36.01 Statement of purpose and mission. (1) The legislature finds it in the public interest to provide a system of higher education which enables students of all ages, backgrounds and levels of income to participate in the search for knowledge and individual development; which stresses undergraduate teaching as its main priority; which offers selected professional graduate and research programs with emphasis on state and national needs; which fosters diversity of educational opportunity; which promotes service to the public; which makes effective and efficient use of human and physical resources; which functions cooperatively with other educational institutions and systems; and which promotes internal coordination and the wisest possible use of resources.

(2) The mission of the system is to develop human resources, to discover and disseminate knowledge, to extend knowledge and its application beyond the boundaries of its campuses and to serve and stimulate society by developing in students heightened intellectual, cultural and humane sensitivities, scientific, professional and technological expertise and a sense of purpose. Inherent in this broad mission are methods of instruction, research, extended training and public service designed to educate people and improve the human condition. Basic to every purpose of the system is the search for truth.

(am) The board, in consultation with the Wisconsin Economic Development Corporation, shall do all of the following for each economic development program, as defined in s. 36.11 (29r) (a), administered by the board:
1. Establish clear and measurable goals for the program that are tied to statutory policy objectives.
2. Establish at least one quantifiable benchmark for each program goal described in subd. 1.
3. Require that each recipient of a grant or loan under the program submit a report to the board. Each contract with a recipient of a grant or loan under the program shall specify the frequency and format of the report to be submitted to the board and the performance measures to be included in the report.
4. Establish a method for evaluating the projected results of the program with actual outcomes as determined by evaluating the information described in subds. 1. and 2.
5. Annually and independently verify, from a sample of grants and loans, the accuracy of the information required to be reported under subd. 3.
6. Establish by rule a requirement that the recipient of a grant or loan under the program of at least $100,000 submit to the board a verified statement signed by both an independent certified public accountant licensed or certified under ch. 442 and the director or principal officer of the recipient to attest to the accuracy of the verified statement, and make available for inspection the documents supporting the verified statement. The board shall include the requirement established by rule under this subdivision in the contract entered into by a grant or loan recipient.
7. Establish by rule policies and procedures permitting the board to do all of the following if a recipient of a grant or loan or tax benefits under the program submits false or misleading information to the board or fails to comply with the terms of a contract entered into with the board under the program and fails to provide to the satisfaction of the board an explanation for the noncompliance:
(a) Recoup payments made to the recipient.
(b) Withhold payments to be made to the recipient.
(c) Impose a forfeiture on the recipient.
(b) The board, after public hearing at each institution, shall establish for each institution a mission statement delineating specific program responsibilities and types of degrees to be granted.
(c) The board shall determine the educational programs to be offered in the system and may discontinue educational programs as it deems necessary.
(d) The board shall establish policies to guide program activities to ensure that they will be compatible with the missions of the institutions of the system. To this end, the board shall make all reasonable effort to provide night courses.
(e) Subject to par. (em), the board shall appoint a president of the system; a chancellor for each institution; a dean for each college campus; the state geologist; the director of the laboratory of hygiene; the director of the psychiatric institute; the state cartographer; and the requisite number of officers, other than the vice presidents, associate vice presidents, and assistant vice presidents of the system; faculty; academic staff; and other employees and fix the salaries, subject to the limitations under par. (j) and s. 230.12 (3) (e), the duties and the term of office for each. The board shall fix the salaries, subject to the limitations under par. (j) and s. 230.12 (3) (e), and the duties for each chancellor, vice president, associate vice president, and assistant vice president of the system, department and schools.
(f) The board shall delegate to each chancellor the necessary authority for the administration and operation of the institution within the policies and guidelines established by the board. The board may also delegate or rescind other authority to chancellors, committees of the board, administrative officers, members of the faculty and students or such other groups as it deems appropriate.
(gm) The board shall not create, except as specifically authorized by the legislature in each instance, any new college, school or its functional equivalent if such college, school or functional equivalent has academic programs at the graduate or professional, post-baccalaureate level.
1. For the purposes of this paragraph, college or school means an academic unit below the institutional level but above the departmental level, including but not limited to a graduate school, law school, medical school, social work school, architecture school, business school and a public administration school.
2. For the purposes of this paragraph, a new college or school shall be deemed to have been created if an administrative position of dean or its functional equivalent is established and if a new instructional program, separate and distinct from the programs currently available at that institution, is established.
3. This paragraph does not apply to the redesignation or reorganization of existing colleges or schools if accomplished through the reclassification of existing positions or the restructuring of existing organizational entities.
(h) The board shall allocate funds and adopt budgets for the respective institutions giving consideration to the principles of comparable budgetary support for similar programs and equitable compensation for faculty and academic staff with comparable training, experience and responsibilities and recognizing competitive ability to recruit and retain qualified faculty and academic staff. If the board ceases or suspends operation of any institution or college campus, the appropriations to the board for operation

of the institution or college campus may be utilized by the board for any other purpose authorized by the appropriations within the period for which the appropriations are made.

(hm) The board shall develop policies for the purpose of specifically identifying the general purpose revenue and nongeneral purpose revenue funding sources used for noninstructional student activities and for the purpose of governing the allocation of funds to those nongeneral student activities supported by both general purpose and nongeneral purpose revenue.

(j) Except where such matters are a subject of bargaining with a certified representative of a collective bargaining unit under s. 111.91, the board shall establish salaries for persons prior to July 1 of each year for the next fiscal year, and shall designate the effective dates for payment of the new salaries. In the first year of the biennium, payments of the salaries established for the preceding year shall be continued until the biennial budget bill is enacted. If the budget is enacted after July 1, payments shall be made following enactment of the budget to satisfy the obligations incurred on the effective dates, as designated by the board, for the new salaries, subject only to the appropriation of funds by the legislature and s. 20.928 (3). This paragraph does not limit the authority of the board to establish salaries for new appointments. The board may not increase the salaries of employees under this paragraph unless the salary increase conforms to the proposal as approved under s. 230.12 (3) (e) or the board authorizes the salary increase to recognize merit, to correct salary inequities under par. (h), to fund job reclassifications or promotions, or to recognize competitive factors. The granting of salary increases to recognize competitive factors does not obligate inclusion of the annualized amount of the increases in the appropriations under s. 20.285 (1) for subsequent fiscal bienniums. No later than October 1 of each year, the board shall report to the joint committee on finance and the secretary of administration and the administrator of the division of personnel management in the department of administration concerning the amounts of any salary increases granted to recognize competitive factors, and the institutions at which they are granted, for the 12-month period ending on the preceding June 30.

The president shall fix the term of office for each senior vice president, vice president, associate vice president and assistant vice president of the system.

(b) The sum of the number of senior vice presidents and vice presidents may not exceed 4.

(c) The president shall appoint a special assistant to the president to serve as the director of the office of educational opportunity under s. 36.64. The special assistant serves at the pleasure of the president.

(3) THE CHANCELLORS. (a) The chancellor shall be the executive head of their respective faculties and institutions and shall be vested with the responsibility of administering board policies under the coordinating direction of the president and be accountable and report to the president and the board on the operation and administration of their institutions. Subject to board policy the chancellors of the institutions in consultation with their faculties shall be responsible for designing curricula and setting degree requirements; defining academic standards and establishing grading systems; defining and administering institutional standards for faculty peer evaluation and screening candidates for appointment, promotion and tenure; recommending individual merit increases; administering associated auxiliary services; and administering all funds, from whatever source, allocated, generated or intended for use of their institutions.

(b) The chancellor may designate a person as provost, to act as chief executive officer of the institution in the chancellor’s absence, if the person currently holds a limited appointment as vice chancellor, associate chancellor, assistant chancellor, associate vice chancellor or associate vice chancellor. The chancellor may not create an additional administrative position for the purpose of this paragraph.

(3m) MEANING OF “SUBJECT TO” IN CERTAIN PROVISIONS. In subs. (4) to (5), “subject to the responsibilities and powers” means subordinate to the responsibilities and powers.

(4) FACULTY. The faculty of each institution, subject to the responsibilities and powers of the board, the president, and the chancellor of such institution, shall have the primary responsibility for advising the chancellor regarding academic and educational activities and faculty personnel matters. The faculty of each institution shall have the right to determine their own faculty organizational structure and to select representatives to participate in institutional governance, except that the faculty of each institution shall ensure that faculty in academic disciplines related to science, technology, engineering, and mathematics are adequately represented in the faculty organizational structure.

(4m) ACADEMIC STAFF. The academic staff members of each institution, subject to the responsibilities and powers of the board, the president, the chancellor, and the faculty of the institution, shall have the primary responsibility for advising the chancellor regarding the formulation and review, and shall be represented in the development, of all policies and procedures concerning academic staff members, including academic staff personnel matters. The academic staff members of each institution shall have the right to organize themselves in a manner they determine and to select their representatives to participate in institutional governance.

(5) STUDENTS. The students of each institution or campus subject to the responsibilities and powers of the board, the president, the chancellor, and the faculty of the institution, shall have the primary responsibility for advising the chancellor regarding the formulation and review of policies concerning student life, services, and interests. Students in consultation with the chancellor and subject to the final confirmation of the board shall have the responsibility for the disposition of those student fees which constitute substantial support for campus student activities. The students of each institution or campus shall have the right to organize themselves in a manner they determine and to select their representatives to participate in institutional governance.

Sub. (5) gives student organizations, rather than the student body, the right to select representatives to participate in institutional governance.
separation of church and state provisions of the 1st amendment and article I, section 18, of the Wisconsin Constitution. 63 Att'y. Gen. 374.

Regents should identify how compulsory fees will be used to necessarily and con-vertively by the objects of the university before approving a segregated fee.Regent’s duties are unchanged under sub. (5). 63 Att'y. Gen. 385.

The financing of student organizations through mandatory student fees does not violate the 1st amendment if viewpoint neutrality is the operational principal. Board of Regents v. Southworth, 529 U.S. 217, 120 S. Ct. 1346, 146 L. Ed. 2d 193 (2000).

With one exception, the university’s speech, as required by Southworth, 529 U.S. 217 (2000), for distributing compelled fees collected from university students to stud-ent groups that delegates funding decisions to the student government was subject to sufficient limits. Southworth v. Board of Regents, 307 F.3d 566 (2002).

Although the 1st amendment establishment clause of the U.S. Constitution neither compels nor authorizes the university to categorically exclude funding of activities related to worship, proselytizing, and sectarian religious instruction with segregated fees, the university may nevertheless be able to exclude some or all of the activities to which it objects. The university is free to enact viewpoint neutral rules restricting access to segregated fees, for it may create what is tantamount to a limited public forum if the principles of viewpoint neutrality are respected. However, excluding an activity from the segregated fee forum pursuant to a content−based dis-tinction, the university must explain specifically why that particular activity, viewed as a whole, is outside the forum’s purposes. Roman Catholic Foundation v. Regents of University of Wisconsin System, 579 F. Supp. 2d 1121 (2008).

36.11 Powers and duties of the board of regents. (1) PROTECTION OF PEOPLE; CUSTODY AND MANAGEMENT OF PROP-ERTY. (a) The board may promulgate rules under ch. 227 to protect that property and safety of persons on property under its juris-diction and to protect such property and to prevent obstruction of the functions of the system. Any person who violates any rule pro-mulgated under this paragraph may be fined not more than $500 or imprisoned not more than 90 days or both.

(b) Except as provided in this paragraph and ss. 13.48 (14) (am) and 16.848 (1), the board may purchase, have custody of, hold, control, possess, lease, grant easements and enjoy any lands, buildings, books, records and all other property of any nature which may be necessary and required for the purposes, objects and uses of the system authorized by law. Any lease by the board is subject to the powers of the University of Wisconsin Hospitals and Clinics under s. 233.03 (1) and the rights of the board under any lease agreement, as defined in s. 233.01 (6). The board shall not permit a facility that would be privately owned or operated to be constructed on state-owned land without obtaining prior approval of the building commission under s. 13.48 (12). Subject to prior action under s. 13.48 (14) (am) or 16.848 (1), the board may sell or dispose of such property as provided by law, or any part thereof when in its judgment it is for the best interests of the system and the state. All purchases of real property shall be subject to the approval of the building commission. The provision of real property to be owned by the board for use other than for student housing shall be the responsibility of the board. The provision of all leases of real property to be occupied by the board for use as student housing shall be the responsibility of the department of administration under s. 16.84 (5), except for leases in effect on July 14, 2015, regardless of any subsequent extension, modification, or renewal, which shall be the responsibility of the board.

(c) The board may promulgate rules under ch. 227 for the manage-ment of all property under its jurisdiction, for the care and preservation thereof and for the promotion and preservation of the order and the uses of the system in any of its authorized activi-ties and in any or all of its institutions with forfeitures for their violation, which may be sued for and collected in the name of the board before any court having jurisdiction of such action. Forfei-tures shall not exceed $500.

(cm) The board shall promulgate rules under ch. 227 prescribing the times, places, and manner in which political literature may be distributed and political campaigning may be conducted in state-owned residence halls. No such rule may authorize any activity prohibited under s. 11.1207 (3) or (4).

(d) All fines imposed and collected under this subsection shall be transmitted to the county treasurer for disposition in accordance with s. 59.25 (3) (f) and (j). All forfeitures, including forfeitures of posted bail if any, imposed and collected under this sub-section shall be transmitted to the county treasurer for disposition in accordance with ss. 778.13 and 778.17.

(e) Subject to prior action under s. 13.48 (14) (am) or 16.848 (1), the board, with the approval of the building commission, may sell or lease state-owned residence halls to another state agency or nonprofit corporation for purposes of alternate use.

(2) POLICE AUTHORITY. (a) The board shall have concurrent police power, with other authorized peace officers, over all prop-erty subject to its jurisdiction, and all property contiguous to such property at the University of Wisconsin–Parkside if owned by a nonprofit corporation the primary purpose of which, as deter-mined by the board, is to benefit the system. Such concurrent police authority shall not be construed to (a) confer upon the authority of the police power of the community or communities in which a campus may be located. All campus police officers shall cooperate with and be responsive to the local police authori-ties as they meet and exercise their statutory responsibilities. The designated agents of the board may arrest, with or without warrant, any person on such property who they have reasonable grounds to believe has violated a state law or any rule promulgated under this chapter and deliver such person to any court having jurisdiction over the violation and execute a complaint charging such person with the violation. This subsection does not impair the duty of any other police officers within their jurisdictions to arrest and take before the proper court persons found violating any state law on such property.

(b) The board may employ police for the institutions and chiefs to head such police, or contract for police, all of whom shall be deemed peace officers under s. 939.22 (22) under the supervision and control of the appropriate chancellor or the chancellor’s designee. Such police officers shall meet the minimum standards established for other police officers by the law enforcement standards board or a comparable agency. Such police shall preserve the peace on all property described under par. (a) and all other laws, and for that purpose the chancellor or the chancellor’s designee may call for aid from such other persons as is deemed necessary.

Cross-reference: See also ch. UWS 18, Wis. adm. code.

(3) ADMISSION OF APPLICANTS. (a) Subject to sub. (3m), the board shall establish the policies for admission within the system and within these policies each institution shall establish specific requirements for admission to its courses of instruction. No secular or partisan tests or any tests based upon race, religion, national origin of U.S. citizens or sex shall ever be allowed in the admission of students thereto.

(b) Subject to s. 36.31 (2m), the board shall establish policies for the appropriate transfer of credits between institutions within the system, including postsecondary credits earned by a high school pupil enrolled in a course at an institution within the system under the program under s. 118.55. If the board determines that postsecondary credits earned by a high school pupil under the program under s. 118.55 are not transferable under this paragraph, the board shall permit the individual to take an examination to deter-mine the individual’s competency in the subject area of the course and, if the individual receives a passing score on the examination, shall award equivalent credits to the individual.

(c) Subject to s. 36.31 (2m), the board may establish policies for the appropriate transfer of credits with other educational institu-tions outside the system, including postsecondary credits earned by a high school pupil enrolled in a course at an educational institution outside the system under the program under s. 118.55. If the board determines that postsecondary credits earned by a high school pupil under the program under s. 118.55 are not transferable under this paragraph, the board shall permit the individual to take an examination to determine the individual’s competen-cy in the subject area of the course and, if the individual receives a passing score on the examination, shall award equiva-lent credits to the individual.
(cm) The board shall establish and maintain a computer-based credit transfer system that shall include, but not be limited to, the following:

1. All transfers of credit between institutions within the system.
2. Program-specific course requirements in the system.
3. Technical college collegiate transfer program offerings, as defined in s. 38.01 (3).
4. Other courses for which the transfer of credits is accepted under par. (b) or (c).
5. Core general education courses that are subject to the agreement required under s. 36.31 (2m) (b).

(d) Each institution that has any of the following applicants shall charge a uniform application fee to that group of applicants:
1. Undergraduate applicants.
2. Graduate school applicants.
3. Law school applicants.
4. Medical school applicants.

(3m) GUARANTEED ADMISSION PROGRAM. (a) In this subsection:
1. “College entrance examination score” means a composite ACT examination score resulting from a single test date.
2. “Home-based private educational program” has the meaning given in s. 115.001 (3g).
3. “Virtual private school” has the meaning given in s. 118.58 (1).

(b) The board shall establish a guaranteed admission program under which an applicant for undergraduate admission shall be admitted to the institution of the applicant’s choice if the applicant satisfies the requirements under this subsection.

(c) An applicant is eligible for guaranteed admission to an institution if all of the following apply:
1. The applicant applies to the institution for admission as a first-year undergraduate student during the applicant’s 4th year of high school or final year of enrollment in a home-based private educational program in this state or in a virtual private school.
2. Except as provided in par. (d), the applicant satisfies any of the following criteria:
   a. The applicant is enrolled in a public, private, or tribal high school in this state and the applicant is ranked in the top 10 percent of the applicant’s high school class, as determined under s. 118.58.
b. The applicant is enrolled in a home-based private educational program in this state, or in a virtual private school and the applicant is a resident of this state, and the applicant achieves a college entrance examination score that places the applicant in the national 98th percentile ranking or higher.
c. The applicant has been designated as a finalist in the National Merit Scholarship Program administered by the National Merit Scholarship Corporation or has achieved an equivalent designation under a successor program or by a successor organization.
(d) An institution may verify information provided by an applicant or appearing on an applicant’s high school transcript in determining an applicant’s eligibility for guaranteed admission under this subsection.

(e) If an applicant applies for admission to more than one institution, the applicant is eligible for guaranteed admission under this subsection to only one institution, as designated by the applicant but subject to par. (d).

(f) An institution may verify information provided by an applicant or appearing on an applicant’s high school transcript in determining an applicant’s eligibility for guaranteed admission under this subsection.

(g) An institution may revoke an offer of admission the institution extended to an applicant under this subsection if any of the following applies:
1. The applicant is not granted a high school diploma prior to the institution’s scheduled enrollment date.
2. The applicant engages in academic misconduct, or the applicant experiences significantly declining grades after the application is submitted, to an extent that would justify, under the institution’s admissions policies, revoking an offer of admission extended to an applicant who has not applied for admission under this subsection.
3. The applicant misrepresented to the institution the applicant’s class rank, college entrance examination score, or status as a finalist in the National Merit Scholarship Program.

(h) This subsection does not guarantee an applicant admission to any specific program offered by an institution or to any specific college, school, or functional equivalent within an institution.

(4) INJUNCTIVE RELIEF. The board may obtain injunctive relief to enforce this chapter or any rules promulgated under this chapter.

(5) INSURANCE. (a) The board may procure liability insurance covering the members of the board, any officer, employee, or agent, or such students whose activities may constitute an obligation or responsibility of the system.

(b) The board may procure insurance to cover injuries sustained by students as a result of their participation in intercollegiate athletics. With respect to any of the risks to be covered by the insurance, the board may contract for the services of an insurance administrator and may obtain coverage by any combination of self-insurance, excess or stop-loss insurance or blanket insurance.

(6) FINANCIAL AIDS. (a) The board may:
1. Make grants to students from funds budgeted to or controlled by the system and formulate policies and promulgate rules for the grants.
2. Make grants equivalent in value to the payment of incidental fees to disabled residents of the state who are recommended and supervised by the department of workforce development under s. 47.02.
3. Make grants equivalent in value to the payment of incidental fees to disabled residents of the state who are recommended and supervised by the department of workforce development under s. 47.02.

(b) The board may not make a grant under par. (a) to a person whose name appears on the statewide support lien docket under s. 49.854 (2) (b), unless the person provides to the board a payment agreement that has been approved by the county child support agency under s. 59.53 (5) and that is consistent with rules promulgated under s. 49.858 (2).

(c) By February 10 of each year, the board shall develop and submit to the higher educational aids board for its review under s. 39.285 (1) a proposed formula for the awarding of grants under s. 39.435, except for grants awarded under s. 39.435 (2) or (5), for the next fiscal year to students enrolled in the system.

(7) CONFERENCE DEGREES. The board may confer such degrees and grant such diplomas as are usual in universities or as it deems appropriate.

(8) PARKING RULES. (a) The board may make general policies and shall authorize the chancellors to adopt rules regulating the parking of motor vehicles on property under their jurisdiction. Such rules shall not be subject to ch. 227.

The exclusion of contraceptives from an employer or college or university sponsored benefits programs that otherwise provides prescription drug coverage violates Wisconsin law prohibiting sex discrimination in employment and in higher education, ss. 111.31 to 111.395, 36.12, and 38.23. DAG 1-04.

Student body diversity is a compelling state interest that can justify the use of race in university admissions. A race-conscious admissions program cannot use a quota system, but may consider race or ethnicity as a plus factor for an applicant, without insulating the individual from comparison with all other candidates for the available seats.

An admissions program must be flexible enough to consider all pertinent elements of diversity in light of the particular qualifications of each applicant, and to place them on the same footing for consideration, although not necessarily according them the same weight. Race-conscious admissions programs must be limited in time.

Grutter v. Bollinger, 539 U.S. 306, 123 S. Ct. 2325, 156 L. Ed. 2d 857 (2003), strict scrutiny must be applied to any university admissions program using racial categories or classifications.

Once the university has established that its goal of diversity is consistent with strict scrutiny, there must still be a further judicial determination that the admissions process meets strict scrutiny in its implementation. The university must prove that the means chosen by the university to attain diversity are narrowly tailored to the goal.

Under Grutter, 539 U.S. 306 (2003), strict scrutiny must be applied to any university admissions program using racial categories or classifications.

Once the university has established that its goal of diversity is consistent with strict scrutiny, there must still be a further judicial determination that the admissions process meets strict scrutiny in its implementation. The university must prove that the means chosen by the university to attain diversity are narrowly tailored to the goal.

The Court has permitted race-based admissions only within the confines of narrow restrictions. University programs must comply with strict scrutiny, they may never use race as a stereotype or negative, and at some point they must end. In this case, the respondents’ admissions systems, however well-intentioned and implemented in good faith, failed each of those criteria and must therefore be invalidated under the equal protection clause of the 14th amendment to the U.S. Constitution. Students for Fair Admissions, Inc. v. President & Fellows of Harvard College, 600 U.S. ___ , 136 S. Ct. 2141, 216 L. Ed. 2d 857 (2023).

This amount represents an average subsidy of $... from the taxpayers of Wisconsin for each student enrolled in the University of Wisconsin System.”

2. The board shall calculate the average subsidy for the purpose of the fee statement under subd. 1. by dividing state funds in the appropriate fiscal year by the number of full−time equivalent students enrolled in the system in the most recent fall semester.

(c) 1. The board shall ensure that the segregated fees applicable to each institution and college campus are posted on the Internet website of the institution or college campus. The board shall also ensure that detailed information on the organizations and activities for which allocable segregated fees are expended at each institution and college campus are posted on the Internet web site of the institution or college campus.

A student who challenges the student’s nonresident status unsuccessfully must reaply before the beginning of any new semester when the student claims that status has changed. Hancock v. Regents of University of Wisconsin, 36.29 Gifts; golf course. (1)

36.37 Downer Woods and buildings preservation. (1) STATEMENT OF PURPOSE. The purpose of this section is to promote the permanent conservation and enhancement, by the University of Wisconsin−Milwaukee, of the area known as Downer Woods; to designate and protect, as a permanent conservancy area, at least 10 acres of the woods, and fund limited modification, in a manner consistent with the aforesaid purposes of that portion of the woods whose present character as park and woodland lends itself to utilization, by the university and the surrounding community, as essential recreational and aesthetic corridors.

2. LEGISLATIVE FINDINGS. The legislature finds it in the public interest to recognize and foster the principle of environmental quality in the area known as Downer Woods by preserving it as a conservancy area and protecting it, consistent with sub. (4), from encroachment or disparate uses. The woods is the sole remaining natural area remaining on the campus of the University of Wisconsin−Milwaukee, and as such, its preservation and enhancement is consistent with the university’s recognition of its need to protect and enhance its own physical environment, and to serve the pressing human need of its faculty, students and staff, as well as the greater Milwaukee community, to live and work in an urban environment which respects those portions of unspoiled nature which yet exist. The woods is a unique asset; it provides visual relief to the concentrated building pattern surrounding it, complements the urban landscape and affords aesthetically and psychologically attractive places for people to congregate and relax. In addition, the woods serves as a refuge for wildlife and vegetation, and is, therefore, an important educational, scientific and ecological resource to the university and the community. Its presence imparts priceless recreational and aesthetic values.

3. DEFINITIONS. In this section, “Downer Woods” or “the woods” means those parcels of wood, parkland and buildings comprising more than 21.4337 acres located on the campus of the University of Wisconsin−Milwaukee, and divided into 5 separate and distinct categories, which categories shall define the proper and permissible uses of the parcels, as follows:

(a) Permanent conservation area, consisting of 11.101 acres, which is to be physically defined by means of fencing or other suitable means.
(b) Permanently reserved woodland, consisting of 3.018 acres.
(c) Park and woodland areas, consisting of 4.686 acres, which may be subject to limited modification, such as landscaping, but which are to be protected from disparate uses and encroachment.
(d) The buildings and grounds of the former Downer college with any reconstruction or renovation which may be authorized by the board.
(e) Park and woodland areas, consisting of 2.6287 acres, which may be subject to limited modifications, such as landscaping and utility lines.

4. DOWNER WOODS CONSERVATION. (a) That portion of Downer Woods designated a permanent conservation area is to be forever protected from encroachment or disparate uses, and its boundaries are to be defined and protected by fencing or other suitable means. The chancellor of the University of Wisconsin−Milwaukee, through the University of Wisconsin−Milwaukee Field Station, shall prepare and implement a Downer Woods natural area management and restoration plan to ensure that the conservation area is managed properly as a natural area.

The board shall grant a temporary easement sufficient to facilitate the construction of the addition, and whenever necessary to facilitate the maintenance of Sandburg Hall, conditioned upon the ecological restoration of the area within the easement.

(c) Those portions of Downer Woods designated as park and woodland areas under sub. (3) (c) and (e) may be used by the University of Wisconsin–Milwaukee as recreational and aesthetic corridors. Any modifications made to such portions of the woods under sub. (3) (c) and (e) may not significantly alter the present character of such land, and any disparate uses to or encroachments upon such land are prohibited.

(d) The buildings of the former Downer college shall be preserved and no portion thereof may be razed without prior approval of the building commission.

(a) “Authorized elderly person” means any resident of this state who is 60 years of age or older, and the spouse of any such person.

(b) “Institution” includes any private institution of higher education.

(2) Any college campus or institution approved by the board may establish a system to provide the opportunity for authorized elderly persons to participate in its meal program. If a college campus or institution desires to establish such a service, it shall develop a plan for the provision of food services for elderly persons and submit the plan to the board. Annually, the board shall notify the department of public instruction of the approved college campuses and institutions.

(3) Each plan shall provide at least one meal per day for each day that school is in regular session. The college campus or institution may provide additional service at other times in its discretion, if the number of eligible persons in the area is of sufficient size, in the opinion of the board, so that unwarranted production expense is not incurred.

(4) Any college campus or institution that operates a food services plan for elderly persons under this section shall make facilities available for service to elderly persons at every facility that provides hot food service to its students. Upon application, the board may grant exceptions from compliance with this subsection for reasons of safety, convenience or insufficient interest in a given neighborhood.

(5) Meals may be served at schools where they are served to students or at any site more convenient to the majority of authorized elderly persons interested in the service. Food may be transported to authorized elderly persons who are unable to leave their homes or distributed to nonprofit organizations for such purposes. However, no state funds under this section may be used for food delivery to individual homes. The board may require consolidation of programs between college campuses and institutions and between schools if such a procedure will be convenient and economical.
(6) The college campus or institution may file a claim with the department of public instruction for reimbursement for reasonable expenses incurred, excluding capital equipment costs, but not to exceed 15 percent of the cost of the meal or 50 cents per meal, whichever is less. Any cost in excess of the lesser amount may be charged to participants. If the department of public instruction approves the claim, it shall certify that payment is due and the secretory of administration shall pay the claim from the appropriation under s. 20.255 (2) (cn).

(7) All meals served must meet the approval of the board, which shall establish minimum nutritional standards and reasonable expenditure limits consistent with the standards and limits established by the state superintendent of public instruction under s. 115.345 (6). The board shall give special consideration to the dietary problems of elderly persons in formulating a nutritional plan. However, no college campus or institution may be required to provide special foods for individual persons with allergies or medical disorders.

(8) Participants in a program under this section may be required to document their Wisconsin residency in a manner approved by the board. The board may issue identification cards to such persons if necessary. A college campus or institution may admit nonresidents who would otherwise qualify into its program, but no state funds under this section may be used to subsidize any portion of the meals served to such persons.

(9) The board shall adopt reasonable rules necessary to implement this section.
