ACT MEMO

Prepared by: Amber Otis, Senior Staff Attorney

April 1, 2024

2023 Wisconsin Act 173
[2023 Senate Bill 175]

**Encouraged Training for Persons
Authorized to Medically Certify
Cause of Death on Death Record**

BACKGROUND

State law requires a death record to contain a medical certification, which provides the cause of death, manner of death, injury-related data, and any other medically related data that is collected as required by the state registrar at the Department of Health Services (DHS). Depending on the circumstances of the death, the medical certification may be completed and signed by a medical examiner, coroner, or physician, or one of various types of specified medical professionals with access to a decedent's medical history. Death records are registered with DHS's Office of Vital Records, which is supervised by the state registrar.

2023 WISCONSIN ACT 173

2023 Wisconsin Act 173 requires DHS to promote and encourage appropriate training for any person who is authorized to complete and sign a medical certification under state law. The act further requires DHS to compile a recommended set of training materials and resources related to medical certification of deaths, which must be accessible to any person authorized to sign a medical certification.

Effective date: March 24, 2024
