97.07 Interpretation. If an article is alleged to be misbranded because the labeling is misleading, then in determining whether the labeling is misleading, there shall be taken into account not only representations made or suggested by statement, word, design, device, sound, or any combination thereof, but also the extent to which the labeling fails to reveal facts material in the light of such representations or material with respect to consequences which may result from the use of the article to which the labeling relates under the conditions of use prescribed in the labeling or under such conditions of use as are customary or usual.

97.09 Rules. (1) Definitions and standards of identity, composition, quality and fill of container for foods, and amendments thereto, now or hereafter adopted under the federal act or this chapter are definitions and standards of identity, composition, quality and fill of container under s. 97.03. (2) Temporary permits granted under the federal act for interstate shipment of experimental packs of food varying from the requirements of federal definitions and standards of identity are automatically effective in this state under conditions set forth in such permits.

(3) The department may also issue temporary marketing permits upon a convincing showing of need to continue a market study where the interests of consumers are safeguarded. Such permits are subject to terms and conditions prescribed by departmental rules but may not be issued for a period exceeding 6 months plus one renewal period of 6 months after departmental review.

(4) The department may, by rule, establish and enforce standards governing the production, processing, packaging, labeling, transportation, storage, handling, display, sale, including retail sale, and distribution of foods that are needed to protect the public from the sale of adulterated or misbranded foods.

(5) The department shall promulgate rules establishing standards and procedures for the labeling of organic food. In this subsection, “organic food” means any food that is marketed using “organic” or any derivative of “organic” in its labeling or advertising.

97.10 Prohibited acts. (1) The sale of any food that is adulterated or misbranded is prohibited.

The department and its agents may also secure samples or specimens, including samples or specimens of food and any product or substance that may affect food, examine and copy relevant documents and records, and obtain photographic and other evidence needed to enforce this chapter or a rule promulgated under this chapter. The department shall examine any samples secured and shall conduct other inspections and examinations needed to determine whether there is a violation of this chapter. The department shall pay or offer to pay the market value of samples taken.
97.12 FOOD, LODGING, RECREATION

(2) (a) Whenever any duly authorized inspector of the department has reasonable cause to believe that any food examined by him or her is adulterated or misbranded and is dangerous to health or misleading to the injury or damage of the purchaser or consumer, the inspector shall issue and deliver to the owner or custodian of the food a holding order prohibiting the sale or movement of the food for any purpose until the analysis or examination of the sample obtained has been completed. A holding order may be effective for a period of not longer than 14 days from the time of its delivery, but it may be reissued for one additional 14-day period if necessary to complete the analysis or examination of the food.

(b) No food described in any such holding order so issued and delivered shall be sold or moved for any purpose without the approval of the department until such analysis or examination has been completed within the time specified in par. (a). If the department upon completed analysis or examination determines that the food described in such holding order is not adulterated or misbranded, then the owner or custodian thereof shall be promptly so notified in writing, and such holding order shall terminate upon such notification.

(c) Where the analysis or examination shows that the food is adulterated or misbranded and is dangerous to health or misleading to the injury or damage of the purchaser or consumer, the owner or custodian of the food shall be so notified in writing within the effective time of the holding order. Such notice has the effect of a special order issued under s. 93.18. Upon receipt of a notice the food subject to the holding order may not be sold, moved, disposed of or brought into compliance with applicable standards without the approval of the department. If such food is not brought into compliance, sold, moved or disposed of within 30 days, or other agreed upon period of time, from the date the owner or custodian received notice that the food was adulterated or misbranded, the department may issue an order directing the disposition of the food. Such an order has the effect of a special order issued under s. 93.18.

(d) 1. Any person violating an order issued under this section may be fined not more than the maximum amount under subd. 2, or imprisoned not more than one year in the county jail or both. 2. The maximum fine under this paragraph equals $10,000 plus the retail value of the product moved, sold or disposed of in violation of the order issued under this section.

(3) (a) The department may issue a special order as provided under s. 93.18 to any person engaged in the production, processing, sale or distribution of food if the department finds a violation of this chapter or the rules promulgated under this chapter. An order shall state the violations found and shall specify a fixed period of time for correction. If the department finds that a piece of equipment, a facility or a practice used is a danger to public health, it may order that the situation be abated or eliminated immediately and that the equipment, facility or practice not be used until the violation is corrected and the correction is confirmed by the department. The department may, instead of issuing an order, accept written agreements of voluntary compliance which have the effect of an order.

(b) The department may, by summary order and without prior notice or hearing, suspend a license or permit issued under this chapter if the department finds that there has been a substantial failure to comply with the applicable requirements of this chapter and the rules promulgated under this chapter and that the continuation of the violations constitutes a serious danger to public health. The order shall be in writing, have the force and effect of an order issued under s. 93.18, and is subject to right of hearing before the department, if requested within 10 days after date of service. Hearings, if requested, shall be conducted within 10 days after receipt of a request for a hearing. Enforcement of the order shall not be stayed pending action on the hearing.

(4) Any person who does either of the following may be fined not more than $5,000 or imprisoned not more than one year in the county jail or both:

(a) Assaults, restrains, threatens, intimidates, impedes, interferes with, or otherwise obstructs a department inspector, employee or agent in the performance of his or her duties.

(b) Gives false information to a department inspector, employee or agent with the intent to mislead the inspector, employee or agent in the performance of his or her duties.

(5) Any person who fails to comply with an order issued under this chapter may be required to forfeit $50 for each day of non-compliance.

A warrantless inspection of a dairy farm under authority of ss. 93.08, 93.15 (2), and 97.12 (1) and related administrative rules made without prior notice and without the owner being present was not unconstitutional. Because the administrative rules govern operations, equipment, and processes not typically conducted in residential areas, the rules and statutes sufficiently preclude making warrantless searches of residences. Lundeen v. DATCP, 189 Wis. 2d 255, 252 N.W.2d 758 (Ct. App. 1994).

97.13 Sale of fish flour regulated. No person shall sell any food product for human consumption within this state containing whole fish flour, except fish flour made from the normally edible portions of fish or fish protein concentrate. (1) In this section the terms “buttermaker” and “cheesemaker” mean a person employed or who may be employed in a butter or a cheese factory who has charge of and supervision over the actual process of manufacturing butter or cheese, and shall not include a person employed in a butter or cheese factory for the purpose of assisting in the manufacture of such product. This section shall not affect a person making up a product produced on the person’s farm, nor shall it be unlawful for a licensed cheesemaker employed in a licensed cheese factory to make butter or whey cream butter for the use or consumption only of the patrons thereof.

(2) No person shall engage as a buttermaker or cheesemaker unless the person has a license from the department. The license shall be issued by the department under regulations that the department shall prescribe relating to the qualifications of applicants for licenses. The qualifications shall include the applicant’s record in operating and keeping in sanitary condition the butter or cheese factory in which the applicant has been employed.

(3) Application for a buttermaker’s or cheesemaker’s license shall be made upon a form furnished by the department. Upon receipt of the application the department shall issue a permit to the applicant to carry on the work of a buttermaker or cheesemaker. The permit shall have the force and effect of a license to a buttermaker or cheesemaker until a license shall have been issued to the applicant or until the applicant shall have been notified of the denial of the application. At the time that the permit is issued, the department shall furnish the applicant with the regulations incident to securing a license and also suggestions relating to the proper method of operating butter or cheese factories.

(4) Each application for a license shall be accompanied by a fee that is $50 unless otherwise established by department rule, except that an individual who is eligible for the veterans fee waiver program under s. 45.44 is not required to pay a fee.

(5) The license shall expire on the first day of January of the 2nd year commencing after the date of issuance or renewal. Renewal applications shall be submitted on department forms and be accompanied by the biennial license fee under sub. (4).

Cross-reference: See also ch. ATCP 69, Wis. adm. code.

(2) No person may act as a butter grader or a cheese grader without a license granted by the department. A person desiring a license shall apply on a form furnished by the department and shall pay to the department a fee that is $50 unless otherwise established by department rule, except that an individual who is eligible for the veterans fee waiver program under s. 45.44 is not required to pay a fee. Before issuing a license, the department shall require the applicant to demonstrate his or her competence to act as a butter grader or a cheese grader in a manner determined by the department. A license expires on September 30 of the 2nd year commencing after the date of issuance. (3) Butter graders and cheese graders must act in accordance with the standards and requirements established under ss. 93.07, 97.176 and 97.177. (4) The department may deny, suspend or revoke a license under this section by an order if the department finds that the applicant or licensee is not qualified to act as a butter grader or cheese grader or that the applicant or licensee has applied inaccurate grades or has obtained the license by fraud, perjury or through error. The department shall notify the applicant or licensee of the order and shall follow the procedures for issuing a special order under s. 93.18. History: 1983 a. 131; 1987 a. 27; 1991 a. 39; 2011 a. 209.

(2) United States AA, A, and B grades shall be accepted in lieu of the corresponding Wisconsin AA, A, and B grades, but all United States grades below B shall, for the purpose of this section, correspond to Wisconsin undergraduate. (3) As used in this section, score or grade means the grading of butter by its examination for flavor and aroma, body and texture, color, salt, package and by the use of other tests or procedures approved by the department for ascertaining the quality of butter in whole or in part. (4) Details for methods and procedures to be used for ascertaining quality, for labeling, and for arbitrating disputes with respect to grades, shall be developed by the department as a result of public hearings to be held at a convenient location in the state. (5) Butter from outside of the state sold within the state shall be provided with a label which indicates that it complies with the state grade standards as provided in this section and which indicates the grade in a manner equivalent to the requirements for butter manufactured and sold within the state. (6) Butter that carries the state grade labels shall be graded by butter graders licensed under s. 97.175. (7) No person, for himself or herself, or as an agent, shall advertise the sale of any butter at a stated price, unless the grade of the butter is set forth in such advertisement in not less than 10-point type. History: 1977 c. 29 s. 1650m (4); 1983 a. 131 s. 2; Stats. 1983 s. 97.176; 1991 a. 39; 1993 a. 692. Cross-reference: See also ch. ATCP 81, Wis. adm. code. Wisconsin’s butter–grading law does not violate the due process clause, the equal protection clause, or the dormant commerce clause. This section is rationally related to the state’s legitimate interest in consumer protection and does not discriminate against out-of-state businesses. Minerva Dairy, Inc. v. Harsdorf, 905 F.3d 1047 (2018).

97.177 Cheese; grading; labeling. (1) The department shall by rule adopt standards for grades of cheese manufactured in Wisconsin. (2) Cheese which carries a state grade must be graded by a cheese grader licensed under s. 97.175 and must conform to the standards for the grade. Graded cheese must be plainly labeled to indicate the grade of the cheese and the license number of the cheese grader. (3) Cheese manufactured in Wisconsin must be labeled on either the cheese itself or the container at the factory where it is manufactured. The label must remain on the cheese until the cheese is used in a different food manufacturing process or relabeled by the buyer for later sale. The label must contain all of the following: (a) The type or variety of cheese. (b) The word Wisconsin or the code number 55. (c) The factory number designated by the department. (d) The date of manufacture. (e) The number of the vat in which the cheese was manufactured if more than one vat of cheese was manufactured in the factory on the same day. (1) (a) For the purposes of this section “oleomargarine” or “margarine” includes oleomargarine, margarine, butterine and other similar substances, fats and fat compounds sufficiently adaptable to the ordinary uses of butter, to lead readily to use as an alternative to butter, but this section shall not apply to lard, cream cheese, cheese food compounds, nor to any other dairy product made exclusively of cow’s milk or milk solids with or without added vitamins, if such product is sold or distributed in such manner and form as will clearly distinguish it from butter. Nor shall this section apply to shortenings not churned or emulsified in milk or cream or having a melting point of 112 degrees Fahrenheit or more as determined by the capillary tube method unless there is sold or given away with such shortening any compound which, when mixed with such shortening, makes oleomargarine, butterine or similar substances. (b) “Colored oleomargarine” or “colored margarine” is oleomargarine or margarine having a tint or shade containing more than 1/10 degrees of yellow or of yellow and red collectively but with an excess of yellow over red, as measured in terms of Lovibond tintometer scales or its equivalent. (g) “Hooved or camelid mammal” includes water buffalo, yaks, and other bovine species; camels, llamas, alpacas, and other camelid species; and horses, donkeys, and other equine species.

(hm) “Hooved or camelid mammals’ milk” means the lacteal secretion, practically free of colostrum, obtained by the complete milking of one or more healthy hooved or camelid mammals.

(gm) “Milk producer” has the meaning given in s. 97.22 (1) (f).

(hl) “Processing plant” means a facility engaged in pasteurizing or manufacturing dairy products, or processing dairy products into other dairy products, for sale or distribution.

(i) “Receiving station” means a facility which is designed for the receipt and bulk storage of milk, and which is used to receive or store milk in bulk. “Receiving station” does not include a processing plant or a facility used to distribute pasteurized milk in bottled or packaged form to consumers.

(j) “Transfer station” means a facility which is designed and used solely to transfer milk from one bulk transport vehicle to another without intervening storage.

(2) Dairy plant license. (a) License requirement. Except as provided in par. (e), no person, including this state, may operate a dairy plant without a valid license issued by the department for that dairy plant. A dairy plant license expires on April 30 annually, except that a license issued for a new dairy plant on or after January 30 but before May 1 expires on April 30 of the following year. A dairy plant license is not transferable between persons or locations.

(b) License application. An application for a dairy plant license shall be made on a form provided by the department and shall be accompanied by each applicable fee required under subs. (2c) and (2m) to (2w).

The application shall include all information reasonably required by the department for purposes of licensing. The application shall state whether the dairy plant is a processing plant, receiving station or transfer station, and shall describe the nature of any processing operations conducted at the dairy plant.

(2d) Issuance or renewal of license. The department may not issue or renew a dairy plant license unless all of the following conditions are met prior to licensing:

1. The license applicant pays all fees that are due and payable by the applicant under subs. (2c) to (2w), as set forth in a statement from the department. The department shall refund a fee paid under protest if the department determines that the fee was not due and payable as a condition of licensing under this subsection.

2. The license applicant has filed all financial information required under s. 126.44 and any security required under s. 126.47. If an applicant has not filed all financial information under s. 126.44 and any security required under s. 126.47, the department may issue a conditional dairy plant license under s. 93.06 (8) which prohibits the licensed operator from purchasing milk or fluid milk products from milk producers or their agents, but allows the operator to purchase milk or fluid milk products from other sources.

3. If the dairy plant is a new dairy plant, the department has inspected the dairy plant for compliance with this chapter and rules promulgated under this chapter.

(e) License exemptions. A dairy plant license under this section is not required for:

1. A farm manufacturing or processing dairy products solely for consumption by the owner or operator of the farm, or members of the household or nonpaying guests or employees.

2. The retail preparation and processing of meals for sale directly to consumers or through vending machines, if the preparation and processing is covered under a license issued under s. 97.605.

3. A retail food establishment licensed under s. 97.30 if the establishment processes dairy products solely for retail sale at the establishment.

4. A dairy plant that is exempted from licensing by department rule.

5. A food processing plant licensed under s. 97.29 that processes dairy products into a prepared food that is not a dairy product if the dairy products used by the food processing plant are manufactured at a dairy plant from ingredients that are pasteurized or are produced under other processes that eliminate or reduce to an acceptable level the food safety hazards associated with the dairy products, including aseptically processed foods, high acid foods, heat treated foods, aged foods, cold pack foods, and similarly processed foods.

(f) Added operations. No dairy plant may add a new category of dairy plant operations during the time period for which a dairy plant license was issued unless the dairy plant first notifies the department and obtains written authorization for the new category of operations. In this paragraph, “new category of operations” includes the manufacture or processing of any of the following which was not identified on the dairy plant’s most recent license application:

1. Fluid milk products.

2. Cheese and related cheese products.

(2c) Dairy plant license fee. (a) Annual license fee. An applicant for a dairy plant license shall pay an annual license fee specified under par. (b) as follows:

1. An applicant for a license to operate a dairy plant that operated during the previous calendar year shall pay the basic annual license fee plus the supplementary dairy plant license fee based on the amount of milk that was delivered to the dairy plant from milk producers in the previous calendar year, whether or not that particular applicant operated the dairy plant during the previous calendar year.
2. An applicant for a license to operate a dairy plant that has not been operated in the previous calendar year shall pay the basic annual license fee plus the supplementary dairy plant license fee that is established by department rule.

(b) License fee amounts. Unless otherwise established by department rule, the annual license fees required under par. (a) are a basic annual license fee of $80 for each dairy plant plus:

1. For a grade A processing plant, a supplementary annual license fee of $650 if the plant received more than 2,000,000 pounds of milk from milk producers or of $500 if the plant received 2,000,000 pounds or less of milk from milk producers.

2. For a processing plant that is not a grade A processing plant and that annually manufactures or processes more than 1,000,000 pounds of dairy products or more than 200,000 gallons of frozen dairy products, a supplementary annual license fee of $270.

3. For a grade A receiving station, a supplementary annual license fee of $250.

(c) Surcharge for operating without license. An applicant for a dairy plant license shall pay a license fee surcharge if the department determines that within one year before submitting the license application, the applicant operated the dairy plant without a license in violation of sub. (2). The amount of the surcharge is $100, or $500 if the dairy plant operator procures milk or fluid milk products from milk producers or their agents. Payment of this license fee surcharge does not relieve the applicant of any other civil or criminal liability that results from the unlicensed operation of the dairy plant, but does not constitute evidence of any violation of law.

2. The operator of a dairy plant that has not been operated in the previous calendar year, that is not a grade A dairy plant and that produces butter or cheese shall pay a grading fee that, unless otherwise established by department rule, is 1.09 cents for each 100 pounds of butter or cheese that is gradable and produced by the dairy plant during the previous calendar year. An applicant for a license for a dairy plant that has not been operated in the previous calendar year, that is not a grade A dairy plant and that produces butter or cheese shall pay a grading fee that is established by the department by rule.

3. Grade A dairy plant permit. (a) Permit requirement. No person operating a dairy plant at which milk or fluid milk products are received, transferred, manufactured or processed may sell or distribute that milk or those fluid milk products as grade A milk or grade A milk products unless the person holds a valid grade A dairy plant permit issued by the department for that dairy plant. A grade A dairy plant permit expires on April 30 annually and is not transferable between persons or locations. A grade A dairy plant permit may be issued in the form of an endorsement on a dairy plant license under sub. (2). An application for a grade A dairy plant permit shall be made on a form provided by the department and shall be accompanied by each grade A dairy plant supplemental license fee required under sub. (2c).

(b) Grade A standards. A grade A dairy plant shall comply with standards applicable to the receipt, transfer, manufacture, processing and distribution of grade A milk and grade A milk products under this chapter or rules of the department. A grade A dairy plant may not receive, transfer or process milk that is not grade A milk unless the department provides written authorization. Except as provided by the department by rule, the department may not grant that authorization unless the grade A dairy plant maintains separate facilities for the receipt, transfer and processing of milk that is not grade A milk.

(d) Surcharge for operating without a permit. An applicant for a grade A dairy plant permit shall pay a grade A dairy plant permit surcharge of $100 if the department determines that, within one year prior to submitting the permit application, the applicant operated the dairy plant as a grade A dairy plant without a grade A permit, in violation of par. (a). Payment of this surcharge does not relieve the applicant of any other civil or criminal liability which results from a violation of par. (a), but does not constitute evidence of a violation of any law.

(e) Permit contingent on payment of fees. The department may not issue or renew a grade A dairy plant permit until the permit applicant pays all applicable fees under this subsection or subs. (2c) to (2w). The department shall refund a fee paid under protest if the department determines that the fee was not required as a condition of the issuance of a grade A dairy plant permit under this subsection.

3. Crisis hotline information. The department shall develop, and furnish to a dairy plant on request, a standard form containing information about the crisis hotline.

3m Confidentiality. Any information kept by the department under this section or s. 97.24 that identifies individual milk producers who deliver milk to a dairy plant licensed under this section and that is a composite list for that dairy plant is not subject to inspection under s. 19.35 unless inspection is required under s.
126.70 or unless the department determines that inspection is necessary to protect the public health, safety or welfare.

(4) RULE MAKING. The department may promulgate rules to establish amounts of fees required under subs. (2c) to (2w) or to govern the operation of dairy plants. The rules may include standards for the safety, wholesomeness and quality of dairy products; the construction, maintenance and sanitary operation of dairy plants; the design, installation, cleaning and maintenance of equipment and utensils; personnel sanitation; storage and handling of milk and fluid milk products; pasteurization and processing procedures; sampling and testing; and reports and record keeping. The rules may also set forth the duties of dairy plants to inspect dairy farms, collect and test producer milk samples and make reports to the department.

97.21 Milk haulers and milk distributors. (1) DEFINITIONS.

In this section:

(a) “Bulk milk tanker” means a mobile bulk container used to transport milk, fluid milk products, whey or whey cream in bulk from a dairy farm, or to or from a dairy plant in this state. “Bulk milk tanker” includes a mobile bulk container which is permanently mounted on a motor vehicle or which is designed to be towed by a motor vehicle. “Bulk milk tanker” does not include a mobile bulk container which is used by a milk producer solely to transport that producer’s own milk.

(1) “Dairy plant” has the meaning given under s. 97.20 (1) (a).

(b) “Fluid milk product” has the meaning given under s. 97.24 (1) (ar).

(c) “Grade A milk” has the meaning given under s. 97.24 (1) (b).

(e) “Milk distributor” means a person who distributes milk or fluid milk products. “Milk distributor” does not include a dairy plant, a milk hauler, a milk producer, as defined in s. 97.22 (1) (f), or a retail food establishment, as defined in s. 97.30 (1) (c).

(2) BULK MILK TANKER, GRADE A PERMIT. No person may operate a bulk milk tanker to transport milk or fluid milk products in bulk for sale or distribution as grade A milk or grade A milk products without a valid grade A bulk milk tanker permit issued annually by the department or an equivalent regulatory agency in another state for that bulk milk tanker. A grade A bulk milk tanker permit is not transferable between persons or bulk milk tankers. An application for a permit shall be made on a form provided by the department. An applicant shall include with an application for a permit proof that the bulk milk tanker has passed an inspection conducted within the preceding year by the department or an individual certified by the department to conduct bulk milk tanker inspections. Except as provided in sub. (4), the department may not waive a fee for a grade A bulk milk tanker permit issued under this paragraph.

(3) MILK DISTRIBUTORS, LICENSE. No person may operate as a milk distributor without a valid license issued by the department. A milk distributor license expires on April 30 annually. An application for a license shall be made on a form provided by the department and shall be accompanied by applicable fees under sub. (4). The application shall include all information reasonably required by the department for purposes of issuing the license.

(4) FEES. (a) License fee. An applicant for a milk distributor license shall pay the license fee specified under sub. (4m).

(b) Reinspection fee. If the department reinspects a bulk milk tanker or the vehicle or facilities of a milk distributor because the department finds a violation of this chapter or rules promulgated under this chapter, the department shall charge the bulk milk tanker operator or milk distributor the reinspection fee specified under sub. (4m). The reinspection fee is payable when the reinspection is completed, and is due upon written demand from the department. The department may issue a demand for payment when it issues a permit renewal application to the bulk milk tanker operator or a license renewal application to the milk distributor.

(c) Surcharge for operating without a license. An applicant for a milk distributor license shall pay a license fee surcharge of $100 or twice the amount of the annual license fee specified under sub. (4m), whichever is less, if the department determines that, within one year prior to submitting the license application, the applicant operated without a license in violation of this section. Payment of this license fee surcharge does not relieve the applicant of any other civil or criminal liability that results from a violation of sub. (3), but does not constitute evidence of any violation of law.

(4m) Fee amounts. The department shall establish the fees required under sub. (4) (a) and (b) by rule.

(5) LICENSING AND PERMITTING CONTINGENT ON PAYMENT OF FEES. The department may not issue or renew a grade A bulk milk tanker permit or milk distributor license unless the permit or license applicant pays all fees that are due and payable by the applicant under sub. (4), as set forth in a statement from the department. The department shall refund a fee paid under protest if the department determines that the fee was not due and payable as a condition of permitting or licensing under this section.

(6) RULE MAKING. The department may promulgate rules to establish amounts of fees required under sub. (4) or to regulate bulk milk tanker operators and milk distributors. The rules may include standards for the construction, maintenance and sanitary operation of bulk milk tankers, milk distribution vehicles and milk distribution facilities; the design, installation, cleaning and maintenance of equipment and utensils; personnel sanitation; storage and handling of milk and fluid milk products; identification of bulk milk tankers and milk distribution vehicles; and record keeping.

97.22 Milk producers. (1) DEFINITIONS.

In this section:

(a) “Dairy farm” means any place where one or more cows, sheep or goats are kept for the production of milk.

(b) “Dairy plant” has the meaning given under s. 97.20 (1) (a).

(c) “Fluid milk product” has the meaning given under s. 97.24 (1) (ar).

(d) “Grade A milk” has the meaning given under s. 97.24 (1) (b).

(f) “Milk producer” means any person who owns or operates a dairy farm, and sells or distributes milk produced on that farm.

(2) LICENSE. (a) License required. No person may operate a dairy farm as a milk producer without a valid license issued by the department for that dairy farm. A license expires on April 30 annually and is not transferable between persons or dairy farms. Every milk producer shall comply with standards applicable to the production of milk and fluid milk products under this chapter and rules promulgated under this chapter.

(b) License fee. Unless otherwise established by department rule, the fee for a milk producer license under par. (a) is $20, except that an individual who is eligible for the veterans fee waiver program under s. 45.44 is not required to pay a fee. The department also may establish by rule a reduced license fee for a producer who is properly inspected at least once annually by a special dairy farm inspector certified under sub. (7).

(c) Dairy plant to pay license fee for milk producers. The operator of a dairy plant licensed under s. 97.20 shall pay the milk producer license fee under this subsection for every dairy farm from which the dairy plant receives milk at the time the fee payment is due. An applicant for a dairy plant license shall submit that fee with the applicant’s dairy plant license application under s. 97.20. A dairy plant operator who pays a milk producer license fee may charge that fee back to the milk producer if the dairy plant operator notifies the milk producer in writing of the dairy plant operator’s intent to charge the fee to the milk producer. A dairy plant operator
may not discriminate between milk producers with respect to fee charges under this paragraph, but may charge back license fees to all milk producers who cease shipping milk to the dairy plant during the license year. A dairy plant operator who pays a milk producer license fee may not deduct the amount of the fee from any payment to the milk producer for milk that the dairy plant operator purchases from the milk producer.

(3) Grade A Dairy Farm Permit. No milk producer may sell or distribute milk from his or her dairy farm as grade A milk without a valid grade A dairy farm permit issued by the department for that dairy farm. A grade A dairy farm permit expires on April 30 annually and is not transferable between persons or dairy farms. A grade A dairy farm permit may be issued in the form of an endorsement on a milk producer license under sub. (2). Every milk producer holding a grade A dairy farm permit shall comply with standards applicable to the production of grade A milk under this chapter or rules promulgated under this chapter.

NOTE: Sub. (3) is shown as renumbered from sub. (3) (a) by the legislative reference bureau under s. 13.92 (1) (bm) 2. Par. (a) (title) was removed under s. 35.17 as unnecessary.

(4) Reinspection and Reinstatement Fees. (a) Fee required. 1. If the department or a special dairy inspector has found a violation of this chapter or rules promulgated under this chapter, and if the department has not lowered the grade of the milk that may be sold or distributed from the dairy farm because of the violation, the department shall charge the reinvestment fee specified under par. (am) to reinspect the dairy farm.

2. If the department or a special dairy inspector has found a violation of this chapter or rules promulgated under this chapter, and if the department has lowered the grade of the milk that may be sold or distributed from the dairy farm because of the violation, the department shall charge the reinvestment fee specified under par. (am) to reinspect the dairy farm.

3. A reinspection or reinstatement fee is payable when the reinvestment is completed, and is due upon written demand from the department.

(b) Dairy Plant to Pay Reinspection or Reinstatement Fee for Milk Producer. The operator of a dairy plant licensed under s. 97.20 shall pay the dairy farm reinspection or reinstatement fee under this subsection for every milk producer who was shipping milk from the reinspected dairy farm to that dairy farm at the time the dairy farm was reinspected. The department may issue an annual statement of reinspection or reinstatement fees payable by the dairy plant, and may demand payment from the dairy plant on an annual basis, when it issues an application form for the renewal of the dairy plant’s license under s. 97.20. A dairy plant operator who pays a dairy farm reinspection or reinstatement fee shall charge that fee back to the milk producer.

(5) Fees Payable by Milk Producer if Not Paid by Dairy Plant. If a milk producer ships milk to a dairy plant which is not subject to licensure under s. 97.20, the unlicensed dairy plant may voluntarily pay the fees required under this section on behalf of the milk producer if the dairy plant is authorized by the milk producer to pay the fees. If no dairy plant pays the fees required under this section on behalf of a milk producer, the milk producer shall pay the fees.

(6) Dairy Farm Inspection Frequency. The department shall inspect every dairy farm other than a grade A dairy farm at least once every 2 years, and shall inspect every grade A dairy farm at the frequency required by the department by rule under s. 97.24.

(7) Special Dairy Farm Inspectors. The department may certify a dairy plant employee or agent to inspect dairy farms on behalf of the department as a special dairy farm inspector. A special dairy farm inspector shall inspect dairy farms and make written reports to the department according to procedures prescribed by the department. The department may promulgate rules governing the certification of special dairy farm inspectors; defining the authority and responsibilities of those inspectors; establishing inspection and reporting requirements; and establishing procedures by which the department will review inspector performance.

(8) Rule Making. The department may promulgate rules to establish the fees required under sub. (2) (b) or (4) (a) or to govern the operation of dairy farms by milk producers. The rules may include standards for any of the following:

(a) The safety, wholesomeness and quality of milk.
(b) The sanitary construction and maintenance of dairy farm facilities used in milk production.
(c) The availability of safe and adequate water supplies for milk production.
(d) The sanitary construction, maintenance and cleaning of equipment and utensils used in milk production.
(e) Personnel sanitation related to milk production.
(f) Sanitary procedures for the production of milk, including but not limited to the handling, transfer and storage of milk on a dairy farm.

(10) Confidentiality. Any information obtained and kept by the department under this section, under s. 97.24, or under rules promulgated under those sections, that pertains to individual milk producer production, milk fat and other component tests and quality records is not subject to inspection under s. 19.35 except as required under s. 126.70 or except as the department determines is necessary to protect the public health, safety or welfare.

97.23 Drug residues in milk. (1) In this section:

(a) “Dairy plant” has the meaning given in s. 97.20 (1) (a).
(b) “Milk producer” has the meaning given in s. 97.22 (1) (f).

(2) a. If, in accordance with a rule promulgated by the department under s. 93.07 (1), 97.09 (4), 97.20 (4), 97.22 (8), or 97.24 (3), a dairy plant operator rejects a bulk milk shipment because it is adulterated with a drug residue and if the dairy plant operator incurs a monetary loss as a result of the rejection of the bulk milk shipment, the dairy plant operator may recover the amount of the monetary loss from the milk producer who caused the bulk shipment to be adulterated with the drug residue. A dairy plant operator may deduct the amounts recoverable by him or her under this paragraph from the proceeds of milk sold to or through the dairy plant operator by the milk producer who caused the adulteration.

b. 1. Except as provided in subd. 2., the department may, by rule, require a dairy plant operator who rejects a bulk milk shipment because it is adulterated with a drug residue and who suffers a monetary loss as a result of the rejection of the bulk milk shipment to recover all or part of the monetary loss from the milk producer who caused the adulteration by deducting from the proceeds of milk sold by the milk producer an amount that is specified by the department by rule.

2. The department may not require a dairy plant operator who rejects a bulk milk shipment because it is adulterated with a drug residue to recover an amount that exceeds the dairy plant operator’s actual monetary loss.

97.24 Milk and milk products. (1) Definitions. In this section:

(a) “Dairy farm” means any place where one or more cows, sheep or goats are kept for the production of milk.

fied milk or milk products, and any other product made by adding any substance to milk or any of these products.

(b) “Grade A milk” means milk which is produced, processed and distributed in compliance with grade A standards established by the department by rule under this chapter.

(c) “Grade A milk product” means a fluid milk product which is produced, processed and distributed in compliance with grade A standards established by the department by rule under this chapter.

(d) “Milk distributor” has the meaning given under s. 97.21 (1) (e).

(e) “Milk hauler” means any person, other than a milk pro-
ducer hauling his or her own milk only, who transports milk or fluid milk products to or from a dairy plant or a collecting point.

(f) “Milk producer” means any person who owns or operates a dairy farm, and sells or distributes milk produced on that dairy farm.

(2) REQUIREMENTS FOR MILK AND FLUID MILK PRODUCTS; GRADE A REQUIREMENT. (a) No person may sell or distribute any milk unless that milk is produced, processed and distributed in compliance with standards established by the department by rule under this chapter.

(b) No person may sell or distribute any milk or fluid milk products which are not grade A milk or grade A milk products to consumers, or to any restaurant, institution or retailer for con-
sumption or resale to consumers. Grade A milk and grade A milk products shall be effectively pasteurized, and shall be processed, produced and distributed in compliance with standards established by the department by rule under this chapter.

(c) No person may sell or distribute milk or fluid milk products which are labeled or otherwise represented as grade A milk or grade A milk products unless the milk and fluid milk products comply with this chapter and with standards established by the department by rule under this chapter.

(d) This section does not prohibit:

1. The sale of milk or fluid milk products which are heat steri-
lized in hermetically sealed containers.

2. Incidental sales of milk directly to consumers at the dairy farm where the milk is produced.

3. Incidental sales of pasteurized milk at a dairy plant licensed under s. 97.20.

4. The sale of grade A milk or grade A milk products which are produced and processed under equivalent laws or rules of another state or a local governmental unit, as provided under sub. (4) (b).

(3) RULES. The department, in consultation with the department of health services, shall issue rules governing the production, transportation, processing, pasteurization, handling, identity, sampling, examination, labeling and sale of milk and fluid milk products; the inspection of dairy herds, dairy farms and dairy plants; the issuing and revocation of permits to milk producers and milk haulers, and of licenses to dairy plants and milk distributors. Insofar as permitted by the laws of this state, such rules shall be in reasonable accord with the minimum standards and require-
ments for milk and fluid milk products currently recommended and published by the U.S. public health service as a milk ordi-
nance and code, except that the requirements for bottling and ster-
ilization of bottles in such standards shall not apply to milk sold by a producer, selling only milk produced by the producer on the producer’s dairy farm under the producer’s own supervision, and selling such milk only in the producer’s own milk house, which milk meets the requirements of grade A standards as set forth by the department of agriculture, trade and consumer protection, to a purchaser who has provided his or her own container, which has been sanitized in a manner comparable to the sanitizing of the utensils used in the production of milk by the producer, if the pur-
chaser is purchasing milk for his or her own consumption.

(4) LEGISLATIVE PURPOSE. Uniformity, reciprocity. (a) Regulation of the production, processing and distribution of milk and fluid milk products under minimum sanitary requirements which are uniform throughout this state and the United States is essential for the protection of consumers and the economic well-being of the dairy industry, and is therefore a matter of statewide concern; however, nothing in this section shall impair or abridge the power of any municipality or county to regulate milk or fluid milk prod-
ucts under sanitary requirements and standards which are in rea-
nonable accord with those established under this section or the power to impose reasonable license permit and inspection fees which combined shall not exceed the cost of necessary inspection. A municipality or county may not impose any fee for its inspection of milk pro-
ducers, dairy plant facilities or dairy products which are under the inspection supervision of another governmental unit within or without the state with a valid certification rating made or approved by the department. No governmental unit may impose or collect a fee directly from the producer. A license or permit fee not to exceed $25 annually may be imposed on milk distributors licensed under s. 97.22 and on dairy plants under the inspection supervision of another governmental unit which are engaged in the distribution of milk within a municipality or county.

(b) No sanitary requirement or standard established under this section or contained in any ordinance may prohibit the sale of milk or fluid milk products which are produced and processed under laws or rules of any governmental unit, within or without this state, which are substantially equivalent to the requirements of the rules promulgated under this section, and which are enforced with equal effectiveness, as determined by a milk sanitation rating made or approved by the department, under rules promulgated under this section.

(5) CERTIFICATION OF GRADE A DAIRY OPERATIONS. The department shall conduct evaluation surveys of grade A dairy operations in this state to the extent necessary to certify to the federal food and drug administration, out-of-state markets, the fed-
eral public health service, and local health departments, the com-
pliance rating of the grade A dairy operations based upon the sanitation and enforcement requirements of the grade A pasteur-
ized milk ordinance of the federal public health service and its related documents. The department may promulgate rules estab-
lishing fees which may be charged to dairy plants to fund these activities.

(3m) DURATION OF MILK PRODUCER AFFIDAVITS. (a) In this subsection, “milk producer affidavit” means a written, sworn, and notarized statement signed by a milk producer that certifies to the person receiving the affidavit that the milk producer does not use synthetic bovine growth hormone in the production of milk delivered to the person.

(b) The department may not promulgate a rule under sub. (3) that limits the duration that a milk producer affidavit may be used to substantiate a claim that a dairy product contains no synthetic bovine growth hormone or is made from milk produced without the use of synthetic bovine growth hormone.

(4) RECIPROCITY. A person may sell a dairy product that is labeled for retail sale in another state the label of which indicates that the dairy product is not produced from herds being administered synthetic bovine growth hormone only if the dairy product is from a state identified by the department as having laws comparable to this state’s laws on labeling dairy products not produced with synthetic bovine growth hormone only if the dairy product is labeled in compliance with the laws of that state.

(c) Surcharge for operating without a license. An applicant for a food warehouse license shall pay a license fee surcharge of $100 if the department determines that, within one year prior to submitting the licensing application, the applicant operated a food warehouse without a license in violation of this subsection. Payment of this license fee surcharge does not relieve the applicant of any other civil or criminal liability which results from the unlicensed operation of the food warehouse, but does not constitute evidence of a violation of law.

(3m) FEE AMOUNTS. Unless otherwise established by department rule, the fees required under sub. (3) are:

(a) For a food warehouse that stores potentially hazardous food, and that has fewer than 50,000 square feet of storage area, an annual license fee of $50 and a reinspection fee of $50.

The department shall refund a fee paid under protest if the department determines that the fee was not due and payable as a condition of licensing under this section.

(5) RULE MAKING. The department may promulgate rules to establish the fees required under sub. (3) or to govern the sanitary operation of food warehouses. Rules may include any of the following:

(a) Standards for the construction and maintenance of food storage facilities.

97.41 Retail food: agent status for local health departments. (1) In this section:

(a) “Local board of health” has the meaning given in s. 250.01 (3).

(b) “Local health department” has the meaning given in s. 250.01 (4).

(1m) In the administration of this chapter, the department may enter into a written agreement with a local health department, if the jurisdictional area of the local health department has a population greater than 5,000, which designates the local health department as the agent of the department of agriculture, trade and consumer protection for issuing licenses to and making investigations or inspections of retail food establishments, as defined in s. 97.30 (1) (c). When the designation is made, no license other than the license issued by the local health department under this section may be required by the department of agriculture, trade and consumer protection or the local health department for the same operations. The department of agriculture, trade and consumer protection shall oversee the designation of agents under this section to ensure that, to the extent feasible, the same local health department is granted agent status under this section and under s. 97.615 (2). Except as otherwise provided by the department of agriculture, trade and consumer protection, a local health department granted agent status shall regulate all types of establishments for which this subsection permits the department of agriculture, trade and consumer protection to delegate regulatory authority.

(2) A local health department granted agent status under this section shall meet standards adopted, by rule, by the department. The department shall annually evaluate the licensing, investigation and inspection program of each local health department granted agent status. If, at any time, a local health department granted agent status fails to meet the standards, the department may revoke its agent status.

(3) The department shall provide education and training to agents designated under this section to ensure uniformity in the enforcement of this chapter and rules adopted under this chapter.

(4) (a) Except as provided in par. (b), a local health department granted agent status under this section shall establish and collect the license fee for retail food establishments, as defined in s. 97.30 (1) (c). The local health department may establish separate fees for pre-licensing inspections of new establishments, for pre-licensing inspections of existing establishments for which a person intends to be the new operator or for the issuance of duplicate licenses. No fee may exceed the reasonable costs of issuing licenses to, making investigations and inspections of, and providing education, training and technical assistance to the establishments, plus the state fee established under sub. (5). A local health department which is granted agent status under this section or under s. 97.615 may issue a single license and establish and collect a single fee which authorizes the operation on the same premises of more than one type of establishment with respect to which it is granted agent status under this section or under s. 97.615 (2). This paragraph does not apply to retail food establishments, as defined in s. 97.30 (1) (c), that are micro markets.

(5) (am) 1. a. Within 2 business days after an applicant submits an application to a local health department granted agent status under this section for a license to operate a new retail food establishment, as defined in s. 97.30 (1) (c), that is a micro market, the local health department may inspect the applicant’s new retail food establishment that is a micro market for the purposes provided in s. 97.30 (2) (d).

b. If a local health department granted agent status under this section conducts under subd. 1. a. an inspection of a new retail food establishment, as defined in s. 97.30 (1) (c), before issuing a license, the local health department may establish and collect from the applicant a pre-licensing inspection fee of $40 if the applicant will operate one micro market located within a single...
building or $60 if the applicant will operate 2 or more micro markets located in the same building.

c. Notwithstanding subd. 2., a local health department that collects a fee from an applicant under this subdivision may not collect a fee under subd. 2. for an annual license from the applicant.

2. If a local health department granted agent status under this section does not under sub. 1. a. conduct a pre−licensing inspection of an applicant’s new retail food establishment, as defined in s. 97.30 (1) (c), that is a micro market, the local health department shall issue a retail food establishment license to the applicant and before one year after the date that the license is issued the local health department shall inspect the applicant’s new retail food establishment that is a micro market for the purposes provided in s. 97.30 (2) (d). A local health department granted agent status under this section shall collect the license fees under s. 97.30 (3s) for retail food establishments, as defined in s. 97.30 (1) (c), that are micro markets.

(b) A local health department granted agent status under this section may contract with the department for the department to collect fees and issue licenses. The department shall collect from the local health department the actual and reasonable cost of providing the services.

(5) The department shall establish state fees for its costs related to setting standards for retail food establishments, as defined in s. 97.30 (1) (c), setting standards for agents under this section and monitoring and evaluating the activities of, and providing education and training to, agent local health departments. Agent local health departments shall include the state fees in the license fees established under sub. (4) (a) or (am), collect the state fees, and reimburse the department for the state fees collected. The state fee may not exceed 20 percent of the license fee charged under s. 97.30 (3), or for a retail food establishment that is a micro market, 20 percent of the license fee charged under s. 97.30 (3s), for a license issued by the department.

(6) If, under this section, a local health department becomes an agent or its agent status is discontinued during a licensee’s license year, the department and the local health department shall divide any license fee paid for that license year according to the proportions of the license year occurring before and after the local health department’s agent status is granted or discontinued. No additional fee may be required during the license year due to the change in agent status.

(7) A local board of health may adopt and impose regulations on licensees and premises for which the local health department is the designated agent under this section, which are stricter than this chapter or rules promulgated by the department under this chapter. No such regulation may conflict with this chapter or rules promulgated by the department.

(8) This section does not limit the authority of the department to inspect establishments in jurisdictional areas of local health departments where agent status is granted if it inspects in response to an emergency, for the purpose of monitoring and evaluating the local health department’s licensing, inspection and enforcement program or at the request of the local health department.

(9) The department shall hold a hearing under ch. 227 if any interested person, in lieu of proceeding under ch. 68, appeals to the department alleging any of the following:

(a) A permit fee established by a local health department granted agent status exceeds the reasonable costs described under sub. (4) (a).

(b) The person issuing, refusing to issue, suspending or revoking a permit or making an investigation or inspection of the appellant has a financial interest in a regulated establishment which may interfere with his or her ability to properly take that action.

(c) That a license fee for a retail food establishment license issued by an agent local health department under this section exceeds the reasonable costs of that agent local health department for issuing the license, investigating and inspecting the establishment, and providing education, training and technical assistance to the establishment.

That license expires on June 30 annually, except that a license issued for a new establishment on or after March 30 but before July 1 expires on June 30 of the following year. No license may be issued unless the applicant has submitted the requirements set forth in this section. The department shall establish by rule the annual license fees for establishments, not to exceed $200, based on the type of mandatory inspection required to be performed at the establishment. The department shall establish a reduced annual license fee for those establishments engaged only in slaughtering uninspected livestock or poultry or processing uninspected meat or poultry products as a custom service, but not for other operations for which a license under this section is required. (3) STATE INSPECTION. (a) Examination before slaughter. For the purpose of preventing the sale and use in this state of meat or poultry products that are adulterated or otherwise not capable of use as human food, the department shall cause to be made, by inspectors who may be veterinarians on either a full-time or part-time basis, under supervision of the department, an examination and inspection of all livestock and poultry before they are slaughtered in any establishment, except as provided in pars. (d) and (em). All livestock and poultry found to show symptoms of disease shall be condemned or set apart and slaughtered separately from all other livestock and poultry, and when so slaughtered the meat or poultry products thereof shall be subject to careful examination, inspection, and disposition, in accordance with rules issued by the department.

(b) Examination after slaughter. For the purpose stated in par. (a), the department shall cause to be made, by inspectors who may be veterinarians on either a full-time or part-time basis, under supervision of the department, an examination and inspection of the meat or poultry products of all livestock and poultry slaughtered at any establishment, except as provided in pars. (d) and (em). Meat or poultry products found to be not adulterated and capable of use as human food shall be marked, stamped, tagged, or labeled by inspectors as “Wis. inspected and passed”. Inspectors shall mark, stamp, tag, or label as “Wis. inspected and condemned” all meat or poultry products found to be adulterated or otherwise not capable of use as human food, and all meat or poultry products so inspected and condemned shall be destroyed, in accordance with rules issued by the department. Inspection marks, stamps, tags, and labels shall be prescribed by the department and shall include thereon the identification number of the establishment assigned by the department.

(c) Reexaminations. Inspectors shall, when deemed advisable, reinspect meat or poultry products to determine whether they have become adulterated or otherwise not capable of use as human food. If any meat or poultry products, upon a reexamination, are found to be adulterated or otherwise not capable of use as human food, they shall be destroyed, in accordance with rules issued by the department.

(cm) Voluntary reimbursable inspection services. The department shall provide slaughter inspection services for licensed establishments for certain captive game animals and captive game birds, and shall designate by rule the species of captive game animals and captive game birds for which these services may be provided. The establishment requesting these services shall reimburse the department for the actual cost of providing the services at rates established by the department.

(d) Custom service slaughtering. This subsection does not apply to livestock and poultry slaughtered as a custom service for the owner of the livestock or poultry exclusively for use by the owner, members of the owner’s household, and the owner’s non-paying guests and employees, unless department inspection is specifically requested and performed at establishments where examinations before and after slaughter are otherwise required. The rules of the department shall make provision for the furnishing of this inspection service, subject to availability of inspector personnel, and for the identification of all livestock and poultry custom slaughtered for the owners thereof without department inspection.

(e) Periodic inspections. The department shall make periodic inspections of construction, operation, facilities, equipment, labeling, sanitation, and practices for ensuring meat or poultry products are not adulterated, at establishments or any other premises, including vehicles engaged in transportation of meat or poultry products. Inspection of products and plant operations shall cover operations such as cutting and boning, curing and smoking, grinding and fabrication, manufacturing, packaging, labeling, storage and transportation. Periodic inspections of processing operations shall be conducted as uniformly as possible among establishments subject to overtime inspection under sub. (4) (f) to avoid the imposition of undue inspection fees against any establishment. Inspections at overtime rates shall only be held where necessary to assure the safety of products for human consumption and compliance with the requirements of this section and rules of the department.

(em) Slaughter of farm-raised deer. The requirements of pars. (a) and (b) do not apply to the slaughter of a farm-raised deer if its meat products are not sold by an operator of a retail food establishment, as defined under s. 97.30 (1) (c). The operator of an establishment in which farm-raised deer or their meat products are examined and inspected under this subsection shall pay the department for the cost of the department’s examination and inspection.
(f) Label requirements. In addition to label requirements otherwise provided by law, meat or poultry products shall bear a label, stamp, mark or tag including thereon the official inspection mark and identification number of the establishment where processed. Meat or poultry products processed and sold at retail to household consumers on the premises do not require official inspection marks and identification numbers.

(4) RULES. The department may issue reasonable rules requiring or prescribing any of the following:

(e) The hours and days in each week when slaughtering or processing may be conducted in any establishment subject to a license under sub. (2). The schedules so fixed shall be as nearly as possible in accord with existing industry standards of establishments subject to inspection. However, in order to avoid excessive costs for inspection and stay within the limit of appropriations, the schedules may require that:

1. Slaughtering or processing be conducted continuously during successive days and hours of the regular workweek for state employees;

2. The rate of slaughter for the different classes of livestock and poultry conform to reasonable minimum levels per hour;

3. Inspection of livestock and poultry slaughtered as a custom service be restricted to the time of the regular slaughter schedule fixed for the establishment. When inspection is provided for custom slaughtering and custom processing the inspection shall be conducted in accordance with sub. (3) (a) to (c) and rules prescribed under this subsection; and

4. The department be notified a reasonable time in advance of any deviation from existing schedules when slaughtering or processing is to be conducted at times other than those specified under regularly established schedules.

(em) The rate at which an operator of an establishment that slaughters farm-raised deer or processes the meat products of farm-raised deer shall pay the costs of examination and inspection under sub. (3) (em) and the manner in which the department shall collect those amounts.

(f) Overtime agreements with the department whereby the operator of any establishment subject to a license under sub. (2) agrees to pay the cost for salaries, at overtime rates, and other expenses of department inspectors whenever slaughtering, carcass preparation, or the processing of meat or poultry products is conducted beyond hours or days limited under par. (e), or on Saturdays, Sundays, or holidays for state employees under s. 230.35 (4), or before 6 a.m. or after 6 p.m., or in excess of 40 hours in any week. Overtime charges for periodic inspections under sub. (3) (e) shall, insofar as possible, be limited to the minimum number of hours reasonably required for conducting those inspections. The department may assess overtime charges under this paragraph even though the department provides compensatory time in lieu of overtime compensation under s. 103.025.

(g) Specifications and standards for location, construction, operation, facilities, equipment, and sanitation for any premises, establishment, or mobile facility where slaughter or processing is carried on, including custom slaughtering of livestock or poultry and custom or retail processing of meat or poultry products.

(h) Conditions of sanitation under which meat or poultry products shall be stored, transported, or otherwise handled by any person engaged in the business of buying, selling, freezing, storing, transporting, or processing meat or poultry products.

(i) Record-keeping requirements for persons engaged in slaughtering or processing operations, or in the storage or transportation of meat or poultry products, including record-keeping requirements for meat brokers and the registration of meat brokers with the department.

(6) PROHIBITIONS. (a) No person may slaughter any livestock or poultry for the purpose of selling the meat or poultry products thereof for human food, or sell, offer for sale, or have in his or her possession with intent to sell any meat or poultry products for human food, unless the livestock or poultry and the meat or poultry products thereof have been first inspected and approved as provided by any of the following:

1. This section and the rules issued thereunder.

2. The federal meat inspection act.

3. The federal poultry products inspection act.

(b) No person may sell, offer for sale, or have in his or her possession with intent to sell any meat or poultry products unless those products have been processed in accordance with this section or the federal meat inspection act.

(c) No person may slaughter horses, mules, or other equines or process equine carcasses or meat at establishments where livestock or poultry are slaughtered or where meat or poultry products are processed.

(d) No county or municipality may prohibit the sale of any meat or poultry products if the meat or poultry products are inspected and passed by the department or by the federal department of agriculture, or provided the meat or poultry products are not adulterated or misbranded at the time of sale.

(7) RIGHT OF ACCESS. No person may prevent or attempt to prevent an inspector or other officer or agent of the department from entering, at any time, any establishment or any other place where meat or poultry products are processed, sold, or held for sale, for the purpose of any examination, inquiry, or inspection in connection with the administration and enforcement of this section. The examination, inquiry, or inspection may include taking samples, pictures, and documentary and physical evidence pertinent to enforcement of this section.

(8) INTERFERENCE WITH INSPECTION. Any person who forcibly assaults, threatens, obstructs, impedes, intimidates or interferes with any person while engaged in the performance of his or her official duties under this section shall be fined not more than $5,000 or imprisoned in the county jail not to exceed one year or both.

(9) TAGGING OF FACILITIES, EQUIPMENT AND PRODUCT. (a) When in the opinion of the department, the use of any equipment, utensil, container, compartment, room, or facility which is unclean or unsanitary or improperly constructed could lead to contamination of a meat or poultry product, the department may attach a “Rejected” tag to the item, room, or facility. No equipment, utensil, container, compartment, room, or facility so tagged may be used until made acceptable and released by a department representative, or until that item, room, or facility is replaced with an acceptable item, room, or facility.

(b) 1. When in the opinion of the department any meat or poultry product, or supplies or ingredients used in the processing thereof, may be adulterated or misbranded, or otherwise fail to meet standards or requirements of this section or rules adopted under this section, the department may tag the product, supplies, or ingredients with a “Retained” tag to hold them for further inspection, analysis, or examination. No meat or poultry product,
supplies, or ingredients so tagged may be used, removed from the premises, or otherwise disposed of unless released by a department representative. A tagged item may not be retained for more than 30 days without prior notice to the owner or custodian and the right to an immediate hearing.

2. In the opinion of the department any meat or poultry product, or supplies or ingredients used in the processing thereof, is adulterated or misbranded, or otherwise fails to meet standards or requirements of this section or rules adopted under this section, the department may tag the product, supplies, or ingredients with a “Detained” tag to hold them for destruction or other disposition. No meat or poultry product, supplies, or ingredients so tagged may be removed from the premises or otherwise disposed of unless released by a department representative. A tagged item may not be destroyed or detained for more than 30 days without prior notice to the owner or custodian and the right to an immediate hearing.

(c) No person may alter, deface or remove any tag from facilities, equipment, products or supplies to which it has been attached by a department inspector without the express consent or approval of the inspector or other department representative.

(10) Suspension. The department may, upon written notice, summarily suspend the operations in whole or in part at any establishment for substantial violations of this section or rules issued hereunder when, in the opinion of the department, a continuation of the violations would constitute a present or imminent danger to public health. The department may, upon written notice, summarily suspend inspection at any establishment for acts punishable under sub. (8) where those acts substantially impair an inspector’s ability to conduct an orderly inspection. Upon suspension of operations or inspection, the operator of the establishment may demand a hearing to determine whether the suspension should be vacated. The department shall, within 5 days after receipt of the demand, hold a hearing and adjudicate the issues as provided in ch. 227. A demand for hearing does not operate to stay the suspension pending the hearing.

(11) Exemption. (1) Every hotelkeeper shall keep posted in a conspicuous place in each sleeping room in his or her hotel, in type not smaller than 12-point, the rates per day for each occupant. Such rates shall not be changed until notice to that effect has been posted, in a similar manner, for 10 days previous to each change. Any hotelkeeper who fails to have the rates so posted or who charges, collects or receives for the use of any room a sum different from the authorized charge shall be fined not less than $50 nor more than $100. A hotelkeeper may permit a room to be occupied at the rate of a lower priced room when all of the lower priced rooms are taken and until one of them becomes unoccupied. Special rates may be made for the use of sleeping rooms, either by the week, month or for longer periods or for use by families or other collective groups. The department or its representatives may enforce the posting of rates as provided in this subsection.

97.639 Motel rates. (1) Definitions. (a) “Operator” includes a manager or any person in charge of the operation of motels and like establishments. “Operator” or “owner” includes natural persons, firms and corporations.

(b) “Outdoor sign” or “outside sign” means any sign visible to passersby, regardless of whether the sign is located in or outside of buildings.

(c) “Room rates” means the rates at which rooms or other accommodations are rented to occupants.

(2) Rental posted. No owner or operator of any establishment that is held out as a motel, motor court, tourist cabin or like accommodation may post or maintain posted on any outdoor or outside advertising sign for the establishment rates for accommodations in the establishment unless the sign has posted on it both the minimum and maximum room or other rental unit rates for accommodations offered for rental. All posted rates and descriptive data required by this section shall be in type and material of the same size and prominence as the minimum and maximum room or other rental unit rates. Signs that only state the rate per person or bear the legend “and up” do not comply with the requirements of this subsection.

(3) Accommodations must exist. No owner or operator of any motel, motor court, tourist cabin or like accommodation may post or maintain posted on any outdoor or outside advertising signs rates for accommodations in the establishment unless there is available, when vacant, accommodations in the establishment for immediate occupancy to meet the posted rates on the advertising signs.

(4) Misrepresentation. No owner or operator of any motel, motor court, tourist cabin or like accommodation may post or maintain posted on any outdoor or outside advertising signs that the food, construction, sanitary condition, operation or method of operation of the premises or equipment constitutes an immediate danger to health, unless the license, owner, or custodian of the food or premises shall be promptly notified in writing and the temporary order shall terminate upon his or her receipt of the written notice.

(5) Construction. Nothing in this section may be construed to require motels, motor courts, tourist cabins, or like accommodations to have outdoor or outside signs. This section shall be liberally construed so as to prevent untrue, misleading, false, or fraudulent representations relating to rates placed on outdoor or outside signs of the establishments.

97.65 Enforcement. (1) The department may enter, at reasonable hours, any premises for which a license is required under this subchapter or s. 97.67 or any restaurant or temporary restaurant for which a license is required under s. 97.30 to inspect the premises, secure samples or specimens, examine and copy relevant documents and records, or obtain photographic or other evidence needed to enforce this subchapter or s. 97.30 or s. 97.67. If samples of food are taken, the department shall pay or offer to pay the market value of the samples taken. The department shall examine the samples and specimens secured and shall conduct other inspections and examinations needed to determine whether there is a violation of this subchapter or s. 97.30 or 97.67, or rules promulgated by the department under this subchapter or s. 97.30 or s. 97.67.

(2) (a) Whenever, as a result of an examination, the department has reasonable cause to believe that any examined food constitutes, or that any construction, sanitary condition, operation, or method of operation of the premises or equipment used on the premises creates, an immediate danger to health, the department may issue a temporary order and cause it to be delivered to the licensee, or to the owner or custodian of the food, or to both. The order may prohibit the sale or movement of the food for any purpose, prohibit the continued operation or method of operation of specific equipment, require the premises to cease other operations or methods of operation which create the immediate danger to health, or set forth any combination of these requirements. The department may order the cessation of all operations authorized by the license only if a more limited order does not remove the immediate danger to health. Except as provided in par. (c), no temporary order is effective for longer than 14 days from the time of its delivery, but a temporary order may be reissued for one additional 14-day period, if necessary, to complete the analysis or examination of samples, specimens, or other evidence.

(b) No food described in a temporary order issued and delivered under par. (a) may be sold or moved and no operation or method of operation prohibited by the temporary order may be resumed without the approval of the department, until the order has terminated or the time period specified in par. (a) has run out, whichever occurs first. If the department, upon completed analysis and examination, determines that the food, construction, sanitary condition, operation or method of operation of the premises or equipment does not constitute an immediate danger to health, the licensee, owner, or custodian of the food or premises shall be promptly notified in writing and the temporary order shall terminate upon his or her receipt of the written notice.

(c) If the analysis or examination shows that the food, construction, sanitary condition, operation or method of operation of the premises or equipment constitutes an immediate danger to health, the licensee, owner, or custodian shall be notified within the effective period of the temporary order issued under par. (a). Upon receipt of the notice, the temporary order remains in effect until a final decision is issued under sub. (3), and no food described in the temporary order may be sold or moved and no operation or method of operation prohibited by the order may be resumed without the approval of the department.

(3) A notice issued under sub. (2) (c) shall be accompanied by a statement which informs the licensee, owner, or custodian that he or she has a right to request a hearing in writing within 15 days after issuance of the notice. The department shall hold a hearing no later than 15 days after the department receives the written request for a hearing, unless both parties agree to a later date. A final decision shall be issued under s. 227.47 within 10 days of the conclusion of the hearing. The decision may order the destruction of food, the diversion of food to uses which do not pose a danger to health, the modification of food so that it does not create a danger to health, changes to or replacement of equipment or construction, other changes in or cessations of any operation or method of operation of the equipment or premises, or any combination of these actions necessary to remove the danger to health. The decision may order the cessation of all operations authorized by the license only if a more limited order will not remove the immediate danger to health.

(4) A proceeding under this section, or the issuance of a license for the premises after notification of procedures under this section, does not constitute a waiver by the department of its authority to rely on a violation of this subchapter, s. 97.30 or s. 97.67, or any rule promulgated under this subchapter or s. 97.30 or s. 97.67 as the basis for any subsequent suspension or revocation of the license or any other enforcement action arising out of the violation.

(5) (a) Except as provided in par. (b), any person who violates this section or an order issued under this section may be fined not more than $10,000 plus the retail value of any food moved, sold or disposed of in violation of this section or the order, or imprisoned not more than one year in the county jail, or both.

(b) Any person who does either of the following may be fined not more than $5,000 or imprisoned not more than one year in a county jail, or both:

1. Assaults, restrains, threatens, intimidates, impedes, interferes with or otherwise obstructs a department inspector,
employee or agent in the performance of his or her duties under this section.

2. Gives false information to a department inspector, employee or agent engaged in the performance of his or her duties under this section, with the intent to mislead the inspector, employee or agent.

SUBCHAPTER IV
RECREATIONAL SANITATION

97.67 RECREATIONAL LICENSES AND FEES. (1) Except as provided in sub. (1g) and s. 93.135, the department or a local health department granted agent status under s. 97.615 (2) shall issue licenses to and regulate campgrounds and camping resorts, recreational and educational camps and public swimming pools. No person or state or local government who has not been issued a license under this section may conduct, maintain, manage or operate a campground and camping resort, recreational camp and educational camp or public swimming pool, as defined by departmental rule.

(1g) A campground permit is not required for camping at county or district fairs at which 4–H Club members exhibit, for the 4 days preceding the county or district fair, the duration of the county or district fair, and the 4 days following the county or district fair.

(1m) The department or a local health department granted agent status under s. 97.615 (2) may not, without a pre-licensing inspection, grant a license to a person intending to operate a new public swimming pool, campground, or recreational or educational camp or to a person intending to be the new operator of an existing public swimming pool, campground, or recreational or educational camp.

(2) (a) A separate license is required for each campground, camping resort, recreational or educational camp, and public swimming pool. Except as provided in par. (b) or (c), no license issued under this section is transferable from one premises to another or from one person, state or local government to another.

(b) A license issued under this section may be transferred from an individual to an immediate family member, as defined in s. 97.605 (4) (a) 2., if the individual is transferring operation of the campground, camping resort, recreational or educational camp, or public swimming pool to the immediate family member.

(c) A sole proprietorship that reorganizes as a business entity, as defined in s. 179.70 (1), or a business entity that reorganizes as a sole proprietorship or a different type of business entity may transfer a license issued under this section for a campground, camping resort, recreational or educational camp, or public swimming pool to the newly formed business entity or sole proprietorship if all of the following conditions are satisfied:

1. The campground, camping resort, recreational or educational camp, or public swimming pool remains at the location for which the license was issued.

2. At least one individual who had an ownership interest in the sole proprietorship or business entity to which the license was issued has an ownership interest in the newly formed sole proprietorship or business entity.

(2m) Except as provided in s. 93.135, the initial issuance, renewal or continued validity of a license issued under this section may be conditioned upon the requirement that the licensee correct a violation of this section, rules promulgated by the department under this section or ordinances adopted under s. 97.615 (2) (g), within a period of time that is specified. If the condition is not met within the specified period of time, the license is void.

(4) Licenses issued under this section expire on June 30, except that licenses initially issued during the period beginning on April 1 and ending on June 30 expire on June 30 of the following year. Except as provided in s. 97.615 (2) (d) and (e), the department shall promulgate rules that establish, for licenses issued under this section, amounts of license fees, pre-licensing inspection fees, reinspection fees, fees for operating without a license, and late fees for untimely license renewal.

(5) No license may be issued under this section until all applicable fees have been paid. If the payment is by check or other draft drawn upon an account containing insufficient funds, the license applicant shall, within 15 days after receipt of notice from the department of the insufficiency, pay by cashier’s check or other certified draft, money order or cash the fees from the department, late fees and processing charges that are specified by rules promulgated by the department. If the license applicant fails to pay all applicable fees, late fees and the processing charges within 15 days after the applicant receives notice of the insufficiency, the license is void. In an appeal concerning voiding of a license under this subsection, the burden is on the license applicant to show that the entire applicable fees, late fees and processing charges have been paid. During any appeal process concerning payment dispute, operation of the establishment in question is considered to be operation without a license.

(5m) (a) In this subsection, “qualified health services staff” means any of the following:

1. A physician.

2. A registered nurse licensed under ch. 441.

3. A physician assistant licensed under subch. II of ch. 448.

(b) For a camp that lasts longer than 3 days, the department shall allow qualified health services staff to designate an individual at the camp to administer to a camper, or staff member, who is under 18 years of age medications brought to the camp by that camper or staff member, other than medications that a camper or staff member may carry himself or herself.

(c) If the department requires health services staff to make a record of medication administered or treatment provided to a camper or staff member, the department shall allow such records to be made and maintained electronically, if done in a system that documents each change to the health record and that does not allow previous changes to the health record to be edited or deleted.

(6) Before serving as a lifeguard at a public swimming pool or a recreational and educational camp or as an on-site health services staff member at a recreational and educational camp, an individual shall have proficiency in the use of an automated external defibrillator, as defined in s. 256.15 (1) (cr), achieved through instruction provided by an individual, organization, or institution of higher education achieved through instruction approved under s. 46.03 (38) to provide such instruction.

(7) The department may not require that a swimming pool be staffed by a lifeguard as a condition of receiving a license under this section if the swimming pool is less than 2,500 square feet, the swimming pool is located in a private club in the city of Milwaukee, and the club has a policy that prohibits a minor from using the swimming pool when not accompanied by an adult.
