5.02 Definitions. In chs. 5 to 12, unless the context requires otherwise:

dates with equal votes may advance to the final election, the choice shall similarly be made by drawing lots.

c) The candidates may, if all those tied for the same office are present, draw for themselves. Upon refusal or absence of any of the candidates, the board of canvassers shall appoint a competent person to draw, and upon the results declare and certify the winner.

(d) If a question is submitted to the electors and an equal number of votes are cast for and against adoption, the question fails adoption.

5.02 Enforcement of division requirement. (a) In every election to choose the governor and the lieutenant governor, each elector shall have a single vote applicable to both offices. The persons receiving the greatest number of legal votes cast jointly for them for governor and lieutenant governor shall be declared elected, and the canvassers shall so determine and certify.

(b) In case 2 or more slates have an equal and the highest number of votes for governor and lieutenant governor, the 2 houses of the legislature shall at the next annual session choose by joint ballot one of the slates so having an equal and the highest number of votes for governor and lieutenant governor.

History: 1979 c. 89; 1983 a. 484; 1985 a. 304; 1997 a. 27; 1999 a. 150 s. 672; 1999 a. 182; 2015 a. 118.

The supreme court has quite consistently construed the provisions of election statutes as directory rather than mandatory so as to preserve the will of the elector.

Only substantial violations of the election law shall operate to vacate an election. Carlson v. Oconto County Board of Canvassers, 2001 WI App 20, 240 Wis. 2d 438, 623 N.W.2d 195, 00-1788.

History: 1971 c. 211; 1971 c. 304 ss. 2, 29 (2); 1973 c. 280, 334; 1975 c. 93; 1977 c. 107, 187, 394; 1977 c. 427 ss. 3 to 14; 1977 c. 449; 1979 c. 32, 89, 221; 1979 c. 260 ss. 1m, 73 to 75; 1979 c. 311, 326; 1981 c. 4, 391; 1983 a. 484 ss. 5, 5c, 124m, 128; 1985 a. 303; 1985 a. 304 ss. 1m, 2, 155; 1987 a. 391 ss. 1 to 16; 1989 a. 31; 1991 a. 5; 1993 a. 140, 184; 1995 a. 16 ss. 2; 1995 a. 27 ss. 9145 (1); 1995 a. 219; 1997 a. 35; 2001 a. 16, 109; 2003 a. 24, 265; 2005 a. 177, 451; 2007 a. 1; 2009 a. 397; 2011 a. 1, 6; 2013 a. 115, 77, 118, 261; 2017 a. 369.

Municipal clerks are the officials primarily responsible for election administration in Wisconsin. A “board of election commissioners” is established in Wisconsin’s highly populated counties and counties to carry out the duties otherwise accomplished by municipal and county clerks everywhere else. The phrase “municipal clerk or board of election commissioners” appears in tandem all over the election statutes because that describes the duties of local election officials. State ex rel. Zapko v. Wisconsin Elections Commission, 2021 WI 31, 396 Wis. 2d 391, 957 N.W.2d 208, 19–2397.

Photographic identification is necessary for in-person voting. Students may use college–issued credentials under sub. (6m) (f), but only if before an ID’s expiration date. There’s nothing wrong with a requirement that IDs be current. Luif v. Evers, 963 F.3d 665 (2020).

Treasuring students differently from other potential voters without a rational basis violates the equal protection clause. Under sub. (6m) (f), if only before an identification card, alone among the sorts of photo ID that Wisconsin accepts, is not sufficient for voting unless the student also shows proof of current enrollment. No other category of acceptable identification depends on ongoing affiliation of any sort. That differential treatment violates the equal protection clause of the 14th amendment to the U.S. Constitution. Luft v. Evers, 963 F.3d 665 (2020).

The requirements in sub. (6m) (f) that a student identification card must display:

1. An issuance date; 2) an expiration date; 3) an expiration date more than two years after the issuance date; and 4) a signature, are rationally related to a legitimate governmental interest and do not violate the equal protection clause. Common Cause v. Thompson, 574 F. Supp. 3d 634 (2021).

5.025 Elections commission; definition. In chs. 5 to 10 and 12, “commission” means the elections commission.

History: 2015 a. 118 s. 2; Stats. 2015 s. 5.025.

5.05 Elections commission; powers and duties.

(1) GENERAL AUTHORITY. The elections commission shall have the responsibility for the administration of chs. 5 to 10 and 12 and other laws relating to elections and election campaigns, other than laws relating to campaign financing. Pursuant to such responsibility, the commission may:

(b) In the discharge of its duties and after providing notice to any party who is the subject of an investigation, subpoena and bring before it any person and require the production of any papers, books, or other records relevant to an investigation. Notwithstanding s. 885.01 (4) and (5), the commission may issue a subpoena duces tecum in a civil action or proposed civil action authorized under this paragraph. The requirements in sub. (6m) that a student identification card must display:

1) An issuance date; 2) an expiration date; 3) an expiration date more than two years after the issuance date; and 4) a signature, are rationally related to a legitimate governmental interest and do not violate the equal protection clause. Common Cause v. Thompson, 574 F. Supp. 3d 634 (2021).

(c) Bring civil actions to require a forfeiture for any violation of chs. 5 to 12. The commission may compromise and settle any civil action or potential action brought or authorized by it in the circuit court. The requirements in sub. (6m) that a student identification card must display:

1) An issuance date; 2) an expiration date; 3) an expiration date more than two years after the issuance date; and 4) a signature, are rationally related to a legitimate governmental interest and do not violate the equal protection clause. Common Cause v. Thompson, 574 F. Supp. 3d 634 (2021).
findings and reasons for entering into the agreement and shall retain the agreement and statement in its office for inspection.

(d) Sue for injunctive relief, a writ of mandamus or prohibition, or other such legal or equitable relief as may be appropriate to enforce any law regulating the conduct of elections or election campaigns, other than laws regulating campaign financing, or ensure its proper administration. No bond is required in such actions. Actions shall be brought in circuit court for the county where a violation occurs or may occur.

(e) Issue an order under s. 5.06, exempt a polling place from accessibility requirements under s. 5.25 (4) (a), exempt a municipality from the requirement to use voting machines or an electronic voting system under s. 5.40 (5m), approve an electronic data recording system for maintaining poll lists under s. 6.79, or authorize nonappointment of an individual who nominated to serve as an election official under s. 7.30 (4) (e).

(f) Promulgate rules under ch. 227 applicable to all jurisdictions for the purpose of interpreting or implementing the laws regulating the conduct of elections or election campaigns, other than laws regulating campaign financing, or ensuring their proper administration.

(1e) ACTIONS BY THE COMMISSION. Any action by the commission, except an action relating to procedure of the commission, requires the affirmative vote of at least two-thirds of the members.

(2m) ENFORCEMENT. (a) The commission shall investigate violations of laws administered by the commission and may prosecute alleged civil violations of those laws, directly or through its agents, pursuant to all statutes granting or assigning that authority or responsibility to the commission. Prosecution of alleged criminal violations investigated by the commission may be brought only as provided in par. (c) 11., 14., 15., and 16. and s. 978.05 (1). For purposes of this subsection, the commission may only initiate an investigation of an alleged violation of chs. 5 to 10 and 12, other than an offense described under par. (c) 12., based on a sworn complaint filed with the commission, as provided under par. (c). Neither the commission nor any member or employee of the commission, including the commission administrator, may file a sworn complaint for purposes of this subsection.

(b) 2. a. Any person may file a complaint with the commission alleging a violation of chs. 5 to 10 or 12. No later than 5 days after receiving a complaint, the commission shall notify each person who or which the complaint alleges committed such a violation. Before voting on whether to take any action regarding the complaint, other than to dismiss, the commission shall give each person receiving a notice under this subd. 2. an opportunity to demonstrate to the commission, in writing and within 15 days after receiving the notice, that the commission should take no action against any member of the commission, including the commission administrator, who may not conduct any investigation or take any other action under this subsection solely on the basis of a complaint by an unidentified complainant.

am. If the commission finds, by a preponderance of the evidence, that a complaint is frivolous, the commission may order the complainant to forfeit not more than the greater of $500 or the expenses incurred by the commission in investigating the complaint.

4. If the commission reviews a complaint and finds that there is a reasonable suspicion that a violation under subd. 2. has occurred or is occurring, the commission shall dismiss the complaint. If the commission believes that there is reasonable suspicion that a violation under subd. 2. has occurred or is occurring, the commission may by resolution authorize the commencement of an investigation. The resolution shall specifically set forth any matter that is authorized to be investigated. To assist in the investigation, the commission may elect to retain a special investigator. If the commission elects to retain a special investigator, the administrator of the commission shall submit to the commission the names of 3 qualified individuals to serve as a special investigator. The commission may retain one or more of the individuals. If the commission retains a special investigator to investigate a complaint against a person who is a resident of this state, the commission shall provide to the district attorney for the county in which the person resides a copy of the complaint and shall notify the district attorney that it has retained a special investigator to investigate the complaint. For purposes of this subdivision, a person other than an individual resides within a county if the person’s principal place of operation is located within that county. The commission shall enter into a written contract with any individual who is retained as a special investigator setting forth the terms of the engagement. A special investigator who is retained by the commission may request the commission to issue a subpoena to a specific person or to authorize the special investigator to request the circuit court of the county in which the specific person resides to issue a search warrant. The commission may grant the request by approving a motion to that effect at a meeting of the commission if the commission finds that such action is legally appropriate.

5. Each special investigator who is retained by the commission shall make periodic reports to the commission, as directed by the commission, but in no case may the interval for reporting exceed 30 days. If the commission authorizes the commission administrator to conduct any matter without retaining a special investigator, the administrator may make periodic reports to the commission, as directed by the commission, but in no case may the reporting interval exceed 30 days. During the pendency of any investigation, the commission shall meet for the purpose of reviewing the progress of the investigation at least once every 90 days. The special investigator or the administrator shall report in person to the commission at that meeting concerning the progress of the investigation. If, after receiving a report, the commission does not vote to continue an investigation for an additional period not exceeding 90 days, the investigation is terminated at the end of the reporting interval. The commission shall not expend more than $25,000 to finance the cost of an investigation before receiving a report on the progress of the investigation and a recommendation to commit additional resources. The commission may vote to terminate an investigation at any time. If an investigation is terminated, any complaint from which the investigation arose is deemed to be dismissed by the commission. Unless an investigation is terminated by the commission, at the conclusion of each investigation, the administrator shall present to the commission one of the following:

a. A recommendation to make a finding that probable cause exists to believe that one or more violations under subd. 2. have occurred or are occurring, together with a recommended course of action.

b. A recommendation for further investigation of the matter together with facts supporting that course of action.

c. A recommendation to terminate the investigation due to lack of sufficient evidence to indicate that a violation under subd. 2 has occurred or is occurring.

6. a. If the commission finds that there is probable cause to believe that a violation under subd. 2. has occurred or is occurring, the commission may authorize the commission administrator to file a civil complaint against the alleged violator. In such case, the administrator may request the assistance of special counsel to prosecute any action brought by the commission. If the administrator requests the assistance of special counsel with respect to any matter, the administrator shall submit to the commission the names of 3 qualified individuals to serve as special counsel. The commission may retain one of the individuals to act as special counsel. The staff of the commission shall provide assistance to the special counsel as may be required by the counsel to carry out his or her responsibilities.

b. The commission shall enter into a written contract with any individual who is retained as special counsel setting forth the terms of the engagement. The contract shall set forth the compensation to be paid such counsel by the state. The contract shall
be executed on behalf of the state by the commission and the commission shall file the contract in the office of the secretary of state. The compensation shall be charged to the appropriation under s. 20.510 (1) (br).

7. No individual who is appointed or retained by the commission to serve as special counsel or as a special investigator is subject to approval under s. 20.930.

9. At the conclusion of its investigation, the commission shall, in preliminary written findings of fact and conclusions based thereon, make a determination of whether or not probable cause exists to believe that a violation under subd. 2. has occurred or is occurring. If the commission determines that no probable cause exists, it shall dismiss the complaint. Whenever the commission dismisses a complaint or a complaint is deemed to be dismissed under subd. 5., the commission shall immediately send written notice of the dismissal to the accused and to the party who made the complaint.

10. The commission shall inform the accused or his or her counsel of exculpatory evidence in its possession.

11. If the commission finds that there is probable cause to believe that a violation under subd. 2. has occurred or is occurring, the commission may, in lieu of civil prosecution of any matter by the commission, refer the matter to the district attorney for the county in which the alleged violator resides, or if the alleged violator is a nonresident, to the district attorney for the county where the matter arises, or if par. (i) applies, to the attorney general or a special prosecutor. For purposes of this subdivision, a person other than a natural person resides within a county if the person’s principal place of operation is located within that county.

12. The commission shall, by rule, prescribe categories of civil offenses which the commission will agree to compromise and settle without a formal investigation upon payment of specified amounts by the alleged offender. The commission may authorize the commission administrator to compromise and settle such alleged offenses in the name of the commission if the alleged offenses by an offender, in the aggregate, do not involve payment of more than $2,500.

13. If a special investigator or the commission administrator, in the course of an investigation authorized by the commission, discovers evidence that a violation under subd. 2. that was not within the scope of the authorized investigation has occurred or is occurring, the special investigator or the administrator may present that evidence to the commission. If the commission finds that there is a reasonable suspicion that a violation under subd. 2. that is not within the scope of the authorized investigation has occurred or is occurring, the commission may authorize the special investigator or the administrator to investigate the alleged violation or may elect to authorize a separate investigation of the alleged violation as provided in subd. 4.

14. If a special investigator or the commission administrator, in the course of an investigation authorized by the commission, discovers evidence of a potential violation of a law that is not administered by the commission arising from or in relation to the official functions of the subject of the investigation or any matter that involves elections, the special investigator or the administrator may present that evidence to the commission. The commission may thereupon refer the matter to the appropriate district attorney specified in subd. 11. or may refer the matter to the attorney general. The attorney general may then commence a civil or criminal prosecution relating to the matter.

15. Except as provided in subd. 17., if the commission refers a matter to the district attorney specified in subd. 11. for prosecution of a potential violation under subd. 2. or 14. and the district attorney informs the commission that he or she declines to prosecute any alleged civil or criminal violation related to any matter referred to the district attorney by the commission, or the district attorney fails to commence a prosecution of any civil or criminal violation related to any matter referred to the district attorney by the commission within 60 days of the date of the commission’s referral, the commission may refer the matter to the district attorney for another prosecutorial unit that is contiguous to the prosecutorial unit of the district attorney to whom the matter was originally referred. If there is more than one such prosecutorial unit, the chairperson of the commission shall determine the district attorney to whom the matter shall be referred by publicly drawing lots at a meeting of the commission. The district attorney may then commence a civil or criminal prosecution relating to the matter.

16. Except as provided in subd. 17., if the commission refers a matter to a district attorney under subd. 15. for prosecution of a potential violation under subd. 2. or 14. and the district attorney informs the commission that he or she declines to prosecute an alleged civil or criminal violation related to any matter referred to the district attorney by the commission, or the district attorney fails to commence a prosecution of any civil or criminal violation related to any matter referred to the district attorney by the commission within 60 days of the date of the commission’s referral, the commission may refer the matter to the attorney general. The attorney general may then commence a civil or criminal prosecution relating to the matter.

17. The commission is not authorized to act under subd. 15. or 16. if a special prosecutor is appointed under s. 978.045 in lieu of the district attorney specified in subd. 11.

18. Whenever the commission refers a matter to special counsel or to a district attorney or to the attorney general under this subsection, the special counsel, district attorney, or attorney general shall report to the commission concerning any action taken regarding the matter. The report shall be transmitted no later than 40 days after the date of the referral. If the matter is not disposed of during that period, the special counsel, district attorney, or attorney general shall file a subsequent report at the end of each 30-day period following the filing of the initial report until final disposition of the matter.

(d) 1. No individual who serves as the commission administrator may have been a lobbyist, as defined in s. 13.62 (11). No such individual may have served in a partisan state or local office.

(4) The commission may, on its own motion, investigate and determine whether any election official, with respect to any matter concerning nominations, qualifications of candidates, voting qualifications, including residence, ward division and numbering, recall, ballot preparation, election administration or conduct of elections, has failed to comply with the law or abused the discretion vested in him or her by law or proposes to do so.

2. In any city in which the population is at least 39,000 but less than 150,000, each ward shall contain not less than 800 nor more than 3,200 inhabitants.

3. In any city, village or town in which the population is at least 10,000 but less than 39,000, each ward shall contain not less than 600 nor more than 2,100 inhabitants.

4. In any city, village or town in which the population is less than 10,000, each ward shall contain not less than 300 nor more than 1,000 inhabitants.

(bm) Every city enacting the members of its common council from aldermanic districts shall assemble the blocks wholly or partially contained within the city into wards that will enable the creation of aldermanic districts that are substantially equal in population. If a block is partly contained within the city, the city shall divide the block to form a ward containing the portion of the block that lies within the city.

(c) If the population of a block exceeds the maximum population for a ward otherwise specified in this subsection, such block shall be constituted a ward by itself, except that if the population of a block substantially exceeds the population of proposed aldermanic districts in a city so that, if the block were to constitute an aldermanic district, the populations of the aldermanic districts in the city would not be substantially equal, the city shall divide the block to permit assembly into wards that will enable creation of aldermanic districts that are substantially equal in population.

(cm) Any division of blocks under this section shall be based on the best evidence available. In this paragraph, “best evidence” includes, but is not limited to, the population of the block and other information received from the U.S. bureau of the census and such data as number of housing units, utility connections and vehicle registrations or a special census conducted locally. For each ward so established, the population estimate shall be correlated with the results of the most recent federal decennial census, so that the total population reported for all wards in the municipality agrees with the census results.

(d) Every municipality shall make a good faith effort to accommodate the tentative plan submitted by the county or counties in which it is located under s. 59.10 (2) (a) or (3) (b) 1., and shall divide itself into wards in such a manner that will permit the creation of county supervisor districts in accordance with the population requirements for the plan specified in s. 59.10 (2) (a) or (3) (b) 1.,

(e) If territory is detached from a city, village or town after April 1 of the year of the federal decennial census, and the remaining portion of the ward to which it was attached falls below the prescribed minimum population for the applicable range, the remaining portion of the population may be constituted a ward by itself.

(f) Any city, village or town may establish a ward below the prescribed minimum population for the applicable range whenever the proposed ward is established under par. (a), (d) or (e) or whenever the proposed ward contains solely:

1. That part of a city or village situated in a county other than the county in which the major part of the municipality is located.

2. That part of a city, village or town belonging to a school district other than the school district to which the major part of the municipality belongs.

3. Island territory containing a resident population. In this subdivision, “island territory” means territory surrounded by water, or noncontiguous territory which is separated by the territory of another municipality or by water, or both, from the major part of the municipality to which it belongs.

4. New territory which becomes a part of a city, village or town after April 1 of the year of the federal decennial census.
November 1 report shall be accompanied by a list of the block numbers of which the county and each municipality and ward within the county are comprised.

(c) Wards that are created to effect an act of the legislature redistricting legislative districts or congressional districts and wards authorized under sub. (2) (bm), (e), (e) 2 , or (f) may be numbered with a combination of whole numbers and letters.

(5) When a town is divided into wards, the annual town meeting shall be held in a location authorized under s. 60.11 (3) (a).

(6) (a) Following any municipality-wide special federal census of population, the governing body of the municipality in which the special census was held may, by ordinance or resolution, adjust the ward boundaries, but no ward line adjustment may cross the boundary of a congressional, assembly, or supervisor district. The municipal clerk shall transmit copies of the ordinance or resolution in compliance with sub. (4) (b).

(b) No later than 30 days before each election, the governing body of any municipality may by resolution combine 2 or more wards for voting purposes to facilitate using a common polling place. Whenever wards are so combined, the original ward numbers shall continue to be utilized for all official purposes. Except as otherwise authorized under this paragraph, every municipality having a population of 35,000 or more shall maintain separate returns for each ward so combined. In municipalities having a population of less than 35,000, the governing body may provide in a resolution that returns for any ward having a population of 20 or less be combined with returns for any adjacent ward, if the total population of the combined wards does not exceed the applicable population range under sub. (2) (b) for wards in that municipality.

In municipalities having a population of less than 35,000, the governing body may provide in the resolution that returns shall be maintained only for each group of combined wards at any election. Whenever a governing body provides that returns shall be maintained only for combined wards under this paragraph, the municipality shall report separate results for each separate ballot required under ss. 5.58 to 5.64. The municipal clerk shall transmit a copy of the resolution to the county clerk of each county in which the municipality is located. In municipalities having a population of less than 35,000, the resolution shall remain in effect for 14 years from the expiration of the 60-day period under s. 5.15 (1) (b) a proposed plan for the division of the municipality into wards in compliance with this section. If the court finds that the existing division of the municipality into wards fails to comply with s. 5.15, it shall review the plan submitted by the petitioner and after reasonable notice to the municipality may promulgate the plan, or any other plan in compliance with s. 5.15, as a temporary ward plan for the municipality to remain in effect until superseded by a ward plan enacted or adopted by the governing body in compliance with s. 5.15.

Judicial relief is available if a county fails to follow the statutory requirements for redistricting. City of Janesville v. County of Rock, 107 Wis. 2d 187, 319 N.W.2d 691 (Ct. App. 1982).

The court properly voided the city’s plan and adopted the county’s plan, even though the county did not adopt the plan within 60 days of receiving census data. County of La Crosse v. City of La Crosse, 108 Wis. 2d 560, 322 N.W.2d 531 (Ct. App. 1982).

5.15 Enforcement of division requirement. If any municipality fails to comply with s. 5.15, the county in which the municipality is located or any elector of the municipality may submit to the circuit court for any county in which the municipality is located within 14 days from the expiration of the 60–day period under s. 5.15 (1) (b) a proposed plan for the division of the municipality into wards in compliance with this section. If the circuit court finds that the existing division of the municipality into wards fails to comply with s. 5.15, it shall review the plan submitted by the petitioner and after reasonable notice to the municipality may promulgate the plan, or any other plan in compliance with s. 5.15, as a temporary ward plan for the municipality to remain in effect until superseded by a ward plan enacted or adopted by the governing body in compliance with s. 5.15.

5.25 Polling places. (1) All elections under chs. 5 to 12 shall be held at the polling places provided in this section. The places chosen shall be public buildings, unless the use of a public building for this purpose is impracticable or the use of a nonpublic building better serves the needs of the electorate, as determined by the authority charged with the responsibility for establishing polling places under sub. (2).

(2) In cities over 500,000 population, polling shall be at the places established by the board of election commissioners. In all other cities and in villages and towns, polling shall be at the places established by the governing body.

(3) Polling places shall be established for each election at least 30 days before the election.

(4) (a) Each polling place shall be accessible to all individuals with disabilities. The commission shall ensure that the voting system used at each polling place will permit all individuals with disabilities to vote without the need for assistance and with the same degree of privacy that is accorded to nondisabled voters voting at the same polling place. This paragraph does not apply to any individual who is disqualified from voting under s. 6.03 (1) (a).

(b) In any jurisdiction that is subject to the requirement under 42 USC 1973aa–1a to provide voting materials in any language other than English, the commission shall ensure that the voting system used at each polling place in that jurisdiction is in compliance with 42 USC 1973aa–1a.

In preparing its report under this paragraph, the commission shall consult with appropriate advocacy groups representing the elderly and handicapped populations.

(5) (a) Except as authorized in par. (b), all electors within a ward shall vote at the same polling place.

(b) The municipal clerk or board of election commissioners of a municipality in which an elderly or handicapped elector resides may reassign the elector to a polling place within the municipality
other than the polling place serving the elector’s residence in order to permit the elector to utilize a polling place that is accessible to elderly or handicapped individuals.

(c) The electors of more than one ward in the same municipality may vote at a single polling place.

5.35 Polling place requirements. (1) NATIONAL FLAG. On election days, every polling place shall properly display the national flag during all hours the polls are open.

(2) VOTING BOOTH. There shall be one voting booth for every 200 electors who voted at the last general election. The booths shall have a surface on which to write or work and be sufficiently enclosed to assure privacy for the elector and anyone lawfully assisting the elector while marking the elector’s ballot.

(3) BALLOT BOXES. Where the voting procedure makes it necessary, there shall be a separate ballot box for each form of ballot at each polling place. There shall be a suitable lock and key for each, and an opening no larger than is sufficient to receive a single ballot or a single folded ballot if the box is used for deposit of paper ballots. If the electors of more than one ward use the same polling place, there shall be separate ballot boxes provided for the electors of each ward, unless combined ballot boxes are authorized in accordance with s. 5.15 (6) (b).

(4) LAYOUT, ORGANIZATION. All voting booths and machines shall be placed apart from other activities in the polling place, with their exteriors in full view of the election officials. Only the proper election officials, persons observing the proceedings under s. 7.41, persons assisting voters under s. 6.82 (2) and electors receiving, preparing or depositing their ballots or casting their votes on the machines are permitted in the voting area. Except where assistance is authorized, only one elector at a time is permitted in a voting booth or machine.

(5) ACTIVITIES RESTRICTED. No polling place may be situated so as to interfere with or distract election officials from carrying out their duties. The municipal clerk and election inspectors shall prevent interference with and distraction of electors at polling places.

(6) POSTING REQUIREMENTS. (a) At each polling place in the state, the municipal clerk or board of election commissioners shall post the following materials, positioned so that they may be readily observed by electors entering the polling place or waiting in line to vote:

5. Any other voting information directed to be posted by the commission.

(b) At each polling place in the state where a consolidated ballot under s. 5.655 is used or an electronic voting system is utilized at a partisan primary election incorporating a ballot upon which electors may mark votes for candidates of more than one recognized political party, the municipal clerk or board of election commissioners shall prominently post a sign in the form prescribed by the commission warning electors in substance that on any ballot with votes cast for candidates of more than one recognized political party, no votes cast for any candidates for partisan office will be counted unless a preference for a party is made. If the elector designates a preference, only votes cast for candidates of that preference will be counted.

(6) At each polling place located in a municipality that is served by more than one polling place for an election, the municipal clerk or board of election commissioners shall prominently post a map of the geographic area served by the polling place for that election. The posting shall clearly show the boundaries of the ward or wards served by the polling place for that election.

5.36 Notice of voting by individuals with disabilities. Any individual with a disability may notify a municipal clerk that he or she intends to vote at a polling place on election day and may request that a specific type of accommodation be provided that will facilitate his or her voting.

History: 2003 a. 265.

5.37 Voting machine requirements. (1) Voting machines shall give every elector a reasonable opportunity to vote for any person for any office and on any proposition the elector is entitled to vote on, assure privacy to the elector so no one will know how the elector is voting or has voted, preclude the electors from voting for persons or propositions upon which they are not entitled to vote and from voting more than once for the same office or on the same proposition. Voting machines shall be constructed to lock so they cannot be manipulated, tampered with, or show the number of votes registered for any candidate or proposition while voting is in progress. (6) A municipality which utilizes voting machines or an electronic voting system at a polling place may permit use of the machines or system by electors voting under s. 6.15 only as authorized under s. 6.15 (3).

(7) Whenever a municipality adopts and purchases voting machines or an electronic voting system, or adopts and purchases a different type of voting machine or electronic voting system from the type it was previously using, the municipal clerk or executive director of the municipal board of election commissioners shall promptly notify the county clerk or executive director of the county board of election commissioners and the administrator of the elections commission in writing.

The order of presidential candidates on the ballot shall be determined by lot by or under the supervision of the commission. Each voter shall be given the ballots of all the parties participating in the presidential preference vote, but may vote on one ballot only.

(bm) Except as authorized in s. 5.655, a separate ballot shall be provided for use in each voting district.

(c) The official ballots for the presidential preference vote shall be securely fastened together at the bottom. The party receiving the greatest number of votes for governor at the preceding election shall have its ticket placed on top and the remaining party ballots shall follow in the same manner. A facsimile notice shall be published as provided in s. 10.02.

The national democratic party has a protected right of political association and may not compel a state to seat delegates chosen by a member of the national democratic party in violation of the party’s rules. 5.64 General election ballots. At general elections all of the following ballots, when necessary, shall be provided for each ward:

(1) OFFICIAL BALLOT. (ag) Except as authorized in s. 5.655, there shall be a separate ballot giving the names of all candidates for president and vice president and for statewide, congressional, legislative, and county offices in the same form as prescribed by the commission under s. 7.08 (1) (a).

(ar) 1. The ballot shall permit an elector to do any of the following:

a. Vote for individual candidates for each office.

b. Vote for a person whose name does not appear on the ballot for any office.

1m. When voting for president and vice president, the ballot shall permit an elector to vote only for the candidates on one ticket jointly or write in the names of persons in both spaces.

2. When voting for governor and lieutenant governor, the ballot shall permit an elector to vote only for the candidates on one ticket jointly or write in the names of persons in both spaces.

(b) The names of the candidates for the offices of president and vice president that are certified under s. 8.16 (7) or that are contained in nomination papers filed under s. 8.20 shall appear on the ballot in the form prescribed in s. 7.08 (2) (a). The names of the candidates on the regular party tickets nominated at the primary or replacements appointed under s. 8.35 (2) shall appear in a separate column under the party designation. The columns shall be arranged from left to right according to rank, based on the number of votes received by each party’s candidate for president or governor at the last general election beginning with the party that received the most votes. To the right of the columns for parties qualifying under s. 5.62 (1) (b) shall be placed the columns for parties qualifying under s. 5.62 (2) in the same order in which the parties filed petitions with the commission. Any column required under par. (e) 2. shall be placed next in order. To the right of the party columns shall be a column for the names of independent candidates for each office, or more than one column if the first column

(2) REFERENDUM BALLOT. (am) There shall be a separate ballot when any proposed constitutional amendment or any other measure or question is submitted to a vote of the people, except as authorized in s. 5.655. The ballot shall give a concise statement of each question in accordance with the act or resolution directing submission in the same form as prescribed by the commission under s. 7.08 (1) (a). The question may not be worded in such a manner as to require a negative vote to approve a proposition or an affirmative vote to disapprove a proposition. Unless otherwise expressly provided, this ballot form shall be used at all elections when questions are submitted to a vote of the people.

(e) The official referendum ballot prescribed under this subsection shall be utilized at every election except that the format shall be altered to the extent provided or required by other laws establishing or authorizing referenda to be conducted. Except as authorized in s. 5.655, all referenda shall appear on a separate ballot, but more than one referendum question may appear on the same referendum ballot whenever the questions are numbered and all electors voting the ballot are entitled to vote upon all questions appearing thereon. When more than one state referendum is placed on the same ballot, the commission shall number the propositions in chronological sequence. If the legislature submits questions on different dates, the commission shall number the questions sequentially based on the date on which the questions are submitted by the legislature. Except as authorized in s. 5.655, state and county referenda shall appear on a separate ballot from municipal or special district referenda. The form of all referendum ballots shall be substantially the same as that prescribed by the commission under s. 7.08 (1) (a).

5.65 Special referendum ballots. Unless otherwise provided, ballots for special referenda shall conform to the format prescribed under s. 5.64 (2), insofar as applicable.

5.655 Consolidated ballots. (1) Whenever a separate ballot is required to be used, a municipality may use a single ballot to facilitate the use of voting machines or an electronic voting system or, if the municipality employs paper ballots, may use a consolidated paper ballot that is authorized under sub. (2). If a municipality uses a single ballot in lieu of separate ballots, the ballot shall include the name of each party qualifying for a separate column under each office, with the names of the candidates for each such party appearing in the same order in which the columns of the parties would appear under par. (b).

The commission shall prescribe notices and instructions to municipalities employing separate paper ballots. For all other elections the municipal clerks shall certify printed ballots to assure a ballot for all electors or voting machines. For all other elections the municipal clerks shall certify to their county clerk, on the first day of the 2nd month preceding the month in which the primary is held, the approximate number of electors who use a ballot that is authorized under sub. (2).

(f) In the case of balloting for the office of governor and lieutenant governor, the names of the candidates shall be placed in the party column by which nominated or if independent, in a column designated independent. In each column there shall be one choice for the elector to cast a ballot jointly for both offices.

(g) Following the independent candidates for each office, a space shall be provided for the elector to write in the name of a candidate of his or her choice for that office.
of electors in the municipality. The county clerk shall total these estimates and order a sufficient supply to assure ballots for all electors and voting machines.

(2) The county clerk or board of election commissioners shall print a sufficient number of sample ballots. The municipal clerk or board of election commissioners shall print sample ballots whenever the municipality prepares ballots under s. 7.15 (2) (b) or (c). Sample ballots shall be printed on nonwhite colored paper and shall be overprinted "SAMPLE". Voting machine sample ballots shall be a reduced size diagram of the face of the board or screen inside the voting machine with all candidates, issues and voting instructions as they will appear on the official ballot. Sample ballots to be used with an electronic voting system in which ballots that are distributed to voters are used shall be an actual size copy of the ballot. The clerk or board of election commission- ers printing the ballots shall distribute the samples approximately as follows: 45 percent shall be kept in the clerk’s or board’s office and distributed to electors requesting them; 45 percent shall be sent to the municipalities, or, if the municipality prints ballots, 45 percent shall be sent to the county for distribution to the electors; and 10 percent shall be reserved to be sent to the polling places by municipalities in proportion to the number certified in sub. (1) and made available to electors at the polls on election day.

5.68 Cost of elections. (1) The cost of acquisition of ballot boxes and voting booths, voting machines or electronic voting systems and regular maintenance thereof shall be borne by the municipalities in which the boxes, booths, machines or systems are used.

(2) Except as otherwise expressly provided, all costs for ballots, supplies, notices and any other materials necessary in preparing or conducting any election shall be paid for by the county or municipality whose clerk or board of election commissioners is responsible for providing them. If a ballot is prepared for a school, technical college, sewerage or sanitary district, the district shall pay for the cost of the ballot. If no other level of government is involved in a school, technical college, sewerage or sanitary dist- ict election, the district shall pay for all costs of the ballots, sup- plies, notices and other materials. If ballots, supplies, notices or other materials are used for elections within more than one unit of local government, the costs shall be proportionately divided between the units of local government involved in the election. In a 1st class city, all costs otherwise attributable to a school dis- trict shall be paid by the city.

(3) If voting machines are used or if an electronic voting sys- tem is used in which all candidates and referenda appear on the same ballot, the ballots for all national, state and county offices and for county and state referenda shall be prepared and paid for by the county wherein they are used. If the voting machine or elec- tronic voting system ballot includes a municipal or school, techni- cal college, sewerage or sanitary district ballot, the cost of that portion of the ballot shall be reimbursed to the county or paid for by the municipality or district, except as provided in a 1st class city school district under sub. (2).

(4) The cost of compensation of election officials and trainees shall be borne in the manner provided in s. 7.03.

(5) If a charge is made for the use of a polling place, the charge shall be paid by the municipality establishing the polling place under s. 5.25 (2) unless the polling place is used to conduct a special election that is called by a unit of government other than the state or the municipality establishing the polling place and the special election is not held concurrently with an election specified in s. 5.02 (5), (12s), (21), or (22). In such case the charge shall be paid by the authorized government that calls the special election.

(6) The clerk of each county or municipality shall submit an invoice to the clerk of each municipality or district which is responsible for payment of election costs under this section. The municipality or district shall make payment to the county or municipal treasurer.

5.72 Correcting ballot errors. (1) As soon as possible after ballots are delivered to the county clerk or to the municipal clerk if the municipality is preparing ballots under s. 7.15 (2), but not later than 3 weeks before any election relating to a state or national office or state-wide referendum, the county or municipal clerk prepar- ing the ballots shall submit one copy of each ballot to the com- mission for review of possible errors. If the contractor preparing the ballots supplies proofs in advance of ballot preparation, the clerk shall submit one copy of the proofs in lieu of actual ballots. If a voting machine ballot or other ballot combining local candi- dates or referenda with state or national candidates or referenda is used, the entire ballot shall be submitted, but if ballots intended for distribution to electors are used, only those ballots relating to state or national offices and statewide referenda need be submitted. This subsection does not require delay of ballot distribution or mailing of absentee ballots.

(2) The commission shall review ballots and proof copies sub- mitted under sub. (1) and shall notify the county and municipal clerk of any error as soon as possible but in no event later than 7 days after submission. The clerk is not required to correct a ballot error upon receipt of notice of the error, unless ordered to do so under sub. (3) or s. 5.06 (6).

(3) Whenever an affidavit is filed by the commission or any elec- tor alleging an error or omission in the preparation of a ballot, the circuit court for the county where the ballot is proposed to be used or its presiding judge, by order, may summarily require a county or municipal clerk to correct the error, or show cause why it should not be corrected and, by order, after the hearing, have the correction made.

SUBCHAPTER III

ELECTRONIC VOTING SYSTEMS

5.76 Adoption, experimentation or discontinuance of systems. The governing body or board of election commission- ers of any municipality may by ordinance or resolution adopt, experiment with, or discontinue any electronic voting system authorized by this subchapter and approved under s. 5.91 for use in this state, and may purchase or lease materials or equipment for such system to be used in all or some of the wards within its juris- diction, either exclusively in combination with mechanical voting machines, or in combination with paper ballots where such ballots are authorized to be used.

History: 1979 c. 311; 1985 a. 304.

Cross-reference: See also ch. EL 7, Wis. adm. code.

5.77 Applicable procedures. (1) So far as applicable, the procedure provided for voting paper ballots applies when an elec- tronic voting system employing the use of ballots distributed to electors is used.

(2) So far as applicable, the procedure provided for voting with mechanical voting machines applies when an electronic vot- ing system employing the use of electronic voting machines is used.

History: 1979 c. 311.

Cross-reference: See also ch. EL 7, Wis. adm. code.

5.78 Voting booths. At polling places where an electronic voting system employing the use of ballots distributed to electors is used, the municipality shall supply a sufficient number of voting booths for the use of electors as provided in s. 5.35 (2).

History: 1979 c. 311.
5.79 **Instruction of electors.** At polling places where an electronic voting system employing the use of ballots and voting devices is used, the election officials shall offer each elector instruction in the operation of the voting device and ballot before the elector enters the voting booth. No instructions may be given after the elector has entered the voting booth, except as authorized under s. 6.82(2). All instructions shall be given by election officials in such a manner that they may be observed by other persons in the polling place.

**History:** 1979 c. 311; 2001 a. 16.

5.80 **Demonstrator electronic voting system.** When an electronic voting system is used in a forthcoming election, the municipal clerk may provide, for the purpose of instructing electors in the election, one or more demonstrator electronic voting systems using the names of fictitious candidates or fictitious questions for placement in any public building within the municipality in which the election occurs. If such placement of a demonstrator takes place it shall be made available at least 30 days before the election.

**History:** 1979 c. 311.

5.81 **Ballot information; arrangement; absentee ballots.** (1) Whenever the statutes provide for the use of separate ballots or columns or rows for offices, parties or referenda, and an electronic voting system in which ballots are distributed to electors is used at a polling place, a single ballot may be used for all offices, referenda and parties. The ballot information, whether placed on the ballot or on the voting device, shall, as far as practicable, be grouped and ordered in the same manner as provided for other ballots under this chapter, except that the information on the ballot need not be in separate columns or rows.

**History:** 1979 c. 311; 1985 a. 304; 1999 a. 182; 2001 a. 16; 2011 a. 32.

(3) If a municipality utilizes an electronic voting system in which ballots distributed to electors are employed, absentee ballots may consist of ballots utilized with the system or paper ballots and envelopes voted in person in the office of the municipal clerk or voted by mail.

(4) In partisan primary elections, if a ballot contains the names of candidates of more than one party, it shall provide a space for electors to designate a party preference. Failure to designate a preference does not invalidate any votes cast by an elector, except as provided in s. 7.50 (1)(d).

**History:** 1979 c. 311; 1987 a. 391; 2001 a. 16.

5.82 **Write−in ballots.** If the ballot employed by a municipality does not provide a space for write−in voting, the municipality shall provide a separate write−in ballot, which may be in the form of a paper ballot, to permit electors to write in the names of persons whose names are not on the ballot whenever write−in votes are authorized.

**History:** 1979 c. 311; 1987 a. 391; 2001 a. 16.

5.83 **Preparation for use of voting devices; comparison of ballots.** Where voting devices are used at a polling place, the municipal clerk shall cause the voting devices to be put in order, set, adjusted and made ready for voting when delivered to the polling place. Before the opening of the polls the inspectors shall compare the ballots used in the voting devices with the sample ballots furnished and see that the names, numbers and letters thereon agree and shall certify thereto on forms provided by the municipality.

**History:** 1979 c. 311; 2015 a. 118 s. 266 (10).

5.84 **Testing of equipment; requirements for programs and ballots.** (1) Where any municipality employs an electronic voting system which utilizes automatic tabulating equipment, either at the polling place or at a central counting location, the municipal clerk shall, on any day not more than 10 days prior to the election day on which the equipment is to be utilized, have the equipment tested to ascertain that it will correctly count the votes cast for all offices and on all measures. Public notice of the time and place of the test shall be given by the clerk at least 48 hours prior to the test by publication of a class 1 notice under ch. 985 in one or more newspapers published within the municipality if a newspaper is published therein, otherwise in a newspaper of general circulation therein. The test shall be open to the public. The test shall be conducted by processing a preaudited group of ballots so marked as to record a predetermined number of valid votes for each candidate and on each referendum. The test shall include for each office one or more ballots which have votes in excess of the number allowed by law and, for a partisan primary election, one or more ballots which have votes cast for candidates of more than one recognized political party, in order to test the ability of the automatic tabulating equipment to reject such votes. Any error is detected, the municipal clerk shall ascertain the cause and correct the error. The clerk shall make an errorless count before the automatic tabulating equipment is approved by the clerk for use in the election.

(2) Before beginning the ballot count at each polling place or at the central counting location, the election officials shall witness a test of the automatic tabulating equipment by engaging the printing mechanism and securing a printed result showing a zero count for every candidate and referendum. After the completion of the count, the ballots and programs used shall be sealed and retained under the custody of the municipal clerk in a secure location.

**History:** 1979 c. 311; 2001 a. 16; 2005 a. 92.

5.85 **Receiving, counting, tallying and return of ballots.** (1) At any polling place at which an electronic voting system is utilized, the following procedures for receiving, counting, tallying and return of the ballots shall be used. Whenever paper ballots are utilized at a polling place in combination with ballots employed in an electronic voting system, the paper ballots shall be deposited in a separate ballot box or boxes, according to the types of ballots used. For the purpose of transporting the ballots or the record of the votes cast, the municipal clerk shall provide a secure container for each polling place. At each polling place, the applicable portions of the procedure prescribed for initiating the canvass under s. 7.51 (1) and (2) shall be performed, except that no count of the ballots, except write−in votes and paper ballots used for absentee voting and other purposes authorized by law, may be performed at a polling place if a central counting location is designated for the counting of ballots at that polling place by the municipality.

(2) (a) The election officials shall examine the ballots or record of votes cast for write−in votes and shall count and tabulate the write−in votes. The election officials shall count write−in votes as provided in s. 7.50 (2)(d). When an electronic voting system is used in which ballots are distributed to electors, before separating the remaining ballots from their respective covering envelopes, the election officials shall examine the ballots for write−in votes.

(2) (b) When an elector has cast a write−in vote, the election officials shall compare the write−in vote with the votes on the ballot to determine whether the vote results in an overvote for any office. In case of an overvote for any office, the election officials shall follow the procedure in par. (b).

(b) 1. In case of an overvote for any office, the election officials may either use the override function of the electronic voting system in order to eliminate the votes for the overvoted office, which shall be noted on the inspector’s statement, or make a true duplicate ballot of all votes on the ballot except for the office that is overvoted in the manner described in this subdivision. If the election officials make a true duplicate ballot, they shall use an official ballot of that kind used by the elector who voted the original ballot, and one of the marking devices, so as to transfer all votes of the elector except for the office overvoted to an official ballot of that kind used in the ward at that election. Unless election officials are selected under s. 7.30 (4)(c) without regard to party affiliation, whenever election officials of both of the 2 major political parties are present, the election officials acting under this sub-
division shall consist in each case of at least one election official of each of the parties.

2. On any original ballot upon which there is an overvote and for which a duplicate ballot is made under subd. 1., the election officials shall, in the space on the ballot for official endorsement, identify the ballot as an “Overvoted Ballot” and write a serial number. On any duplicate ballot produced under subd. 1., the election officials shall, in the space on the ballot for official endorsement, identify the ballot as a “Duplicate Overvoted Ballot” and write a serial number. The election officials shall place the same serial number on each “Overvoted Ballot” and its corresponding “Duplicate Overvoted Ballot,” commencing with number “1” and continuing consecutively for each of the ballots for which a “Duplicate Overvoted Ballot” is produced in that ward or election district. The election officials shall initial the “Duplicate Overvoted Ballot” ballots and shall place them in the container for return of the ballots. The “Overvoted Ballot” ballots and their envelopes shall be placed in the “Original Ballots” envelope.

(c) Ballots bearing write-in votes marked in the place designated for write-in votes, bearing the initials of an election official, not resulting in an overvote, and otherwise complying with the election laws as to marking shall be counted, tallied, and the votes recorded on a tally sheet provided by the municipal clerk. Ballots and ballot envelopes shall be separated and all ballots except any that are defective or overvoted shall be placed separately in the container for return of the ballots, along with the ballots marked “Duplicate Overvoted Ballots.”

(3) The election officials shall examine the ballots to determine if any is damaged or defective so that it cannot be counted by the automatic tabulating equipment. If any ballot is damaged or defective so that it cannot be properly counted by the automatic tabulating equipment, the election officials, in the presence of witnesses, shall make a true duplicate ballot of all votes on that ballot by using one of the marking devices so as to transfer all votes of the elector to an official ballot of that kind used by the elector who voted the original ballot in that election. Unless election officials are selected under s. 7.30 (4) (c) without regard to party affiliation, the election officials shall, in the space on the ballot for official endorsement, identify the ballot as a “Damaged Ballot” and write a serial number. On the duplicate ballot produced under this subsection, the election officials shall, in the space for official endorsement, identify the ballot as a “Duplicate Damaged Ballot” and write a serial number. The election officials shall place the same serial number on each “Damaged Ballot” and its corresponding “Duplicate Damaged Ballot,” commencing with number “1” and continuing consecutively for each of the ballots for which a “Duplicate Damaged Ballot” is produced in the ward or election district. The election officials shall initial the “Duplicate Damaged Ballot” ballots and shall place them in the container for return of the ballots. The official shall place “Damaged Ballot” ballots and their envelopes in the “Original Ballots” envelope.

(4) The original ballots shall be preserved with the duplicate ballots and delivered by the inspectors to the municipal clerk. The officials shall then make out a slip indicating the number of electors voting in person, the number of absentee ballots deposited in the ballot box, and the total number of electors of each ward served by the polling place who voted at the election, which shall be signed by all the inspectors.

(5) If the municipality has designated a central counting location to be used to count ballots under s. 7.51 (1), the inspectors shall count and deposit the paper ballots in the container. The inspectors shall then place the slip made out under sub. (4) in the container. The inspectors shall also place the tally sheet recording the write-in votes and other votes cast on paper ballots, and all other ballots, on the record of the vote cast on an electronic voting system where no ballots are distributed to electors, in the container and shall thereupon immediately seal the container with an adhesive seal provided by the municipal clerk for the purpose in such manner that the seal completely covers the opening in the container, and each of the inspectors shall sign the seal. The “Defective Ballots” envelope, and “Original Ballots” envelope each shall be securely sealed and the flap or end thereof of each signed by the inspectors and returned to the central counting location with the box for return of the ballots, enclosed ballots and returns. Thereupon, the municipal clerk or 2 of the election officials shall forthwith and by the most direct route transport the container and envelopes to the central counting location designated by the municipal clerk. Unless election officials are selected under s. 7.30 (2) (a) and (b) without regard to party affiliation, the election officials shall consist in each case of at least one election official of each of the 2 major political parties, whenever officials of both parties are present.

5.87 Proceedings at central counting locations. (1) All proceedings at each central counting location shall be under the direction of the municipal clerk or an election official designated by the clerk unless the central counting location is at the county seat and the municipal clerk delegates the responsibility to supervise the location to the county clerk, in which case the proceedings shall be under the direction of the county clerk or an election official designated by the county clerk. Unless election officials are selected under s. 7.30 (4) (c) without regard to party affiliation, the employees at each central counting location, other than any specially trained technicians who are required for the operation of the automatic tabulating equipment, shall be equally divided between members of the 2 major political parties under s. 7.30 (2) (a) and all duties performed by the employees shall be performed consisting of an equal number of members of each political party whenever sufficient persons from each party are available.

(2) At each central counting location, a team of election officials designated by the clerk or other election official having charge of the location under sub. (1) shall check the container returned containing the ballots to determine that all seals are intact, and thereupon shall open the container, check the inspectors’ slip and compare the number of ballots so delivered against the total number of electors of each ward served by the polling place who voted, remove the ballots or records of the votes cast and deliver them to the technicians operating the automatic tabulating equipment. Any discrepancies between the number of ballots and number of electors shall be noted on a sheet furnished for that purpose and signed by the election officials.

(3) Upon completion of the central count at a county seat, the county clerk shall return any ballots, statements, tally sheets, or envelopes relating solely to a municipal election to the appropriate municipal clerk and any ballots, statements, tally sheets, or envelopes relating solely to a school district election to the school district clerk. In addition, the county clerk shall report the results of the central count of votes for each office or referendum by ward or by combined wards authorized under s. 5.15 (6) (b) to the municipal clerk of the municipality where the votes are cast.

5.88 Tabulating votes. (1) If a central counting location is not utilized, the procedure for tabulating the votes by the automatic tabulating equipment shall be under the direction of the chief inspector and shall conform to the requirements of the automatic tabulating equipment. If any ballot is not accepted by the automatic tabulating equipment, the election officials shall make a duplicate ballot to replace that ballot in the manner prescribed in s. 5.85 (3). All proceedings at the polling place and at any central counting location shall be open to the public, but no person, except those employed and authorized for the purpose, may touch any ballot, container, envelope, counting equipment or tabulating equipment.

(2) The commission shall, by rule, prescribe uniform standards for determining the validity of votes cast or attempted to be

5.89 Official return. The return produced by the automatic tabulating equipment shall be appended to the tally sheet by the canvassers. The return constitutes a part of the official return for the ward or election district. The municipal clerk shall check the totals shown by the return and, if it appears that there is an obvious discrepancy with respect to the number of votes cast in any ward or election district, the clerk shall have the ballots for that ward or election district publicly retabulated to correct the return. Upon completion of the count, the return is open to the public.

History: 1979 c. 311.

5.90 Recounts. (1) Except as otherwise provided in this subchapter, recounts of votes cast on an electronic voting system shall be conducted in the manner prescribed in s. 9.01. Except as provided in this section, sub. (2), and s. 9.01 (1) (b) 8s., if the ballots are distributed to the electors, the board of canvassers shall recount the ballots with automatic tabulating equipment. The board of canvassers shall test the automatic tabulating equipment to be used prior to the recount as provided in s. 5.84, and then the official ballots or the record of the votes cast shall be recounted on the automatic tabulating equipment. In addition, the board of canvassers shall check the ballots for the presence or absence of the initials and other distinguishing marks, shall examine the ballots marked “Rejected”, “Defective”, “Overvoted”, and “Objected to” to determine the propriety of such labels, and shall compare the “Duplicate Overvoted Ballots” and “Duplicate Damaged Ballots” with their respective originals to determine the correctness of the duplicates. Unless a court orders a recount to be conducted by another method under sub. (2), the board of canvassers may determine to conduct the recount of a specific election by hand and may determine to conduct the recount by hand for only certain wards or election districts. If electronic voting machines are used, the board of canvassers shall perform the recount using the permanent paper record of the votes cast by each elector, as generated by the machines.

(2) Any candidate, or any elector when for a referendum, may, by the close of business on the next business day after the last day for filing a petition for a recount under s. 9.01, petition the circuit court for an order requiring ballots under sub. (1) to be counted by hand or by another method approved by the court. The petitioner in such an action bears the burden of establishing by clear and convincing evidence that due to an irregularity, defect, or mistake committed during the voting or canvassing process the results of a recount using automatic tabulating equipment will produce incorrect recount results and that there is a substantial probability that recounting the ballots by hand or another method will produce a more correct result and change the outcome of the election.

(3) A court with whom a petition under sub. (2) is filed shall hear the matter as expeditiously as possible, without a jury. The court may order a recount of the ballots by hand or another method only if it determines that the petitioner has established by clear and convincing evidence that due to an irregularity, defect, or mistake committed during the voting or canvassing process the results of a recount using automatic tabulating equipment will produce incorrect recount results and that there is a substantial probability that recounting the ballots by hand or another method will produce a more correct result and change the outcome of the election.

5.905 Software components. (1) In this section, “software component” includes vote-counting source code, table structures, modules, program narratives and other human-readable computer instructions used to count votes with an electronic voting system.

(2) The commission shall determine which software components of an electronic voting system it considers to be necessary to enable review and verification of the accuracy of the automatic tabulating equipment used to record and tally the votes cast with the system. The commission shall require each vendor of an electronic voting system that is approved under s. 5.91 to place those software components in escrow with the commission within 90 days of the date of approval of the system and within 10 days of the date of any subsequent change in the components. The commission shall secure and maintain those software components in strict confidence except as authorized in this section. Unless authorized under this section, the commission shall withhold access to those software components from any person who requests access under s. 19.35 (1).

(3) The commission shall promulgate rules to ensure the security, review and verification of software components used with each electronic voting system approved by the commission. The promulgation procedure shall include a determination that the software components correspond to the instructions actually used by the system to count votes.

(4) If a valid petition for a recount is filed under s. 9.01 in an election at which an electronic voting system was used to record and tally the votes cast, each party to the recount may designate one or more persons who are authorized to receive access to the software components that were used to record and tally the votes in the election. The commission shall grant access to the software components to each designated person if, before receiving access, the person enters into a written agreement with the commission that obligates the person to exercise the highest degree of reasonable care to maintain the confidentially of all proprietary information to which the person is provided access, unless otherwise permitted in a contract entered into under sub. (5).

(5) A county or municipality may contract with the vendor of an electronic voting system to permit a greater degree of access to software components used with the system than is required under sub. (4).

5.91 Requisites for approval of ballots, devices and equipment. No ballot, voting device, automatic tabulating equipment, or related equipment and materials to be used in an electronic voting system may be utilized in this state unless it is certified by the commission. The commission may revoke its certification of any ballot, device, equipment, or materials at any time for cause. The commission may certify any such voting device, automatic tabulating equipment, or related equipment or materials regardless of whether any such item is approved by the federal election assistance commission, but the commission may not certify any ballot, device, equipment, or material to be used in an electronic voting system unless it fulfills the following requirements:

(1) It enables an elector to vote in secrecy and to select the party for which an elector will vote in secrecy at a partisan primary election.

(2) Except in primary elections, it enables an elector to vote for a ticket selected in part from the nominees of one party, and in part from the nominees of other parties, and in part from independent candidates and in part of candidates whose names are written in by the elector.

(3) It accommodates all referenda to be submitted to the electors in the form provided by law.
(6) The voting device or machine permits an elector in a primary election to vote for the candidates of the recognized political party of his or her choice, and the automatic tabulating equipment or machine rejects any ballot on which votes are cast in the primary of more than one recognized political party, except where a party designation is made or where an elector casts write-in votes for candidates of more than one party on a ballot that is distributed to the elector.

(7) It permits an elector to vote at an election for all persons and offices for whom and for which the elector is lawfully entitled to vote; to vote for as many persons for an office as the elector is entitled to vote for; to vote for or against any question upon which the elector is entitled to vote; and it rejects all choices recorded on a ballot for an office or a measure if the number of choices exceeds the number which an elector is entitled to vote for on such office or on such measure, except where an elector casts excess write-in votes upon a ballot that is distributed to the elector.

(8) It permits an elector, at a presidential or gubernatorial election, by one action to vote for the candidates of a party for president and vice president or for governor and lieutenant governor, respectively.

(9) It prevents an elector from voting for the same person more than once for the same office, except where an elector casts excess write-in votes upon a ballot that is distributed to the elector.

(10) It is suitably designed for the purpose used, of durable construction, and is usable safely, securely, efficiently and accurately in the conduct of elections and counting of ballots.

(11) It records correctly and counts accurately every vote properly cast and maintains a cumulative tally of the total votes cast that is retrievable in the event of a power outage, evacuation or malfunction so that the records of votes cast prior to the time that the problem occurs is preserved.

(12) It minimizes the possibility of disenfranchisement of electors as the result of failure to understand the method of operation or utilization or malfunction of the ballot, voting device, automatic tabulating equipment or related equipment or materials.

(13) The automatic tabulating equipment authorized for use in connection with the system includes a mechanism which makes the operator aware of whether the equipment is malfunctioning in such a way that an inaccurate tabulation of the votes could be obtained.

(14) It does not employ any mechanism by which a ballot is punched or punctured to record the votes cast by an elector.

(15) It permits an elector to privately verify the votes selected by the elector before casting his or her ballot.

(16) It provides an elector with the opportunity to change his or her votes and to correct any error or to obtain a replacement for a spoiled ballot prior to casting his or her ballot.

(17) Unless the ballot is counted at a central counting location, it includes a mechanism for notifying an elector who attempts to cast an excess number of votes for a single office that his or her votes for that office will not be counted, and provides the elector with an opportunity to correct his or her ballot or to receive and cast a replacement ballot.

(18) If the device consists of an electronic voting machine, it generates a complete, permanent paper record showing all votes cast by each elector, that is verifiable by the elector, by either visual or nonvisual means as appropriate, before the elector leaves the voting area, and that enables a manual count or recount of each vote cast by the elector.

5.92 Bond may be required. Before entering into a contract for the purchase or lease of an electronic voting system or any ballots, voting devices, automatic tabulating equipment or related equipment or materials to be used in connection with a system, any municipality may require the vendor or lessor to provide a performance bond with a licensed surety company as surety, guaranteeing the supply of additional equipment, parts or materials, provision of adequate computer programming, preventive maintenance or emergency repair services, training of election officials and other municipal employees or provision of public educational materials for a specified period, or guaranteeing the performance of the computer programs or other equipment or materials to be utilized with the system to prevent election fraud, or such other guarantees as the municipality determines to be appropriate.
