CLEARINGHOUSE RULE 22-034

Comments

[NOTE: All citations to “Manual” in the comments below are to the Administrative Rules Procedures Manual, prepared by the Legislative Council Staff and the Legislative Reference Bureau, dated November 2020.]

2. Form, Style and Placement in Administrative Code

Alfaxalone is the only drug identified in the relating clause in the caption for the proposed rule, in a number of other locations in the Board’s analysis for the proposed rule, and in the title to s. CSB 2.84 in the text of the proposed rule. However, the analysis states that an additional drug, Alprazolam, was also included in the Affirmative Action Order, and Alprazolam is included in the text of the proposed rule. If the Board intended to include Alprazolam, the proposed rule should be modified to identify Alprazolam in the caption, the various locations in the analysis, and the title in the text of the proposed rule. Alternatively, if the Board did not intend to include Alprazolam, it should remove Alprazolam from the text of the proposed rule in s. CSB 2.84 and from the description of the Affirmative Action Order.
