JOINT RESOLUTION

Opposing the proposed slaughtering of deer in this state and directing the conservation commission to carry out an adequate deer feeding program in periods of emergency.

WHEREAS, The people of Wisconsin, and particularly those citizens who are interested in the conservation of our natural resources, are gravely concerned in the matter of the alleged loss of a great part of our deer herd by reason of starvation during the past several winters and are further dissatisfied with, and skeptical of, the findings and competency of testimony offered by proponents of the one-deer proposals; and

WHEREAS, The 1943 legislature, mindful of this problem and fully aware of the importance of maintaining a maximum number of deer in the state not only for the hunters but for other nature loving citizens of this country, did provide adequate means for the purpose of a feeding program to be instituted during severe winters; and

WHEREAS, The conservation department during such emergencies has adequate personnel, in the persons of wardens, rangers, and other employes, to institute and operate such a program, and to make an adequate, complete and dependable survey of the true condition; and

WHEREAS, The recreational business in this state is the state's second largest business and is jeopardized by the proposed general slaughter of its deer herd; now, therefore, be it

Resolved by the Senate, the Assembly concurring;

First: That this legislature recommends that the conservation commission adhere to and reaffirm the traditional and successful policy and law of this state governing the killing of mature male deer unless any order by the conservation commission authorizing the killing of deer of either sex is first approved by the county board of any county affected by such order, before such order becomes effective in such county; and

Second: That the wishes of the legislature as expressed in law it has enacted be met by said commission to the end that an adequate and intelligent feeding program be maintained at all times. Be it further

Resolved, That properly attested copies of this resolution be sent to each member of the conservation commission and to the acting governor.

JOINT RESOLUTION

Memorializing the President and the Congress of the United States to halt the diversion of war materials to Russia and other war-minded countries.

WHEREAS, For some time prior to Pearl Harbor, this country was eagerly and naively engaged in the sale and shipment of oil, steel and scrap iron to Japan, thereby implementing Japanese military might and enabling her to kill, maim or capture millions of citizens of America and its territories, and

WHEREAS, This country is today furnishing gasoline, fuel oil and other materials of war to Russia and other war-minded nations in a tragic parallel to pre-Pearl Harbor policy, now, therefore be it

Resolved by the Senate, the Assembly concurring, That the legislature of Wisconsin memorialize the President and the Congress of the United States to issue such orders and enact such legislation as may be necessary to halt the sale and shipment of such war materials to the war-minded nations; and be it further

Resolved, That properly attested copies of this resolution be
