Summary of, and comparison with, existing or proposed federal regulations: The passage of the permanent Internet Tax Freedom Act, as part of Trade Facilitation and Trade Enforcement Act of 2015 (P.L. 114–125) on February 24, 2016, prohibited states like Wisconsin, that were grandfathered in temporary versions, from imposing sales tax on internet access services by July 1, 2020. Wisconsin law was revised to reflect this federal preemption effective July 1, 2020. There is no other existing or proposed federal regulation that is intended to address the activities to be regulated by the rule.

Comparison with rules in adjacent states: The department is not aware of a similar rule in an adjacent state.

Summary of factual data and analytical methodologies: 2015 Wisconsin Act 126, 2015 Wisconsin Act 170, 2017 Wisconsin Act 17, 2017 Wisconsin Act 59, 2017 Wisconsin Act 190, 2017 Wisconsin Act 231, and 2017 Wisconsin Act 290 made numerous changes to Wisconsin's sales and use tax laws. The department has created this proposed rule order to reflect these statutory changes as well as provide needed clarification and correction as described above.

Analysis and supporting documents used to determine effect on small business: This rule makes changes to reflect current law and current department policy. This proposed rule order makes no policy or other changes having an effect on small business except for the removal of butcher shops from the list of non-manufacturers. The department recognizes that some butcher shops could qualify as manufacturers and take advantage of various sales and use tax exemptions.

Anticipated costs incurred by private sector: This proposed rule does not have a fiscal effect on the private sector.

Effect on small business: This proposed rule order may have an effect on small business, as described above.

SECTION 36. Tax 11.68 (4) (i) is repealed and recreated to read:

Tax 11.68 (4) (i) *Building materials for facilities owned by local governmental units and certain nonprofit organizations.* 1. Under s. 77.54 (9m), Stats., contractors may purchase without sales or use tax building materials that the contractor, in fulfillment of a real property construction activity, transfers to a qualifying exempt entity if the materials become part of a facility in Wisconsin that is owned by the entity.

2. The following provisions apply to the exemption under s. 77.54 (9m), Stats.:

a. "Qualifying exempt entity" means an entity described in s. 77.54 (9a) (b), (c), (d), (em), and (f), and (fc), and (9g), Stats., a technical college district, the Board of Regents of the University of Wisconsin System, an institution, as defined in s. 36.05 (9), Stats., a college campus, as defined in s. 36.05 (6m), Stats., or the University of Wisconsin-Extension.

b. "Facility" means any building, shelter, parking lot, parking garage, athletic field, athletic park, storm sewer, water supply system, or sewerage and waste water treatment facility. Facility does not include highways, streets, roads, sidewalks or paths, regardless of whether located within a facility.

Examples: 1) Materials that become a component part of the road, curb, gutters, or sidewalk are not part of a facility, such as black top, cement, and road base materials.

2) Materials that become a component part of a storm sewer facility and the materials necessary to stabilize those items are part of the storm sewer facility, such as piping, fittings,

gravel and other fill necessary to bury the storm sewer piping to protect it from the road. Any road base material used to bring the road to elevation, and the road surface itself is not part of a facility.

3) Pipes, pipe liner material, manhole structures, manhole covers, manhole liners, and manhole coatings become a component part of the storm sewer facility.

c. A Wisconsin organization described under s. 77.54 (9a) (f), Stats., shall hold a Wisconsin Certificate of Exempt Status number. A non-Wisconsin organization described under s. 77.54 (9a) (f), Stats., and a state veterans organization described in s. 77.54 (9g), Stats., are not required to hold a Wisconsin Certificate of Exempt Status number.

d. A contractor's purchase of building materials transferred to a county, city, village or town, a state governmental unit, or a federal governmental unit outside Wisconsin are not exempt.

e. A contractor's purchase of building materials transferred to a person other than a qualifying entity is exempt if the person does not use the facility for any purpose other than to transfer it to the qualifying entity.

Example: Building materials for the construction of a parking ramp that will be owned and operated by a developer prior to transfer to a municipality, does not qualify for the exemption.

f. A subcontractor's purchase of building materials is exempt if the materials are transferred to a qualifying entity and, upon completion of the facility, the materials become a part of the facility in Wisconsin that is owned by the qualifying entity, pursuant to a contract between a general contractor and the qualifying entity, and the general contractor does not use the facility for any purpose other than to transfer it to the entity.

g. The exemption applies to contracts entered into on or after January 1, 2016. The exemption does not apply to purchases of building materials after January 1, 2016, for a contract that was entered into prior to January 1, 2016, even if the change order relating to those materials was executed after January 1, 2016.

Note: The effective date is different for contracts with certain exempt qualifying entities. Contracts with certain title holding companies became effective September 1, 2017. Contracts with technical colleges, the UW System, and state veterans organization became effective July 1, 2018.

SECTION 37. Tax 11.68 (4) (j) is created to read:

Tax 11.68 (4) (j) *Electronics and Information Technology Manufacturing Zone Facilities.* Under s. 77.54 (65), Stats., owners, lessees, contractors, subcontractors, or builders may purchase without sales or use tax building materials, supplies, equipment, and landscaping services if both of the following apply:

1. The property or landscaping service is acquired solely for or used solely in, the construction or development of a facility located in an electronics and information technology manufacturing zone designated under s. 238.396 (1m), Stats.

2. The capital expenditures for the construction or development of the facility may be claimed as a credit under s. 71.07 (3wm) (bm) or 71.28 (3wm) (bm), Stats., as certified by the Wisconsin Economic Development Corporation.

SECTION 38. Tax 11.68 (7) (title) is amended to read:

Tax 11.68 (7) ~~PROPERTY PROVIDED UNDER A CONSTRUCTION CONTRACT WHICH REMAINS PERSONAL PROPERTY AND CONSTRUCTION CONTRACT EXEMPTION.~~

SECTION 39. Tax 11.68 (7) (a) is amended to read:

Tax 11.68 (7) (a) *Property which remains personal property*. Contractors shall obtain a seller's permit and report for taxation the sales price received from the sale and installation of tangible personal property and items and goods under s. 77.52 (1) (b) and (d), Stats., ~~furnished under a construction contract~~, which retains its character as personal property after installation, such as:

SECTION 40. Tax 11.68 (7) (b) is repealed and recreated to read:

(b) Construction Contract Exemption.

1. In this paragraph:

a. "Construction contract" has the meaning in s. 77.54 (60) (d) 1., Stats., and includes both fixed price contracts and time and materials contracts.

b. "Prime contractor" has the meaning given in s. 77.54 (60) (d) 2., Stats.

c. "Products" as defined in s. 77.51 (11d), Stats., includes property, goods, and services.

d. "Subcontractor" has the meaning given in s. 77.54 (60) (d) 3., Stats.

2. The sales price of products sold by a prime contractor as a part of a construction contract is not taxable if more than 90 percent of the total amount of the construction contract relates to real property construction activities. The calculation is made without regard for exemptions that may be claimed by the customer (e.g., manufacturing, farming). Change orders and additional work billed are included in this calculation. Except as provided in subd. 6., the prime contractor is the consumer of the products and shall pay tax on its purchase of the taxable products.

3. The sales price of products sold by a subcontractor to a prime contractor, or to another subcontractor for eventual sale to the prime contractor, as part of the subcontractor's construction contract is not taxable if either of the following apply:

a. The total sales price related to the subcontractor's real property construction activities is more than 90 percent of the total amount of the construction contract.

b. The subcontractor received a fully completed exemption certificate from the prime contractor, or another subcontractor, claiming that the products are sold by the prime contractor or the other subcontractor as part of a construction contract that is exempt under s. 77.54 (60), Stats.

4. a. A subcontractor is liable for tax on its purchases of materials it uses in real property construction activities.

b. Except as provided in subd. 6, a subcontractor is liable for tax on its purchase of taxable products sold as part of a construction contract in which subd. 3. a. or 3. b. applies.

5. The prime contractor shall make a determination at the start of the construction contract whether it provides the subcontractor with an exemption certificate claiming resale or the construction contract exemption in s. 77.54 (60), Stats., but not both. The prime contractor is liable for tax on its purchases of materials it uses in real property construction activities. The liability for tax on products not used in real property construction activities depends, in part, on whether the prime contractor gives an exemption certificate for its purchases, as follows:

a. If the prime contractor does not give the subcontractor an exemption certificate or gives an exemption certificate claiming resale, and the contract qualifies for exemption under s. 77.54 (60), Stats., the prime contractor is liable for tax on its purchase price of the taxable products purchased from the subcontractor.

b. If the prime contractor does not give the subcontractor an exemption certificate or gives an exemption certificate claiming the exemption under s. 77.54 (60), Stats., and the contract does

not qualify for the exemption, the prime contractor is liable for sales or use tax on the sales price of the taxable products sold. The prime contractor may collect the tax from its customer.

c. If the subcontractor receives an exemption certificate from the prime contractor claiming resale, and the prime contractor's contract qualifies for exemption under s. 77.54 (60), Stats., the subcontractor is not liable for tax on its purchase price of the materials sold as products to the prime contractor as a part of the construction contract. Rather, the prime contractor is liable for the tax on its purchase price of the taxable products and services purchased from the subcontractor.

d. If the subcontractor receives an exemption certificate from the prime contractor claiming the exemption under s. 77.54 (60), Stats., and the contract does not qualify for the exemption, the subcontractor may claim a refund of any tax paid on the purchase of materials sold as products to the prime contractor as a part of the construction contract. The claim for refund shall substantiate that the prime contractor's contract did not qualify for the construction contract exemption, that the tax on sales to the prime contractor were reported to the department by the subcontractor or the prime contractor, and that the prime contractor's purchases qualified for the resale exemption. The subcontractor may not claim a refund of tax on its purchase of materials used in real property construction activities.

e. If the subcontractor does not receive an exemption certificate from the prime contractor, the subcontractor is not liable for tax on its purchase price of materials sold as products to the prime contractor. The subcontractor's sale of taxable products and services to the prime contractor is taxable.

Examples: 1) A refrigerator and drapes are included in the construction contract to build a new house. No separate charge is made for the refrigerator and drapes, which are taxable products. Based on a reasonable allocation, the sales price of the real property construction activities is more than 90 percent of the total amount of the construction contract. Therefore, the prime contractor's sale to its customer of the refrigerator and drapes is not subject to tax. The prime contractor shall pay sales or use tax on its purchase of the refrigerator and drapes, in addition to the products consumed in the real property construction activities.

2) Landscaping services are included in a construction contract to build a building. Based on a reasonable allocation, the sales price for the construction of the building is 80 percent of the total amount of the construction contract. Since the total sales price to construct the building is not more than 90 percent of the total amount of the construction contract, the prime contractor is required to make an allocation between the taxable landscaping services and the other nontaxable charges included in the contract. The prime contractor is required to charge Wisconsin sales tax on the sales price of the landscaping services.

3) Landscaping services are included in a construction contract to build a building. Based on a reasonable allocation, the sales price for the construction of the building is 95 percent of the total amount of the construction contract. Since the total sales price to construct the building is more than 90 percent of the total amount of the construction contract, the prime contractor's sale is not taxable. The prime contractor is the consumer of the products and shall pay sales or use tax on its purchases of taxable products, including landscaping materials.

4) Same facts as Example 3, except the prime contractor hires a subcontractor to provide the landscaping services and to install a retaining wall. The prime contractor's sale is not taxable. The prime contractor may provide its subcontractor with a fully completed exemption certificate claiming the exemption under s. 77.54 (60), Stats. The subcontractor is performing real property construction activities when installing the retaining wall and providing products when performing landscaping services. The landscaping subcontractor should not charge the prime contractor tax

on its sale. The landscaping subcontractor is the consumer of the products consumed in the landscaping service and retaining wall installation as part of its construction contract with the prime contractor and shall pay sales or use tax on its purchases of taxable products, including landscaping materials.

5) Same facts as Example 4, except the prime contractor does not provide the subcontractor with an exemption certificate claiming the exemption under s. 77.54 (60), Stats. The subcontractor's sales price of the real property construction activities of the construction contract is 80 percent of the subcontractor's total contract price so the construction contract exemption does not apply to the subcontractor's contract with the prime contractor. The landscaping subcontractor is the consumer of and shall pay sales or use tax on its purchases of taxable products used in the retaining wall installation. The subcontractor is a retailer and shall charge sales tax to the prime contractor on the taxable landscaping services that make up 20 percent of the construction contract.

6) A subcontractor enters into a construction contract with a prime contractor to install a parking lot and provide landscaping. The prime contractor's contract with its customer does not meet the construction contract exemption criteria. The subcontractor is performing real property construction activities when installing the parking lot and providing products when performing landscaping services. The subcontractor's sales price of the real property construction activities of the construction contract with the prime contractor is more than 90 percent of the subcontractor's total contract price so the construction contract exemption applies to the subcontractor's contract with the prime contractor. The subcontractor does not charge the prime contractor sales tax. The subcontractor shall pay sales or use tax on its purchases of taxable products, including landscaping materials.

6. If the construction contract is entered into with an entity that is exempt from taxation under s. 77.54 (9a), Stats., the following apply:

a. The prime contractor is the consumer of all products used by the prime contractor in real property construction activities, but the prime contractor may purchase without tax, for resale, products that are sold by the prime contractor to the entity as part of the construction contract and that are not consumed by the prime contractor in real property construction activities.

b. A subcontractor of the prime contractor is the consumer of all products used by the subcontractor in real property construction activities, but the subcontractor may purchase without tax, for resale, products that are sold by the subcontractor to the prime contractor or another subcontractor, as part of the subcontractor's construction contract under subd. 3., for resale to the entity and that are not consumed by the subcontractor in real property construction activities.

SECTION 41. Tax 11.68 (9) (a) and (Example 1) are amended to read:

Tax 11.68 (9) (a) Except as provided in s. 77.54 (9m), Stats., ~~The~~ the sales tax exemption provided to governmental units and other exempt entities, such as churches and nonprofit hospitals, does not apply to building materials purchased by a contractor for use under a construction contract to alter, repair, or improve real property for the exempt entity. The sales price received from sales of these building materials to a contractor is subject to the tax if the building materials become part of real property after construction or installation.

Examples Example: 4) A contractor shall pay the tax to its supplier of tangible personal property and items, property, and goods under s. 77.52 (1) (b), (c), and (d), Stats., purchased to construct a bridge, or road, ~~or governmental building,~~ since the property, item, or good becomes a part of realty after installation.

SECTION 42. Tax 11.68 (9) (a) (Example 2) is repealed.

SECTION 43. Tax 11.68 (13) (Note 1) and (Note 2) are amended to read:

Tax 11.68 (13) **Note:** Section Tax 11.68 interprets ss. 77.51 (2), (12m) (b) 7., ~~(12t)~~, (14) (intro.), (15a) (b) 1. and 4., (15b) (b) 7., 77.52 (2) (a) 10., 11., and 20. ~~and (2m)~~, 77.53 (1), 77.54 (5) (d), (6) (am) 1., ~~4., and 5.~~, (9m), (26), (26m), (31), (41), (60), ~~and (62m)~~, ~~and (65)~~, 77.71 (3), and 77.77 (3), Stats.
