**SENATE SUBSTITUTE AMENDMENT 2,  
TO SENATE BILL 52**

January 4, 2024 - Offered by Senator JACQUE.

1 **AN ACT to create** 93.36 of the statutes; **relating to:** creating a deicer applicators  
2 registration program.

---

***Analysis by the Legislative Reference Bureau***

This bill requires the Department of Agriculture, Trade and Consumer Protection to create a deicer applicators registration program and establish criteria for training individual commercial applicators in methods for snow and ice removal and deicer application that protect water quality. Under the bill, DATCP must register commercial applicators who have completed approved training and passed an exam.

The bill provides that a commercial applicator registered by DATCP and the owner of private real estate that contracts with a registered commercial applicator are not liable for damages arising from a hazard resulting from the accumulation of snow and ice on any private real estate maintained by the registered commercial applicator when the hazard is caused by snow or ice and the registered commercial applicator used methods for snow and ice removal and deicer application that are taught in training approved by DATCP.
