local minimum wage ordinances				

Assumptions Used in Arriving at Fiscal Estimate

This bill repeals the statutes that make minimum wage a statewide concern and that prohibit a city, village, town, or county from enacting and administering an ordinance establishing a minimum wage greater than the statewide minimum wage.

If enacted, local governments may choose to explore options for development and implementation of local minimum wage ordinances, including the impact of local exceptions. At this time, the department is unable to identify how many local governments will proceed in this manner, therefore, the fiscal effect for local governments is currently indeterminate.
