in which the department finds that the size or characteristics of the deer population of this state require additional or special types of deer to be taken for proper game management.

(3m) DEER MANAGEMENT RULES. For the purposes of permits issued under this section and s. 29.181, the department shall specify by rule the type and number of deer which may be taken, the deer management areas where these permits are valid, the number of permits to be issued, the open seasons during which the permits are valid, the types of weapons authorized to be used under the permits, and other restrictions and conditions concerning these permits.

(4) Cumulative preference system. If the number of qualified applicants for a type of special deer hunting permit in a deer management area exceeds the number of such available special permits, the department shall issue those special permits for that deer management area according to the cumulative preference system.

(5) Preference categories. (a) First preference. The department shall create a first preference category for applicants who are qualified landowners, but not more than 30 percent of the available special permits for a deer management area for one season may be issued under this preference category.

(b) Second preference. The department shall create a 2nd preference category for resident applicants who applied for but were not issued special permits for a given deer management area for the previous season. Within this preference category, the department shall give a preference point to each applicant for each previ-
ous season in which the person applied for but was not issued a special permit for that deer management area. The department shall create subcategories for each point total and place each applicant in the applicable subcategory. The department shall rank the subcategories according to the number of points received, giving higher priority to those subcategories with more points than those with fewer points. Applicants who fail to apply at least once during any 3 consecutive years shall lose all previously accumulated preference points.

(c) Third preference. The department shall create a 3rd preference category for those persons who are not eligible under the 1st or 2nd preference categories.

(6) Qualified landowner. In order to apply for a special deer hunting permit as a qualified landowner a person is required to be a resident and the owner of record or a vendee under a land contract of at least 50 acres in one parcel located in whole or in part in the deer management area for which the special permit is valid. No more than one person may apply as a qualified landowner for one parcel of land in one season and if the parcel of land is located in more than one deer management area, the owner or vendee may apply as a qualified landowner in only one of the deer management areas in which the parcel of land is located in one season.

(7) Exemption from cumulative preference system. (a) Notwithstanding sub. 1. Residents.
2. In active service with the U.S. armed forces outside this state.
3. On furlough or leave within the state.

The department shall give a preference point to each applicant who applies for a preference point and to each applicant who applies for a license but who is not selected. Applicants who fail to apply for either a preference point or a license at least once during any 3 consecutive years shall lose all previously accumulated preference points. If the number of applicants within a preference category exceeds the number of Class A bear licenses available in the category, the department shall select at random the applicants to be issued licenses within the preference category. A person of any age may apply for a preference point.

(b) only to persons who are qualified to receive a Class A bear hunting license. A person who receives a certificate may present that certificate to the department and request a resident or nonresident Class A bear hunting license. Upon receipt of the certificate and the appropriate required fees, the department shall issue the holder of the certificate a resident or nonresident Class A bear hunting license and the carcass tag under sub. 29.185 Wolf harvesting licenses. (1b) DEFINITIONS. In this section:

(a) “Federal endangered list” means the U.S. list of endangered and threatened species, as it applies to this state.

(b) “State endangered list” means the list of endangered and threatened Wisconsin species that is established under s. 29.604 (3) (a).

(1m) DEPARTMENT AUTHORITY. If the wolf is not listed on the federal endangered list and is not listed on the state endangered list, the department shall allow the hunting and trapping of wolves and shall regulate such hunting and trapping as provided in this section and shall implement a wolf management plan. In regulating wolf hunting and trapping, the department may limit the number of wolf hunters and trappers and the number of wolves that may be taken by issuing wolf harvesting licenses.

(2) LICENSES REQUIRED. (a) Prohibition. Except as authorized under a wolf harvesting license, no person may hunt or trap a wolf. Both residents and nonresidents are eligible for wolf harvesting licenses.

(b) Archer licenses, crossbow licenses, and trapping licenses. Notwithstanding ss. 29.171 (2), 29.172 (2), 29.216 (2), 29.217 (2), and 29.241 (3), a resident archer hunting license, a nonresident archer hunting license, a resident crossbow hunting license, a nonresident crossbow hunting license, or a trapping license does not authorize the hunting or trapping of wolves.

(3) ISSUANCE OF LICENSES. (a) Issuance; generally. Except as provided in par. (bn), if the department establishes an open season as provided under sub. (5), the department, subject to ss. 29.024 and 54.25 (2) (c) 1.d., shall issue a wolf harvesting license to each person who applies for the license, and who pays the required fees for the license.

(bn) Issuance system. 1. In issuing wolf harvesting licenses under this subsection, the department shall determine the number of licenses that will be available for a given year. The number of licenses to be issued shall equal an even number.
2. If the number of qualified applications for wolf harvesting licenses exceeds the number of licenses that are available, the department shall issue 50 percent of the licenses by selecting at random the applicants to be issued the licenses.

3. The department shall issue the remaining 50 percent of the wolf harvesting licenses based on a cumulative preference system. The system shall establish preference categories for those applicants who applied for but who were not issued a wolf harvesting license in previous seasons, with higher preference given to those applicants with more preference points. If the number of applicants within a preference category exceeds the number of wolf harvesting licenses available in the category, the department shall select at random within the category the applicants to be issued the licenses. For each season, the department shall allow each applicant to apply for a preference point or for a license. The department shall give a preference point to each applicant who applies for a preference point and to each applicant who applies for a license but who is not selected. An applicant who applies for either a preference point or a license at least once during any 3 consecutive years shall not lose his or her acquired preference points under the system.

4. The department shall establish a method for dividing the applications into those that will be included in the at–random system and those that will be included in the cumulative preference system.

5. A person applying for a wolf harvesting license shall pay the processing fee at the time of application.

(c) Preference system; on receipt of license. An applicant who is selected to receive a wolf harvesting license under the cumulative preference system established under par. (b) 3. may elect to receive a preference point instead of a license if he or she is serving on active duty in the U.S. armed forces or national guard during all or part of the wolf harvesting season for which the license is issued.

(4) Transfer of license. (a) Upon application by a holder of a wolf harvesting license to the department to transfer the license to another person and upon payment of any fee required under par. (b), the department shall transfer the license if the application is made no later than the 15 days immediately preceding the first day of the wolf harvesting season if the person to whom the license is transferred is at least 18 years of age and is otherwise eligible to use the license. The accompanying carcass tag shall also be transferred.

(b) If the holder of the wolf harvesting license applies to transfer the license, the transferee shall pay the fee for the license.

(c) A holder of a license being transferred under this section may not receive any consideration for the transfer of the license.

(5) Seasons; zones. (a) The department shall establish a single annual open season for both hunting and trapping wolves that begins on the first Saturday in November of each year and ends on the last day of February of the following year.

(b) The department shall divide the entire state into wolf harvesting zones and shall identify the zones in its wolf management plan. Each zone shall be open to both hunting and trapping, except as provided in par. (c). A wolf harvesting license authorizes its holder to hunt or trap only in the zone specified on the license.

(c) The department may close a wolf harvesting zone to both hunting and trapping of wolves if the department determines that the closure is necessary to effectively manage the state’s wolf population. Closure of a wolf harvesting zone under this paragraph may not take effect until at least 24 hours after the department has done all of the following:

1. Posted notice of the closure on its Internet website.
2. Announced the closure on its telephone registration system.
3. Issued a press release announcing the closure.

(d) If the department closes a wolf harvesting zone to the hunting of coyotes during a season that authorizes hunting of deer with firearms, the department may reopen the zone to the hunting of coyotes if the department determines that the closure is no longer necessary to effectively manage the state’s wolf population.

(e) Notwithstanding ss. 29.014 and 227.10 (1), the opening and closing of wolf harvesting zones as authorized under pars. (c) and (d) need not be promulgated as rules under ch. 227.

(6) Authorized hunting and trapping activities. (a) Authorization; hunting. A wolf harvesting license authorizes the hunting of wolves by using any of the following:

2. Dogs to track or trail wolves, subject to par. (c).
3. Predator calls, including electronic calls.
4. Bait that does not involve animal parts or animal byproducts, other than liquid scents.

(b) Firearms and ammunition. A wolf harvesting license authorizes hunting with a rifle, a muzzle−loading firearm, a handgun, a shotgun that fires slugs or shotshells, and any other firearm that is loaded with a single slug or ball. A wolf harvesting license authorizes hunting with shot that is larger than size BB.

(c) Use of dogs. 1. A person may hunt wolves using dogs beginning with the first Monday that follows the last day of the regular season that is open to hunting deer with firearms and ending on the last day of February of the following year.
2. No more than 6 dogs in a single pack may be used to track or track a wolf, regardless of the number of hunters assisting the holder of the wolf harvesting license.

(7) Tags; registration. (a) The department shall issue one wolf carcass tag to each person who is issued a wolf harvesting license under sub. (3). Each holder of a wolf harvesting license who kills a wolf shall immediately validate the carcass tag. No person may possess, control, store, or transport a wolf carcass unless the carcass tag has been validated in the manner required by the department. A person who kills a wolf shall register the carcass with the department on a telephone registration system or through an electronic notification system established by the department, except as provided in par. (am).

(6) AM) In lieu of registering carcasses by telephone or through an electronic notification system, the department may require that the person who kills a wolf physically present the entire carcass to the department for registration.

(b) A person who harvests a wolf that has an attached or implanted radio telemetry device shall return the device to the department. 29.516 Fishing with nets and setlines. (1) LICENSE REQUIRED. Nets and setlines may be used for the purpose of taking, catching, or killing fish, subject to the conditions, limitations and restrictions prescribed in this chapter; but no person may set, place or use in any waters of this state any net, trap, snare, set hook, or setline, which is intended to or might take, catch or kill fish of any variety, other than a landing net, dip net, minnow seine or minnow dip net, unless a license authorizing the use of nets, setlines, traps or snares has been issued to the person by the department.

(2) RESTRICTIONS ON THE USE OF LICENSED NETS AND SETLINES. The use of licensed nets and setlines is subject to the following conditions:

(a) No apron or other device shall be used in any pound net, which might prevent the escape of small fish through the meshes of the net when it is set or raised.

(b) No net of any kind shall be set so as to shut off more than 50 percent of any channel or passageway of any stream, or set within 1,000 feet of any other net in the stream.

(c) No licensee may join a net to that of any other licensee.

(d) All nets or set hooks, when set or placed in any waters, shall be marked with a number corresponding to the license number authorizing the use of the nets or set hooks. The method of marking the nets shall be as follows:

1. On drop nets, submarine trap nets and fyke nets, when set below the surface of the water, there shall be a buoy attached to the pot rope, on all gill nets and set hooks there shall be a buoy on each end of the gang, the buoys shall have a staff extending at least 3 feet above the surface of the water, upon the upper end of the staff there shall be a flag at least 10 inches square. Upon the bowl of the buoys there shall be maintained in plain figures the license number authorizing the use of the nets or set hooks.

2. On pound nets and stake fyke nets there shall be maintained at least 3 feet above the surface of the water, or the surface of the ice, when set through the ice, a board or similar material, which shall bear the license number authorizing the use of the nets.

3. On gill nets or set hooks when set through the ice there shall be maintained on each end of the gang a board or similar material which shall bear the license number authorizing the use of the nets or set hooks.

(e) The licensees of licensed nets or setlines used in outwatering waters while engaged in the regular process of lifting nets or setlines shall, on their boats, carry the department’s agents to and from their nets or setlines when set and, on demand of the agent, shall raise the nets or setlines for inspection. Any agent may, in the presence or absence of the licensees, at any time, raise any setline or nets, in any waters, with as little damage as may be, for inspection. If a licensee refuses to carry an agent the license shall be revoked.

(f) No licensed net may be drawn or lifted at any time between one hour after sunset and one hour before sunrise of the following morning, except as otherwise approved by the department or, in the case of an emergency, following notice to the nearest U.S. coast guard station.

(g) Except as provided in s. 29.519 (4m), no fish of any kind shall be taken or retained in any net, when drawn or lifted, other than the kind or kinds expressly authorized to be taken or retained in the net, as provided in this chapter; and except as provided by department order any other kind or kinds of fish coming into or taken in the nets shall be immediately returned, carefully and with as little injury as possible, to the waters from which they were taken.

29.519 Commercial fishing in outwatering waters. (1b) DEFINITION. In this section, “record” has the meaning given in s. 29.503 (1) (cm).

(1m) LICENSE AUTHORIZED. (a) No person may conduct commercial fishing operations on any of the outwatering waters unless the person is issued a commercial fishing license by the department.

(b) The department may limit the number of licenses issued under this section and designate the areas in the outwatering waters under the jurisdiction of this state where commercial fishing operations shall be restricted. After giving due consideration to the recommendations made by the commercial fishing boards under sub. (7), the department may establish species harvest limits and promulgate rules to establish formulas for the allocation of the species harvest limits among commercial fishing licensees or for the allotment of individual licensee catch quotas. The department may allocate the harvest limits among commercial fishing licensees. The department may designate the kind, size and amount of gear to be used in the harvest. The limitations on licenses, restricted fishing areas, harvests and gear shall be based on the available harvestable population of fish and in the wise use and conservation of the fish so as to prevent overexploitation.

(c) The department may promulgate rules defining the qualifications of licensees in the reasonable exercise of this authority, giving due consideration to residency, past record including compliance with the records requirements of sub. (5), fishing and navigation ability and quantity and quality of equipment possessed. The rules may not impose any minimum harvesting requirements on applicants for licenses requiring that applicants harvested, in any previous period of time, a specified minimum amount of fish. Rules relating to licensing commercial fishers shall be based on criteria provided by the commercial fishing boards under sub. (7).

(d) 1. In this paragraph, “overall length” means the minimum distance between the extreme outside end of the bow and the stern using the nearest whole number of feet.

2. The application for the license shall be made to the department, accompanied by the fee specified in s. 29.563 (7). The application shall state the name, birthdate, description and address of the residence of the applicant, the manner in which he or she proposes to fish, the name or number and overall length of his or her boats, the name of the hailing port from which the boats will...
operate, and the number and kind of nets or other gear he or she intends to use in connection with commercial fishing and any other information required by the department for statistical purposes. The applicant shall provide an itemized listing of commercial fishing gear and equipment with the current values of those items of commercial fishing equipment, sufficient to meet the investment requirements for licensing as established in rules promulgated under this section.

(e) No outlying waters commercial fishing license may be issued to a person under the age of 18 years.

(2) Residency; Transfers; Catch Fees. (a) Nonresident defined. In this subsection, “nonresident” includes any individual who is not a resident, any individual applying for a license for use of this on a boat registered or of record at a port outside of the state, or any partnership, association, corporation or limited liability company any of whose stock, boats, nets and fishing equipment has been owned by a nonresident at any time during the 2 years immediately prior to the application for a license.

(d) Transfer of license. The department shall promulgate rules governing the transfer of commercial fishing licenses between individuals equally qualified to hold the licenses and to members of a licensee’s immediate family provided the rules assure the wise use and conservation of the fish resources being harvested under the license. The rules shall relate only to those waters in which the number of licenses is limited. The commercial fishing boards, under sub. (7), shall approve or deny transfers of commercial fishing licenses in accordance with the rules promulgated under this section. For purposes of s. 29.024 (2g) and (2r), a transfer of a license under this section shall be considered an issuance of a license to the transferee.

(e) Transfer of replacement boats. The department may, upon application, allow the holder of a commercial fishing license to replace a boat listed on that license with a different boat.

(f) Commercial fishing boats. Any boat used by a resident licensee shall be from a port of record in this state, its hailing port shall bear the name, if any, of the boat listed on the commercial fishing license issued under sub. (1m).

(fm) Attending boats. Each boat in excess of 25 feet in overall length used by a commercial fisher may be accompanied by and work with one attending boat without an additional license fee for the attending boat. Any attending boat that is a motorboat under s. 30.50 (2) shall be registered under s. 30.51. An attending boat shall bear the name, if any, of the boat listed on the commercial fishing license issued under sub. (1m) and may be used only for attending that boat.

(g) Reciprocity. 1. Except as provided under subd. 2., the department may not issue commercial fishing licenses to nonresidents of a particular state in a number which exceeds the number of commercial fishing licenses that that particular state issues to residents of this state.

2. The reciprocity limitation on the issuance of commercial fishing licenses to nonresidents under subd. 1. does not apply to a nonresident who held a commercial fishing license on or before July 1, 1982, or to a nonresident to whom such a commercial fishing license is or was transferred by a member of his or her immediate family if that license was renewed for at least 5 consecutive years by the nonresident or a member of his or her immediate family and subject to compliance with criteria and approvals required under this section.

(h) Catch fee. The department may require a catch fee which shall be equivalent to the department’s direct costs of providing fish for harvest, for species of fish designated by department order, as further consideration for obtaining the license. The fees shall be charged only for those species of fish whose populations are sustained or supplemented through stocking and only for those fish caught by the licensee. All the fees shall be used exclusively to pay for the stocking, including purchase or propagation, of the fish.

(4) Crew licenses. (a) Any commercial fishing licensee may use licensed crew members when fishing with or without a boat. The number of crew members engaged under a single license may not exceed 4 when fishing with nets under the ice. The department, upon proper application for crew licenses, may issue with each commercial fishing license no more than 4 crew licenses for the specific purpose of fishing with nets under the ice and the number indicated on the application for the purpose of fishing in open water. Each crew license shall bear the number of the commercial fishing license, the purpose for which intended, the year for which issued and the name of the crew member to whom the crew license is issued. The crew license permits a person to engage in commercial fishing only as a member of a crew of a commercial fisher licensed under sub. (1m).

(b) Each member of a crew engaged in the setting, lifting or pulling of nets or other devices set under authority of a commercial fishing license shall carry the crew license on his or her person while so engaged and upon demand of any warden shall exhibit the license. Persons using minnow seines and dip nets used for taking smelt and minnows are exempt from this subsection.

(c) In case of illness or unavailability for good cause of a licensed crew member, an unlicensed person may work on a commercial fishing operation for a period not to exceed 48 hours under a temporary crew identification card, after which time he or she must obtain a crew license to engage in commercial fishing operations. Temporary crew identification cards shall be issued by the department to commercial fishing licensees for use as provided in this paragraph. Prior to use, the commercial licensee shall indicate on the temporary crew identification card the license number and name of the commercial fisher for whom the crew member will be working, the time and date the crew member commences work under the card and the crew member’s name, address, description and his or her signature. The card shall be presented, upon request, to a warden and must be in the possession of the crew member at all times while engaged in commercial fishing operations. The commercial fisher issuing the temporary crew identification card to an unlicensed person shall submit the card to the department with the commercial catch report submitted for the period in which work conducted under the card was performed.

(d) The commercial fishing licensee is responsible for all acts of crew members conducting commercial fishing activities for the licensee. A commercial fishing licensee may be charged with and be revocable of a violation committed by his or her crew member, while the crew member is conducting commercial fishing activities for the licensee. Upon revocation of a commercial fishing license, all crew member licenses issued under that license are invalid, and no person may be issued a temporary crew identification card under that license.

(4g) Prohibition against operating fish farms. No person who holds a commercial fishing or crew license issued under this section may operate a fish farm that contains a species of fish that the holder of the license is authorized to catch under this section.

(4m) Fishing for certain species of fish in Lake Michigan and Green Bay. (a) In this subsection, “incidental catch” means species of fish inadvertently caught while a commercial fisher licensed under sub. (1m) is fishing by trawl for other species of fish.

(b) An incidental catch of smelt, chub or alewife from the waters of Green Bay or Lake Michigan may be brought to shore for the purpose of sorting or sale.

(c) A commercial fisher licensed under sub. (1m) may fish by trawl for the total allowable commercial harvest of smelt, as set by rule of the department, on the waters of Green Bay at any time during nighttime if all of the following apply:

1. The smelt will be used or sold for human consumption.

2. The fishing occurs in the areas and during the seasons established by the department for the fishing of smelt.

(5) RECORDS AND REPORTS. (a) Records requirements. Each commercial fisher shall maintain and submit records to the department in the form and manner required by the department.

(b) Fishing records. The commercial fisher shall keep and submit a complete, legible and accurate record of the licensee’s daily fishing activities, in the form and manner required by the department. The record shall include the complete name, address and commercial fishing license number of the licensee; the name and number of the boat fished from; the location fished; the month and year for which the record is being kept; the date of each day’s fishing activity; the kind and amount of commercial fishing gear used; the kind of fish caught and the number of pounds of each kind of fish caught; and the signature of the licensee.

(c) Fish disposition records. The commercial fisher shall keep a complete, legible and accurate record of the disposition of landed catch, in the form and manner required by the department. The record shall include the complete name, address and commercial fishing license number of the licensee; for each wholesale sale, the complete name, address and wholesale fish dealer license number, if any, of the buyer and the kinds of fish sold, the number of pounds of each kind and the description of the fish sold and the date of the sale; for direct retail sales, the kinds of fish sold, the total pounds of each kind, and the date of the sale; and the signature of the licensee. In this paragraph, “landed catch” means those fish or fish parts caught in commercial fishing operations and brought to shore to utilize or to sell or otherwise dispose of.

(d) Record retention and confidentiality. 1. Each commercial fisher shall maintain and retain all records required under this subsection for a period of at least 5 years from the date on which the record was created. Each commercial fisher shall notify the department annually, on forms available from the department, of the location of each commercial fisher’s records.

2. Upon the written request of a commercial fisher to the department, the department shall maintain the confidentiality of the information contained on each record furnished by the commercial fisher to the department.

3. Notwithstanding the confidentiality requirement in subd. 2., the department may disclose information contained on any record furnished by a commercial fisher to the department if the disclosure is in furtherance of an investigation or enforcement action undertaken by the department or a law enforcement agency.

4. Notwithstanding the confidentiality requirement in subd. 2., the department may disclose information contained on any record furnished by a commercial fisher to the department if the department uses the information for a statistical summary or report that does not identify the commercial fisher by name or license number.

(5m) INVENTORY. Each commercial fishing licensee shall prepare an annual inventory of Great Lakes fish and all species of sturgeon owned by the licensee or in the licensee’s possession or control at the time that the inventory is prepared, including such fish maintained in cold storage facilities. The inventory shall be furnished to the department within 15 days after the inventory is completed. The inventory shall be recorded on a form available from the department and shall include the weight of the fish in pounds or kilograms, the species of the fish, the condition of the fish, and the address of the location of the fish.

(6) INSPECTION. For purposes of enforcement of this section, wardens or department employees duly authorized and designated by the secretary, upon presenting appropriate credentials to the commercial fisher, crew member, or agent in charge, are authorized:

(a) To enter any building or structure, excluding a dwelling place, in which records, nets, or fish are stored or held, or in which fish are processed or packed, or to enter any boat or vehicle being used to transport nets or fish when the owner or agent in charge is present or upon 8 hours’ notice at other times.

(b) To inspect buildings, structures, boats or vehicles, to inspect all pertinent equipment including nets used or stored in the places to be inspected, to inspect or copy all records of commercial fishing activity, of fish storage, and of fish disposition, and to inspect any fish stored, processed, packed or held in the places to be inspected.

(c) To direct a commercial fisher, a crew member, or an agent in charge to empty any fish box that is larger than a standard fish box, as defined by the department by rule. If so directed, the commercial fisher, crew member, or agent shall empty such fish box.

(6g) RECORD PRODUCTION. Upon the request of the department, a commercial fisher shall produce all records relating to the production, acquisition, sale, trade, barter, storage, or disposition of fish that are kept at the commercial fisher’s place of business or at a residence, dwelling, or location other than the commercial fisher’s place of business within 24 hours of the request for inspection or copying. The records shall be mailed within 24 hours of receipt of the request.

(6m) INTERFERENCE WITH INSPECTIONS. No commercial fisher, licensed crew member, operator of a vehicle or boat for the commercial fisher, or an employee acting on behalf of the commercial fisher may prohibit entry, prohibit an inspection to be conducted, fail or refuse to produce any record, or fail or refuse to immediately empty a fish box or container as provided under sub. (6). The department may not conduct an inspection or examine a person’s records under sub. (6) if such action has been enjoined by court order.

(7) COMMERCIAL FISHING BOARDS. The Lake Superior and Lake Michigan commercial fishing boards established under s. 15.345 (2) and (3) shall review and consider applications for a transfer of license under this section and shall approve or deny applications on the basis of rules promulgated by the department. The boards shall recommend to the department species harvest limits and formulas for the allotment of individual licensee catch quotas when the department establishes species harvest limits for allocation among licensees. The boards shall assist the department in establishing criteria for identifying inactive licensees. The criteria established for identifying inactive licensees shall be the basis for rules governing the issuance of licenses. The boards may also advise the department on all other commercial fishing matters relating to Lake Michigan and Lake Superior.

tion unless an applicant for the permit submits to the department
a conservation plan and an implementing agreement. The con-
servation plan shall include all of the following:
1. A description of the impact that will likely occur as a result
of the taking of an endangered species or threatened species that
is specified on the department’s endangered and threatened spe-
cies list.
2. The steps that the parties specified under par. (d) will take
to minimize and mitigate the impact that the endangered species
or the threatened species will suffer.
3. A description of the funding that the parties specified under
par. (d) will have available to implement the steps specified under
subd. 2.
4. A description of the alternative actions to the taking that the
parties in par. (d) have considered and the reasons that these alter-

5. Any other measures that the department may determine to
be necessary or appropriate.

(d) The implementing agreement required under par. (c) shall
specifically name, and describe the obligations and responsibili-

(e) Upon receipt of an application for a permit and the accom-

by announcing the application receipt and by giving a brief descrip-

and to the official state newspaper designated under s. 985.04.
The department shall, by rule, establish a list of organizations,
including nonprofit conservation groups, that have a professional,
scientific or academic interest in endangered species or in threat-
ened species. The department shall give notification of proposed
takings under this subsection to these organizations. The depart-
ment shall establish a procedure for receipt of public comment on
the proposed taking.

(f) After having considered the public comment received on
the proposed taking, the department shall issue the permit if the
department finds, based on the permit application, the conserva-

of the following requirements:
1. The taking will not be the purpose of, but will be only inci-
dental to, the carrying out of a lawful activity.
2. The parties specified under par. (d) will, to the maximum
extent practicable, minimize and mitigate the impact caused by
the taking.
3. The parties specified under par. (d) will ensure that ade-
quate funding for the conservation plan will be provided.
4. The taking will not appreciably reduce the likelihood of the
survival or recovery of the endangered species or threatened spe-
cies within the state, the whole plant–animal community of which
it is a part or the habitat that is critical to its existence.
5. Any measures required under par. (c) 5. will be met.

(g) The department may require that a party specified under
par. (d) make additional assurances that the requirements under
par. (f) 1. to 5. will be met before issuing a permit under par. (f).

(h) The department shall impose on the permit any terms or
conditions that the department finds necessary to ensure that the
requirements under par. (f) 1. to 5. will be met. These terms or
conditions may include reporting and monitoring requirements.
These terms or conditions are modifiable only as provided under
par. (hm).

(hm) The terms or conditions of a permit shall be modified if
one of the following applies:
1. The modification is expressly provided in the conservation
plan, implementing agreement or permit.
2. The permittee requests the modification.
3. Just cause exists based upon a written finding of necessity
by the secretary.

(hr) A finding of necessity under par. (hm) 3. by the secretary
shall be a final decision not subject to review under subch. III of
ch. 227.

(i) The department shall revoke a permit issued under this sub-
section if it finds that a party specified under par. (d) fails to com-
ply with the terms and conditions of the permit.

(j) A permit issued by the department is not required if a federal
permit under 16 USC 1539 has been issued and if the federal fish
and wildlife service consulted with the department in the process
of determining whether to issue the federal permit.

(k) Paragraphs (b) to (j) do not apply to activities by a state
agency or by the department under sub. (6r).

(6r) AGENCY ACTIVITIES. (a) A state agency shall notify the
department at the earliest opportunity of the location, nature
and extent of a proposed activity that the state agency may conduct,
approve or fund and that may affect an endangered species or
threatened species. The department may allow the taking of an
endangered species or threatened species if all of the following apply:
1. The activity is accomplished in accordance with inter-
agency consultation procedures established by the department
and the state agency for the purpose of minimizing any adverse
effect on the endangered species or threatened species.
2. The activity is not likely to jeopardize the continued exis-
tence and recovery of the endangered species or threatened spe-
cies, or the whole plant–animal community of which it is a part,

within this state and the activity is not likely to result in the destruction or adverse modification of a habitat that is critical to the continued existence of the endangered species or the threatened species within the state, as determined by the department under par. (b).

3. The benefit to public health, safety or welfare justifies the activity.

(b) For purposes of par. (a) 2., the department shall determine whether a habitat is critical to the continued existence of an endangered species or threatened species by considering the endangered species’ or threatened species’ global and state element ranking as defined by the methodology used by the natural heritage inventory program.

(bn) The department may allow an activity by the department itself that results in the taking of an endangered species or threatened species if the activity is accomplished with procedures established by the department for the purpose of minimizing any adverse effect on the endangered species or threatened species and if pars. (a) 2. and 3. and (b) apply.

(c) The department shall notify the state agency if the department determines that there is reasonable cause for the department to determine that an activity by the state agency is not being carried out in compliance with this subsection or with any environmental protection requirements developed through interagency consultation procedures. If the secretary of natural resources and the head, as defined in s. 15.01 (8), of the state agency are unable to agree upon methods or time schedules to be used to correct the alleged noncompliance, the department may bring any action or initiate any other proceedings to enforce compliance with this subsection.

(d) The department and the state agency shall exchange information and cooperate in the planning and implementation of any activity relating to the taking of any endangered species or threatened species in order to alleviate, to the maximum extent practicable under the circumstances, any potential adverse effect on the endangered species or the threatened species.

(e) 1. Except as provided in subd. 2., cooperation between the department and the state agency under par. (d) shall include conducting reasonable surveys and reasonable biological assessments as determined by the department.

2. Subdivision 1. does not apply if the department states in writing that it has data that is sufficient to make a determination that the proposed taking will not reduce the likelihood of the survival or recovery of the endangered species or threatened species within the state, the whole plant–animal community of which it is a part or the habitat that is critical to its existence.

(em) 1. Before allowing the taking of an endangered species or threatened species under this subsection, the department shall give notice of the proposed activity to the news media throughout the state and to any person who wants to receive notification of proposed takings under this subsection and who has so informed the department in writing. The department shall transmit the notice at least 30 days before allowing the taking except as provided in subd. 2.

2. If the department determines that it cannot comply with the 30–day time limit in subd. 1., the department shall transmit the notice as far in advance as is practicable before allowing the taking.

(f) In addition to any requirements under s. 1.11, the department may give public notice of and hold public hearings on the activities of state agencies or the department under this subsection.

(7) CONSERVATION. (a) The department shall conduct research on the endangered and threatened species of this state and shall implement programs directed at conserving, protecting, restoring and propagating selected state–endangered and threatened species to the maximum extent practicable.

(b) The department may enter into agreements with federal agencies, other states, political subdivisions of this state or private persons with respect to programs designed to conserve endangered or threatened species of wild animals or wild plants. Agreements with private persons under this paragraph may include providing for the movement of an endangered or threatened species to another appropriate habitat, preferably to a habitat located on state–owned or state–leased land.

(7m) BULK SAMPLING ACTIVITIES. A person may take, transport, or possess a wild animal on the department’s endangered and threatened species list without a permit under this section if the person avoids and minimizes adverse impacts to the wild animal to the extent practicable, if the taking, transporting, or possession does not result in wounding or killing the wild animal, and if the person takes, transports, or possesses the wild animal for the purpose of bulk sampling activities under s. 295.45.

(8) EXEMPTIONS. This section does not apply to zoological societies or municipal zoos, or to their officers or employees.

Title to wild rice lawfully acquired is subject to the condition that upon the violation of this section by the holder of title to the wild rice, the title shall revert, as a result of the violation, to the state.

(2) POWERS OF THE DEPARTMENT. (a) The secretary may designate the opening date for harvesting wild rice in any navigable lake or stream by posting notice of the opening date on the shores of and at places of public access to the lake at least 24 hours before the opening date, unless the department promulgates by rule a different time period required for notice. Posting is sufficient notice of the opening date and no other publication is required.

(b) The department shall obtain the advice and recommendations of the tribal council before promulgating any rules governing the harvest, use and disposition of wild rice growing within the bounds of an Indian reservation.

(3) LICENSE REQUIRED; EXCEPTIONS; WILD RICE IDENTIFICATION CARD. The license is required to be a class D wild rice dealer license if the amount of wild rice bought, sold or processed by the licensee within the year covered by the license exceeds 50,000 pounds. The license is required to be a class C wild rice dealer license if this amount exceeds 25,000 pounds but does not exceed 50,000 pounds. The license is required to be a class B wild rice dealer license if this amount exceeds 5,000 pounds but does not exceed 25,000 pounds. The license is required to be a class A wild rice dealer license if this amount does not exceed 5,000 pounds. For the purposes of this section, 2.5 pounds of raw rice is equivalent to one pound of processed rice.

(5) RECORDS AND REPORTS. Each wild rice dealer shall keep a record in the form required by the department of all wild rice bought, sold or processed by the dealer during the period covered by the dealer’s license showing the date of each transaction, the names and addresses of all parties to the transaction, and the amount of wild rice involved, whether raw or processed. The record shall be open for inspection by the department at all reasonable times. All licensed wild rice dealers shall file reports on their operations as wild rice dealers as required by the department.
