Description measuring a school district's improvement for the school and school district accountability report					

Assumptions Used in Arriving at Fiscal Estimate

Under current law the Department of Public Instruction is required every year, by November 30, to publish a school and school district accountability report, commonly referred to as school and school district report cards. DPI must establish an index system and, using this index system, place each school and school district in a performance category based upon certain measures, including pupil achievement, growth in pupil achievement, and graduation rates, for the preceding school year.

This bill would require DPI, for purposes of measuring a school district's improvement, to exclude data derived from a juvenile detention facility or secured residential care center for children and youth if 50 percent or more of the pupils residing at the facility do not reside there for the entire school term.
