1 **AN ACT to amend** 6.82 (2) (a); and **to repeal and recreate** 5.55 of the statutes;
2 **relating to:** certification by electors who render assistance in voting at polling
3 places.

Analysis by the Legislative Reference Bureau

Currently, if an elector declares to the presiding election official that he or she cannot read or write, or has difficulty in reading, writing or understanding English or that due to disability is unable to mark or punch a ballot or depress a button or lever on a voting machine, the elector may select any individual to assist in casting his or her vote other than the elector's employer or an agent of that employer or an officer or agent of a labor organization which represents the elector. The selected individual must certify on the back of the ballot that it was marked or punched with his or her assistance. Where voting machines are used, the selected individual makes the certification on the registration list (list of electors who are registered to vote in municipalities where voter registration is required). The election officials then enter upon the poll list (list of electors who actually vote) the word "assisted", together with the full name and address of the individual who renders assistance.

This bill deletes the requirement that an individual who renders voting assistance certify on the ballot or registration list that he or she rendered assistance. The bill does not affect absentee voting procedure.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
