

addresses, or by written or printed statements, arguments, or briefs, delivered to each member of the legislature; provided, that before or *within five days after* delivering such statement, argument, or brief, * * * *three copies* thereof shall be * * * deposited with the secretary of state. No officer, agent, appointee, or employe, in the service of the state of Wisconsin, or of the United States, shall attempt to influence any member of the legislature to vote for or against any measure pending therein, affecting the pecuniary interests of such person, excepting in the manner authorized herein in the case of legislative counsel and legislative agents.

SECTION 2. This act shall take effect upon passage and publication.

Approved June 25, 1941.

No. 347, S.]

[Published June 28, 1941.

CHAPTER 305.

AN ACT to repeal and recreate 168.01 to 168.16 of the statutes, relating to the inspection of illuminating oils, and providing a penalty.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

SECTION 1. Sections 168.01 to 168.16 of the statutes are repealed and recreated to read:

168.01 USE OF TERMS. (1) Whenever in this chapter or elsewhere in the statutes, the terms, "supervisor of inspectors of illuminating oils," "supervisor of inspectors," and "supervisors" are used, these terms shall be understood and construed to apply to the state supervisor of oil inspectors. The term "deputy inspector of illuminating oils," "deputy inspector," "oil inspector" and "inspector" referring to the deputy inspectors of petroleum products, shall be understood and construed to apply to the duly authorized inspectors of the state oil inspection bureau engaged in the work of the inspection of petroleum products, either exclusively or as part of other duties.

(2) The term "petroleum product" shall mean gasoline and kerosene.

(3) The term "person" means any natural individual, firm,

ing to the state supervisor and to the state treasurer a full statement of the number of barrels of all products inspected, for whom inspected, the date and place of such inspection and such other information as the state supervisor and state treasurer may require.

(3) Every deputy inspector shall comply with all instructions issued by the supervisor and furnish to him full information regarding any accident or explosion that may come to his knowledge from the use of illuminating or heating oils, gasoline, benzine, naphtha, or other like products of petroleum. It shall be the duty of every inspector who shall know of the violation of any provision of this chapter to notify the district attorney of the county in which the same shall occur and to make complaint before any court of competent jurisdiction, and it shall be the duty of all district attorneys to prosecute within their respective counties all cases of offense arising under this chapter. Any inspector who shall have knowledge of any such violation and fail to enter complaint against the person so offending shall be liable to a fine not exceeding \$50 and shall be removed from his office; and in case the death of any person shall result from the explosion of a lamp or other vessel containing illuminating oil sold, used or furnished for use in violation of any of the provisions of this chapter the person selling or furnishing said oil for use shall be deemed guilty of manslaughter in the third degree. All illuminating oil manufactured or refined in this state shall be inspected, examined, and tested as herein provided before being removed from the premises of the manufacturer or refiner.

168.04 STANDARDS. (1) Gasoline sold in this state shall meet the following specifications:

- (a) An initial boiling point of not more than 131° F.
- (b) Not less than 10 per cent shall be evaporated at 167° F.
- (c) Not less than 50 per cent shall be evaporated at 284° F.
- (d) Not less than 90 per cent shall be evaporated at 392° F.
- (e) The end point shall not exceed 437° F.
- (f) Not less than 95 per cent shall be recovered.
- (g) The natural residue shall not exceed 3 per cent.
- (h) There shall be no gasoline sold within the state to the public which does not conform to the Federal Specifications

Board specification for motor gasoline VV-G-101 or the latest revision thereof.

(2) Any petroleum product designated by name or reference "kerosene" shall meet the following specifications:

(a) The flash point by means of the Tagliabue closed cup shall not be less than 115° F.

(b) The end point shall not be more than 530° F.

(c) The color shall not be darker than plus 16 Saybolt.

(3) Any petroleum product meeting the specifications set out in subsection (2) of this section shall, for the purposes of this chapter, be classified as kerosene; provided that if any product meets the flash and end point specifications given above and is darker in color than plus 16 Saybolt because of the addition of artificial coloring or of any other product of a darker color, the color specification provided above automatically becomes ineffective, and the flash and end point specifications become the sole determining factors.

168.05 INSPECTION OF PETROLEUM PRODUCTS. (1) No petroleum product imported into and received in this state or received from a manufacturer or refiner or from a marine or pipeline terminal within this state shall be unloaded from its original container, sold, offered for sale, or used until a true sample of not less than 8 ounces is taken therefrom as hereinafter provided: provided, however, that if such petroleum product has been previously inspected at the refinery, marine, or pipeline terminal the same may be unloaded, sold, offered for sale, or used. Each person so importing or receiving a petroleum product which has not been previously inspected shall notify the deputy inspector in his district of the receipt thereof, and such agent or employe shall take a sample of such petroleum product.

(2) If such petroleum product is received on a regular business day between the hours of 8 o'clock a.m. and 5 o'clock p.m., such notice shall be given forthwith upon receipt of such petroleum product. If received at any time after the hour of 5 o'clock p.m. and prior to the hour of 12 o'clock midnight, such notice shall be given on the next following regular business day between the hours of 7 o'clock a.m. and 9 o'clock a.m. If received at any time on and after 12 o'clock midnight and prior to the hour of 8 o'clock a.m. of a regular business day, such notice shall be given on the same day between the hours of 7 o'clock

a.m. and 9 o'clock a.m.: Provided, that if such petroleum product is received before the hour of 12 o'clock noon on a regular business day that falls on Saturday, such notice shall be given forthwith upon receipt of such petroleum product. If received after the hour of 12 o'clock noon on such day, such notice shall be given on the next following regular business day between the hours of 7 o'clock a.m. and 9 o'clock a.m. Provided, further that if any petroleum product is received on Sunday or any legal holiday, under the laws of this state, such notice shall be given on the next following regular business day between the hours of 7 o'clock a.m. and 9 o'clock a.m. Such notice shall set forth such information as the state supervisor may reasonably require.

(3) If the deputy inspector does not, upon proper notice, after a reasonable length of time, take such sample, the recipient of such petroleum product may, in the presence of a disinterested witness, unseal such original container and take a true sample of not less than 8 ounces of the contents thereof. Such sample shall be immediately placed in a glass bottle and sealed with seals furnished by the state supervisor. The recipient shall record upon such seal the means of conveyance, the type of container, the product name, and quantity of the contents thereof and such other information as the state supervisor may reasonably require for the proper identification of such shipment. Such sample thus taken, shall be held for delivery, upon demand, to the deputy inspector. After such sample is thus taken such petroleum product may be unloaded, sold, offered for sale, or used the same as if sampled by the deputy inspector.

(4) For the purpose of this section, the following shall constitute a reasonable length of time in which a deputy inspector shall take the sample herein required: If notice is properly given to such deputy inspector before the hour of 12:00 o'clock noon, he shall take such sample before the hour of 5:00 o'clock p.m. of the same day: Provided, however, that if such notice is properly given before the hour of 12:00 o'clock noon on a regular business day that falls on Saturday, such sample shall be taken before the hour of 12:00 o'clock noon of the next following regular business day; if notice is properly given between the hours of 12:00 o'clock noon and 5:00 o'clock p.m., such sample shall be taken before the hour of 12:00 o'clock

noon of the next following regular business day. Saturdays after the hour of 12:00 o'clock noon, Sundays and legal holidays, under the laws of this state, shall not be considered regular business days.

168.06 POWERS. (1) For the purposes of administering this chapter, the state supervisor and the deputy inspectors are authorized to take samples of gasoline, kerosene, other refined oils, fuel oils, and distillates for tests and to make inspections at any points within or without this state, and shall have power to open any original container containing gasoline, kerosene, other refined oils, fuel oils, and distillates and take a true sample of not less than 8 ounces of the contents thereof, even though such original containers may still be in the possession of a common or contract carrier, provided such opening and sampling does not unduly inconvenience or hamper the transportation of such products. After such original containers are thus opened and sampled the same shall be resealed with seals furnished by the state supervisor for such purposes. The authority conferred by this section shall be in addition to, and not in limitation of any of the provisions of section 168.05.

(2) Inspections made by the deputy inspectors shall be conducted, so far as applicable, in accordance with methods outlined in Federal Standard Stock Catalog, section IV, part 5, federal specification VV-L-791-a, as adopted October 2, 1934, or any changes, modifications, or amendments that may be made thereto.

(3) If any uninspected petroleum product is emptied or transferred into any container in which is contained any other grade of inspected petroleum product, then the entire commingling shall be deemed uninspected and a sample of such commingled petroleum product shall be taken before such commingled petroleum product is removed from such container, sold, offered for sale, or used.

(4) Notice of such commingling of any inspected petroleum product shall be given in the same manner and subject to the same conditions as notice of the receipts of petroleum product as provided in section 168.05. The sample of such commingled petroleum product shall be taken by the deputy inspector within a reasonable length of time, as defined and set forth in section 168.05, after notice. If such deputy inspector

does not take such sample within such time, the commingler shall take a true sample of not less than 8 ounces of the commingled petroleum product. The taking, sealing, and holding of such sample by the commingler shall, so far as applicable, be governed by the provisions of section 168.05 relating to the same by a person receiving a petroleum product.

168.07 INSPECTIONS; REQUIREMENTS. The deputy inspector shall inspect each sample of gasoline and kerosene and if he finds that they meet the minimum specifications herein provided, he shall issue an inspection certificate after which they may be sold or used in this state. If the deputy inspector finds that the gasoline or kerosene does not meet the minimum specifications herein provided, he shall so notify the person for whom the inspection was made and it shall be unlawful for such person or any other person to sell or use said products in this state as long as they fail to meet the minimum specifications and until they are approved by the deputy inspector.

168.08 RECORDS. The state supervisor and the deputy inspectors shall keep a record of each inspection made, showing:

- (1) Time and place of each.
- (2) Number of containers inspected.
- (3) Number of gallons contained therein.
- (4) Amount of fees thereon.
- (5) Product name of petroleum product inspected.

168.09 INSPECTION OF RECORDS. Any deputy inspector shall have authority to enter in or upon the premises of any manufacturer, vendor, dealer, or user of gasoline, kerosene, other refined oils, fuel oils, and distillates, during regular business hours to determine whether any gasoline or kerosene intended for sale or use has not been sampled and inspected in accordance with the provisions of this chapter.

168.10 ACCESS TO RECORDS. Every agent and employee of any railroad company or other transportation company and every person transporting gasoline, kerosene, other refined oils, fuel oils, and distillates, having the custody of books or records showing the shipment or receipt of gasoline, kerosene, or other refined oils, fuel oils, and distillates shall give and permit the state supervisor and the deputy inspectors free access to such books and records for the purpose of determining the amount of

gasoline and kerosene shipped and received. All clerks, bookkeepers, express agents, railroad agents or officials, employees, or common carriers, or other persons shall render the state supervisor and the deputy inspectors all information in their possession when so requested in tracing, finding, sampling, and inspecting such shipments.

168.11 IDENTIFICATION DEVICES; PENALTY. (1) All visible containers of gasoline and kerosene and all devices used for drawing such products from underground storage containers at filling stations, garages, or other places where such products are sold or offered for sale shall be marked or labeled in a conspicuous place with the name of such product. All barrels, casks, jugs, packages, or cans, in which gasoline, benzine, naphtha, and other like products are stored or delivered shall be made only of metal and painted vermilion red and have the word 'gasoline,' 'benzine,' and the name of such other like products of petroleum, plainly stenciled in English thereon, or if such gasoline, benzine, naphtha, or other like product of petroleum is sold by a dealer for immediate use in a motor vehicle, then delivery shall be from underground containers or tanks by means of a hose, through a measuring device or pump complying with the rules and regulations of the dairy and food commissioner, direct to the tank of such motor vehicle, and not from buckets or containers. No such dealer shall deliver kerosene in a barrel, cask, jug, package, or can painted or stenciled as hereinbefore provided. Every person purchasing gasoline, benzine, naphtha, or other like products of petroleum for use or sale shall procure and keep the same only in barrels, casks, jugs, packages, or cans painted and stenciled as hereinbefore provided, or if such products are used as fuel for a motor vehicle or motor boat, then in the tanks of such vehicle or boat. No person keeping for use or using kerosene shall put or keep the same in any barrel, cask, jug, package, or can painted or stenciled as hereinbefore provided. Provided, however, that in case of gasoline, benzine, and naphtha, or other like product of petroleum, being sold in bottles, cans, or packages, or any product that contains gasoline, benzine or naphtha, or other like products of which petroleum is a constituent part thereof; of not more than one quart for cleaning and similar purposes, it shall be deemed sufficient if the contents of such bottles, cans, or packages are so designated by

a label securely pasted or attached thereto with the words 'gasoline,' 'benzine' or 'naphtha,' 'unsafe when exposed to heat or fire,' printed in bright red ink in letters not less than one-fourth inch in size. Any person violating any of the provisions of this section shall be punished by a fine of not less than \$5 nor more than \$50, or by imprisonment in the county jail not to exceed 3 months, or by both such fine and imprisonment.

(2) Tank wagons with separate compartments for gasoline and kerosene shall have a red tag on the faucet from which gasoline is drawn.

(3) It shall be unlawful for any person to receive, unload, use, sell, or offer for sale in this state, any gasoline, kerosene, other refined oils, fuel oils, and distillates which he knows or reasonably should know, is misnamed upon the accompanying bill of lading or waybill.

168.12 FEES FOR OIL INSPECTION. (1) Every deputy inspector shall demand and receive from the owner or other person for whom he shall inspect any gasoline and kerosene an inspection fee of $1\frac{1}{2}$ cents for each 50 gallons from which the sample was taken. Within 15 days after the close of each fiscal year, the supervisor of inspectors shall determine what the cost of inspection has been for the preceding fiscal year, and shall divide that cost by the gallons inspected. If the cost so calculated is less than $1\frac{1}{2}$ cents for each 50 gallons he shall so publicly certify and shall fix the nearest one-half cent above such calculated cost as the fee to be charged for such inspection fees during the then current fiscal year and for the 30 days next succeeding. He shall publish by one publication in the official state paper a certificate as to the previous cost and the fee so fixed to be charged for such service during the ensuing fiscal year and for 30 days thereafter. From 30 days after the close of the preceding fiscal year until 30 days after the close of the then current fiscal year the said certified fee shall be the fee which each deputy inspector shall demand and collect in lieu of the legal fee heretofore provided and fixed. Such fees shall be a lien on the products so inspected, and when collected shall be paid within one month after receipt into the general fund, and are appropriated therefrom for defraying the expenses incident to such inspection as provided in section 20.58.

(2) If gasoline or kerosene shall be shipped outside of the state after inspection, the person so making such shipments shall be given credit by the deputy inspector for such fees, if notice of such shipment out of the state, properly acknowledged and sworn to before a notary public is given the deputy inspector not later than the 20th day of the following month.

168.13 REQUIRED RECORDS. Every person receiving gasoline and kerosene in this state shall keep books and records of all gasoline and kerosene so received, together with bills of lading, waybills, and other pertinent documents. Such books and records and other papers and documents shall, at all times during business hours of the day, be subject to inspection by the state supervisor and deputy inspectors. Such books, records, and other papers and documents shall be preserved for not less than 2 years, unless the state supervisor, in writing, authorizes their destruction or disposal at an earlier date.

168.14 RULES AND REGULATIONS. The state supervisor is authorized to make, promulgate, and enforce such reasonable rules and regulations relating to the administration and enforcement of the provisions of this chapter as may be deemed necessary.

168.15 PENALTY. Every person who violates any provision of this chapter shall be deemed guilty of a misdemeanor, and, upon conviction thereof, shall be fined not less than \$5 nor more than \$1,000 or be imprisoned in the county jail not less than 30 days nor more than 6 months.

168.16 TITLE. This chapter may be cited as the "Oil Inspection Act."

Approved June 25, 1941.
