Description							
county conservation staff for climate change resiliency purposes and making an appropriation							

Assumptions Used in Arriving at Fiscal Estimate

The bill provides that the Soil and Water Resource Management (SWRM) program may use \$1,800,000 in 2022-2023 to fund county conservation staff who focus on climate change and climate change resiliency. Increasing the funding available to the SWRM program will have no impact on staffing at DATCP. Local governments could be allocated SWRM funds differently, but the increase in available funding will benefit most WI counties.
