Information contained in reports filed with the board under s. 49.45 (2) (a) 12r., 50.36 (3) (b), 609.17 or 632.715, or under 42 CFR 1001.2005, shall be investigated by the board. 2015−16 Wisconsin Statutes updated through 2017 Wis. Act 36 and all Supreme Court and Controlled Substances Board Orders effective on or before July 22, 2017. Published and certified under s. 35.18. Changes effective after July 22, 2017 are designated by NOTES. (Published 7−22−17)
evidence that the finding of negligence in treatment was made. The board shall render a decision within 90 days after the date on which the hearing is held or, if subsequent proceedings are conducted under s. 227.46 (2), within 90 days after the date on which those proceedings are completed.

(c) Subject to par. (cm), after a disciplinary hearing, the board may, when it determines that a panel established under s. 655.02, 1983 stats., has unanimously found or a court has found that a person has been negligent in treating a patient or when it finds a person guilty of unprofessional conduct or negligence in treatment, do one or more of the following: warn or reprimand that person, or limit, suspend or revoke any license or certificate granted by the board to that person. The board may condition the removal of limitations on a license or certificate or the restoration of a suspended or revoked license or certificate upon obtaining minimum results specified by the board on one or more physical, mental or professional competency examinations if the board believes that obtaining the minimum results is related to correcting one or more of the bases upon which the limitation, suspension or revocation was imposed.

(cm) The board may initiate disciplinary action against a physician no later than one year after initiating an investigation of an allegation involving the death of a patient and no later than 3 years after initiating an investigation of any other allegation, unless the board shows to the satisfaction of the secretary that a specified extension of time is necessary for the board to determine whether a physician is guilty of unprofessional conduct or negligence in treatment. For purposes of this paragraph, the date on which a matter is reopened under sub. (8) (c) is considered the date that an investigation of the matter is initiated.

(e) A person whose license or certificate is limited under this subchapter shall be permitted to continue practice upon condition that the person will refrain from engaging in unprofessional conduct; that the person will appear before the board or its officers or agents at such times and places as may be designated by the board; from time to time; that the person will fully disclose to the board or its officers or agents the nature of the person’s practice and conduct; that the person will fully comply with the limits placed on his or her practice and conduct by the board; that the person will obtain additional training, education or supervision required by the board; and that the person will cooperate with the board.

(f) Unless a suspended license or certificate is revoked during the period of suspension, upon the expiration of the period of suspension the license or certificate shall again become operative and effective. However, the board may require the holder of any such suspended license or certificate to pass the examinations required for the original grant of the license or certificate before allowing such suspended license or certificate again to become operative and effective.

(g) The board shall comply with rules of procedure for the investigation, hearing and action promulgated under ss. 440.03 (1) and 448.40.

(h) Nothing in this subsection prohibits the board, in its discretion, from investigating and conducting disciplinary proceedings on allegations of unprofessional conduct by persons holding a license or certificate granted by the board when the allegations of unprofessional conduct may also constitute allegations of negligence in treatment.

Cross-reference: See also ch. Med 10, Wis. adm. code.

(4) SUSPENSION PENDING HEARING. (a) The board may summarily suspend any license or certificate granted by the board when the board has in its possession evidence establishing probable cause to believe that the holder of the license or certificate has violated the provisions of this subchapter and that it is necessary to suspend the license or certificate immediately to protect the public health, safety, or welfare. The holder of the license or certificate shall be granted an opportunity to be heard during the determination of probable cause. The board chair and 2 board members designated by the vice–chair, shall exercise the authority granted by this paragraph to suspend summarily a license or certificate in the manner provided under par. (b).

(b) An order of summary suspension shall be served upon the holder of the license or certificate in the manner provided in s. 801.11 for service of summons. The order of summary suspension shall be effective upon service or upon actual notice of the summary suspension given to the holder of the license or certificate or to the attorney of the license or certificate holder, whichever is sooner. A notice of hearing commencing a disciplinary proceeding shall be issued no more than 10 days following the issuance of the order of summary suspension. The order of summary suspension remains in effect until the effective date of a final decision and order in the disciplinary proceeding against the holder or until the order of summary suspension is discontinued by the board following a hearing to show cause. The holder of the license or certificate shall have the right to request a hearing to show cause why the order of summary suspension should not be continued and the order of summary suspension shall notify the holder of the license or certificate of that right. If a hearing to show cause is required by the holder of the license or certificate, the hearing shall be scheduled on a date within 20 days of receipt by the board of the request for the hearing to show cause.

(5) VOLUNTARY SURRENDER. The holder of any license or certificate granted by the board may voluntarily surrender the license or certificate to the secretary of the board, but the secretary may refuse to accept the surrender if the board has received allegations of unprofessional conduct against the holder of the license or certificate. The board may negotiate stipulations in consideration for accepting the surrender of licenses.

(6) RESTORATION OF LICENSE OR CERTIFICATE. The board may restore any license or certificate that has been voluntarily surrendered or revoked under any of the provisions of this subchapter, on such terms and conditions as it may deem appropriate.

(7) HOSPITAL REPORTS. (a) Within 30 days of receipt of a report under s. 50.36 (3) (c), the board shall notify the licensee, in writing, of the substance of the report. The licensee and the licensee’s authorized representative may examine the report and may place into the record a statement, of reasonable length, of the licensee’s view of the correctness or relevance of any information in the report. The licensee may institute an action in circuit court to amend or expunge any part of the licensee’s record related to the report.

(b) If the board determines that a report submitted under s. 50.36 (3) (c) is without merit or that the licensee has sufficiently improved his or her conduct, the board shall remove the report from the licensee’s record. If no report about a licensee is filed under s. 50.36 (3) (c) for 2 consecutive years, the licensee may petition the board to remove any prior reports, which did not result in disciplinary action, from his or her record.

(c) Upon the request of a hospital, the board shall provide the hospital with all information relating to a licensee’s loss, reduction or suspension of staff privileges from other hospitals and all information relating to the licensee’s being found guilty of unprofessional conduct. In this paragraph, “hospital” has the meaning specified under s. 50.33 (2).

(8) ADMINISTRATIVE WARNING. (a) After an investigation by the board under sub. (3) (a) or by the department under s. 440.03 (3m) or (5), the board may issue a private and confidential administrative warning under this paragraph only if the board determines that no further action is warranted because the matter involves a first occurrence of minor misconduct and the issuance of an administrative warning adequately protects the public by putting the holder of the license or certificate on notice that any subsequent misconduct may result in disciplinary action. The board shall review the determination if the holder of the license or certificate makes a personal appearance before the board. Following the review, the board may affirm,
rescind or modify the administrative warning. A holder of a license or certificate may seek judicial review under ch. 227 of an affirmation or modification of an administrative warning by the board.

(b) An administrative warning issued under par. (a) does not constitute an adjudication of guilt or the imposition of discipline and may not be used as evidence that the holder of a license or certificate is guilty of misconduct.

(c) Notwithstanding par. (b), if the board receives a subsequent allegation of misconduct about a holder of a license or certificate to whom the board issued an administrative warning under par. (a), the board may reopen the matter that resulted in the issuance of the administrative warning or use the administrative warning in the subsequent disciplinary hearing under sub. (3) (b) as evidence that he or she had actual knowledge that the misconduct that was the basis for the administrative warning was contrary to law.

(d) The record that an administrative warning was issued under par. (a) shall be a public record. The contents of an administrative warning shall be private and confidential.

(9) JUDICIAL REVIEW. No injunction, temporary injunction, stay, restraining order or other order may be issued by a court in any proceeding for review that suspends or stays an order of the board to discipline a physician under sub. (3) (c) or to suspend a physician’s license under sub. (4), except upon application to the court and a determination by the court that all of the following conditions are met:

(a) The board has received notice of the application and the court has provided advance notice to the board of the date of the court hearing on the application.

(b) There is a substantial likelihood that the applicant will prevail in the proceeding for review.

(c) The applicant will suffer irreparable harm if the order is not suspended or stayed.

(d) There is no substantial likelihood of harm to patients of the applicant if the board’s order is suspended or stayed.

Reading sub. (3) (b) in conjunction with s. 227.46 (2), a “hearing” for purposes of computing the time period for rendering a decision includes the taking of evidence and all subsequent proceedings. Sweet v. Medical Examining Board, 147 Wis. 2d 539, 433 N.W.2d 614 (Cl. App. 1988).

There is a 5–pronged test to guide the Board in determining whether a physician improperly treated a patient. The Board must provide a written decision that separately identifies the 5 elements and discusses the evidence that relates to each element and provides details of why the evidence supports the Board’s findings. Gimenez v. State Medical Examining Board, 203 Wis. 2d 349, 553 N.W.2d 863 (Cl. App. 1996), 95–2641.

As used in this section, “negligence in treatment” means medical negligence, as defined by Wisconsin courts, which holds a doctor to the standard of reasonable care. The “reasonable physician” is not synonymous with the “average physician.” Dept. of Regulation and Licensing v. Medical Examining Board, 215 Wis. 2d 188, 572 N.W.2d 506 (Cl. App. 1997), 97–0452.

The 5–pronged test of Gimenez does not apply to cases in which fraud and misrepresentation are alleged. Gimenez expressly limits the application of the test to cases where the medical professional is charged with choosing a course of treatment that is dangerous or detrimental to his or her patient or the public. It does not apply to allegations of unprofessional conduct by perpetrating a fraud on a patient in an attempt to obtain compensation. Keahanulil v. Wisconsin Dentistry Examining Board, 2046 W1 App 73, 292 Wis. 2d 154, 713 N.W.2d 152, 05–1376.

The 90–day direction in sub. (3) (b) for rendering a decision is mandatory. 72 Att’y Gen. 147.

The medical examining board does not deny due process by both investigating and adjudicating a charge of professional misconduct. Withrow v. Larkin, 421 U.S. 35, 95 S. Ct. 1456, 43 L. Ed. 2d 712 (1975).

(d) No registration may be permitted by the secretary of the board in the case of any physician or perfusionist who has failed to meet the requirements of s. 448.13 or any person whose license or certificate has been suspended or revoked and the registration of any such person shall be deemed automatically annulled upon receipt by the secretary of the board of a verified report of such suspension or revocation, subject to the person’s right of appeal. A person whose license or certificate has been suspended or revoked and subsequently restored shall be registered by the board upon tendering a verified report of such restoration of the license or certificate, together with an application for registration and the registration fee.

Such hospitals may charge patients directly for the services of their employee nurses, nonphysician anesthetists, physical therapists and medical assistants other than physicians or dentists, and may engage on a salary basis internists and residents who are participating in an accredited training program under the supervision of the hospital’s staff, and persons with a resident educational license issued under s. 448.04 (1) (bm).

(c) No hospital or medical education and research organization may limit staff membership to physicians employed under this subsection.

(d) The responsibility of physician to patient, particularly with respect to professional liability, shall not be altered by any employment contract under this subsection.

(1m) PHYSICIANS. A physician who violates any provision of this subchapter, except s. 448.08 (3), or any rule promulgated under this subchapter may be fined not more than $25,000 or imprisoned not more than 9 months or both.

(3) **ADVERTISE BOARD.** The council shall advise the board on:
(a) Revising physician assistant licensing and practice standards and on matters pertaining to the education, training and licensing of physician assistants.

**History:** 1975 c. 383; 1993 a. 105, 399, 491; 1997 a. 67.

### 448.22 Anesthesiologist assistants

(1) **IN THIS SECTION.** "Supervision" means the use of the powers of direction and decision to coordinate, direct, and inspect the accomplishments of another, and to oversee the implementation of the anesthesiologist’s intentions.

(2) An anesthesiologist assistant may assist an anesthesiologist with the delivery of medical care only under the supervision of an anesthesiologist and only as described in a supervision agreement between the anesthesiologist assistant and an anesthesiologist who represents the anesthesiologist assistant’s employer.

The supervising anesthesiologist shall be immediately available in the same physical location or facility in which the anesthesiologist assistant assists in the delivery of medical care such that the supervising anesthesiologist is able to intervene if needed.

**History:** 1993 a. 254; 1997 a. 104; 2009 a. 382.

(4) An anesthesiologist assistant’s practice may not exceed his or her education and training, the scope of practice of the supervising anesthesiologist, and the practice outlined in the anesthesiologist assistant supervision agreement. A medical care task assigned by the supervising anesthesiologist to the anesthesiologist assistant may not be delegated by the anesthesiologist assistant to another person.

(L) Supervising student anesthesiologist assistants.
(6) An anesthesiologist who represents an anesthesiologist assistant’s employer shall review a supervision agreement with the anesthesiologist assistant at least annually. The supervision agreement shall be available for inspection at the location where the anesthesiologist assistant practices. The supervision agreement may limit the practice of an anesthesiologist assistant to less than the full scope of practice authorized under sub. (5).
(7) An anesthesiologist assistant shall be employed by a health care provider, as defined in s. 655.001 (8), that is operated in this state for the primary purpose of providing the medical services of physicians or that is an entity described in s. 655.002 (1) (g), (h), or (i). A student in an anesthesiologist assistant training program shall be identified as a student anesthesiologist assistant or an anesthesiologist assistant student and may not be identified as an “intern,” “resident,” or “fellow.”

History: 2011 a. 160.

448.30 Informed consent. Any physician who treats a patient shall inform the patient about the availability of reasonable alternate medical modes of treatment and about the benefits and risks of these treatments. The reasonable physician standard is the standard for informing a patient under this section. The reasonable physician standard requires disclosure only of information that a reasonable physician in the same or a similar medical specialty would know and disclose under the circumstances. The physician’s duty to inform the patient under this section does not require disclosure of:
(2) Detailed technical information that in all probability a patient would not understand.
(3) Risks apparent or known to the patient.
(4) Extremely remote possibilities that might falsely or detrimentally alarm the patient.
(5) Information in emergencies where failure to provide treatment would be more harmful to the patient than treatment.
(6) Information in cases where the patient is incapable of consenting.
(7) Information about alternate medical modes of treatment for any condition the physician has not included in his or her diagnosis at the time the physician informs the patient.

History: 1981 c. 375; 2013 a. 111.

Cross-reference: See also ch. Med 18, Wis. adm. code.

A one to three in 100 chance of a condition’s existence is not an “extremely remote possibility” under sub. (4) when very serious consequences could result if the condition is present. Martin v. Richards, 192 Wis. 2d 156, 531 N.W.2d 70 (1995).

A doctor has a duty under this section to advise of alternative modes of diagnosis as well as of alternative modes of treatment for diagnosed conditions. Martin v. Richards, 192 Wis. 2d 156, 531 N.W.2d 70 (1995).

A doctor’s failure constitutes informed consent under this section (1993 stats.) emanates from what a reasonable person in the patient’s position would want to know. What a physician must disclose is contingent on what a reasonable person would need to know to make an informed decision. What different physicians have substantially different success rates with a procedure and a reasonable person would consider that information material, a court may admit statistical evidence of the relative risk. Johnson v. Konen, 199 Wis. 2d 613, 545 N.W.2d 495 (1996), 93-3099.

Johnson v. Konen, 199 Wis. 2d 613, 545 N.W.2d 495 (1996), 93-3099.

A hospital does not have the duty to ensure that a patient has given informed consent to a procedure performed by an independent physician. Mathias v. St. Catherine’s Hospital, Inc., 212 Wis. 2d 540, 569 N.W.2d 330 (Ct. App. 1997), 96-1632.

The onset of a procedure does not categorically foreclose withdrawal of a patient’s consent. Withdrawal of consent removes the doctor’s authority to continue and obligates the doctor to conduct another informed consent discussion. In this type of informed consent case where the issue is not whether the patient was given the pertinent information so that the patient’s choice was informed, but rather whether the patient was given an opportunity to make a choice after having all of the pertinent information, the cause question is, “What did the patient himself or herself want?” Schuchert v. Physicians Insurance Co. 223 Wis. 2d 417, 568 N.W.2d 26 (1999), 96-3676.

As a general rule, patients have a duty to exercise ordinary care for their own health. Under limited, enumerated circumstances, contributory negligence may be a defense in an informed consent case. A doctor is not restricted to only the defenses listed under this section, but a court should be cautious in giving instructions on non-strietary defenses. Brown v. Dibbell, 227 Wis. 2d 28, 595 N.W.2d 358 (1999), 97-2181.

In the absence of a persistent vegetative state, the right of a parent to withhold life-sustaining treatment from a child does not exist and the need for informed consent is not triggered when life-sustaining treatment is performed. Montalvo v. Borkovec, 2002 WI App 147, 256 Wis. 2d 472, 647 N.W.2d 413, 01-1933.

A patient’s consent to treatment is not categorically immutable once it has been given. A physician must initiate a new informed consent discussion when there is a substantial change in circumstances, be it medical or legal. Here, the decedent’s post-operative complications did not at some point become a substantial change in medical circumstances necessitating a second informed consent discussion, because it was undisputed that the decedent was informed of the risks he later faced. Hagner v. Bodenstein, 2009 WI App 10, 316 Wis. 2d 240, 762 N.W.2d 452, 08-0133.

This section (2007 stats.) requires any physician who treats a patient to inform the patient about the availability of all alternate, viable medical modes of treatment,
including diagnosis, as well as the benefits and risks of such treatments. Although the jury determined a physician was not negligent in his standard of care for failing to employ an alternative when treating the defendant, that did not relieve the physician of the duty to inform the patient about the availability of all alternate, viable medical modes of treatment. Bubb v. Brusky, 2009 WI 91, 321 Wis. 2d 1, 768 N.W.2d 903, 07-0619.

Neither case law or this section (2011 stats.) limits the physician’s duty to inform the patient of modes of treatment only for the final diagnosis. The distinction between conditions “related” to the final diagnosis and conditions “unrelated” to the final diagnosis finds no support in the statute or case law. A physician’s duty is to inform the patient about diagnostic procedures about which a reasonable patient would want to know to make an informed, voluntary decision about his or her medical care, even if those diagnostic procedures are aimed at conditions that are unrelated to the condition that was the final diagnosis. Jandre v. Physicians Insurance Company of Wisconsin, 2012 WI 39, 340 Wis. 2d 31, 813 N.W.2d 627, 08-1972.

The doctrine of informed consent is limited to apprising the patient of risks that inhere to proposed treatments. It does not impose a duty to apprise a patient of any knowledge the doctor may have regarding the condition of the patient or of all possible methods of diagnosis. McGeshick v. Choncar 9 F.3d 1229 (1993).

448.40 Rules. (1) The board may promulgate rules to carry out the purposes of this subchapter, including rules requiring the completion of continuing education, professional development, and maintenance of certification or performance improvement or continuing medical education programs for renewal of a license to practice medicine and surgery. (2) The board shall promulgate all of the following rules: (a) Implementing s. 448.30. (b) Establishing the scope of the practice of perfusion. In promulgating rules under this paragraph, the board shall consult with the perfusionists examining council. 448.675 Disciplinary proceedings and actions.

(1) INVESTIGATION; HEARING; ACTION. (a) The affiliated credentialing board shall investigate allegations of unprofessional conduct and negligence in treatment by a licensee. Information contained in reports filed with the affiliated credentialing board under s. 49.45 (2) (a) 12r., 50.36 (3) (b), 609.17 or 632.715, or under 42 CFR 1001.2005, shall be investigated by the affiliated credentialing board. Information contained in a report filed with the affiliated credentialing board under s. 50.36 (3) (c) may, within the discretio of the affiliated credentialing board, be used as the basis of an investigation of a person named in the report. The affiliated credentialing board may require a licensee to undergo and may consider the results of a physical, mental or professional competency examination if the affiliated credentialing board believes that the results of the examination may be useful to the affiliated credentialing board in conducting its investigation.

(b) After an investigation, if the affiliated credentialing board finds that there is probable cause to believe that the person is guilty of unprofessional conduct or negligence in treatment, the affiliated credentialing board shall hold a hearing on such conduct. The affiliated credentialing board may require a licensee to undergo and may consider the results of a physical, mental or professional competency examination if the affiliated credentialing board believes that the results of the examination may be useful to the affiliated credentialing board in conducting its hearing. A certified copy of the order of a court is presumptive evidence that the finding of negligence in treatment was made. The affiliated credentialing board shall render a decision within 90 days after the date on which the hearing is held or, if subsequent proceedings are conducted under s. 227.46 (2), within 90 days after the date on which those proceedings are completed.

(c) After a disciplinary hearing, the affiliated credentialing board may, when it determines that a court has found that a person has been negligent in treating a patient or when it finds a person guilty of unprofessional conduct or negligence in treatment, do one or more of the following: warn or reprimand that person, or limit, suspend or revoke a license granted by the affiliated credentialing board to that person. The affiliated credentialing board may condition the removal of limitations on a license, or the restoration of a suspended or revoked license, upon obtaining minimum results specified by the affiliated credentialing board on a physical, mental or professional competency examination if the affiliated credentialing board believes that obtaining the minimum results is related to correcting one or more of the bases upon which the limitation, suspension or revocation was imposed.

(d) A person whose license is limited shall be permitted to continue practice if the person agrees to do all of the following:

1. Refrain from engaging in unprofessional conduct.
2. Appear before the affiliated credentialing board or its officers or agents at such times and places designated by the affiliated credentialing board.
3. Fully disclose to the affiliated credentialing board or its officers or agents the nature of the person’s practice and conduct.
4. Fully comply with the limits placed on his or her practice and conduct by the affiliated credentialing board.

process that allows physicians to become licensed in multiple states, thereby enhancing the portability of a medical license and ensuring the safety of patients. The compact creates another pathway for licensure and does not otherwise change a state’s existing medical practice act. The compact also adopts the prevailing standard for licensure and affirms that the practice of medicine occurs where the patient is located at the time of the physician—patient encounter, and therefore, requires the physician to be under the jurisdiction of the state medical board where the patient is located. State medical boards that participate in the compact retain the jurisdiction to impose an adverse action against a license to practice medicine in that state issued to a physician through the procedures in the compact.

The interstate commission shall defend the executive director, its employees, and subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an interstate commission representative, shall defend such interstate commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error or omission that occurred within the scope of interstate commission employment, duties or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

4. To the extent not covered by the state involved, member state, or the interstate commission, the representatives or employees of the interstate commission shall be held harmless in the amount of a settlement or judgment, including attorney fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

(15) SECTION 15 — RULE-MAKING FUNCTIONS OF THE INTERSTATE COMMISSION. (a) The interstate commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of the compact. Notwithstanding the foregoing, in the event the interstate commission exercises its rule–making authority in a manner that is beyond the scope of the purposes of the compact, or the powers granted hereunder, then such an action by the interstate commission shall be invalid and have no force or effect.

(b) Rules deemed appropriate for the operations of the interstate commission shall be made pursuant to a rule–making process that substantially conforms to the “Model State Administrative Procedure Act” of 2010, and subsequent amendments thereto.

(c) Not later than 30 days after a rule is promulgated, any person may file a petition for judicial review of the rule in the United States District Court for the District of Columbia or the federal district where the interstate commission has its principal offices, provided that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the interstate commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the authority granted to the interstate commission.

(16) SECTION 16 — OVERSIGHT OF INTERSTATE COMPACT. (a) The executive, legislative, and judicial branches of state government in each member state shall make the compact and shall take all actions necessary and appropriate to effectuate the compact’s purposes and intent. The provisions of the compact and the rules promulgated hereunder shall have standing as statutory law but shall not override existing state authority to regulate the practice of medicine.

(b) All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of the compact which may affect the powers, responsibilities or actions of the interstate commission.

(c) The interstate commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the interstate commission shall render a judgment or order void as to the interstate commission, the compact, or promulgated rules.

(17) SECTION 17 — ENFORCEMENT OF INTERSTATE COMPACT. (a) The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of the compact.

(b) The interstate commission may, by majority vote of the commissioners, initiate legal action in the United States District Court for the District of Columbia, or, at the discretion of the interstate commission, in the federal district where the interstate commission has its principal offices, to enforce compliance with the provisions of the compact, and its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforce-
(c) The remedies herein shall not be the exclusive remedies of the interstate commission. The interstate commission may avail itself of any other remedies available under state law or the regulation of a profession.

18 SECTION 18 — DEFAULT PROCEDURES. (a) The grounds for default include, but are not limited to, failure of a member state to perform such obligations or responsibilities imposed upon it by the compact, or the rules and bylaws of the interstate commission promulgated under the compact.

(b) If the interstate commission determines that a member state has defaulted in the performance of its obligations or responsibilities under the compact, or the bylaws or promulgated rules, the defaulting state commission shall:

1. Provide written notice to the defaulting state and other member states, of the nature of the default, the means of curing the default, and any action taken by the interstate commission. The interstate commission shall specify the conditions by which the defaulting state must cure its default; and

2. Provide remedial training and specific technical assistance regarding the default.

(c) If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the commissioners and all rights, privileges, and benefits conferred by the compact shall terminate on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

(d) Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to terminate shall be given by the interstate commission to the governor, the majority and minority leaders of the defaulting state’s legislature, and each of the member states.

(e) The interstate commission shall establish rules and procedures to address licenses and physicians that are materially impacted by the termination of a member state, or the withdrawal of a member state.

(f) The member state which has been terminated is responsible for all dues, obligations, and liabilities incurred through the effective date of termination including obligations, the performance of which extends beyond the effective date of termination.

(g) The interstate commission shall not bear any costs relating to any state that has been found to be in default or which has been terminated from the compact, unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state.

(h) The defaulting state may appeal the action of the interstate commission by petitioning the United States District Court for the District of Columbia or the federal district where the interstate commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney fees.

SECTION 19 — DISPUTE RESOLUTION. (a) The interstate commission shall attempt, upon the request of a member state, to resolve disputes which are subject to the compact and which may arise among member states or member boards.

(b) The interstate commission shall promulgate rules providing for both mediation and binding dispute resolution as appropriate.

20 SECTION 20 — MEMBER STATES, EFFECTIVE DATE AND AMENDMENT: (a) Any state is eligible to become a member state of the compact.

(b) The compact shall become effective and binding upon legislative enactment of the compact into law by no less than 7 states. Thereafter, it shall become effective and binding on a state upon enactment of the compact into law by that state.

(c) The governors of non-member states, or their designees, shall be invited to participate in the activities of the interstate commission on a non-voting basis prior to adoption of the compact by all states.

(d) The interstate commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the interstate commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

21 SECTION 21 — WITHDRAWAL. (a) Once effective, the compact shall continue in force and remain binding upon each and every member state; provided that a member state may withdraw from the compact by specifically repealing the statute which enacted the compact into law.

(b) Withdrawal from the compact shall be by the enactment of a statute repealing the same, but shall not take effect until one year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member state.

(c) The withdrawing state shall immediately notify the chairperson of the interstate commission in writing upon the introduction of legislation repealing the compact in the withdrawing state.

(d) The interstate commission shall notify the other member states of the withdrawing state’s intent to withdraw within 60 days of its receipt of notice provided under par. (c).

(e) The withdrawing state is responsible for all dues, obligations and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

(f) Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the interstate commission.

(g) The interstate commission is authorized to develop rules to address the impact of the withdrawal of a member state on licenses granted in other member states to physicians who designated the withdrawing member state as the state of principal license.

22 SECTION 22 — DISSOLUTION. (a) The compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the compact to one member state.

(b) Upon the dissolution of the compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the interstate commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

23 SECTION 23 — SEVERABILITY AND CONSTRUCTION. (a) The provisions of the compact shall be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

(b) The provisions of the compact shall be liberally construed to effectuate its purposes.

(c) Nothing in the compact shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

24 SECTION 24 — BINDING EFFECT OF COMPACT AND OTHER LAWS. (a) Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with the compact.

(b) All laws in a member state in conflict with the compact are superseded to the extent of the conflict.

(c) All lawful actions of the interstate commission, including all rules and bylaws promulgated by the commission, are binding upon the member states.

(d) All agreements between the interstate commission and the member states are binding in accordance with their terms.

(e) In the event any provision of the compact exceeds the constitutional limits imposed on the legislature of any member state,
such provision shall be ineffective to the extent of the conflict with
the constitutional provision in question in that member state.
