2 the statutes; **relating to:** granting credit against child or family support.

Analysis by the Legislative Reference Bureau

Under current law, in an action to revise a judgment or order with respect to child or family support the court may not give credit to the payer against support that was due prior to the commencement of the revision action for payments that were made on behalf of the child in a manner other than to the clerk of court or as otherwise provided by the court. This bill authorizes the court to grant credit against support that was due prior to the action for payments made under certain circumstances. Those circumstances are any of the following: that the parties transferred physical placement of the child without court approval and the payer directly provided for the support of the child; that the parties agree to the credit; or, if the parties do not agree to the credit, that the court finds that the payments were made in substantial compliance with the spirit and intent of the judgment or order, that the payee expressly or impliedly consented to the payments as an alternative to the payer's support obligation, that the payments were not made as gifts, that the credit would not do an injustice to the child or the payee and that service was made on the child support program designee in the county if the support is assigned to the state because of benefits received by or on behalf of the child.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
